

Well I have thought for a while on this one and it seems that I only have two options ~~one~~ ^{on} what to build. Grants Pass wants something built then they should make a Super Mall. Four reasons why I would choose that is to one, shops can advertise in a mall. Two, its an easy trick to get teens to go there more often. Three, shops earn more money and happy customers! Four, it keeps people coming and makes a great entertainment place.

My second idea may be weak but it should do the trick. We should make a airsoft field thats big and has enough space. Some reasons are one, most kids here in GP play air soft. Two, it is fun for partys and birthdays. Three, great practice and helps reflex. Four, it is great entertainment for the whole community.

I fully belive that my ideas will work and that im 99.99 percent correct. I also belive that Grants Pass can change and correct the mistakes that its made before. ~~Thank you for reading this and have a good day.~~

Pick one topic and the whole essay is on that one topic.
