

My trip to Seattle.

Nearly Meets

6th

I came home from school did my homework and read. After I was done reading for 30 min I went into the livingroom to watch tv with my sister. Late in the afternoon my dad came home, he looked really excited. At dinner my dad told me that we were going to Seattle to watch a Supercross race with a couple of my dad's friends from work. I ask when are we going and he said next week on Friday.

It was Thursday the day before we left for Seattle. I came home from school and I started to pack. Me and my dad put our clothes in a suitcase, then I got a Oregon duck backpack and I put my camera in it and some of my toys.

It was Friday the day I left for Seattle. I went to school until lunch and my dad picked me up and we went home to get our stuff. We waited for my Dad's friend to pick us up. He came and picked us up and we were off.

We were in Seattle late in the afternoon so we checked in at our hotel double tree suites. After we unpacked our stuff and went to eat at Acme bowl. Acme bowl was awesome I had pizza and there was an arcade. We went back and went to bed.

It was Saturday the day we go to Supercross. We got up and went to eat breakfast at the lobby. After we eat we went to the mall. It was a really big mall, it had everything in it. After we were done shopping we went to eat at Rain forest cafe. That place was awesome it had big fish tanks and a store. After

We were done eating we came back to the hotel and got our stuff and left on a bus. When we were on the bus I saw the space needle and the mariner's ballpark. When we got there we were in Quest Stadium.

We went to the pit stop and I got autographs from Andrew Stoltz, Miles Wain and Davin Vasa. When we were done we went to the suite and my dad went and got me and my Mom a shirt.

James Stewart won the final event so it was done and we went back to the hotel and went to sleep.

Today was Sunday the day we left. We got our stuff packed and left after we ate breakfast. We got home late we ate dinner and went to bed. That was the best trip ever.
