

If I had to choose I would pick a turtle because turtles don't make much noise. Turtles swim in the water so they don't make much noise. But when they swim they make bubbles.

Turtles can live on land and live in water but I would choose one that swims. When they swim they are so cute. Turtles are my favorite amphibians I like them because they are so cute.

When your having a bad day you can talk to it in your mind and say what ever you want to say. If you get a turtle I hope you enjoy it.
