Technology Curriculum Guide for Technology Literate Students

1st Grade

Educational technology is the application of technology to the teaching and learning process. In order for students to be prepared for the 21st century, Oregon schools need to provide opportunities for students to use technology skills that are applied in a variety of courses, subjects, experiences, and settings. Technologically literate students access and acquire knowledge, exchange ideas & opinions, solve problems, and create, innovate, and express themselves through the skillful use of a variety of technologies. (ODE)

Creativity and Innovation	<ul style="list-style-type: none">• Illustrate and communicate original ideas and stories using digital tools and media-rich resources
