

# High School and Beyond Planning @ South Kitsap

The High School & Beyond Plan is used to guide your high school experience and prepare you for postsecondary education or training and career. This plan reflects your assessment results, review of your high school transcript, and assess progress toward identified goals. Your plan can be revised as necessary for changing interests, goals, and needs.

## Required elements of your High School & Beyond Plan (HSB Plan)

- Identification of your **career goals** using a **career interest inventory**.
- Identification of your **educational goals**.
- A **four-year high school course plan** with an **individualized personalized pathway** that fulfills graduation requirements and aligns with your career and educational goals, with information about **dual credit** programs and the [College Bound Scholarship](#).
- By the end of 12th grade, a current **résumé or activity log**.
- If you have not met standard on your state assessments, this plan must include **interventions and academic support, additional courses, or both** that will enable you to meet the high school graduation requirements.
