INDEPENDENT AUDITORS' REPORT

To the Board Officers and Members
Susquehanna Township School District
Harrisburg, Pennsylvania

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information as of and for the year ended June 30, 2011, which collectively comprise the School District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of **Susquehanna Township School District's** management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information as of June 30, 2011, and the respective changes in financial position and cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

As described in Note 21 to the financial statements, the School District adopted the provisions of GASB Statement No. 54 *Fund Balance Reporting and Governmental Fund Type Definitions*, in 2011.

In accordance with *Government Auditing Standards*, we have also issued our report dated November 22, 2011, on our consideration of **Susquehanna Township School District's** internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance with the results of that testing, and do not provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be read in conjunction with this report in considering the results of our audit.

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 3 through 11, and the budgetary comparison information on page 50 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economical, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise **Susquehanna Township School District's** financial statements as a whole. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by the U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is not a required part of the financial statements. The schedule of expenditures of federal awards is the responsibility of management and was derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

MANAGEMENT'S DISCUSSION and ANALYSIS

Year Ended June 30, 2011

The management of **Susquehanna Township School District** is pleased to present the following discussion and analysis of the School District's financial activities for the fiscal year ended June 30, 2011. The purpose of this discussion is to provide a narrative summary of the financial position and activities of the School District in order to enhance the reader's understanding of the School District's basic financial statements.

The School District is required to present comparative financial information between the current year and the prior year in its Management's Discussion and Analysis (MD&A) as mandated by the Governmental Accounting Standards Board (GASB) Statement No. 34 Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments.

Financial Highlights

Key financial highlights for the year ended June 30, 2011, are as follows:

- The total assets of the **Susquehanna Township School District** exceeded its liabilities at June 30, 2011, by \$19.5 million (net assets). Of this amount, \$16.6 million (unrestricted net assets) may be used to meet the School District's ongoing obligations to students and residents. Total net assets increased by \$3 million, almost 19 percent from the previous fiscal year.
- Total revenues generated from all governmental activities during the 2010-2011 year increased \$2.5 million from the prior fiscal year. The primary reason for this increase is the receipt of additional federal and state funding as well as an increase in property tax millage for the 2010-2011 fiscal year. Total expenses from all governmental activities increased \$1.3 million during the same period. The primary reason for the increase in expenditures is an increase in instructional expenditures.
- Total net assets of governmental activities increased \$3 million or 19 percent from the previous fiscal year.
- The School District's food service program, the only business-type activity, reported an increase in net assets of approximately \$62 during the 2010-2011 fiscal year. Total food service revenues increased by 3 percent or \$43.8 thousand during the fiscal year. Food service expenses increased at approximately the same rate of 3 percent or \$43.5 thousand.
- As of June 30, 2011, the School District's governmental funds reported combined ending fund balances of \$14.5 million, an increase of \$.87 million in comparison with the prior year. Approximately 41 percent of total governmental fund balance is available for spending at the School District's discretion (unassigned).
- The general fund reported an unassigned fund balance on June 30, 2011, of \$3.1 million: which is 7.5 percent of budget expenditures of the 2011-2012 fiscal year. Legislation enacted by the Commonwealth of Pennsylvania requires school districts to target an unassigned general fund balance of 8.0 percent or less of budgeted expenditures for the succeeding year. Budgeted expenditures for the 2011-2012 fiscal year total \$40.8 million.

Overview of Financial Statements

These financial statements consist of three sections - Management's Discussion and Analysis (this section), the basic financial statements, and other required supplementary information.

The first two statements of the basic financial statements are school district-wide financial statements. These statements on pages 12 through 14 consist of the statement of net assets and the statement of activities. The school district-wide financial statements provide both short-term and long-term information about the School District's overall financial status.

The remaining basic financial statements consist of fund financial statements. These statements focus on individual funds of the School District and provide a more detailed presentation of the School District's operations. The governmental funds statements on pages 15 and 17 present how general School District services are financed in the short-term as well as what remains for future spending. The proprietary fund statements on pages 20 through 23 present both short-term and long-term information about the activities that the School District operates similar to a business.

The basic financial statements also include notes on pages 26 through 49 that provide a more detailed explanation of some of the information in the financial statements. Following the basic financial statements is other required supplementary information on page 50 that consists of the School District's budgetary comparison.

School District-Wide Financial Statements

The school district-wide statements report financial information about the School District as a whole using accounting methods similar to the accounting used by private-sector companies. The statement of net assets includes all of the School District's assets and liabilities utilizing the full accrual basis of accounting. The statement of activities accounts for all of the School District's revenues and expenses, regardless of when cash is received or paid.

These two school district-wide statements report the School District's net assets and changes in them. Net assets represent the difference between assets and liabilities. Net assets are one way to measure the School District's financial position, or financial health, over time. Increases or decreases in the School District's net assets are one indicator of whether its financial health is improving or deteriorating, respectively. To assess the overall health of the School District, non-financial factors must also be considered, such as changes in the School District's property tax base and the performance of the students.

School District-Wide Financial Statements (Continued)

The school district-wide financial statements of the School District are divided into two categories:

- **Governmental Activities** - All of the School District's basic services are included here, such as instruction, administration, and community services. Real estate, earned income taxes, state and federal subsidies, and grants finance most of these activities.
- **Business-Type Activities** - The School District operates a food service operation and charges fees to staff, students, and visitors to help it cover the costs of the food service operation.

Fund Financial Statements

Fund financial statements provide detailed information about the most significant funds or major funds - not the School District as a whole. Some funds are required to be reported as major funds.

- **Governmental Funds** - Most of the School District's activities are reported in governmental funds and focus on changes in financial resources, rather than upon net income determination. These funds are reported using the modified accrual basis of accounting, which measures cash and all financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the School District's operations and the services it provides. Governmental fund information helps the reader determine whether there are more or fewer financial resources that can be spent in the near future to finance the School District's programs. The relationship (or differences) between governmental activities (reported in the statement of net assets and the statement of activities) and governmental funds is reconciled in the financial statements on pages 16, 18, and 19.
- **Proprietary Funds** - These funds are used to account for the School District activities that are similar to business operations in the private sector. When the School District charges customers for services it provides, these services are generally reported in proprietary funds. The food service fund is the School District's proprietary fund and is the same as the business-type activities reported in the government-wide statements.
- **Fiduciary Funds** - The School District is the trustee or agent for individuals, private organizations, and/or governmental units as shown on page 24 and 25.

Financial Analysis of the School District as a Whole

The School District's total net assets were \$19,507,269 at June 30, 2011, which includes \$19,271,713 in governmental activities and \$235,556 in business-type activities.

The results of this year's operations as a whole are reported in the statement of activities. Direct expenses are listed by programs, then offset by program revenues to determine net revenue (expense) and changes in net assets. General revenues, such as taxes, state subsidies, and investment earnings are then applied to determine the change in net assets. For the 2010-2011 fiscal year, the change in net assets for governmental activities was an increase of \$3,097,356, and an increase of \$62 for business-type activities, for a net total increase of \$3,097,418 as reflected in the following chart.

Direct expenses represents the actual cost of providing the services while the net cost represents the amount of cost that is not recovered through program revenues, meaning user charges, grants, and contributions. The largest source of grants and contributions is state sources, which provided \$7,032,438 for governmental activities. The net cost of services must be recovered through general revenue, primarily real estate and income taxes. Amounts not recovered will reduce funds available for future years.

Total Governmental Funds	14,514,566	13,634,641	879,925	6%

Total Governmental Funds

During 2010-2011, the total unassigned fund balance decreased by \$2,320,849 as a result of expenditures from the capital projects fund for school district-wide facility improvements.

During 2010-2011, the total capital projects and capital reserve fund balances decreased by \$1,820,849 as a result of the continued spending of capital projects money on building projects.

General Fund Budget

A general fund budget is adopted each year in accordance with the Pennsylvania School Code. The School District applies for state and federal grants each year. Certain grants may not be anticipated during the budgeting process and must be added to the budget during the fiscal year. In addition, the grants that are anticipated during the budgeting process are based on estimates. The budget must then be modified based on the actual grant award.

Capital Assets

At June 30, 2011, the School District had \$37,269,728 in governmental activities capital assets, which represents an increase of \$6,519,377. The increase was mainly due to the School District purchasing HVAC equipment that was previously funded through a lease.

Next Year's Budget and Economic Factors

	Budget 2011-2012	Budget 2010-2011	Change
Total Revenues	40,855,519	40,829,622	25,897

Net Change in Fund Balance	88,683	(970,917)	1,059,600

The new budget for 2011-2012 represents a decrease in total expenditures of 2%. This decrease is largely due to a decrease in personnel, restructuring agreement with Harrisburg Area Community College and refinanced bonds. The 2011-2012 budgeted revenue does not contain a real estate tax increase.

There are no changes to economic factors that are expected to have a significant impact on our 2011-2012 budget.

 RECONCILIATION of the GOVERNMENTAL FUNDS BALANCE SHEET
 to the STATEMENT of NET ASSETS
 June 30, 2011

Total Fund Balances - Governmental Funds \$ 14,514,566

Amounts reported for governmental activities in the statement of net assets are different because:

Capital assets used in governmental activities are not current financial resources and, therefore, are not reported as assets in governmental funds. The cost of assets is \$52,334,758 and the accumulated depreciation is \$15,065,030. 37,269,728

Property taxes and personal taxes receivable are available for collection this year, but are not available soon enough to pay for the current period's expenditures and, therefore, are deferred in the funds. 3,331,697

Long-term liabilities, including bonds payable, are not due and payable in the current period and, therefore, are not reported as liabilities in the funds. Long-term liabilities at year end consist of:

Bonds Payable	(34,780,000)
Accrued Interest on Long-Term Debt	(158,803)
Bond Issue Costs, net of Amortization	273,074
Bond Discount, net of Amortization	70,779

RECONCILIATION of the GOVERNMENTAL FUNDS STATEMENT of REVENUES, EXPENDITURES, and CHANGES in FUND BALANCES to the STATEMENT of ACTIVITIES Year Ended June 30, 2011

Net changes in fund balances - total governmental funds \$ 879,925

Amounts reported for governmental activities in the statement of activities are different because:

Capital outlays are reported in governmental funds as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. The amount by which depreciation exceeds capital outlays in the period is as follows:

Remaining Basis of Capital Assets Retired	(43,056)	
Depreciation Expense	(1,416,823)	
Capital Outlays	<u>7,979,256</u>	6,519,377

Because some taxes will not be collected for several months after the School District's fiscal year ends, they are not considered available revenues in the governmental funds. Deferred tax revenues increased (decreased) by this amount this year:

Real Estate Taxes	147,572	
Personal Taxes	<u>424,676</u>	572,248

The issuance of long-term obligations (e.g., bonds, leases, loans) provides current financial resources to governmental funds, while the repayment of the principal of long-term obligations consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. Also, governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term obligations and related items.

(6,104,257)

Repayment of bond principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net assets.

1,480,000

In the statement of activities, interest is accrued on outstanding bonds, whereas in the governmental funds, an interest expenditure is reported when due.

RECONCILIATION of the GOVERNMENTAL FUNDS STATEMENT of
REVENUES, EXPENDITURES, and CHANGES in FUND BALANCES
to the STATEMENT of ACTIVITIES
(Continued)
Year Ended June 30, 2011

In the statement of activities, certain operating expenses (e.g., compensated absences) are measured by the amounts earned during the year. In the governmental funds, however, expenditures for these items are measured by the amount of financial resources used. This amount represents the difference between the amount earned versus the amount used.

\$ (33,643)

The accrued postemployment benefit is recorded as a liability in the government-wide financial statements but not in the fund financial statements. This amount represents the change in the accrued postemployment benefit for the year.

(124,775)

In the statement of activities, certain operating expenses (e.g., supplemental pension obligations) are measured by the amounts earned during the year. In the governmental funds, however, expenditures for these items are measured by the amount of financial resources used. This amount represents the difference between the amount earned versus the amount used.

Susquehanna Township School District

NOTES to FINANCIAL STATEMENTS

NOTE 1 - SUMMARY of SIGNIFICANT ACCOUNTING POLICIES

Susquehanna Township School District, located in Dauphin County, Pennsylvania, provides a full range of educational services appropriate to grade levels kindergarten through twelfth to students living in the Dauphin County municipality of Susquehanna Township. These include regular, advanced academic, and vocational education programs, and special education programs for gifted and special needs children. The governing body of the School District is a board of nine school directors who are each elected for a four-year term. The daily operation and management of the School District is carried out by the administrative staff of the School District, headed by the Superintendent of Schools who is appointed by the Board of School Directors. The School District is comprised of three elementary schools, one middle school, and one high school, serving approximately 2,915 students.

The accounting policies of **Susquehanna Township School District** conform with accounting principles generally accepted in the United States of America as applicable to governmental units. The Governmental Accounting Standards Board (GASB) is the authoritative standard-setting body for the establishment of governmental accounting and financial reporting principles. The more significant of these accounting policies are as follows:

Reporting Entity

Consistent with guidance contained in Statement No. 14 of the Governmental Accounting Standards Board (GASB), *The Financial Reporting Entity*, the criteria used by the School District to evaluate the possible inclusion of related entities (authorities, boards, councils, and so forth) within its reporting entity are financial accountability and the nature and significance of the relationship. In determining financial accountability in a given case, the School District reviews the applicability of the following criteria:

The School District is financially accountable for:

1. Organizations that make up its legal entity.
2. Legally separate organizations if School District officials appoint a voting majority of the organization's governing body and the School District is able to impose its will on the organization or if there is a potential for the organization to provide specific financial benefits to, or impose specific burdens on, the School District as defined below.

Impose its Will - If the School District can significantly influence the programs, projects, or activities of, or the level of services performed or provided by, the organization.

Financial Benefit or Burden - If the School District (1) is entitled to the organization's resources or (2) is legally obligated or has otherwise assumed the obligation to finance the deficits of, or provide support to, the organization or (3) is obligated in some manner for the debt of the organization.

3. Organizations which are fiscally dependent on the School District. Fiscal dependency is established if the organization is unable to adopt its own budget, levy taxes or set rates or charges, or issue bonded debt without the approval of the School District.

Based on the foregoing criteria, no additional entities are included in the accompanying general purpose financial statements.

Joint Ventures

Dauphin County Technical School

The School District is one of six member school districts of the Dauphin County Technical School (DCTS). DCTS provides vocational-technical training and education to participating students of the member districts. DCTS is controlled and governed by the Dauphin County Area Vocational-Technical School Joint Board (Vo-Tech Board) which is composed of school board members of all the member school districts. No member school district exercises specific control over the fiscal policies or operations of DCTS. The DCTS is not reported as part of the School District's reporting entity. The School District's share of annual operating costs for DCTS fluctuates, based upon the percentage of enrollment of each member school district. The School District's financial obligation to DCTS for the year ended June 30, 2011, was approximately \$1,158,085. In 2007, the DCTS entered into an agreement with the member school districts and the Vo-Tech Board to construct improvements to the School's premises and facilities. The **Susquehanna Township School District** has a financial responsibility to the DCTS for a portion of the debt obligation relating to these improvements. The balance of the School District's share of this obligation at June 30, 2011, was \$4,637,540. The School District's lease payments to the DCTS relating to this obligation totaled \$231,973 for the year ended June 30, 2011. Complete financial statements for DCTS can be obtained from the Administrative Office at 6001 Locust Lane, Harrisburg, PA 17109.

Dauphin County Area Vocational-Technical School Authority

The School District is also a member of the Dauphin County Area Vocational-Technical School Authority (Authority). In 1983, the Authority entered into an agreement with the member school districts and the Vo-Tech Board to acquire land and construct buildings to provide the facilities for the operation of DCTS. Complete financial statements for the Authority can be obtained from the Administrative Office at 6001 Locust Lane, Harrisburg, PA 17109.

Capital Area Intermediate Unit (CAIU)

The CAIU Board of Directors consists of members from the IU's constituent school districts. The CAIU Board members are school district board members who are elected by the public and are appointed to the CAIU Board by the member school district's board of directors. The CAIU Board has decision-making authority, the power to designate management, the ability to significantly influence operations, and primary accountability for fiscal matters. **Susquehanna Township School District** contracts with the CAIU for special education services for School District students. The amount paid for these services in the year ended June 30, 2011, was approximately \$1,196,911. Complete financial information for CAIU can be obtained from the Administrative Office at 55 Miller Street, P.O. Box 489, Summerdale, PA 17093.

Basis of Presentation - Fund Accounting

The accounts of the School District are organized on the basis of funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts comprising each fund's assets, liabilities, fund equity, revenues, and expenditures/expenses. Resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent.

NOTE 1 - SUMMARY of SIGNIFICANT ACCOUNTING POLICIES (Continued)

Basis of Presentation - Financial Statements

Government-Wide Financial Statements

The statement of net assets and the statement of activities display information about the School District as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. The statements distinguish between those activities of the School District that are governmental and those that are considered business-type activities.

The government-wide statements are prepared using the economic resources measurement focus. This is the same approach used in the preparation of the proprietary fund financial statements but differs from the manner in which governmental fund financial statements are prepared. Governmental fund financial statements therefore include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

The government-wide statement of activities presents direct expenses and program revenues for each function or program of the School District's governmental activities. Direct expenses are those that are specifically associated with a service, program, or department and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues which are not classified as program revenues are presented as general revenues of the School District, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the School District.

Fund Financial Statements

Fund financial statements are provided for governmental, proprietary, and fiduciary funds. Major individual governmental and enterprise funds are reported in separate columns with composite columns for nonmajor funds. Fiduciary funds are reported by fund type.

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental fund types are accounted for using a flow of current financial resources measurement focus. The financial statements for governmental funds are a balance sheet, which generally includes only current assets and current liabilities, and a statement of revenues, expenditures, and changes in fund balances, which reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources.

All proprietary fund types are accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets and all liabilities associated with the operation of these funds are included on the statement of net assets. The statement of changes in fund net assets presents increases (i.e., revenues) and decreases (i.e., expenses) in net assets. The statement of cash flows provides information about how the School District finances and meets the cash flow needs of its proprietary activities.

Fiduciary funds are reported using the economic resources measurement focus.

Fund Financial Statements (Continued)

The School District reports the following major governmental funds:

General Fund - The general fund is the principal operating fund of the School District. It is used to account for all financial resources not accounted for and reported in another fund.

Capital Projects Fund - This fund is used to account for financial resources related to fixed asset acquisitions, construction, and improvements.

The School District reports the following nonmajor governmental fund:

Debt Service Fund - This fund is used to account for and report financial resources that are restricted, committed, or assigned to expenditure for principal and interest.

The School District reports the following proprietary fund:

Food Service Fund - This fund accounts for the revenues, food purchases, and other costs and expenses of providing meals to students during the school year.

The School District accounts for assets held by the School District in a trustee capacity in a private purpose trust fund. This fund accounts for the receipts and disbursement of monies contributed to the School District for scholarships and memorials.

The agency funds are used to account for assets held by the School District as agent for others. Agency funds are custodial in nature and do not involve measurement of results of operations. These funds include the student activities and payroll fund.

Basis of Accounting

Basis of accounting represents the methodology utilized in the recognition of revenues and expenditures or expenses reported in the financial statements. The accounting and reporting treatment applied to a fund is determined by its measurement focus.

Government-wide, proprietary, and fiduciary fund financial statements measure and report all assets, liabilities, revenues, expenses, gains, and losses using the economic resources measurement focus and accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

The modified accrual basis of accounting is followed by the governmental funds. Under the modified accrual basis of accounting, revenues are recorded when susceptible to accrual, i.e., both measurable and available. The term "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period, which for the School District is considered to be 60 days after fiscal year end. Expenditures are recognized in the accounting period in which the fund liability is incurred, if measurable, except debt service and compensated absence payments which are recognized when due.

Susquehanna Township School District

NOTES to FINANCIAL STATEMENTS

(Continued)

NOTE 1 - SUMMARY of SIGNIFICANT ACCOUNTING POLICIES (Continued)

Basis of Accounting (Continued)

Under the modified accrual basis, the following revenue sources are considered susceptible to accrual at year end: property taxes, tuition, grants and entitlements, student fees, and interest on investments.

Current property taxes measurable at June 30, 2011, which are not intended to finance fiscal 2011 operations, have been recorded as deferred revenues. Delinquent property taxes measurable and available (received within 60 days) are recognized as revenue at year end.

The accrual basis of accounting is utilized for reporting purposes by the government-wide financial statements, proprietary funds, and the fiduciary funds. Revenues are recognized when they are earned and expenses are recognized when incurred.

Pursuant to GASB Statement No. 20, *Accounting and Financial Reporting for Proprietary Funds and Other Governmental Entities that Use Proprietary Fund Accounting*, the School District follows GASB guidance as applicable to proprietary funds and FASB Statements and Interpretations, Accounting Principles Board Opinions and Accounting Research Bulletins issued on or before November 30, 1989, that do not conflict with or contradict GASB pronouncements.

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place.

Nonexchange transactions, in which the School District receives value without directly giving equal value in return, include property taxes, grants, entitlements, and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted, matching requirements, in which the School District must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the School District on a reimbursement basis. On a modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with the fund's principal ongoing operations. The principal operating revenues of the School District's food service fund and catering fund are charges to students and staff for food. Operating expenses include the costs to provide food. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

When amounts are available in multiple fund balance classifications, it is the School District's policy to use funds in the following order: restricted, committed, assigned and unassigned.

Cash and Cash Equivalents

Cash and cash equivalents include cash on hand amounts in demand and interest-bearing bank deposits.

Susquehanna Township School District

NOTES to FINANCIAL STATEMENTS

NOTE 1 - SUMMARY of SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investments

Investments are recorded at market value.

Taxes Receivable and Deferred Tax Revenues

The portion of delinquent real estate taxes receivable that is expected to be received within 60 days of June 30 is recorded as revenue in the current year. The remaining amount of those and other taxes receivable is recorded as deferred tax revenues.

Inventories

There is no inventory recorded in the general fund. Items such as office supplies and cleaning materials are expensed as incurred.

Inventories in the food service fund represent the cost using the first-in/first-out (FIFO) method of food and supplies on hand at June 30, 2011. Any unused commodities donated by the federal government at June 30, 2011, were reported as deferred revenue since title does not pass to the School District until the commodities are used.

Capital Assets and Depreciation

The School District's property, plant, and equipment with useful lives of more than one year are stated at historical cost (or estimated historical cost) and comprehensively reported in the government-wide financial statements. Proprietary fund capital assets are also reported in their fund financial statements. Donated assets are stated at fair value on the date donated. The School District generally capitalizes assets with a cost of \$5,000 or more as purchases and construction outlays occur. The costs of normal maintenance and repairs that do not add to the asset value or materially extend useful lives are not capitalized. Capital assets are depreciated using the straight-line method. When capital assets are disposed of, the cost and applicable accumulated depreciation are removed from the respective accounts and the resulting gain or loss is recorded in operations. Estimated historical costs of capital assets were derived, when information supporting historical costs was not obtainable, by adjusting current replacement cost back to the estimated year of acquisition. Estimated useful lives, in years, for depreciable assets are generally as follows:

Buildings	50 Years
Building Improvements	25 Years
Land Improvements	20 Years
Furniture and Equipment	5 - 20 Years
Vehicles	5 - 10 Years
Library Books	10 Years

Long-Term Obligations

In the government-wide financial statements and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities or proprietary fund type statement of net assets. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the effective interest method.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

NOTE 1 - SUMMARY of SIGNIFICANT ACCOUNTING POLICIES (Continued)

Compensated Absences

The School District accrues unused sick leave and personal days as a liability. Upon termination or retirement, the employee will be paid for these accumulated absences in accordance with School District policy.

For governmental funds, that portion of unpaid compensated absences that is expected to be paid using expendable, available resources is reported as an expenditure in the fund from which the individual earning the leave is paid, and a corresponding liability reflected.

Additional amounts are accrued for salary-related payments associated with the payment of compensated absences using the rates in effect at the balance sheet date. The School District has accrued the employer's share of social security and Medicare taxes.

Encumbrances

Encumbrance accounting, under which purchase orders, contracts, and other commitments for the expenditure of monies are recorded to reserve that portion of the applicable appropriation, is employed as an extension of formal budgetary integration and project control in the general fund. Encumbrances outstanding at year end are reported as reservations of fund balances because they do not constitute expenditures or liabilities. As of June 30, 2011, the School District had no encumbrances.

Pension Plan

Substantially all full-time and qualifying part-time employees of the School District participate in a cost-sharing multiple employer defined benefit pension plan. The School District recognizes annual pension expenditures or expenses equal to its contractually required contributions, subject to the modified accrual basis of accounting in governmental funds. (That is, if contributions from governmental funds are required but not made, the difference would not be reported as an expenditure until payable with expendable, available financial resources.) The School District made all required contributions for the year ended June 30, 2011, and has recognized them as expenditures and expenses in the governmental and proprietary funds, respectively.

Interfund Activity

Exchange transactions between governmental funds are eliminated on the government-wide statements.

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and after nonoperating revenues/expenses in proprietary funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements.

Fund Balance Classification

Fund balance for the governmental funds can be classified in five different categories: nonspendable, restricted, committed, assigned, and unassigned.

Nonspendable fund balance includes amounts that are not in a spendable form or are required to be maintained intact.

Restricted fund balance includes amounts that can be spent only for specific purposes stipulated by external resource providers, constitutionally, or through enabling legislation. Restrictions may be changed only with the consent of the resource providers.

Committed fund balance includes amounts that can be used only for the specific purposes determined by a formal action of the school board. Commitments may be changed only by the government taking the same formal action that imposed the constraint originally.

Assigned fund balance comprises amounts intended to be used by the government for specific purposes. Intent can be expressed by the school board, superintendent or business manager.

In governmental funds other than the general fund, assigned fund balance represents the amount that is not restricted or committed. This indicates that resources in other governmental funds are, at a minimum, intended to be used for the purpose of that fund.

Unassigned fund balance is the residual classification for the general fund and includes all amounts not contained in the other classifications. Unassigned amounts are available for any purpose.

The School District considers restricted amounts to have been spent when an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available.

The School District considers committed and assigned amounts to have been spent when an expenditure is incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Extraordinary and Special Items

Extraordinary items are transactions or events that are both unusual in nature and infrequent in occurrence. Special items are transactions or events that are within the control of the Board of Education and that are either unusual in nature or infrequent in occurrence. Neither type of transaction occurred during fiscal year 2011.

NOTE 2 - CASH and CASH EQUIVALENTS and INVESTMENTS

Under Section 440.1 of the Public School Code of 1949, as amended, the School District is permitted to invest its monies as follows:

Obligations of (a) the United States of America or any of its agencies or instrumentalities backed by the full faith and credit of the United States of America, (b) the Commonwealth of Pennsylvania or any of its agencies or instrumentalities backed by the full faith and credit of the Commonwealth, or (c) any political subdivision of the Commonwealth of Pennsylvania or any of its agencies or instrumentalities backed by the full faith and credit of the political subdivision.

Deposits in savings accounts or time deposits or share accounts of institutions insured by the Federal Deposit Insurance Corporation to the extent that such accounts are so insured and, for any amounts above the insured maximum, provided that approved collateral as provided by law is pledged by the depository.

The deposit and investment policy of the School District adheres to state statutes. There were no deposit or investment transactions during the year that were in violation of either the state statutes or the policy of the School District.

Cash and Cash Equivalents - Custodial Credit Risk

Custodial credit risk is the risk that in the event of a bank failure, the School District's deposits may not be returned to it. The School District does not have a policy for custodial credit risk, although the public school code requires that all deposits of the School District which are not insured are collateralized by the depository institution. As of June 30, 2011, \$8,224,772 of the School District's bank balance of \$8,661,665 as exposed to custodial credit risk as:

Investments

The **Susquehanna Township School District** invests in the Pennsylvania Local Government Investment Trust. The Pennsylvania Local Government Investment Trust (PLGIT) insures that it will not place deposits with any single issuing institution if the largest participants pro rata share of such deposits exceeds \$250,000, unless such deposits are collateralized as prescribed by Act 72 of the Commonwealth of Pennsylvania. PLGIT funds have the characteristics of open-end mutual funds and are not subject to credit risk classification. The fair value of the School District's position in these investment pools is equivalent to the value of the pool shares. The National Association of Securities Dealers acts as the formal external regulatory oversight for the investment pools.

As of June 30, 2011, the School District had the following investments:

Investments	Fair Value
PA Local Government Investment Trust	239,235
PA School District Liquid Asset Fund	7,723,940
PA Treasurer's Invest	<u>19,598</u>

Total Investments Per Financial Statements	7,743,538

Interest Rate Risk

The School District has a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Credit Risk

The School District has no investment policy that would limit its investment choices to certain credit ratings. As of June 30, 2011, the School District investments were rated as:

Investments	Standard & Poor's
PA Local Government Investment Trust	AAAm
PA School District Liquid Asset Fund	AAAm
PA Treasurer's Invest	AAAm

Concentration of Credit Risk

The School District places no limit on the amount the School District may invest in any one issuer. Investments that exceed 5% of the reporting unit's total investments, excluding federal government secured investments are as follows:

Governmental Activities:

Custodial Credit Risk

For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the School District will not be able to recover the value of its investments or collateral security that are in the possession of an outside party. The School District has no investment subject to custodial credit risk.

NOTE 3 - REAL ESTATE TAXES

Based upon assessments provided by Dauphin County, the elected tax collector bills and collects property taxes and remits them to the School District. The School District tax rate for the year ended June 30, 2011, was 16.43 mills (\$16.43 per \$1,000 of assessed valuations) as levied by the Board of School Directors. The schedule for real estate taxes levied for the fiscal year ended June 30, 2011, follows:

July 1	- Levy Date
July 1 - August 31	- 2% Discount Period
September 1 - October 31	- Face Payment Period
November 1 - December 31	- 10% Penalty Period
January 1	- Lien Date (Dauphin County Tax Claim Bureau)

NOTE 4 - TAXES RECEIVABLE and DEFERRED TAXES

The School District, in accordance with accounting principles generally accepted in the United States of America, recognized the delinquent and unpaid taxes receivable reduced by an allowance for uncollectible taxes. A portion of the receivable amount which was measurable and available within sixty days was recognized as revenue and the balance deferred in the fund financial statements. The balances at June 30, 2011, are as follows:

NOTE 12 - ACCRUED RETIREMENT BONUSES

Under the School District's negotiated agreement with the Susquehanna Township Education Association, professional employees of the School District who become eligible for retirement and elect to retire in that year will receive a retirement payment of \$12,000. A summary of the amount recorded as a liability for these accrued retirement bonuses is as follows for June 30, 2011:

	Governmental Activities
Estimated Accrued Retirement Benefit	312,000
Employer Social Security and Medicare Share on Above	<u>12,000</u>
	324,000

The assumption is that employees with twenty or more years of service will be more likely to retire from the School District and be eligible for retirement.

NOTE 13 - POSTEMPLOYMENT HEALTH CARE BENEFITS and LIABILITIES

Description

The School District adheres to the provisions of GASB Statement No. 45, *Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions*. In addition to the relevant disclosures within this note related to the implementation of GASB Statement No. 45, the financial statements reflect a long-term liability of \$239,594 and related expenses of \$124,775 related to postemployment health care benefits.

The School District maintains a single employer defined benefit plan to provide postretirement health care benefits to School District employees who have retired with 30 years of PSERS service or upon superannuation retirement. Such benefits are available to retiree dependents until the retired employee reaches age 65, provided the retired employee provides payment equal to the premium determined for the purpose of COBRA.

Funding Policy

The School District has elected to finance postemployment benefits on a pay-as-you-go basis. The School District recognizes expenditures for postemployment group insurance when claims are filed with the plan administrator. These financial statements assume that pay-as-you-go funding will continue.

Annual OPEB Cost and Net OPEB Obligation

The School District's annual cost for other postemployment retirement benefits (OPEB) is calculated based on the annual required contribution (ARC) of the School District, an amount actuarially determined in accordance with the parameters of GASB 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period of 30 years. The following illustrates the components of the School District's annual OPEB cost for the year, the amount actually contributed to the plan, and changes in the School District's net OPEB obligation:

Estimated Increase in Net OPEB Obligation	124,775
Net OPEB Obligation - Beginning of Year	<u>114,819</u>
Net OPEB Obligation - End of Year	239,594

The School District's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for 2011, 2010, and 2009 were as follows:

Fiscal Year Ended	Annual OPEB Cost	Percentage of Annual OPEB Cost Contributed	Net OPEB Obligation- End of Year
6/30/2011	302,003	59%	239,594
6/30/2010	135,312	61%	114,819
6/30/2009	143,114	56%	62,562

Funding Status and Funding Progress

As of March 1, 2010, the most recent actuarial valuation date, the plan was not funded. The actuarial accrued liability for benefits equaled \$1,316,818, resulting in an unfunded actuarial accrued liability (UAAL) of \$1,316,818. The covered payroll (annual payroll of active employees covered by the plan) equaled \$ 16,497,670, and the ratio of the UAAL to the covered payroll equaled 7.98%.

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about the future employment, mortality, and the health care cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future.

The School District is required to present multiple year trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits. However, because the School District maintains no plan assets, information relative to plan asset required disclosures is not applicable. Additionally, because 2008 was the year of transition for GASB Statement No. 45, requirements of GASB Statement No. 45 have been implemented prospectively.

Susquehanna Township School District

NOTES to FINANCIAL STATEMENTS

(Continued)

NOTE 13 - POSTEMPLOYMENT HEALTH CARE BENEFITS and LIABILITIES (Continued)

Actuarial Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the School District and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the School District and plan members to that point. There are no legal or contractual funding limitations that would potentially affect the projection of benefits for financial accounting purposes. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities, consistent with the long-term perspective of the calculations.

In the actuarial valuation dated March 1, 2010, the entry age normal cost method was used. Because the School District funds its OPEB on a pay-as-you-go basis, the plan has no assets (investments) legally held exclusively for paying the postretirement medical benefits. Actuarial assumptions included an interest rate of 4.5% per annum, medical inflation of 7.5% in 2010 the first year gradually decreasing by 0.5% per year to a rate of 5.5% in 2014, and gradually decreasing to an ultimate rate of 4.2% in 2099 and later.

NOTE 14 - OPERATING LEASES

Lease Rental Debt, Series of 1997, was issued by the Dauphin County Area Vocational-Technical School Authority (the Authority) to provide funds to construct improvements and renovations to the technical school. The Dauphin County Area Vocational-Technical School Joint Authority Board and six member school districts have entered into a lease agreement with the Authority and will pay its proportionate share of the lease rentals in order to fund the lease revenue bonds. Lease Rental Debt, Series of 2007 was issued by the Dauphin County Area Vocational-Technical School (DCTS) to provide funds to construct improvements and renovations to the technical school. The Dauphin County Area Vocational-Technical School Board and the six member school districts have entered into a lease agreement and will pay its proportionate share of the lease rentals in order to fund the lease revenue bonds.

Minimum future rental payments under these operating leases having remaining terms in excess of one year as of June 30, 2011, are \$4,637,540 as follows:

2012	231,618
2013	231,805

NOTE 14 - OPERATING LEASES (Continued)

On June 2, 2008, the School District entered into a \$6,539,119 lease agreement with a bank for certain equipment and improvements. The lease stated that in the event funds were not budgeted and appropriated or otherwise made available by the School District in any fiscal year for payment due under the lease for the current or succeeding fiscal year, the lease would terminate effective at the close of business on the last day of the then current year. Equipment was able to be returned with no penalty in the event that the lease terminated. On June 28, 2011 **Susquehanna Township School District** issued a bond in the amount of \$6,030,000 to purchase the equipment and improvements related to this lease and to effectively terminate the lease. The lease expense related to this terminated lease was \$430,073 for the year ended June 30, 2011.

On May 24, 2011, the School District entered into a lease agreement for computer equipment. The lease term is a three year period, beginning July 1, 2011 and ending June 30, 2014. This lease is replacing an existing three year lease that matured as of June 30, 2011. Lease expense was \$227,068 under the existing lease agreement for the year ended June 30, 2011.

Minimum future rental payments under this as of June 30, 2011, are \$686,754 as follows:

2012	228,918
2013	228,918
2014	<u>228,918</u>
	686,754

NOTE 15 - RISK MANAGEMENT

The School District maintains insurance contracts to deal with the risk of loss arising from the following events: torts; theft of, damage to, or destruction of assets; business interruptions; errors and omissions; job-related illnesses or injuries to employees; acts of God; and losses resulting from providing medical benefits to employees and their dependents. The contracts also provide employee, treasurer, and employee blanket bonds. During the year ended June 30, 2011, and the two previous fiscal years, no settlements exceeded insurance coverage.

NOTE 16 - DEFINED BENEFIT PENSION PLAN

Plan Description

The School District contributes to a governmental cost-sharing multiple-employer defined benefit pension plan administered by Pennsylvania Public School Employees' Retirement System (PSERS). Benefit provisions of the plan are established under the provisions of the Pennsylvania Public School Employees' Retirement Code (the Code) and may be amended by an act of the Pennsylvania State Legislature. The plan provides retirement, disability, and death benefits, legislatively mandated ad hoc cost-of-living adjustments, and health care insurance premium assistance to qualifying plan members and beneficiaries. It also provides for refunds of a member's accumulated contribution upon termination of a member's employment in the public school sector. PSERS issues a publicly available financial report that includes financial statements for the plan. That report may be obtained by writing to PSERS, P.O. Box 125, Harrisburg, PA 17108-0125.

NOTE 16 - DEFINED BENEFIT PENSION PLAN (Continued)

Funding Policy

The contribution policy is set by the Code and requires contributions by active employees and by participating employers. Plan members may belong to two membership classes. Class TC and Class TD are available to plan members. Active members who joined the plan before July 22, 1983, are required to contribute 5.25% of their compensation if they are in Class TC or 6.50% for Class TD. Members who joined on or after July 11, 1983, and were active or inactive as of July 1, 2001, are required to contribute 6.25% for Class TC or 7.50% for Class TD. Members who joined the plan after June 30, 2001, are automatically in Class TD and are required to contribute 7.50%. The contributions required of participating employers are based on an actuarial valuation and are expressed as a percentage of annual covered payroll during the period for which the amount is determined. For fiscal year ended June 30, 2011, the rate of employer contribution was 5.64% of covered payroll. The 5.64% rate is comprised of a pension contribution rate of 5.00% for pension benefits and 0.64% for health insurance premium assistance. The School District is required to pay the entire employer contribution rate and is reimbursed by the Commonwealth in an amount equal to the Commonwealth's share as determined by the income aid ratio (as defined in Act 29 of 1994), which is at least one-half of the total employer rate. **Susquehanna Township School District's** contributions to PSERS for the years ended June 30, 2011, 2010, and 2009, were \$1,085,547, \$855,174, and \$891,929, respectively. Those amounts are equal to the required contribution for each year.

NOTE 17 - CONTINGENCIES and COMMITMENTS

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures that may be disallowed by the grantor cannot be determined at this time, although the School District expects such amounts, if any, to be immaterial.

The School District is involved in various claims and legal actions arising in the ordinary course of business. The outcome of these matters cannot be determined at this time.

NOTE 18 - RESTRICTED NET ASSETS

Restricted net assets represent portions of fund balances that are legally segregated for a specific future use or are not appropriable for expenditure. At June 30, 2011, the School District has included the following amounts as restricted net assets:

Fiduciary Funds - Restricted for Scholarships	\$180,762
---	-----------

NOTE 19 - FUND BALANCE CLASSIFICATIONS

Restricted fund balance represents fund balances that can only be used for specific purposes stipulated by external resource providers, constitutionally, or through enabling legislation. Restrictions may be changed only with the consent of the resource providers. At June 30, 2011, the School District has the following restricted balance:

Debt Service Fund - Restricted for Debt Payments	\$3,841
--	---------

Susquehanna Township School District

NOTES to FINANCIAL STATEMENTS

(Continued)

NOTE 19 - FUND BALANCE CLASSIFICATIONS (continued)

Assigned fund balance comprises amounts intended to be used by the government for specific purposes determined by the governing body or by an official or body to which the governing body delegates the authority. At June 30, 2011, the School District has the following restricted balance:

General Fund - Assigned for Future Health Insurance Payments	2,518,460
General Fund - Assigned for future PSERS Obligation	<u>6,000,000</u>
	8,518,460

NOTE 20 - DEFEASED DEBT OUTSTANDING

In prior years, the School District has defeased various bond issues by creating separate irrevocable trust funds. New debt has been issued and the proceeds have been used to purchase U.S. Government Securities that were placed in the trust funds. The investments and fixed earnings from the investments are sufficient to fully service the defeased debt until the debt is called or matures. For financial reporting purposes, the debt has been considered defeased and, therefore, does not appear as a liability on the statement of net assets. As of June 30, 2011, the total amount of defeased debt outstanding but removed from the statement of net assets amounted to \$9,455,000.

NOTE 21 - CHANGE IN ACCOUNTING PRINCIPLE

The School District adopted Governmental Accounting Standards Board Statement No. 54, *Fund Balance Reporting and Governmental Type Definitions*, effective July 1, 2010. Financial statements issued for the capital project fund reflect an adjustment to beginning fund balance in the amount of \$3,644,066 that represents the ending fund balance for the capital reserve fund.

NOTE 22 - CHANGE IN ACCOUNTING ESTIMATE

Effective July 1, 2010, the School District implemented a revised policy for estimating the allowance for uncollectible taxes based on historical experience. This revision was implemented on a prospective basis with fiscal year June 30, 2011, being the first year of implementation. Approximate impact for governmental activities during year ended June 30, 2011, is an increase in net assets and an increase in change of net assets of \$685,217. Differences resulted primarily from changing to a tiered percentage of collectability structure based on the age of outstanding taxes receivable reflecting a higher probability of collecting more recent years' delinquent taxes and a lower probability for collecting older delinquent taxes receivable.

NOTE 23 - PRIOR PERIOD ADJUSTMENT

Net assets as of July 1, 2010 has been adjusted to correctly record the balance of accrued vacation in the amount of \$118,372. Had the liability been correctly recorded, changes in net assets would have decreased by \$118,372 for the year ended June 30, 2010.

Susquehanna Township School District
NOTES to REQUIRED SUPPLEMENTARY INFORMATION

Susquehanna Township School District follows the following procedures in establishing the budgetary data reflected in the general purpose financial statements for the general fund. The School District does not adopt a budget for the capital reserve fund:

1. Management submits to the School Board a proposed operating budget for adoption ninety days prior to the primary election for the fiscal year commencing the following July 1. The operating budget includes proposed expenditures and the means of financing them for the general fund.
2. A public hearing is conducted to obtain taxpayer comments.
3. Prior to June 30, the final budget is legally enacted through passage of a resolution.
4. Legal budgetary control is maintained by the School Board at the departmental level. Transfers between departments, whether between funds or within a fund, or revisions that alter the total revenues and expenditures of any fund, must be approved by the School Board. Budgetary information in the combined operating statements is presented at or below the legal level of budgetary control. It also includes the effects of approved budget amendments.
5. Budgetary data is included in the School District's management information system and is employed as a management control device during the year.
6. Unused appropriations lapse at the end of each fiscal year.
7. The budget for the general fund is adopted on the modified accrual basis of accounting which is consistent with accounting principles generally accepted in the United States of America.

**REPORT on INTERNAL CONTROL over FINANCIAL REPORTING and on COMPLIANCE
and OTHER MATTERS BASED on an AUDIT of FINANCIAL STATEMENTS PERFORMED in ACCORDANCE with
GOVERNMENT AUDITING STANDARDS**

To the Board Officers and Members
Susquehanna Township School District
Dauphin County, Pennsylvania

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of **Susquehanna Township School District** as of and for the year ended June 30, 2011, which collectively comprise **Susquehanna Township School District's** basic financial statements and have issued our report thereon dated November 22, 2011. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control over Financial Reporting

In planning and performing our audit, we considered **Susquehanna Township School District's** internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of **Susquehanna Township School District's** internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the **Susquehanna Township School District's** internal control over financial reporting.

Our consideration of internal control over financial reporting was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control over financial reporting that might be significant deficiencies, or material weaknesses and therefore, there can be no assurance that all deficiencies, significant deficiencies, or material weaknesses have been identified. However, as described in the accompanying schedule of findings and questioned costs, we identified certain deficiencies in internal control over financial reporting that we consider to be material weaknesses and other deficiencies that we consider to be significant deficiencies.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. We consider the deficiencies described in the accompanying schedule of findings and questioned costs as items #2011-1 and #2011-2 to be material weaknesses.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether **Susquehanna Township School District's** financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

We noted certain other matters that we reported to management of **Susquehanna Township School District** in a separate letter dated November 22, 2011.

Susquehanna Township School District's response to the findings identified in our audit is described in the accompanying schedule of findings and questioned costs. We did not audit **Susquehanna Township School District's** response and, accordingly, we express no opinion on it.

This report is intended solely for the information and use of management, the board officers and members, others within the entity, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

**INDEPENDENT AUDITORS' REPORT on COMPLIANCE with REQUIREMENTS that COULD HAVE
a DIRECT and MATERIAL EFFECT on each MAJOR PROGRAM and on INTERNAL CONTROL over
COMPLIANCE in ACCORDANCE with OMB CIRCULAR A-133**

To the Board Officers and Members
Susquehanna Township School District
Dauphin County, Pennsylvania

Compliance

We have audited **Susquehanna Township School District's** compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of **Susquehanna Township School District's** major federal programs for the year ended June 30, 2011. **Susquehanna Township School District's** major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of **Susquehanna Township School District's** management. Our responsibility is to express an opinion on **Susquehanna Township School District's** compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about **Susquehanna Township School District's** compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of **Susquehanna Township School District's** compliance with those requirements.

In our opinion, **Susquehanna Township School District** complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2011. However, the results of our auditing procedures disclosed an instance of noncompliance with those requirements, which is required to be reported in accordance with OMB Circular A-133 and which is described in the accompanying schedule of findings and questioned costs as item #2011-3.

Internal Control Over Compliance

Management of **Susquehanna Township School District** is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered **Susquehanna Township School District's** internal control over compliance with the requirements that could have a direct and material effect on a major federal program to determine the auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of **Susquehanna Township School District's** internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, we identified a certain deficiency in internal control over compliance that we consider to be a significant deficiency as described in the accompanying schedule of findings and questioned costs as item #2011-4. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Susquehanna Township School District's responses to the findings identified in our audit are described in the accompanying schedule of findings and questioned costs. We did not audit **Susquehanna Township School District's** responses and, accordingly, we express no opinion on the responses.

This report is intended solely for the information and use of management, the board officers and members, others within the entity, federal awarding agencies, and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

SCHEDULE of FINDINGS and QUESTIONED COSTS

Year Ended June 30, 2011

A. Summary of Auditors' Results

1. The auditors' report expresses an unqualified opinion on the financial statements of **Susquehanna Township School District**.
2. Two significant deficiencies relating to the audit of the financial statements are reported in the Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*. Both of the significant deficiencies are determined to be material weaknesses.
3. No instances of noncompliance material to the financial statements of **Susquehanna Township School District** were disclosed during the audit.
4. One significant deficiency relating to the audit of the major federal programs is reported in the Independent Auditors' Report on Compliance with Requirements that Could Have a Direct and Material Effect on each Major Program and on Internal Control over Compliance in Accordance with OMB Circular A-133. The significant deficiency is not determined to be a material weakness.
5. The auditors' report on compliance for the major federal award programs for **Susquehanna Township School District** expresses an unqualified opinion.
6. Audit findings relative to the major federal award programs for **Susquehanna Township School District** are reported in part C of this schedule.
7. The programs tested as major programs are: Title I Grants to Local Educational Agencies - CFDA #84.010, Special Education - Grants to States - CFDA #84.027, Title I Grants to Local Educational Agencies, Recovery Act - CFDA #84.389, Special Education - Grants to States, Recovery Act - CFDA #84.391, State Fiscal Stabilization Fund (SFSF) - Education State Grants, Recovery Act - CFDA #84.394, and Education Jobs Fund - CFDA #84.410.
8. The threshold for distinguishing type A and B programs was \$300,000.
9. **Susquehanna Township School District** was not determined to be a low-risk auditee.

B. Findings - Financial Statements Audit

Material Weaknesses

#2011-1

Adjusting Journal Entries

The School District has designated an employee responsible to oversee the adjusting cash to accrual journal entries. School District personnel have recorded year-end entries; however, there were a few adjusting entries that needed to be made for the financial statements to be prepared in conformity with generally accepted accounting principles. The School District has assumed responsibility for and evaluated the adequacy of the adjusting entries and has accepted responsibility for them.

The material audit adjustments that needed to be made to the general fund were: recording of taxes receivable and deferred revenues, state subsidies receivable and adjustment of certain payroll and benefits accruals.

The material audit adjustments that needed to be made to the capital projects fund related to accounts payable, fund balance from prior year activity and recording of capital outlay expenditures.

The material audit adjustment that needed to be made to the debt service fund related to the recording of new debt proceeds.

Recommendation: We recommend that the School District continues to develop staff competency in recording adjustments and consulting with us on an as-needed basis.

School District Response: In January 2011, the district's business office instituted a schedule of when closing entries need to be completed and subsequent review of these entries will be done by the business manager, prior to the beginning of the audit. That procedure resulted in less adjusting journal entries to be completed subsequent to the start of fieldwork for the current audit. The business office will continue to strengthen this procedure to make ALL adjusting journal entries prior to the start of field work.

#2011-2

Preparation of Financial Statements

The School District has designated an employee to be responsible for overseeing the preparation of its financial statements. Management has assumed responsibility for evaluating the adequacy and results of the financial statements and accepted responsibility for them. Management has chosen to outsource the preparation of the financial statements to their auditors because they understand that they are not experienced in preparing all of the required financial statements and the notes in conformity with accounting principles generally accepted in the United States of America.

School District Response: Several years ago when GASB 34 was introduced and additional financial statements were required, larger districts added accountants or CPAs to their staff while smaller districts with fewer resources contracted with their auditing firm to draft the statements. At this time the district is continuing the practice of hiring a third party to drafts its statements; however, the district will begin to investigate implementing systems that will create statements for the district's general ledger.

C. Findings and Questioned Costs - Major Federal Awards Programs Audit

Compliance Finding

#2011-3 - Title I Grants to Local Educational Agencies - CFDA #84.010, Grant Number 013-110425

Criteria: A local educational agency (LEA) receiving financial assistance under this federal program must provide eligible private school children and their teachers or other educational personnel with equitable services or other benefits under the program. Before an LEA makes any decision that affects the opportunity of eligible private school children, teachers, and other educational personnel to participate, the LEA must engage in timely and meaningful consultation with private school officials.

Statement of Condition: The School District did not engage in timely and meaningful consultation with officials from all of the private schools in which students living within the School District's attendance area are enrolled.

Cause and Effect: The School District did not consult with private school officials due to internal oversight resulting from turnover of LEA personnel.

Questioned Costs: None

Recommendation: Procedures should be established to ensure that the School District engages in timely and meaningful consultation with officials from all private schools in which students living within the School District's attendance area are enrolled.

School District Response: Due to turnover in the administrative staff that handles Title I grants, only those nonpublic schools that were provided services in the past were contacted. The district is in the process of developing a list of all nonpublic schools within the greater Harrisburg area. All schools on that list will be provided with communications concerning Title I services.

Significant Deficiency

#2011-4 - Title I Grants to Local Educational Agencies - CFDA #84.010

The School District did not file its consolidated application with the Pennsylvania Department of Education for the 2010-2011 school year in a timely manner due to changes in personnel in charge of the program. As a result, the School District did not receive approval to begin obligating funds until November 4, 2010.

Recommendation: Procedures should be established to ensure that the School District files its consolidated application with the Pennsylvania Department of Education in a timely manner.

School District Response: Personnel in charge of the program are aware of the application requirements and the application for the 2011-2012 school year has been filed in a timely manner.

#2010-8 Special Education - Grants to States - CFDA #84.027, Grant Period - Year Ended June 30, 2010

Statement of Condition - During our testing, we noted several instances in which fringe benefits were not calculated correctly. The base salary used to calculate amounts expensed for life insurance coverage for two employees was not the employee's actual salary, and in another case the life insurance calculation was not updated for the increase in the employee's salary, which occurred mid-year. In addition, we discovered that fringe benefit charges for half-time employees were not reduced by the amounts that those employees contributed toward coverage. We also noted that premiums for certain types of employee medical coverage increased effective October 2009, but the School District continued to use the old rates until January 2010.

Recommendation - We recommended that the School District establish procedures to allow for more frequent monitoring of fringe benefit calculations and postings.

Current Status - The School District monitored its fringe benefit calculations and postings frequently during the fiscal year ended June 30, 2011.

Corrective Action Plan

The Susquehanna Township School District respectfully submits the following corrective action plan for the audit year ending June 30, 2011.

Audit Period:	7/1/10 – 6/30/11
Oversight Agency:	U.S. Department of Education
Independent Public Accounting Firm:	Trout Ebersole and Groff, LLP, 1705 Oregon Pike, Lancaster, PA 17601

The findings from the Schedule of Findings and Questioned Costs for the year ended June 30, 2011 are discussed below. The findings are numbered consistently with the numbers assigned in the schedule:

Findings – Financial Statements Audit

Material Weaknesses

#2011-1 - Adjusting Journal Entries

The School District has designated an employee responsible to oversee the adjusting cash to accrual journal entries. School District personnel have recorded year-end entries; however, there were a few adjusting entries that needed to be made for the financial statements to be prepared in conformity with generally accepted accounting principles. The School District has assumed responsibility for and evaluated the adequacy of the adjusting entries and has accepted responsibility for them.

The material audit adjustments that needed to be made to the general fund were: state subsidies receivable and adjustment of certain payroll and benefits accruals.

The material audit adjustments that needed to be made to the capital projects fund related to accounts payable, fund balance from prior year activity and recording of capital outlay expenditures.

The material audit adjustment that needed to be made to the debt service fund related to the recording of new debt proceeds.

School District Response: In January 2011, the district's business office instituted a schedule of when closing entries need to be completed and subsequent review of these entries will be done by the business manager, prior to the beginning of the audit. That procedure resulted in less adjusting journal entries to be completed subsequent to the start of fieldwork for the current audit. The business office will continue to strengthen this procedure to make ALL adjusting journal entries prior to the start of field work.

#2011-2 - Preparation of Financial Statements

The School District has designated an employee to be responsible for overseeing the preparation of its financial statements. Management has assumed responsibility for evaluating the adequacy and results of the financial statements and accepted responsibility for them. Management has chosen to outsource the preparation of the financial statements to their auditors because they understand that they are not experienced in preparing all of the required financial statements and the notes in conformity with accounting principles generally accepted in the United States of America.

School District Response: Several years ago when GASB 34 was introduced and additional financial statements were required, larger districts added accountants or CPAs to their staff while smaller districts with fewer resources contracted with their auditing firm to draft the statements. At this time the district is continuing the practice of hiring a third party to draft its statements; however, the district will begin to investigate implementing systems that will create statements for the district's general ledger.

Findings and Questioned Costs – Major Federal Award Programs Audit

Compliance Finding

#2011-3 - Title I Grants to Local Educational Agencies - CFDA #84.010, Grant Number 013-110425

Criteria: A local educational agency (LEA) receiving financial assistance under this federal program must provide eligible private school children and their teachers or other educational personnel with equitable services or other benefits under the program. Before an LEA makes any decision that affects the opportunity of eligible private school children, teachers, and other educational personnel to participate, the LEA must engage in timely and meaningful consultation with private school officials.

Statement of Condition: The School District did not engage in timely and meaningful consultation with officials from all of the private schools in which students living within the School District's attendance area are enrolled.

Cause and Effect: The School District did not consult with private school officials due to internal oversight resulting from turnover of LEA personnel.

Questioned Costs: None

School District Response: Due to turnover in the administrative staff that handles Title I grants, only those nonpublic schools that were provided services in the past were contacted. The district is in the process of developing a list of all nonpublic schools within the greater Harrisburg area. All schools on that list will be provided with communications concerning Title I services.

Significant Deficiency

#2011-4 - Title I Grants to Local Educational Agencies - CFDA #84.010

The School District did not file its consolidated application with the Pennsylvania Department of Education for the 2010-2011 school year in a timely manner due to changes in personnel in charge of the program. As a result, the School District did not receive approval to begin obligating funds until November 4, 2010.

School District Response: Personnel in charge of the program are aware of the application requirements and the application for the 2011-2012 school year has been filed in a timely manner.

If the U.S. Department of Education has questions regarding this plan, please call Mike Frenz at (717) 657-5100.

Sincerely,

Michael Frenz
