Board Game Club

As employers are looking for employees who have soft skills which help them be successful in their careers, it is my desire to sponsor a club called "board games." Important soft skills of critical thinking, special awareness, turn taking, role-playing, and many other crucial soft skills will be learned and applied as learners participate in such game as chess, checkers, and other board games. The rules and how to play the games would be taught and reviewed prior to the playing of the board games. Tournaments will be held for chess and checkers as well as other critical thinking game. I've always been interested in art – studying fashion and drawing in high school. I enjoy it all, but it was when I was given a camera that my interest really changed. I applied and was accepted in Maine College of Art's Summer Pre-College program, which is a three-week intensive studio experience that allowed me to explore photography in a way I never could do in Harrisburg. As a shy person, it is hard for me to share my feelings, but I knew in my heart that this experience would change my life. I come alive behind a camera. The \$1,500 the alumni association awarded me to attend MECCA was life-changing. - *Jahbree Kershaw*

I am sincerely honored to have been selected as the recipient of one of the STHS Alumni Scholarships and grateful for the opportunities it will provide me. Without a doubt, this scholarship will play a key role in achieving my educational dreams. The financial burden placed on me to pursue my education will be reduced. Thank you for your continued support! - *Lexi Weikert*

Mini Grants fund and supplement innovation and technology in our schools. More than \$15,000 in the past two years have been awarded for drone technology for GIS mapping in forensic science classes, murals at the middle school, incentives to bolster positive behavior at every grade level, innovative classroom learning tools, flexible seating for special education classrooms, and iPads in classroom centers.
