

High-performing network

AchieveSM network

Lower your cost and improve health outcomes while giving employees access to the best care in your community. The Achieve large employer network lets you do this and more.

Choosing the Achieve network

Employers benefit from:

- **Lower costs.** Save up to 6 percent when you switch to the Achieve network from the Open Access network.
- **A healthy, productive workforce.** Employees will be guided to get care from quality providers.
- **Employee satisfaction.** Flexible benefit offerings allow you to easily mix and match plans and networks for a number of employee options.

Employees benefit from:

- **Access to the best care possible.** Network includes the highest-quality, lowest-cost providers in the Twin Cities and surrounding areas – no referral needed.
- **National coverage.** Travelers and dependents living outside of Minnesota and western and central Wisconsin have in-network access to a value-based network of providers - no referral needed.
- **The plan that fits them.** When you offer multiple plan or network options, employees can choose what works best for their lifestyle and budget.
- **Fast and easy online care.** Members get In-network coverage for telemedicine providers, like virtuwell® and Doctor On Demand.

Defined contribution. Use the Achieve network as a part of your strategy. Employees appreciate the choice to invest based on their needs and budget, without compromising the quality of care they receive.

Achieve is a good fit for companies that:

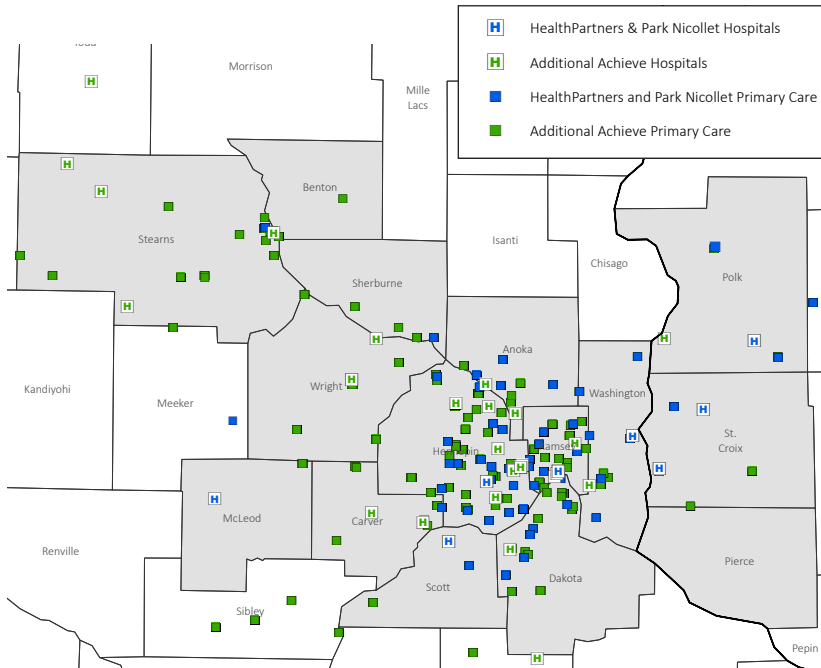

- Are headquartered in the Twin Cities metro or St. Cloud areas
- Have the majority of their employees living in the Twin Cities metro or St. Cloud areas
- Want to save money without sacrificing the quality of care their employees receive

Driving lower costs through health improvement

IBM Watson Health found HealthPartners' illness burden-adjusted Total Cost of Care to be 12% lower in Minnesota and 6% lower than other regional carriers.

Who's included in the Achieve network?

Providers in the Achieve network were selected based on their record of happier, healthier patients at a lower overall cost. We used patient surveys, claims information and overall health care data to identify the best doctors and hospitals for those living in the Twin Cities metro and St. Cloud areas.

Search the Achieve network at healthpartners.com/achieve.
