School Campus Safety Procedures Overview: South Kitsap School District has created a very brief safety video that provides an overview of our return to campus general safety guidelines. You can view this 3-minute video at: <https://vimeo.com/469979768>

Half Day Schedule This Week/Parent Conferences: This is just a reminder that students will have class only in the mornings each day this week. Parents, if you have not made an appointment for your students' conference(s) please contact the teacher or office to schedule a virtual meeting as soon as possible.

Family Assignment in Google Classroom: At Hidden Creek, we receive funds from a program called "Title I" which helps pay for academic interventions for students. One of the Title I requirements is to focus on building partnerships with students and their families. One of the assignments in Google Classroom this week is to review the compact and identify any commitments you and your child can make in partnership with your child's teacher to provide the best learning opportunities for your student this year. Thanks in advance for supporting completion of this requirement.

Return to Campus Survey for Grades 2-5: The school district has opened a survey to request information from families of students in grades 2-5 to commit to on-campus "SK Flex" learning when it is determined safe to do so based on Kitsap County Health Data, or if you would prefer for your students to remain in SK Online for the remainder of the school year. The office team will be reaching out to support families who have not completed the survey in Skyward. Thank you for helping us to determine teacher assignments once in-person learning resumes!
