

Transportation Plan

Watertown City School District (WCSD) will provide transportation for students to and from appointments with North Country Family Health Center when school is in session. Transportation will be provided from 9:00 a.m. to 10:00 a.m. A parent permission form must be on file in order for WCSD to provide transportation.

When students in grades K-6 have an appointment (scheduled or "sick" visit), the transportation provider will go into the school to pick the child up and bring the student to the bus. He will transport the student to the appointment, walking him/her into the clinic. He will either escort the student back to the bus or someone from the clinic will do so. Once the bus has returned the student to the school where he/she is in attendance, the transportation provider will escort the student to the Main Office of that school building.

When a student in grades 5-12 must travel to an appointment outside of their building but still on the main campus, students will sign out of the building and walk to the building on campus (Wiley, Case, or WHS) where they have their appointment. Upon returning to their building of attendance, they will sign back in. Parent permission must be on file for students to walk from one building to another on the main campus.

In the event that students in grades 5-12 have an appointment (scheduled or "sick" visit) and must travel off the main campus for the appointment, the transportation provider will wait in front of the school to pick up the student. He will transport the student to the appointment, walking him/her into the clinic. He will either escort the student back to the bus or someone from the clinic will do so. The bus will drop off the student at the main entrance of the school in which he or she is in attendance. It will be the student's responsibility to check in at the Main Office of Wiley Intermediate School, Case Middle School or Watertown High School.

The Watertown City School District and the North Country Family Health Center partner to offer K-12 students health and dental care. Between the hours of 9:00 a.m. and 10:00 a.m., the district is able to provide transportation to and from any appointments they may have with the health center clinics. If you wish to approve your child receiving transportation to and from these appointments (when scheduled or occurring between 9:00 and 10:00 a.m. during days school is in session), please complete the form below.

For the 2018-2019 school year, I authorize the Watertown City School District to provide my child with transportation to and from health care appointments with the North Country Family Health Center. I understand that transportation is only provided on days when school is in session and during the hours of 8:30AM-12:00PM

If my child is a Watertown High School or Case Middle School student, I authorize him/her to walk from the respective building to Wiley Intermediate School for any appointments and back, signing in and out of the building as required by administration.
