STANDARDIZED EMERGENCY MANAGEMENT SYSTEM (SEMS)

The Standardized Emergency Management System (SEMS) is a statewide California system used by police officers, firefighters and other disaster responders in disaster events. The purpose of SEMS is to aid in communication and response by providing a common communication and management system. The intent of this law is to improve the coordination of state and local emergency response in California. The law is found in Section 8607 of the government Code.

The basic framework of SEMS incorporates the use of the Incident Command System (ICS). The ICS is designed to be flexible and adaptable to meet the emergency management needs of all agencies. ICS is a management system and provides the organizational framework and acts as an umbrella under which all response agencies may function in an integrated fashion.

During an emergency the School will utilize the ICS to facilitate a coordinated response by the Site Incident Commander, the Incident Management Team and representatives from community responders. A School Incident Command Center will be utilized when necessary.

ACTIVATION OF AN INCIDENT COMMAND CENTER

An Incident Command Center will be activated when any emergency situation occurs of such magnitude that requires large commitment of resources or over an extended period of time.

INCIDENT COMMAND CENTER LOCATIONS

The command center location will be in the designated School location. Once a unified command is established with responding agencies the command center will be determined by the overall Incident Commander.

GENERAL SCHOOL BUILDING EVACUATION

Evacuation Orders:

When notified via bell signal or announcement, all persons on school grounds are expected to exit immediately. Evacuation procedures will be rehearsed. Evacuation orders will include the reason for evacuation, evacuation routes, and the evacuation destinations.

(PE, Custodians, Cafeteria staff and Library staff will be notified by phone or radio in the event of a drill or procedure taking place)

EVACUATION FROM SCHOOL BUILDINGS

Evacuation of Students and Staff From Buildings.

- Students and staff in the classroom wings/groups, will evacuate to the assign areas for the specific school. Leave stuff behind and form a single file line.
- Teachers are to take their role sheet if possible, lead students to evacuation location, and take role, account for missing students.
- Teachers should be the last one out of their classroom.
- Teachers will hold a green sign up if all students are accounted for. Red if the teacher has any students missing or any problems.
- Teachers are responsible to keep students in an orderly matter.

RESPONSE TO FIRE ALARM

Fire Drill:

A fire drill will be held each month. The fire alarm will be sounded and is a very distinct tone. Upon hearing the alarm, teachers are to evacuate the classroom on the designated path to the evacuation area, which is behind the gym on the basketball courts. Teachers are to take their roll books, turn off their lights, and check attendance when they have arrived at the designated area.

In case of a missing student, it is crucial to let administration know immediately to facilitate a search for the student who is not accounted for.

The teacher is responsible for the orderly manner in which students conduct themselves during the fire drill and in the instruction of such a drill. The “all clear” will be announced over the PA system.

In The Event of a Fire:

1. The fire alarm will be activated by personnel at the nearest fire alarm pull station, or immediate contact will be made with the school office by the school intercom system. The fire alarm will be activated from the office. See specific school site procedures.

Call 911 if safe to do so with specific details of the fire (add number).

2. Upon hearing the fire alarm, under the supervision of the teacher, students will:
 - a evacuate the classroom
 - b walk to the predetermined location
 - c wait without talking for instruction from the teacher
3. Upon hearing the fire alarm, the teacher will:
 - a secure the emergency bag and emergency list
 - b close and lock all doors and windows to the classroom (time and safety permitting)
 - c escort students from the room
 - d maintain control of students during the evacuation
 - e take roll of students once class has arrived at the pre-determined location
 - f await further direction
4. In the event that the procedure is a drill or the emergency is over, an “all clear” announcement will be broadcast.

RESPONSE TO EARTHQUAKE

During the first sign of ground shaking, or during an earthquake drill, students should demonstrate their ability to react immediately and appropriately.

Verbal announcement may be broadcast over the campus intercom system, or you'll know because you'll feel it.

If indoors, students and staff will:

1. Immediately TAKE COVER under desks or tables, and TURN AWAY from windows, shelves and heavy objects that may fall. If no cover is available, move to an interior wall.
2. Remain in sheltered position for at least 60 seconds.
 - Kneel on floor, bend head close to knees, cover sides of head with elbows, and clasp hands firmly behind neck.
3. In the library, immediately move away from windows and bookshelves, and take appropriate cover.
4. In laboratories, all burners should be extinguished (if possible), before taking cover. Stay clear of hazardous materials that may spill.
5. Don't use candles, matches, or other open flames during or after the tremor because of possible gas leaks. Douse all fires.
6. Be silent and listen to instructions from teacher.
7. The end of the drill will be announced over the intercom "Earthquake Drill"
8. Teacher decides when to evacuate and leads class as it evacuates the room. Note no alarm is sounded. Follow standard evacuation plan.

If outdoors, students and staff will:

1. Move to an open space, away from buildings and overhead power lines. The greatest danger from falling debris is just outside doorways and close to outer walls. Once in the open, lie down or crouch low to the ground. Stay until the shaking stops.
2. If in a vehicle, stop as quickly as possible, but stay in the vehicle. A car may shake violently on its springs, but it is a good place to stay until the shaking stops. Keep the vehicle away from power lines, bridges, overpasses, or buildings.

SECTION FOUR: SPECIFIC RESPONSE PLANS

RESPONSE TO EARTHQUAKE

WHAT TO EXPECT DURING AN EARTHQUAKE:

The first indication of a damaging earthquake may be a gentle shaking. You may notice the swaying of hanging plants and light fixtures, or hear objects wobbling on shelves. Or, you may be jarred first by a violent jolt (similar to a sonic boom). You may also hear a low, and perhaps very loud rumbling noise. A second or two later, you feel the shaking, and by this time you'll find it very difficult to move from one place to another.

It is important to take "quake-safe" action at the first indication of ground shaking. Don't wait until you are certain an earthquake is occurring. As the ground shaking grows stronger, dangers increase. For example:

- Free-standing bookshelves and cabinets are likely to topple. Wall mounted objects, such as clocks and artwork, may shake loose and fly across the room.
- Suspended-ceiling components may pop out, bringing light fixtures, mechanical diffusers, sprinkler heads, and other components down with them.
- Door frames may be bent by moving walls and may jam the doors shut. Moving walls may bend window frames, causing glass to shatter and sending dangerous shards into the room.

The noise that accompanies an earthquake cannot cause physical harm. However, it may cause considerable emotional stress, especially if you're not prepared to expect the noisy clamor of moving and falling objects, shattering glass, wailing fire alarms, banging doors, and creaking walls. The noise will be frightening, but a little less so if it is anticipated.

BUILDING EVACUATION PLAN:

Building evacuation following an earthquake is imperative due to the possibility of secondary hazards, such as explosions and fires. Follow evacuation plan from page 3.

Through repeated fire drills, your students have demonstrated their ability to exit the building in a quick and orderly manner. Building evacuation following an earthquake should also be quick and orderly.

To emphasize that evacuation takes place **ONLY** after ground shaking ceases, building evacuation should be practiced as an extension of classroom "drop-and-cover" drills.

"Drop-and-cover" procedures should be followed in the event of an after-shock.

To avoid crowding, try to sequentially evacuate the classrooms if possible

SECTION FOUR: SPECIFIC RESPONSE PLANS

RESPONSE TO THREAT IN NEIGHBORHOOD

Lockout

- Secure the perimeter of the school – Lock outside gates
- Students should move inside of buildings – P.E. classes should go inside the gym/multi-purpose room and any other outside activities should be moved into the classrooms.
- Take roll and account for all students
- Increase situational awareness and do business as usual.
- Bathroom visits should be done in pairs.

Potential Threat: Vicious animal, suspected rabid animal, severe winds, extreme weather, police activity in the area.

SECTION FOUR: SPECIFIC RESPONSE PLANS

RETURN TO BUILDING

In the event that students must return to their classrooms because of an emergency situation:

1. Verbal announcement will be broadcast over the campus intercom system.
2. Immediately followed by direction from responsible adults on the yard to walk to class.
3. Teachers will meet students at the exterior door and direct them to assume safety position.
4. The exterior door will be locked. The blinds will be closed. (Interior doors must be left closed but unlocked to facilitate movement out of classrooms through common rooms as necessary.)
5. With the teacher standing near the exterior door but out of the line of exterior sight, roll will be taken and all students will be accounted for.
6. Immediately commence “Lock Down” procedures. (See next page.)
7. Classes will remain silent until further direction is broadcast over the school intercom system or until contact is made with the teacher through the school phone system.

RESPONSE TO INTRUDER OR LOCKDOWN ALARM

Lockdown

To insure the safety of staff and students in the event of an intruder, or any other safety/security reason that would require a campus lockdown (shelter in place), the following plan will be instituted:

1. Call the emergency phone (#200) in the office to inform the office of the intruder and which room or area of the campus that has been compromised. Notification to the staff/students will be handled according to either, or both, of the following procedures:
2. The office will either make an announcement over the intercom initiating an intruder alert drill, at which time all teachers/staff will implement “lockdown” procedures.

Procedures:

- All teachers/staff will check outside for any students not in a classroom and bring those students into the nearest classroom.
- Please lock all classroom doors and pull the shades down on the windows. During a drill, administration will verify these actions. Students will move as far away from the window as possible.
- Teachers will account for all students present on that day. A call will be made via the phone system to each room and the teacher will respond red, green. If red, teacher will provide a list of absent or extra students.
- If a student is locked out of his/her room and is knocking on the classroom door, please allow the student entry into the classroom.

-Continued on next page-

RESPONSE TO INTRUDER OR LOCKDOWN ALARM

Lockdown

- Please make a total student count in case you have students not assigned to your class who are in your room as the result of the drill.
- Teachers in possession of current teacher cell phone lists will be asked to activate said phones. Remind teachers to turn on their cell phones.
- Teachers and Students will conduct instruction as usual, but will not leave building.
- Administration will stay in contact with PE/custodial staff via hand held radio.
- Wait for the “all clear” announcement or further instructions by the site administrators.

RESPONSE TO POTENTIALLY EXPLOSIVE DEVICES / BOMB THREAT

Should a bomb threat be received or a suspicious object be identified, law enforcement and WPUSD management are to be notified immediately. Evacuate the building or areas affected.

Bomb Threat Protocol:

- Person who receives bomb threat via phone, e-mail, etc. will utilize standard check list to obtain as much information as possible (see attached template.)
- Consult with school admin and notify LPD immediately to determine if threat is a valid one.
- Evacuate EVERYONE to designated on-site area. If threat warrants, consider off-site evacuation. (see Page 24 – list of off campus sites)
- Students SHALL leave all backpacks, purses and cell phones behind in the classroom.
- If requested by school or district admin, LPD may accompany admin or staff to conduct a JOINT search (Note: the reason behind this is that admin/staff are more equipped to determine what is suspicious or out of place, and they know the campus better.)

*** NO ONE should be permitted to touch, handle, or move the suspicious object.

BOMB THREAT CALL PROCEDURES

Most bomb threats are received by phone. Bomb threats are serious until proven otherwise. Act quickly, but remain calm and obtain information with the checklist on the reverse of this card.

If a bomb threat is received by phone:

1. Remain calm. Keep the caller on the line for as long as possible. **DO NOT HANG UP**, even if the caller does.
2. Listen carefully. Be polite and show interest.
3. Try to keep the caller talking to learn more information.
4. If possible, write a note to a colleague to call the authorities or, as soon as the caller hangs up, immediately notify them yourself.
5. If your phone has a display, copy the number and/or letters on the window display.
6. Complete the Bomb Threat Checklist (reverse side) immediately. Write down as much detail as you can remember. Try to get exact words.
7. Immediately upon termination of call, do not hang up, but from a different phone, contact FPS immediately with information and await instructions.

If a bomb threat is received by handwritten note:

Call _____

- Handle note as minimally as possible.

If a bomb threat is received by email:

- Call _____
- Do not delete the message.

Signs of a suspicious package:

- No return address
- Excessive postage
- Stains
- Strange odor
- Strange sounds
- Unexpected delivery
- Poorly handwritten
- Misspelled words
- Incorrect titles
- Foreign postage
- Restrictive notes

DO NOT:

- Use two-way radios or cellular phone; radio signals have the potential to detonate a bomb.
- Evacuate the building until police arrive and evaluate the threat.
- Activate the fire alarm.
- Touch or move a suspicious package.
-

OFF CAMPUS EVACUATION PLAN

(SEE PAGE 27 – LIST OF OFF CAMPUS SITES)

The decision to evacuate the campus will be made by the Incident Commander subsequent to evacuation of all school buildings and analysis of the threat to the health and safety of personnel.

Once all personnel are lined up at assigned locations on the school playgrounds, and all children and adults are accounted for, the order to evacuate the campus will be given. Personnel will walk via pre-designated routes, to either designated site via the walking path or alternate site.

Students will be formed into one or two columns. All personnel will move safely to the designated evacuation site. One teacher will position him/herself at the head of the column(s) while in route.

Teachers may coordinate supervision using an assigned “Buddy Classes” system. If used, students will be formed into two columns, one classroom per column. All personnel will move, two columns abreast, safely to the designated evacuation site. One teacher will position him/herself at the head of the columns, one at the rear while in route.

Once the evacuation site is reached, teachers, with assistance from other school employees, will be responsible for keeping their students together, quiet, and comfortable.

A Command Post will be established. A perimeter will be established, inside of which all students will remain. No student will be released from the perimeter unless it is to the child’s legal parent or guardian – or other adult designated by the parent or guardian on the student’s official Emergency Card.

After students and staff are safely evacuated to the designated evacuation site and law enforcement deem safe, teachers and staff will begin the reunification process. Designated staff will set up a reunification “Check In” area based on the first letter of the student’s last name. The check in station should not

Ongoing information and instructions will come from the Incident Management Team.

The Board of Trustees desires to provide a safe school environment that allows all students equal access and opportunities in the district's academic, extracurricular, and other educational support programs, services, and activities. The Board prohibits, at any district school or school activity, unlawful discrimination, including discriminatory harassment, intimidation, and bullying, targeted at any student by anyone, based on the student's actual or perceived race, color, ancestry, nationality, national origin, immigration status, ethnic group identification, ethnicity, age, religion, marital status, pregnancy, parental status, physical or mental disability, sex, sexual orientation, gender, gender identity, or gender expression, genetic information, or association with a person or group with one or more of these actual or perceived characteristics.

This policy shall apply to all acts related to school activity or to school attendance occurring within a district school, and acts which occur off campus or outside of school-related or school-sponsored activities but which may have an impact or create a hostile environment at school.

Unlawful discrimination, including discriminatory harassment, intimidation, or bullying may result from physical, verbal, nonverbal, or written conduct based on any of the categories listed above. Unlawful discrimination also includes the creation of a hostile environment through prohibited conduct that is so severe, persistent, or pervasive that it affects a student's ability to participate in or benefit from an educational program or activity; creates an intimidating, threatening, hostile, or offensive educational environment; has the effect of substantially or unreasonably interfering with a student's academic performance; or otherwise adversely affects a student's educational opportunities.

Unlawful discrimination also includes disparate treatment of students based on one of the categories above with respect to the provision of opportunities to participate in school programs or activities or the provision or receipt of educational benefits or services.

The Board also prohibits any form of retaliation against any individual who reports or participates in the reporting of unlawful discrimination, files or participates in the filing of a complaint, or investigates or participates in the investigation of a complaint or report alleging unlawful discrimination. Retaliation complaints shall be investigated and resolved in the same manner as a discrimination complaint.

The Superintendent or designee shall facilitate students' access to the educational program by publicizing the district's nondiscrimination policy and related complaint procedures to students, parents/guardians, and employees. He/she shall provide training and information on the scope and use of the policy and complaint procedures and take other measures designed to increase the school community's understanding of the requirements of law related to discrimination. The Superintendent or designee shall regularly review the implementation of the district's nondiscrimination policies and practices and, as necessary, shall take action to remove any identified barrier to student access to or participation in the district's educational program. He/she shall report his/her findings and recommendations to the Board after each review.

Student Culture and Social/Emotional Supports

The Tier I PBIS team is in year five and continues to work together with the staff to implement the program with fidelity by providing positive supports for struggling students, continually looking at behavior and academic data to tweak procedures, and continue to grow and learn as a team. We are examining data from the 2020 Healthy Kids Survey, and considering the needs of our students during COVID/school closure/distance learning.

We are working hard to provide opportunities for students to explore mindfulness and self regulation and supporting our teachers with mindfulness strategies and supports. Specifically:

- Offering professional development opportunities to participate in Mindful Schools training; we have sent cohorts through three different multi week trainings this summer and fall.
- Bringing professional development opportunities to our staff meetings - examining research related to mindfulness, bringing a renowned area OT to facilitate a 45 minute training session during a staff meeting
- Providing a mindfulness 'corner' with resources in each weekly staff newsletter
- Providing mental health supports for our staff through our district EAP program and through the district hearyou.org initiative.

The Tier II PBIS team is in place and working together to problem solve and troubleshoot academic, behavior and mental health concerns for students who are not responding to Tier I supports.

Services in place to support students with Tier II needs:

- We are partnering with Wellness Together to provide services for our students. She provides supports for students two days/week in a variety of areas. Students are referred to her and then she works with parents, teachers and the child to develop a support/therapy plan for the course of about 10 weeks. In the fall, our Wellness Together therapist is working with students 1:1 in a virtual space, and is providing whole group lessons to classrooms by teacher request
- Our psychologist Desiree St. John is doing social and emotional family information nights. She is using Love and Logic as her curriculum.
- Our psychologist is working on the development of our Colt Neighborhood. The Neighborhood is a physical space where students can reset, work on social/emotional skill development, or take a break. The Neighborhood also has a staff break room space. In 2020-21, due to COVID, our Neighborhood is working

in a digital space - providing a mindfulness portal on our website, and we are offering weekly mindfulness activities through our recorded announcements.

- Goal #1: The Tier II PBIS team will work together to evaluate the needs of students and make referrals for Tier II interventions, which may include referrals to Wellness Together
- Goal #2: The Tier I PBIS team will work together to create and establish positive behavior celebrations we can implement in the classroom setting given the restrictions of COVID.
- Goal #3: The administrators will share the Crisis Response Procedure, protocols, and resources for suicide/death postvention with teachers and staff.
- Goal #4: Our staff team will have access to training related to PBIS and/or mindfulness. Our goal is for 30% of our staff to voluntarily participate in some form of behavior intervention training (PBIS, mindfulness, AVID engagement strategies) during the year.

School Safety and Security

School safety is essential. Safety requires proactive preparation so that we are prepared in case of a true emergency. We are also continuing to build our peripheral materials that help us to monitor and quickly respond to an emergency. Specifically:

- Emergency drills are practiced throughout the school year. We practice fire drills monthly and other drill types throughout the year
- We are implementing new drill terminology throughout the district using Standard Response Protocol.
- Each teacher has been given an evacuation emergency bag that contains the necessary supplies needed should an evacuation be ordered. Our 'go bags' have been updated to include crisis response materials like CPR valves, bandages, quick clot material, etc...we provided emergency response training with our nursing staff in spring 2020, and aim to provide a refresher course this spring (virtually).
- The administrators created a shared folder with a variety of resources supporting the new Standard Response Protocol implementation. The resources were also shared with the district and other site administrators. The resources and materials are accessible on the school website and in our internal staff portal.
- We continue to build our facility surveillance by adding cameras, signage, and other safety equipment.
- We continue to learn how to implement and use the Alertus system in order to communicate with our team in case of a drill or emergency

- Goal #1: The administrators will work closely with the teachers and staff to transition to the new drill terminology so that safety drills and actual emergency procedures are clearly understood and effectively practiced.
- Goal #2: We will maintain a drill log with information about our drills and what we learn from each drill experience.
- Goal #3: The site administrators will seek and utilize input from teachers and other staff members on the implementation of the Standard Response Protocol and the variety of drills we conduct throughout the school year.
- Goal #4: The site administrators will continue to collaborate and work closely with other elementary schools to maintain a shared emergency plan using the Standard Response Protocol.
- Goal #5: The site administration will work with a grade level to run a mock evacuation drill where we actively check out students to test our systems; we will invite our SRO in to support us and to help us learn from our experience.
- Goal #6: We will work with our technology team and our PTO to identify, procure and install additional safety items to support our perimeter safety
- Goal #7: work to create pre-established communication in Parent Square that we can quickly push out in case of a drill or emergency.
