SCHEDULING FOR SCHOOL YEAR 2021-2022 IS UNDERWAY

Counselors and students have been working hard to schedule classes for next school year. Current sophomores are almost finished, and freshmen and juniors will be done by Spring Break.

IS YOUR STUDENT READY TO START THEIR COLLEGE AND CAREER SEARCH?

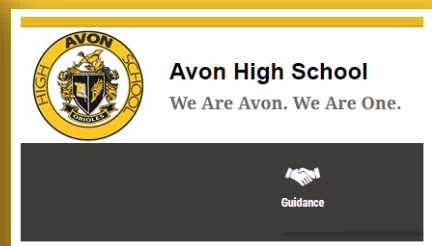

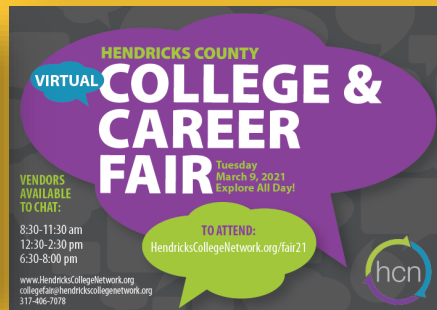

Following the simple steps below will help as you begin the search for the next steps after AHS...

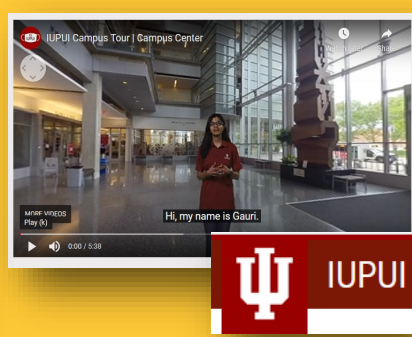

1. Have conversations about life after high school. Ask about **career interests** and **goals** and talk about the **best path** to reach those goals.

2. Meet with your student's high school **counselor**. [AHS counselors](#) have many resources available & **give great advice** on how to move forward.

3. Attend **College Fairs**. Click on the pictures below for information about the **Hendricks County College & Career Fair** next month and College Board's **BigFuture Days**. Check out our **Guidance website** for more information on College Fairs, especially this fall.

4. Make both virtual and in-person **college visits** over Spring Break and this summer... Click on the picture above to see how you can sign up to visit Purdue University.

5. **Explore colleges** online. Find out what programs are offered and what opportunities are available. Most colleges offer a "Virtual Tour" on their website. Click on the picture above to see an IUPUI Campus Tour.
