INTRODUCTION

The Comprehensive Annual Financial Report (CAFR) of Independent School District No. 270, Hopkins, Minnesota (the District) for the fiscal year ended June 30, 2017 is presented for your information and review. The CAFR is intended to fully disclose the financial position of the District and the results of operations for the fiscal year. The District administration accepts total responsibility for the accuracy, completeness, and fairness in presentation of the enclosed financial reports. Questions and comments are solicited and welcome.

REPORT FORMAT

This CAFR is presented in three main sections: introductory, financial, and statistical. In addition to the information contained in this letter, the introductory section includes the District's organizational chart, and a list of the District's principal officials. The financial section includes the independent auditor's report, Management's Discussion and Analysis (MD&A), basic financial statements, notes to basic financial statements, and detailed combining and individual statements and schedules. The statistical section includes selected financial and general information presented on a multi-year comparative basis. Where possible, historical data is presented for a 10-year period.

Accounting principles generally accepted in the United States of America require management to provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of an MD&A. This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The MD&A of the District can be found immediately following the report of the independent auditors.

DISTRICT ORGANIZATION

The Hopkins School District officially organized in 1896 and serves the city of Hopkins, most of Minnetonka, about half of Golden Valley, and portions of Eden Prairie, Edina, Plymouth, and St. Louis Park. The District is guided by its mission that reflects the loftiest goal of the school district. It is a statement of our desired future, and our identity.

Serving a community rich in culture and diversity, the Hopkins Public Schools develops in all students the skills, knowledge, and passion for lifelong learning.

The District enrolled 6,745 students from a population of over 61,613 citizens residing in a 29.5 square mile area. During 2016 - 2017 the District operated 12 buildings: 1 high school, 2 junior high schools, 6 elementary schools, 2 special services buildings and a bus depot. The District is organized by grade level with elementary schools serving students in kindergarten through Grade 6, junior highs serving Grades 7- 9, and the high school serving Grades 10-12.

Serving the communities of: Eden Prairie · Edina · Golden Valley · Hopkins ·
Minnetonka · Plymouth · St. Louis Park

An equal opportunity/affirmative action educator and employer.

REPORTING ENTITY

Independent School District No. 270, also known as Hopkins Public Schools, is an instrumentality of the State of Minnesota established to function as an educational institution. The elected School Board is responsible for legislative and fiscal control of Hopkins Public Schools. A Superintendent is appointed by the Board and is responsible for administrative control of the District.

The District's financial statements include all funds, departments, agencies, boards, commissions, and other component units for which the District is considered to be financially accountable. Component units are legally separate entities for which the District (primary government) is financially accountable, or for which the exclusion of the component unit would render the financial statements of the primary government misleading. The criteria used to determine if the primary government is financially accountable for a component unit included whether or not the primary government appoints the voting majority of the potential component unit's governing body, is able to impose its will on the potential component unit, is in a relationship of financial benefit or burden with the potential component unit, or is fiscally depended upon by the potential component unit.

Based on these criteria, there are no organizations considered to be component units of the District.

DISTRICT FISCAL FRAMEWORK

The District has been functioning under financial constraints over the past several years as a result of:

- Slightly declining enrollment;
- Insufficient increases in state funding;
- Inflationary pressures on key expenditure areas.

The District has been proactively planning for conditions affecting school funding considering:

- It is facing a continuing, short and mid-term enrollment decline;
- Present and future outlook for revenue increases is pessimistic;
- District's cost structure is tied roughly 80% to people, with building operating costs coming next.

The District has a Citizen's Financial Advisory Committee (CFAC). The purpose of the CFAC committee is to provide advice, direction, and support to the Hopkins School Board and senior administration in evaluating possible future economic conditions the district may face, developing future budget assumptions, and providing insights, when requested, as to the overall fiscal condition of the district. The committee will review the District's financial planning model and make recommendations to the School Board. This committee is accountable to the Hopkins School Board.

FINANCIAL STATEMENTS

The financial statements contained in this report disclose the financial position of the District as of June 30, 2017, and the financial operations for the fiscal year then ended. The District's financial records and reports are maintained and prepared on a modified or full accrual basis of accounting in accordance with the Uniform Financial Accounting and Reporting System for Minnesota School Districts as well as the standards of the Governmental Accounting Standards Board (GASB) and the American Institute of Certified Public Accountants. These records are audited annually by an independent certified public accountant as required by Minnesota law. The accounting firm of CliftonLarsonAllen LLP performed the audit for the 2016 - 2017 fiscal year. Their report is included in the financial section of this report. The auditor has given an unmodified opinion on the District's financial statements. An unmodified opinion means that, in the judgment of the auditor, the financial statements present fairly, in all material respects, the financial position of the District and the results of its operations for the year then ended, in conformity with accounting principles generally accepted in the United States of America.

FEDERAL SINGLE AUDIT AND STATE COMPLIANCE AUDIT

The independent audit of the financial statements of the District is part of a broader, federally mandated Single Audit designed to meet the special needs of federal grantor agencies. The standards governing Single Audit engagements require the independent auditor to report not only on the fair presentation of the financial statements, but also on the audited district's internal controls and compliance with legal requirements, with special emphasis on internal controls and legal requirements involving the administration of federal awards. The District is also required to undergo an annual Minnesota State Legal Compliance Audit under Minnesota Statute §6.65. These reports are available in a separate document.

ACCOUNTING AND BUDGETING

A major thrust of the District's accounting system is to provide adequate internal accounting controls. These controls are designed to provide reasonable, but not absolute, assurance regarding: (1) the safeguarding of assets against loss from unauthorized use or disposition, and (2) the reliability of financial records for preparing financial statements and maintaining accountability for assets. The concept of reasonable assurance recognizes that the cost of internal controls should not exceed the benefits likely to be derived, and that the evaluation of the cost and benefits requires estimates and judgments by management. All internal control evaluations occur within the above framework. We believe that the District's internal accounting controls adequately safeguard assets and provide reasonable assurance for proper recording of financial transactions.

The legal level of budgetary control is demonstrated through an annual budget adopted by the School Board for all funds as required by state statutes and School Board policy. The budget process starts with the Citizens' Financial Advisory Committee (comprised of five members of the public) suggesting potential assumptions to be used to develop the budget. The CFAC report is submitted to the Board and the School Board then determines whether to use the CFAC assumptions presented. The School Board directs administration to develop the budget based on the agreed upon parameters. The administration then presents the budget to the School Board for preliminary approval in early spring and final approval in May. The adopted budget serves as the authorizing document for all expenditures, although the School Board approves all checks issued on a monthly basis. The superintendent and director of business services are authorized to make financial commitments within budgetary guidelines up to \$50,000. Additional expenditure controls are maintained by the Business Office in accordance with state statutes, i.e., the District cannot incur a negative unassigned balance in the General Fund in excess of 2.5% of the preceding year's expenditures. The budget is published annually in the District's legal newspaper to inform residents of the District's financial position and operating plan for the fiscal year. The School Board receives a monthly report showing the budget to actual balances for revenues and expenditures of the current year and prior year. Program managers receive monthly budget reports via email, which indicate the approved budget on a line item basis; the year-to-date expenditures assigned to those line items; and the percent expended to date. Monthly monitoring of revenues and expenditures by the School Board as well as ongoing monitoring by program managers helps to ensure budget integrity and provides an opportunity to detect material budget variances before the end of the fiscal year.

The budget is adopted by the School Board in the spring of each year for the following fiscal year beginning July 1. In the winter the budget is revised based upon enrollment changes, effects of negotiated employee contracts, or other new information impacting revenues or expenditures. The revised budget is presented to the School Board for approval. To accurately track and report financial activities with a focus on site-based accounting, approximately 17,000 accounts have been defined in the District's chart of accounts.

FINANCIAL PROSPECTS FOR FUTURE YEARS

The District's finances are largely dependent on student enrollment. Revenue increases to the per pupil formula allowance are then offset by the fewer numbers of students attending, resulting in even smaller actual gross revenue increases. Hopkins has been experiencing declining enrollment from FY07 to FY17 to the magnitude of 1,269 students or about a 15.83% decrease over this 10-year period. State funding on average is equal to about \$6,000 per student. When enrollment declines, revenue is reduced by the loss of students from the previous year times \$6,000 per student.

The Hopkins School Board has focused on rebuilding the unassigned fund balance of the General Fund from its FY05 low point of -\$4.2 million, or -5.34% to its current level at June 30, 2017 of \$8.5 million, or 9.5% of its General Fund expenditures. This is a turnaround of \$14.0 million, or about 14.94%, reflecting tough decisions that the School Board and administration have had to make to bring the District back to fiscal health.

DISTRICT FACILITIES

District educational facilities consist of 10 educational buildings originally constructed from 1948 to 1990. Each building has had numerous additions over the years. In spite of the age of the facilities, all school buildings are maintained in a state of good repair, with building components modernized and updated on a systematic basis through the district's long term maintenance plan. Because of this continual improvement, all educational facilities should be able to effectively serve the district for a minimum of 50-60 additional years. The total district square footage, including administrative buildings, is 1,894,881.

ECONOMIC FACTORS

The District is located in western Hennepin County, which is part of the seven-county metro area of Minneapolis/St. Paul. Residents are typically employed in professional vocations within the metropolitan area.

The taxable market value of property within the District continued to grow until 2009. Previous growth was due to new construction and valuation increases for existing property. Market values have rebounded from \$9,721,507,300 in 2010 to \$10,038,268,007 in 2017. While the District is essentially fully developed residentially, commercial development and redevelopment is clearly evident throughout the community.

MAJOR INITIATIVES

XinXing Academy, Hopkins Public Schools' Chinese Immersion program, opened at Eisenhower Elementary School in 2007. XinXing attracts students from all parts of the Hopkins School District, as well as from other school districts in the Twin Cities area through open enrollment.

XinXing currently has two sections each of full-day kindergarten and grades 1-8. XinXing has continued to add a grade level every year, and as of the 2015-2016 year the program will be through the 8th grade and be fully implemented.

XinXing classrooms have been designated Confucius Classrooms by the Confucius Institute at the University of Minnesota. As part of this designation, XinXing has received grants for the past four years to support Chinese cultural experiences such as dance, art, and Gong Fu.

XinXing Academy students are leading the way in Minnesota. For the sixth consecutive year, every second-grade student passed the Youth Chinese Test (YCT3), an international standardized Chinese proficiency test.

Hopkins STEM programming has continued its expansion to Preschool-12th grade. Through a combination of District funding and Cargill Foundation grant dollars, the Engineering STEM curriculum is in place at all elementary schools in grades 1-5, along with additional STEM opportunities in each grade level. The District has also extended STEM learning in its preschool offerings and school-aged childcare programming.

Hopkins Juntos secondary Spanish Immersion program serves students in grades 7-10, with plans to develop the program through grade 12. The students participating in the program are a combination of Heritage speakers of Spanish and students that have completed an elementary Spanish immersion program.

Both Hopkins North and Hopkins West Junior High programs offer the International Baccalaureate Middle Years Programme schools. Both schools follow an alternating day block schedule.

Elementary FLES (Foreign Language in the Elementary Schools) is now articulated through grade four, with fifth grade to be added in the 2017-18 school year.

Beginning in FY16, and continuing in FY17 and beyond, the District has implemented a 1:1 program at the high school. Hopkins purchased and deployed 1,800 Acer C720P chrome books. This provides a dedicated device to every Hopkins High School student.

INDEPENDENT AUDIT AND CERTIFICATE OF EXCELLENCE

State statutes require an annual audit by independent certified public accountants. The accounting firm of CliftonLarsonAllen LLP was selected by the District Board to conduct the annual audit.

This report has been prepared following the guidelines provided by the Association of School Business Officials International (ASBO) for their Certificate of Excellence in Financial Reporting Program. In 2016, the District received recognition from this program by receiving the Certificate of Excellence. Continuing to achieve recognition is a goal of the District's Business Office and provides a clear indication of the District's high standards for financial reporting. The District intends to submit this Comprehensive Annual Financial Report to the ASBO Certificate Program for consideration.

ACKNOWLEDGMENTS

We acknowledge the efforts of the entire Business Office staff under the leadership of John Toop in providing complete and accurate data for this Comprehensive Annual Financial Report.

INDEPENDENT AUDITORS' REPORT

Members of the Board of Education
Independent School District No. 270
Hopkins Public Schools
Hopkins, Minnesota

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund and the aggregate remaining fund information of Hopkins Public Schools, as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise Hopkins Public Schools' basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund and the aggregate remaining fund information of Hopkins Public Schools as of June 30, 2017, and the respective changes in financial position, the budgetary comparison for the General, Food Service, and Community Service funds and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

During fiscal year ended June 30, 2017, Hopkins Public Schools adopted GASB Statement No. 73, *Accounting and Financial Reporting for Pensions and Related Assets That Are Not within the Scope of GASB Statement No. 68, and Amendments to Certain Provisions of GASB Statements 67 and 68*. As a result of the implementation of this standard, Hopkins Public Schools reported a restatement for the change in accounting principle (see Note 14). Our auditors' opinion was not modified with respect to that matter.

Report on Summarized Prior Year Information

We have previously audited Hopkins Public Schools' 2016 financial statements of the governmental activities, each major fund and the aggregate remaining fund information, and we expressed an unmodified opinion on those audited financial statements in our report dated October 13, 2016. In our opinion, the summarized comparative information presented herein as of and for the year ended June 30, 2016 is consistent, in all material respects, with the audited financial statements from which it has been derived.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, schedule of funding progress for other postemployment benefits and other pension benefits payable, schedules of the District's proportionate share of net pension liability, schedules of the District's pension contributions, and the schedule of changes in the District's total pension liability and related ratios, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Matters (Continued)

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Hopkins Public Schools' basic financial statements. The introductory section, combining and individual fund financial statements, uniform financial accounting and reporting standards table and statistical sections are presented for purposes of additional analysis and are not required parts of the basic financial statements.

The combining and individual fund financial statements and the uniform financial accounting and reporting standards compliance table are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated December 12, 2017, on our consideration of Hopkins Public Schools' internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the result of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Hopkins Public Schools' internal control over financial reporting and compliance.

REQUIRED SUPPLEMENTARY INFORMATION

**HOPKINS PUBLIC SCHOOLS
INDEPENDENT SCHOOL DISTRICT NO. 270
MANAGEMENT'S DISCUSSION AND ANALYSIS
YEAR ENDED JUNE 30, 2017**

This section of Hopkins Public Schools – Independent School District No. 270's annual financial report presents our discussion and analysis of the District's financial performance during the fiscal year that ended on June 30, 2017. Please read it in conjunction with the District's basic financial statements, which immediately follows this section. The Management's Discussion and Analysis (MD&A) is a required element of Required Supplementary Information specified in the Governmental Accounting Standard Board's (GASB) Statement No. 34 – *Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments*. Certain comparative information between the current year (2016-2017) and the prior year (2015-2016) is required to be presented in the MD&A.

FINANCIAL HIGHLIGHTS

Key financial highlights for the 2016-2017 fiscal year include the following:

- Net position of the District in total decreased by \$22,425,533, or 68.05% below June 2016 due primarily to a large increase in the District's net pension liabilities for pensions administered by TRA and PERA. The plans' net pension liabilities, especially TRA, increased significantly, largely due to changes in some of the assumptions used to measure the liabilities.
- The decrease in net position is after the restatement of the beginning net position as a result of the implementation of GASB Statement No. 73 and the revaluation of the District's net pension liability related to its supplemental pension plan at June 30, 2016.
- Overall General Fund revenues were \$93,928,751 as compared to \$89,887,513 of expenditures.
- Total fund balance of the General Fund increased by \$679,626 from the prior year resulting from revenues increasing over \$2.6 million while expenditures only increased about \$500,000. Transfers out also decreased by more than \$3 million.
- The District issued \$14,140,000 in General Obligation Facilities Maintenance Bonds in the current year as well as \$3,667,000 in Certificates of Participation.

OVERVIEW OF THE FINANCIAL STATEMENTS

The financial section of the annual report consists of four parts – Independent Auditors' Report, required supplementary information which includes the management's discussion and analysis (this section), the basic financial statements, and supplementary information. The basic financial statements include two kinds of statements that present different views of the District:

- The first two statements are *Government-wide financial statements* that provide both *short-term* and *long-term* information about the District's *overall* financial status.
- The remaining statements are *fund financial statements* that focus on *individual parts* of the District, reporting the District's operations in *more detail* than the Government-wide statements.
- The *governmental funds statements* tell how basic services such as regular and special education were financed in the *short term* as well as what remains for future spending.
- *Proprietary funds* statements offer *short- and long-term* financial information about the activities the district operates *like businesses*.
- *Fiduciary funds* statements provide information about the financial relationships in which the District acts solely as a *trustee or agent* for the benefit of others to whom the resources belong.

**HOPKINS PUBLIC SCHOOLS
INDEPENDENT SCHOOL DISTRICT NO. 270
MANAGEMENT'S DISCUSSION AND ANALYSIS
YEAR ENDED JUNE 30, 2017**

Government-Wide Statements

The Government-wide statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The statement of net position includes *all* of the District's assets, deferred outflows of resources, liabilities, and deferred inflows of resources. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two Government-wide statements report the District's *net position* and how it has changed. Net position – the difference between the District's assets, deferred outflows of resources, liabilities and deferred inflows of resources – is one way to measure the District's financial health or *position*.

- Over time, increases or decreases in the District's net position are an indicator of whether its financial position is improving or deteriorating, respectively.
- To assess the overall health of the District you need to consider additional non-financial factors such as changes in the District's property tax base and the condition of school buildings and other facilities.

In the Government-wide financial statements the District's activities are shown in one category:

- *Governmental Activities* – Most of the District's basic services are included here, such as regular and special education, transportation, administration, food services, and community education. Property taxes and state aids finance most of these activities.

Fund Financial Statements

The fund financial statements provide more detailed information about the District's *funds* – focusing on its most significant or “major” funds – not the District as a whole. Funds are accounting devices the District uses to keep track of specific sources of funding and spending on particular programs:

- Some funds are required by State law and by bond covenants.
- The District establishes other funds to control and manage money for particular purposes (e.g., repaying its long-term debts) or to show that it is properly using certain revenues (e.g., federal grants).

The District has three kinds of funds:

- *Governmental Funds* – Most of the District's basic services are included in governmental funds, which generally focus on (1) how *cash and other financial assets* that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental funds statements provide a detailed *short-term* view that helps to determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. Because this information does not encompass the additional long-term focus of the Government-wide statements, we provide additional information at the bottom of the governmental funds statements to explain the relationship (or differences) between them.
- The District uses *internal service funds* to report activities that provide supplies and services for the District's other programs and activities. The District currently has an internal service fund for self-insurance of health and dental benefits, for its OPEB Revocable Trust and for a Retiree Severance Fund.

- *Fiduciary Funds* – The District is the trustee, or *fiduciary*, for assets that belong to others, such as the scholarship funds and the flexible benefit plan. The District is responsible for ensuring that the assets reported in these funds are used only for their intended purposes and by those to whom the assets belong. All of the District's fiduciary activities are reported in a separate statement of fiduciary net position and a statement of changes in fiduciary net position. We exclude these activities from the Government-wide financial statements because the District cannot use these assets to finance its operations.

Net position of the District decreased by \$22,425,533 from the restated June 2016 amount primarily due to a large increase in the District's net pension liabilities for pensions administered by TRA and PERA. The plans' net pension liabilities, especially TRA, increased significantly, largely due to changes in some of the assumptions used to measure the liabilities. As a result, the District's proportionate share amount of the plans' net pension liabilities also increased significantly. While some of the related expenses are deferred until future periods in the form of deferred outflows, the District recognized \$27,400,314 in expenses in fiscal year 2017 related to the increase in their net pension liabilities.

Changes in Net Position

The District's total revenues were \$135,097,322 for the year ended June 30, 2017. Property taxes and state formula aid accounted for 77% of total revenue for the year (see Figure A-1). Another 1% came from other general revenues combined with investment earnings and the remaining 22% from program revenues.

MANAGEMENT'S DISCUSSION AND ANALYSIS
YEAR ENDED JUNE 30, 2017**

The total revenues of all *governmental* activities this year was \$135,097,322.

- Some of the cost was paid by the users of the District's programs (\$10,706,988).
- The federal and state governments subsidized certain programs with grants and contributions (\$19,230,001).
- Most of the District's costs (\$103,768,454), however, were paid for by District taxpayers and the taxpayers of our state. This portion of governmental activities was paid for with \$50,103,270 in property taxes, and \$53,665,184 of unrestricted state aid based on the statewide education aid formula.

All governmental funds include not only the funds received for the general operation of the district, which are used for classroom instruction, but also include resources from the entrepreneurial-type funds of Food Service and Community Education, and from resources for fiscal service transactions. Funding for the general operation of the District is controlled by the state and the District does not have the latitude to allocate money received in Food Service or Community Education or for fiscal services to enhance classroom instruction resources. The District cannot take funds from these restricted areas and use the funds to hire teachers to enhance instruction.

FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

The financial performance of the District as a whole is reflected in its governmental funds as well. As the District completed the year, its governmental funds reported a *combined* fund balance of \$31,518,384, or \$16,103,302 more than last year's ending fund balance of \$15,415,082.

Total revenues and other financing sources for the District's governmental funds were \$150,341,599 while total expenditures and other financing uses were \$134,238,297. This difference is primarily the result of a bond issue for the District's Phase VI long-term facilities maintenance program and transfers to the severance fund in the current year.

GENERAL FUND

The General Fund includes the primary operations of the District in providing educational services to students from kindergarten through grade 12 including pupil transportation activities and capital outlay projects.

Approximately 68% of General Fund operational revenue is controlled by a complex set of state funding formulas resulting in the local school board having no meaningful authority to determine the level of resources. This includes special education state aid that is based upon a cost reimbursement model providing approximately 68% of personnel expenditures. Other state formulas then determine what portion of the revenue will be provided by property taxes and what portion will come from state aid.

ENROLLMENT

Enrollment is a critical factor in determining revenue with approximately 75% of General Fund revenue being determined by enrollment. The following chart shows that the number of students has decreased slightly over the last seven years.

**Table A-4

Over the last eight years, the District has experienced a decline in average daily membership by 918 students or 12.0%. It is anticipated the trend will continue for the near term but flatten out in future years, as the District's pre-school population settles at about 480 kindergarten students per year as compared to approximately 565 students graduating annually for the next three years. The District continues to accept open enrollment students to mitigate some of this natural decline.

Total General Fund Revenue	<u>\$ 93,928,751</u>	<u>\$ 91,275,976</u>	<u>\$ 2,652,775</u>	2.9

Total General Fund Revenue increased by \$2,652,775 or 2.9% from the previous year. Basic general education revenue is determined by multiple state formulas, largely enrollment driven, and consists of an equalized mix of property tax and state aid revenue. Other state-authorized revenue may also involve an equalized mix of property tax and state aid revenue. Therefore, the mix of property tax and state aid can change significantly from year to year without any net change on total revenue.

For 2016-2017 local property tax revenue increased by \$1,921,038, or 8.1%. Earnings on investments increased by \$101,020 as investments performed better than in the prior year.

State Sources decreased by \$568,941, or 0.9%. Federal Sources increased by \$420,119, or 17.8%.

Other revenue sources increased by \$779,539, or 22.0%, mainly due to the requirement to recognize Medical Assistance revenue as a restricted fund balance and an increase in miscellaneous local revenue.

For fiscal year 2016-2017, there was a 2.0% increase in the General Education per student allowance.

Total General Fund Expenditures	<u>\$ 89,887,513</u>	<u>\$ 89,391,494</u>	<u>\$ 496,019</u>	0.6

Total General Fund Expenditures increased \$496,019 or 0.6% from the previous year. The major factors driving this increase for 2016-2017 were an increase in Purchased Services primarily due to a substantial increase in the transportation contract due to the bus driver shortage. Supplies and Materials increased due to a textbook purchase for the math curriculum and an increase in standardized test costs. Employee Benefits were lower due to a TRA adjustment recorded in FY2015-16 and not in FY2016-17 (\$1,098,248). Other Expenditures were higher in FY2016-17 due to the same TRA adjustment (\$307,226). Capital Expenditures were higher due to increased capital improvements and equipment purchases.

Salaries increased by \$84,933, or 0.2%, while Employee Benefits decreased by \$1,557,443, or 8.9%. Capital Expenditures increased by \$709,996, or 47.7%. Purchased Services decreased by \$597,563, or 4.8%, and Other expenditures decreased by \$315,449, or 224.4%. Supplies and materials increased by \$400,356, or 25.3%, and debt service decreased by \$54,835, or 6.9%.

In fiscal 2016-2017, General Fund revenues were more than expenditures by \$679,626 including other financing sources and uses. Therefore, total fund balance increased from \$13,344,098 in the prior year to \$14,023,724 as of June 30, 2017. After deducting statutory categories of fund balance and District commitments and assignments, the General Fund Unassigned fund balance increased from \$8,269,162 at June 30, 2016, to \$8,540,982 at June 30, 2017. This represents about 9.5% of fiscal year 2016-2017 total general fund expenditures. The School Board fund balance policy states that the administration shall plan and manage annual revenue and expenditure budgets that provide a General Fund unassigned fund balance of no less than 6% of annual expenditures and treats any excess above 6% as a contingency reserve to be utilized for non-recurring costs.

General Fund Budgetary Highlights

Following approval of the budget prior to the beginning of the fiscal year, the District revises the annual operating budget in mid-year. These budget amendments typically fall into two categories:

- Implementing budgets for specially funded projects, which include both federal and state grants and reinstating unexpended funds being carried over.
- Legislation passed subsequent to budget adoption, changes necessitated by collective bargaining agreements, and increases in appropriations for significant unbudgeted costs.

Actual revenues were \$475,986 or 0.5% more than budgeted, while expenditures were \$3,316,440 or 3.6% less than budgeted.

While the District's final budget for the General Fund anticipated that fund balance would decrease by \$3,112,800, the actual results for the year show that fund balance increased in total by \$679,626.

CAPITAL PROJECTS AND DEBT SERVICE FUNDS

The Building Construction Fund has two major components, the Capital Projects Levy (Technology Levy) component, and the Alternative Facilities Bonding and Levy component. These are ongoing restricted revenue and expenditure programs.

In the Debt Service Fund, revenues and other financing sources exceeded expenditures and other financing uses by \$140,082 in 2016-2017. The ending Debt Service fund balance at June 30, 2017 of \$2,978,438 includes \$2,395,740 for meeting future regular debt service obligations and \$582,698 available for meeting future OPEB debt service obligations.

OTHER MAJOR FUNDS

Revenues exceeded expenditures in the Food Service Fund by \$280,771 for 2016-2017. The Food Service Fund increased its fund balance to \$722,256. In the Community Service Fund revenues exceeded expenditures by \$164,045 and a transfer in of \$250,000 resulted in the fund balance of the Community Service Fund ending at \$2,127,114, with \$1,670,241 restricted for community education programs.

From the standpoint of maintaining current operating expenditures within the range of annual revenue and maintaining a sound fund balance, the Food Service and Community Service funds have respective budgets for 2017-18 that allow them to continue to operate on a sound financial basis.

INTERNAL SERVICE FUND

Proprietary funds such as the Internal Service Fund use the same basis of accounting as business-type activities; therefore, these statements will essentially match the information provided in statements for the District as a whole.

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets

By the end of 2017, the District had invested approximately \$272 million in a broad range of capital assets, including school buildings, athletic facilities, computer and audio-visual equipment, and administrative offices (see Table A-7). More detailed information about capital assets can be found in Note 3 to the financial statements. Total depreciation expense for the year was almost \$10 million.

Construction – Next Five Years

In fiscal 2017, the District began its thirteenth year (twelfth construction year) of a rolling 10-year program to address in excess of \$80 million in deferred maintenance needs, with an emphasis on improving indoor air quality and roof and window replacement. The revised 10-year facilities management plan identified \$15 million in projects for Phase VI. The district bonded for \$15 million in the spring of 2017. The District will be moving towards a more property tax levy driven source of revenue and less of a bonding source of revenue over the next five years. The program name has also changed from the Alternative Facilities Bonding and Levy program to the Long-Term Facilities Maintenance Revenue (LTFMR) program.

In November 2017, District voters passed a \$30 million construction bond to improve District facilities, including an addition to Meadowbrook elementary school to complete the expansion to a full five-section school. There are various projects in the bond that will impact Hopkins High School, the two Junior High Schools and Glen Lake elementary school. Also included in this bond is a \$7 million payoff for two leases, one for the Tanglen gymnasium and one for the purchase of the Meadowbrook Crisis Nursery building. The payoff of these leases will likely result in a decrease in the interest rate the District is paying, thus saving taxpayers money on future interest costs.

Long-Term Liabilities

At year-end, the District had \$132,080,000 in general obligation bonds outstanding – an increase of 9.8% from last year – as shown in Note 4 to the financial statements. This is in addition to \$11,185,000 of general obligation OPEB bonds. Pension Benefits Payable represents the District's proportionate share of the Public Employees' Retirement Association of Minnesota General Employees' Retirement Fund's net pension liability, the District's portion of the Teacher's Retirement Association's Coordinated and Basic Plan net pension liability, as well as the net pension liability of the District's supplemental pension plan. The District's pension benefits payable related to these net pension liabilities increased \$166,587,132, or 226.3%. The District also increased its postemployment severance and health benefits payable at June 30, 2017 by a net of \$3.1 million.

FACTORS BEARING ON THE DISTRICT'S FUTURE

Hopkins Public Schools remained financially stable as of June 30, 2017. Audited results for 2016-2017 will result in a revised General Fund budget that will keep its General Fund Unassigned fund balance as of June 30, 2018 at or slightly below the same level as June 30, 2017. This will keep Hopkins Public Schools Unassigned fund balance in the range of 8-15%, an amount that will keep it in line with financially strong neighboring districts. The District began the process of adjusting expenditures to revenues with approval of the 2016-2017 budget. This resulted in transfers/reductions of approximately \$1.6 million. The State legislature increased per pupil funding by 2% for 2015-16 and an additional 2% for 2016-17, which helped to minimize the amount of reductions necessary when looking at the 2016-17 school year. A 2% increase in per pupil funding was assumed when creating the 2017-18 and 2018-2019 budgets. The legislature has since passed legislation that would increase the per student allowance by that amount. Hopkins Public Schools remains in a strong fiscal position assuming conservative increases for education funding.

Hopkins Public Schools will need to continue to look at possible ways to increase other non-state revenue and continue to identify efficiencies to control expenses for fiscal year 2017-18 and beyond. Some examples of this are new LED lighting and solar gardens to reduce electricity costs. Expenditures begin to exceed revenues in 2016-17 in the long-term financial planning model.

MANAGEMENT'S DISCUSSION AND ANALYSIS
YEAR ENDED JUNE 30, 2017**

Hopkins Public Schools utilizes a financial planning model that incorporates anticipated revenue and expenditure increases to more closely monitor the finances of the District on a long-range basis. The model anticipates separately the amount of reductions necessary due to declining student enrollment, which Hopkins Public Schools is experiencing. The model is also intended to show the total amount of reductions necessary for the District to adhere to its fund balance policy, while striving to maintain its long-standing commitment to academic excellence and educational opportunity for students.

TO THE STATEMENT OF NET POSITION
JUNE 30, 2017
(WITH SUMMARIZED FINANCIAL INFORMATION AS OF JUNE 30, 2016)**

	<u>2017</u>	<u>2016</u>
Total Fund Balance for Governmental Funds	\$ 31,518,384	\$ 15,415,082
Total net position reported for governmental activities in the statement of net position is different because:		
Capital assets used in governmental funds are not financial resources and, therefore, are not reported in the funds. Those assets consist of:		
Land	2,867,600	2,867,600
Construction in Progress	3,538,549	5,747,907
Land Improvements, Net of Accumulated Depreciation	6,309,818	6,835,808

Equipment, Net of Accumulated Depreciation	10,816,641	10,471,602
Some of the District's property taxes will be collected after year-end, but are not available soon enough to pay for the current period's expenditures and, therefore, are reported as deferred inflows in the funds.		
	322,361	326,769
Interest on long-term debt is not accrued in governmental funds, but rather is recognized as an expenditures when due.		
	(2,375,832)	(2,420,275)
The District's net pension liability and related deferred inflows and outflows are recorded only on the statement of net position. Balances at year-end are:		
Net Pension Liability	(240,207,007)	(73,619,875)
Deferred Inflows of Resources - Pensions	(5,083,717)	(9,799,275)
Deferred Outflows of Resources - Pensions	142,298,385	12,879,327
Long-term liabilities that pertain to governmental funds, including bonds payable, are not due and payable in the current period and, therefore, are not reported as fund liabilities. All liabilities - both current and long-term - are reported in the statement of net position. Balances at year-end are:		
Bonds Payable	(143,265,000)	(138,185,000)
Unamortized Premiums	(5,430,075)	(5,285,046)

RECONCILIATION OF THE STATEMENT OF
REVENUES, EXPENDITURES, AND CHANGE IN FUND BALANCE
GOVERNMENTAL FUNDS TO STATEMENT OF ACTIVITIES
YEAR ENDED JUNE 30, 2017
(WITH SUMMARIZED FINANCIAL INFORMATION FOR YEAR ENDED JUNE 30, 2016)**

	2017	2016
Net Change in Fund Balance - Total Governmental Funds	\$ 16,103,302	\$ (14,018,088)
 Amounts reported for governmental activities in the statement of activities are different because:		
Governmental funds report capital outlays as expenditures. However, in the statement of activities, assets are capitalized and the cost is allocated over their estimated useful lives and reported as depreciation expense. The amount by which capital outlays exceeded depreciation in the current period is:		
Capital Outlays	7,710,600	14,243,342
Loss on Disposal of Capital Assets	-	(67,532)
Proceeds from the Sales of Capital Assets	-	(63,124)
Depreciation Expense	(9,784,365)	(9,140,350)
 Delinquent property taxes receivable will be collected this year, but are not available soon enough to pay for the current period's expenditures and, therefore, are unearned in the governmental funds.		
	(4,408)	(107,431)
 Some capital asset additions are financed through capital leases. In governmental funds, a capital lease arrangement is considered a source of financing, but in the statement of net position, the lease obligation is reported as a liability. Repayment of capital lease principal is an expenditure in the governmental funds, but repayment reduces the lease obligation in the statement of net position.		
Change in Accrued Interest - Capital Leases	(28,953)	15,313
Principal Payments - Capital Leases	470,064	506,735
 Pension expenses in the governmental funds are measured by current year employer contributions. Pension expenditures on the statement of activities are measured by the change in the net pension liability and the related deferred inflows and outflows of resources.		
	(27,400,314)	382,065
 In the statement of activities, certain operating expenses - severance benefits and compensated absences - are measured by amounts earned during the year. In the governmental funds, however, expenditures for these items are measured by the amount of financial resources used (amounts actually paid).		
	(2,119,948)	(2,820,455)
 The governmental funds report bond proceeds as financing sources, while repayment of bond principal is reported as an expenditure. In the statement of net position, however, issuing debt increases long-term liabilities and does not affect the statement of activities and repayment of principal reduces the liability. Also, governmental funds report the effect of premiums when debt is first issued, whereas these amounts are amortized in the statement of activities. Interest is recognized as an expenditure in the governmental funds when it is due. The net effect of these differences in the treatment of general obligation bonds and related items is as follows:		
General Obligation and Certificates of Participation Bond Proceeds	(14,140,000)	(18,305,000)
Bond Premium or Discount	(877,020)	(2,163,565)
Certificates of Participation Proceeds	(3,667,000)	-
Payment to Refunded Bond Escrow Agent	-	20,375,000
Repayment of Bond Principal	9,060,000	9,015,000
Change in Accrued Interest	73,396	307,570
Amortization of Bond Premium	731,991	1,198,217
Amortization of Bond Discount	(64,921)	(6,039)
 Internal service funds are used by the District to charge the costs of employee health and dental benefits to individual funds. The change in net position of the internal service funds is reported with governmental activities.		
	1,512,043	7,318,692
Change in Net Position of Governmental Activities	\$ (22,425,533)	\$ 6,670,350

NOTES TO BASIC FINANCIAL STATEMENTS

**HOPKINS PUBLIC SCHOOLS
INDEPENDENT SCHOOL DISTRICT NO. 270
NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2017**

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Basis of Presentation

The financial statements of Independent School District No. 270 have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles. This financial report has been prepared in conformity with GASB Statement No. 34.

B. Financial Reporting Entity

Independent School District No. 270 (the District) is an instrumentality of the State of Minnesota established to function as an educational institution. The elected School Board (Board) is responsible for legislative and fiscal control of the District. A Superintendent is appointed by the Board and is responsible for administrative control of the District.

GAAP requires that the District's financial statements include all funds, departments, agencies, boards, commissions, and other organizations which are not legally separated from the District. In addition, the District's financial statements are to include all component units - entities for which the District is financially accountable.

Financial accountability includes such aspects as appointing a voting majority of the organization's governing body, significantly influencing the programs, projects, activities or level of services performed or provided by the organization or receiving specific financial benefits from, or imposing specific financial burden on, the organization. There are no other entities for which the District is financially accountable.

Student activities are determined primarily by student participants under the guidance of an adult and are generally conducted outside school hours. The School Board does have a fiduciary responsibility in establishing broad policies and ensuring that appropriate financial records are maintained for student activities. However, in accordance with Minnesota Statutes, the District's School Board has not elected to control or exercise oversight responsibility with respect to the underlying student activities. Accordingly, the student activity accounts are not included in these financial statements.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

C. Change in Accounting Principle

During fiscal year ended June 30, 2017, the District adopted GASB Statement No. 73, *Accounting and Financial Reporting for Pensions and Related Assets That Are Not within the Scope of GASB Statement 68*. The primary objective of this statement is to improve the usefulness of information about these additional plans not under the scope of GASB Statement No. 68. See Note 8 for additional information on the District's supplemental pension plan which falls under this standard.

D. Basic Financial Statement Presentation

The Government-wide financial statements (i.e. the statement of net position and the statement of activities) display information about the reporting government as a whole. These statements include all the financial activities of the District, except for the fiduciary funds. The Fiduciary Funds are only reported in the statements of fiduciary net position at the fund financial statement level.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

The District applies restricted resources first when an expense is incurred for purpose for which both restricted and unrestricted net position is available. Depreciation expense that can be specifically identified by function is included in the direct expenses of each function. Interest on long-term debt is considered an indirect expense and is reported separately on the statement of activities. Generally, the effect of material interfund activity has been removed from the Government-wide financial statements.

Separate Fund financial statements are provided for governmental, proprietary, and fiduciary funds. Major individual governmental funds are reported as separate columns in the fund financial statements. Fiduciary funds are presented in the fiduciary fund financial statements by type: private purpose trust. Since by definition, fiduciary fund assets are being held for the benefit of a third party and cannot be used for activities or obligations of the District, these funds are excluded from the Government-wide statements.

**HOPKINS PUBLIC SCHOOLS
INDEPENDENT SCHOOL DISTRICT NO. 270
NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2017**

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

D. Basic Financial Statement Presentation (Continued)

The Internal Service Fund is presented in the proprietary fund financial statements. Because the principal users of the internal services are the District's governmental activities, the financial statement of the internal service fund is consolidated into the governmental column when presented in the Government-wide financial statements. The cost of these services is reported in the appropriate functional activity.

Proprietary Funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenue of the District's internal service fund is charges for service in the form of insurance premiums and OPEB contributions. Operating expenses for the internal service fund include the cost of services. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

E. Measurement Focus and Basis of Accounting

The accounting and financial reporting treatment applied is determined by its measurement focus and basis of accounting. The Government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are generally recognized as revenues in the fiscal year for which they are levied, except for amounts advance recognized in accordance with a statutory "tax shift" described later in these notes. Grants and similar items are recognized when all eligibility requirements imposed by the provider have been met.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

E. Measurement Focus and Basis of Accounting (Continued)

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this basis of accounting transactions are recorded in the following manner:

1. Revenue Recognition

Revenue is recognized when it becomes measurable and available. "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. Property tax revenue is generally considered as available if collected within 60 days after year-end. State revenue is recognized in the year to which it applies according to Minnesota Statutes and accounting principles generally accepted in the United States of America. Minnesota Statutes include state aid funding formulas for specific fiscal years. Federal revenue is recorded in the year in which the related expenditure is made. Food service sales, community education tuition, and other miscellaneous revenue (except investment earnings) are recorded as revenues when received because they are generally not measurable until then. Investment earnings are recorded when earned because they are measurable and available. A six-month availability period is generally used for other fund revenue.

2. Recording of Expenditures

Expenditures are generally recorded when a liability is incurred. However, expenditures are recorded as prepaid for approved disbursements or liabilities incurred in advance of the year in which the item is to be used. Principal and interest on long-term debt issues are recognized on their due dates.

The District reports unearned revenue on its statement of net position and balance sheet. Unearned revenues arise when resources are received by the District before it has a legal claim to them, as when grant monies are received prior to incurring the qualifying expenditures. In subsequent periods when the District has a legal claim to the resources, the liability for unearned revenue is removed and revenue is recognized.

Description of Funds

The existence of the various District funds has been established by the State of Minnesota, Department of Education. The accounts of the District are organized on the basis of funds, each of which is considered a separate accounting entity. A description of the funds included in this report is as follows:

Major Governmental Funds

General Fund

The General Fund is used to account for all financial resources except those required to be accounted for in another fund. It includes the general operations and pupil transportation activities of the district, as well as the capital related activities such as maintenance of facilities, equipment purchases, health and safety projects, and disabled accessibility projects.

Food Service Special Revenue Fund

The Food Service Fund is used to account for food service revenues and expenditures. Major sources of revenue include meal sales to students and federal and state grants.

Community Service Special Revenue Fund

The Community Service Fund is used to account for services provided to residents in the areas of recreation, civic activities, nonpublic pupils, veterans, adult or early childhood programs, K-6 extended day programs or other similar services. Major sources of revenue include fees collected for these programs.

Capital Projects Fund

The Capital Projects Fund/Building Construction Fund is used to account for financial resources used for the acquisition or construction of major capital facilities.

Debt Service Fund

The Debt Service Fund is used to account for the accumulation of resources for, and payment of general long-term obligation bond principal, interest, and related costs.

E. Measurement Focus and Basis of Accounting (Continued)

Proprietary Fund

Internal Service Fund

The Internal Service Fund accounts for financing of goods or services provided by one department to other departments or agencies of the government, or to other governments, on a cost-reimbursement basis. The District's Internal Service Fund includes its self-insured health insurance plan for its employees. In fiscal year 2009, the District also established a revocable trust to account for cash and other assets held by the District for the payment of Other Postemployment Benefits, which is accounted for as an internal service fund. In fiscal year 2012, the District established an internal service fund for the payment of certain severance benefits to District employees.

Fiduciary Fund

Private-Purpose Trust

The Private-Purpose Trust Fund is used to account for money held by the District in the capacity of trustee for others. The fund is used for the activity of the District's scholarship fund.

F. Budgeting

Budgets presented in this report for comparison to actual amounts are presented in accordance with accounting principles generally accepted in the United States of America. Each May, the School Board adopts an annual budget for the following fiscal year for the General, Food Service, Community Service, Capital Projects – Building Construction, and Debt Service Funds. The approved budget is published in summary form in the District's legal newspaper. Reported budget amounts represent the amended budget as adopted by the School Board. Legal budgetary control is at the fund level.

Procedurally, in establishing the budgetary data reflected in these financial statements, the Superintendent submits to the School Board prior to July 1, a proposed operating budget for the fiscal year commencing July 1. The operating budget includes proposed expenditures and the means to finance them. The budget is legally enacted by School Board action. Revisions to budgeted amounts must be approved by the School Board.

Total fund expenditures in excess of the budget require approval of the School Board. Spending control is established by the amount of expenditures budgeted for the fund, but management control is exercised at line item levels.

F. Budgeting (Continued)

Budgeted amounts include mid-year budget amendments as follows:

	Original Budget	Amendments	Amended Budget
<u>Revenues</u>			
General Fund	\$ 93,722,156	\$ (269,391)	\$ 93,452,765
Special Revenue Funds:			
Food Service Fund	4,641,269	(164,942)	4,476,327
Community Service Fund	9,237,725	(50,440)	9,187,285
Capital Projects Fund	23,459,772	(15,000,000)	8,459,772
Debt Service Fund	10,498,231	4,449,897	14,948,128
 <u>Expenditures</u>			
General Fund	\$ 93,293,069	\$ (89,116)	\$ 93,203,953
Special Revenue Funds:			
Food Service Fund	4,580,177	(182,357)	4,397,820
Community Service Fund	9,643,064	(236,247)	9,406,817
Capital Projects Fund	12,794,255	1,507,090	14,301,345
Debt Service Fund	10,649,034	3,881,463	14,530,497

Budget provisions for the Debt Service Fund are set by state law governing required debt service levels. Budgeted revenues exclude other financing sources such as long-term debt proceeds.

At the end of each fiscal year, if the General Fund has a net unassigned deficit fund balance, calculated in accordance with the uniform financial accounting and reporting standards for Minnesota school districts which excludes certain restricted balances specified in Minnesota Statutes, exceeding 2.5% of expenditures, a condition referred to as "statutory operating debt" exists. That deficit requires elimination through the accumulation of subsequent operating surpluses in accordance with a "special operating plan" approved by the Commissioner of the Department of Education.

G. Cash and Investments

Cash balances from all funds are combined and invested to the extent available in various securities as authorized by Minnesota Statutes. Earnings from the pooled investments are allocated to the respective funds on the basis of applicable cash balance participation by each fund.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

G. Cash and Investments (Continued)

Investments are stated at their fair value as determined by quoted market prices, except for money market investments and participating interest-earning investment contracts that have a remaining maturity at time of purchase of one year or less which are recorded at amortized cost, provided that the fair value of those investments is not significantly affected by the impairment of the credit standing of the issuer or by other factors. Money market investments are short-term, highly liquid debt instruments including commercial paper, banker's acceptances, and U.S. Treasury and agency obligations. Investments in external investment pools operated in a manner consistent with the SEC's Rule 2a7 of the Investment Act of 1940 are valued at the pool's share price.

H. Accounts Receivable

Represents amounts receivable from individuals, firms, and corporations for goods and services furnished by the District. No substantial losses are anticipated from present receivable balances, therefore, no allowance for uncollectible accounts is deemed necessary. The only receivables not expected to be collected within one year are property taxes receivable.

I. Inventories

Inventories are recorded using the consumption method of accounting and consist of purchased food, supplies, and surplus commodities received from the federal government. Food and supply purchases are recorded at invoice cost, computed on a first-in, first-out method, and surplus commodities are stated at standardized cost, as determined by the Department of Agriculture.

J. Prepaid Items

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepayments. Expense is allocated over the periods benefitted.

K. Property Taxes

Property tax levies are established by the School Board in December each year and are certified to the County for collection the following calendar year. In Minnesota, counties act as collection agents for all property taxes and are responsible for spreading all levies over taxable property. Such taxes become a lien on January 1. Taxes are generally due on May 15 and October 15 and counties generally remit taxes to the Districts at periodic intervals as they are collected. A portion of property taxes levied is paid through state credits which are included in revenue from state sources in the financial statements.

**HOPKINS PUBLIC SCHOOLS
INDEPENDENT SCHOOL DISTRICT NO. 270
NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2017**

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

K. Property Taxes (Continued)

Generally, tax revenue is recognized in the fiscal year ending June 30, following the calendar year in which the tax levy is collectible, while the current calendar year tax levy is recorded as a deferred inflow of resources (unavailable property taxes levied for subsequent year). The majority of District revenue in the General and Special Revenue Funds is determined annually by statutory funding formulas. The total revenue allowed by these formulas is then allocated between taxes and state aids by the Legislature based on education funding priorities. Changes in this allocation are periodically accompanied by a change in property tax revenue recognition referred to as the "tax shift."

In accordance with State law, the current tax shift consists of an amount equal to 31% of the District's 2000 Pay 2001 operating referendum levy (frozen at \$4,134,655) advance recognized as revenue in fiscal 2016 with no corresponding state aid adjustment. Certain other portions of the District's 2016 pay 2017 levy, normally revenue for the 2017-17 fiscal year, are also advance recognized at June 30, 2017, as required by state statute to match revenue with the same fiscal year as the related expenditures.

Taxes that remain unpaid are classified as delinquent taxes receivable. Revenue from these delinquent property taxes that is not collected within 60 days of year-end is a deferred inflow because it is not known to be available to finance the operations of the District in the current year. No allowance for uncollectible taxes has been provided as such amounts are not expected to be material. Current levies of local taxes, less the amount recognized as revenue in the current period, including portions assumed by the state which will be recognized as revenue in the next fiscal year beginning July 1, 2017, are included in Property Taxes Levied for Subsequent Year to indicate that, while they are current assets, they will not be recognized as revenue until the following year.

L. Capital Assets

Capital assets are capitalized at historical cost, or estimated historical cost for assets where actual historical cost is not available. Donated assets are recorded as capital assets at their estimated fair market value at the date of donation. The District maintains a threshold level of \$5,000 or more for capitalizing capital assets. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized.

Capital assets are recorded in the Government-wide financial statement, but are not reported in the Fund financial statements. Capital assets are depreciated using the straight-line method over their estimated useful lives. Since surplus assets are sold for an immaterial amount when declared as no longer needed for public school purpose by the District, no salvage value is taken into consideration for depreciation purposes. Useful lives vary from 20 to 50 years for land improvements and buildings, and 7 to 20 years for equipment.

**HOPKINS PUBLIC SCHOOLS
INDEPENDENT SCHOOL DISTRICT NO. 270
NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2017**

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

L. Capital Assets (Continued)

Capital assets not being depreciated include land and construction in progress.

The District does not possess any material amounts of infrastructure capital assets. Items such as sidewalks and other land improvements are considered to be part of the cost of buildings or other improvable property.

M. Deferred Outflows/Inflows of Resources

In addition to assets, the financial statements will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until that time. Currently, the District has one type of item that qualifies for reporting in this category. The District reports deferred outflows of resources related to pensions. See Note 7 for additional detail.

In addition to liabilities, the financial statements will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The District has three types of items which occur related to revenue recognition. The first occurs because property tax receivables are recorded in the current year, but the revenue will be recorded in the subsequent year. The second type of deferred inflow of resources occurs because governmental fund revenues are not recognized until available (collected not later than 60 days after the District's year-end) under the modified accrual basis of accounting. The third type of deferred inflows reports is related to pensions. See Note 7 for additional detail.

N. Long-Term Obligations

In the Government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities. Bond premiums and discounts are amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs are expensed on both the fund financial statements and government-wide financial statements.

O. Pensions

For purposes of measuring the net pension liability, deferred outflows/inflows of resources, and pension expense, information about the fiduciary net positions of the Public Employees Retirement Association (PERA) and Teachers Retirement Association (TRA) and additions to/deductions from PERA's and TRA's fiduciary net position have been determined on the same basis as they are reported by PERA and TRA. For this purpose, plan contributions are recognized as of employer payroll paid dates and benefit payments and refunds are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

P. Accrued Employee Benefits

Sick Pay

Substantially all District employees are entitled to sick leave at various rates. For certain employees, unused sick leave is a factor in the calculation of an employee's severance pay upon termination.

Pension and Health Benefits

Severance and health benefits consist of lump sum early retirement incentive payments and post-employment health care benefits. Accounting policies for severance and health benefits are described below.

1. Early Retirement Incentive and Convertible Sick Leave

The District maintains various early retirement incentive payment plans for its employee groups. Each employee group plan contains benefit formulas based on years of service and/or minimum age requirements. No employee can receive early retirement incentive payments exceeding one year's salary. Benefits are not considered vested until actual turnover occurs.

The long-term portion of early retirement incentive and administrator experience benefits is recognized as part of other pension benefits payable.

At June 30, 2017, the long-term portion of the estimated early retirement incentive and convertible sick leave liability is included as part of the net pension liability on the statement of net position. See Note 8 for further information.

2. Postemployment Health Care Benefits

In addition to retirement benefits, the District provides post-retirement medical insurance benefits to teachers, administrators, principals, food service workers, custodians, and clerical employees, in accordance with their respective master employment agreements. The eligibility for, amount of, duration of, and District's contribution to the cost of the benefits provided varies by contract and date of retirement. See Note 9 for further information.

Q. Statement of Cash Flows

For purposes of the statement of cash flows, the District considers all highly liquid debt instruments with an original maturity from the time of purchase by the District of three months or less to be cash equivalents. The Internal Service Fund's equity in the Government-wide cash and investment management pool is considered to be cash equivalents.

R. Fund Balance

In the fund financial statements, governmental funds report fund balances in classifications that disclose constraints for which amounts in those funds can be spent. These classifications are as follows:

Nonspendable – portions of fund balance related to prepaids, inventories, long-term receivables, and corpus on any permanent fund.

Restricted – funds are constrained from outside parties (statute, grantors, bond agreements, etc.).

Committed – funds are established and modified by a resolution approved by the Board of Education.

Assigned – consists of internally imposed constraints. The Board of Education passed a resolution authorizing the Superintendent and Director of Business Services to assign fund balances and their intended uses.

Unassigned – is the residual classification for the general fund and also reflects negative residual amounts in other funds.

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available, it is the District's policy to use restricted first, then unrestricted fund balance.

When an expenditure is incurred for purposes for which committed, assigned, and unassigned amounts are available, it is the District's policy to use committed first, then assigned, and finally unassigned amounts.

The District formally adopted a fund balance policy for the General Fund. The policy establishes a year-end minimum unassigned fund balance of 6% of the annual budget.

S. Risk Management

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; natural disasters and workers compensation. The District purchases commercial insurance coverage for such risks.

There have been no significant reductions in insurance coverage from the previous year in any of the District's policies. Settled claims resulting from these risks have not exceeded insurance coverage in any of the past three years.

T. Net Position

Net position represents the difference between assets and liabilities in the Government-wide, Proprietary Fund, and Fiduciary Fund financial statements. Net investment in capital assets consists of capital assets, net of accumulation depreciation, reduced by the outstanding balance of any long-term debt used to build or acquire the capital assets. Net position is reported as restricted in the Government-wide financial statement when there are limitations imposed on their use through external restrictions imposed by creditors, grantors, laws or regulations of other governments.

U. Comparative Data

The basic financial statements include certain prior-year summarized comparative information in total but not at the level of detail required for a presentation in conformity with generally accepted accounting principles. Accordingly, such information should be read in conjunction with the District's financial statements for the year ended June 30, 2016, from which the summarized information was derived.

NOTE 2 DEPOSITS AND INVESTMENTS

A. Deposits

The District maintains a cash and investment pool that is available for use by all funds. Each fund type's portion of this pool is displayed on the statement of net position and the balance sheet as "Cash and Investments." In accordance with Minnesota Statutes, the District maintains deposits at financial institutions which are authorized by the School District's Board.

NOTE 2 DEPOSITS AND INVESTMENTS (CONTINUED)

A. Deposits (Continued)

Custodial Credit Risk – Custodial credit risk for deposits is the risk that in the event of a bank failure, the School District’s deposits may not be returned to it. The School District does have a deposit policy that will minimize Custodial Credit Risk by obtaining collateral or bond for all uninsured amounts on deposit, and by obtaining necessary documentation to show compliance or bond for all uninsured amounts on deposit, and by obtaining necessary documentation to show compliance with state law and a perfected security interest under federal law. Minnesota Statutes require that all deposits be protected by insurance, surety bond, or collateral. The market value of collateral pledged must equal 110% of the deposits not covered by insurance or corporate surety bonds. Authorized collateral include: U.S. government treasury bills, notes, or bonds; issues of a U.S. government agency; general obligations of a state or local government rated “A” or better; revenue obligations of a state or local government rated “AA” or better; irrevocable standby letter of credit issued by a Federal Home Loan Bank; and time deposits insured by a federal agency. Minnesota Statutes require securities pledged as collateral be held in safekeeping in a restricted account at the Federal Reserve Bank or at an account at a trust departments of a commercial bank or other financial institution not owned or controlled by the depository. All of the District’s deposits were fully insured during the year ended June 30, 2017.

B. Investments

The District may also invest idle funds as authorized by Minnesota Statutes as follows:

- Direct obligations or obligations guaranteed by the United States or its agencies
- Shares of investment companies registered under the Federal Investment Company Act of 1940 and received the highest credit rating, is rated in one of the two highest rating categories by a statistical rating agency, and all of the investments have a final maturity of thirteen months or less
- General obligations rated “A” or better; revenue obligations rated “AA” or better
- General obligations of the Minnesota Housing Finance Agency rate “A” or better
- Bankers acceptances of United States banks eligible for purchase by the Federal Reserve System
- Commercial paper issued by United States banks corporations or their Canadian subsidiaries, of highest quality category by a least two nationally recognized rating agencies, and maturing in 270 days or less
- Guaranteed investment contracts guaranteed by United States commercial banks or domestic branches of foreign banks or United States insurance companies if similar debt obligations of the issuer or the collateral pledged by the issuer is in the top two rating categories
- Repurchase or reverse purchase agreement and securities lending agreements financial institutions qualified as a “depository” by the government entity, with banks that are members of the Federal Reserve System with capitalization exceeding \$10,000,000, a primary reporting dealer in U.S. government securities to the Federal Reserve Bank of New York, or certain Minnesota securities broker-dealers

B. Investments (Continued)

At June 30, 2017, the District's investment balances were as follows:

<u>Investments Measured at Fair Value</u>	Fair Value
U.S. Treasuries with Maturities at Purchase of Greater Than 1 Year	\$ 1,384,559
Federal Home Loan Bank	427,842
Federal Home Loan Mortgage Corp.	575,725

MSDLAF+ Max Class	54,470,480
	<u>\$ 69,176,442</u>
Total District Investments	<u>\$ 85,618,296</u>

Credit Risk – Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization.

Interest Rate Risk – Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. The District's investment policies do not limit the maturities of investments; however, when purchasing investments the District considers such things as interest rates and cash flow needs.

Concentration of Credit Risk – The District places no limit on the amount that the District may invest in any on issuer. The District had no investments at June 30, 2017 which individually comprised more than 5% of total investments.

The deposits and investments are presented in the financial statements as follows:

Cash and Investments - Statement of Net Position	\$ 85,527,917
Cash and Investments - Statement of Fiduciary Net Position	90,427
Total Cash and Investments	<u>\$ 85,618,344</u>

C. Fair Value Measurements

The District uses fair value measurements to record fair value adjustments to certain assets and liabilities and to determine fair value disclosures.

The District follows an accounting standard which defines fair value, establishes a framework for measuring fair value, establishes a fair value hierarchy based on the quality of inputs used to measure fair value, and requires expanded disclosures about fair value measurements. In accordance with this standard, the District has categorized its investments, based on the priority of the inputs to the valuation technique, into a three-level fair value hierarchy. The fair value hierarchy gives the highest priority to quotes prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). If the inputs used to measure the financial instruments fall within different levels of the hierarchy, the categorization is based on the lowest level input that is significant to the fair value measurement of the instrument.

**HOPKINS PUBLIC SCHOOLS
INDEPENDENT SCHOOL DISTRICT NO. 270
NOTES TO BASIC FINANCIAL STATEMENTS
JUNE 30, 2017**

NOTE 2 DEPOSITS AND INVESTMENTS (CONTINUED)

C. Fair Value Measurements (Continued)

Financial assets and liabilities recorded on the combined statements of financial position are categorized based on the inputs to the valuation techniques as follows:

Level 1 – Financial assets and liabilities are valued using inputs that are unadjusted quoted prices in active markets accessible at the measurement date of identical financial assets and liabilities.

Level 2 – Financial assets and liabilities are valued based on quoted prices for similar assets or inputs that are observable, either directly or indirectly, for substantially the full term through corroboration with observable market data.

Level 3 – Financial assets and liabilities are valued using pricing inputs which are unobservable for the asset, inputs that reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing the asset.

Assets of the District measured at fair value on a recurring basis:

<u>Investment</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
U.S. Treasuries with Maturities at Purchase of Greater Than One Year	\$ 1,384,559	\$ -	\$ -	\$ 1,384,559
Federal Home Loan Bank	427,842	-	-	427,842
Federal Home Loan Mortgage Corp.	575,725	-	-	575,725
Federal National Mortgage Association	1,953,267	-	-	1,953,267
Federal Farm Credit Bank	459,320	-	-	459,320
Municipal Bonds	-	9,563,709	-	9,563,709

	<u>\$ 21,531,893</u>	<u>\$ 491,930</u>	<u>\$ -</u>	<u>16,441,854</u>
Investments Measured at Amortized Cost				<u>69,176,442</u>
				<u>\$ 85,618,296</u>

Debt and equity securities as well as governmental agencies securities classified in Level 1 of the fair value hierarchy are valued using prices quoted in active markets for those securities. Debt securities classified in Level 2 of the fair value hierarchy are valued using a matrix pricing technique. Matrix pricing is used to value securities based on the securities' relationship to benchmark quoted prices.

C. Description of Long-Term Debt

General Obligation School Building Bonds

These bonds were issued to finance acquisition, construction, and/or improvement of capital facilities or to refinance (refund) previous bond issues. Assets of the Debt Service Fund, together with scheduled future ad valorem tax levies, are dedicated for the retirement of these bonds. Total deferred tax levies are available to retire bond principal and interest payable. These levies are subject to reduction if fund balances exceed limitations imposed by Minnesota law. In addition, assets are available in an escrow account to be used for the repayment of certain refunded bonds.

On April 13, 2011, the District issued \$3,000,000 of General Obligation School Building Bonds, Series 2011B. The proceeds of this issue were used to finance safety and security improvements and parking lot improvements.

On June 27, 2012, the District issued \$6,120,000 General Obligation School Building Refunding Bonds, Series 2012A, to finance an advanced crossover refunding of the 2014 through 2022 maturities of the District's \$9,870,000 General Obligation School Building Bonds, Series 2004A.

On May 16, 2013, the District issued \$18,940,000 General Obligation Refunding Bonds, Series 2013B, to finance an advanced crossover refunding of the 2016 through 2026 maturities of the District's \$30,900,000 General Obligation Alternative Facilities Bonds, Series 2006.

On May 21, 2015, the District issued \$4,425,000 General Obligation Capital Facilities Bonds, Series 2015B. The proceeds of this issue were used to finance energy conservation measures throughout the District.

On November 12, 2015, the District issued \$18,305,000 General Obligation School Building Refunding Bonds, Series 2015C, to finance an advance refunding of the 2017 through 2022 maturities of the District's \$32,045,000 General Obligation School Building Refunding Bonds, Series 2006C.

General Obligation Alternative Facilities Bonds

On May 19, 2009, the District issued \$24,300,000 of General Obligation Alternative Facilities Bonds, Series 2009B. The proceeds of this issue were used to finance the acquisition and betterment of projects included in the District's 10-year facility plan.

On April 13, 2011, the District issued \$29,410,000 of General Obligation Alternative Facilities Bonds, Series 2011A. The proceeds of this issue were used to finance the acquisition and betterment of projects included in the District's 10-year facility plan.

On May 16, 2013, the District issued \$16,090,000 of General Obligation Alternative Facilities Bonds, Series 2013A. The proceeds of this issue were used to finance the acquisition and betterment of projects included in the District's 10-year facility plan.

General Obligation Alternative Facilities Bonds (Continued)

On May 21, 2015, the District issued \$10,120,000 of General Obligation Alternative Facilities Bonds, Series 2015A. The proceeds of this issued were used to finance the acquisition and betterment of projects included in the District's 10-year facility plan.

General Obligation Facilities Maintenance Bonds

On January 25, 2017, the District issued \$14,140,000 of General Obligation Facilities Maintenance Bonds, Series 2017A. The proceeds of this issue will be used to finance facility maintenance projects included in the ten-year facility plan of the District.

General Obligation Taxable OPEB Bonds

The District raised funds for Other Postemployment Benefits through the issuance of General Obligation Taxable Bonds during fiscal years 2009 and 2010.

The Series 2009A issue was in the amount of \$10,100,000 and sold on January 15, 2009. The proceeds from this issue were used to finance the District's Net OPEB Obligations under GASB 45 (see Note 8 for information on the District's OPEB Obligation).

The Series 2009C issue was in the amount of \$9,335,000 and sold on October 20, 2009. The proceeds from this issue were used to finance the District's Net OPEB Obligations under GASB 45 (see Note 8 for information on the District's OPEB Obligation).

Capital Leases Payable

On October 10, 2013, the District entered into a lease-purchase financing agreement with Capital One Public Funding, LLC to finance the acquisition of, and renovations and improvements to, an existing building that is adjacent to Meadowbrook Elementary as well as to add an addition to Meadowbrook Elementary. The total financed was \$4,273,000, with an interest rate of 3.75% and requires the District to make semi-annual principal and interest payments through January 15, 2029.

On February 19, 2014, the District entered into a lease-purchase financing agreement with Capital One Public Funding, LLC to finance the addition of a gymnasium at Tanglen Elementary School. The total financed was \$4,217,000, with an interest rate of 3.65% and requires the District to make semi-annual principal and interest payments through April 1, 2029.

On December 29, 2016, the District entered into a lease-purchase financing agreement with First Resource Bank to finance the construction, installation, and equipping of synthetic turf fields at Hopkins High School. The total financed was \$3,667,000, with an interest rate of 2.50% and requires the District to make semi-annual principal and interest payments through February 1, 2027.

NOTE 7 DEFINED BENEFIT PENSION PLANS

Substantially all employees of the School are required by state law to belong to pension plans administered by Teachers' Retirement Association (TRA) or Public Employees' Retirement Association (PERA), all of which are administered on a statewide basis. Disclosures relating to these plans follows:

A. Plan Description

The District participates in the following cost-sharing, multiple employer defined benefit pension plans administered by the Public Employees Retirement Association (PERA) and Teachers Retirement Fund (TRA). PERA's and TRA's defined benefit pension plans are established and administered in accordance with Minnesota Statutes. PERA's and TRA's defined benefit pension plans are tax qualified plans under Section 401(a) of the Internal Revenue Code.

1. General Employees Retirement Plan (GERF)

PERA's defined benefit pension plans are established and administered in accordance with Minnesota Statutes, Chapters 353 and 356. All full-time and certain part-time employees of the District other than teachers are covered by the General Employees Retirement Fund (GERF). GERF members belong to either the Coordinated Plan or the Basic Plan. Coordinated Plan members are covered by Social Security and Basic Plan members are not. The Basic Plan was closed to new members in 1967. All new members must participate in the Coordinated Plan.

2. Teachers Retirement Fund (TRA)

TRA administers a Basic Plan (without Social Security coverage) and a Coordinated Plan (with Social Security coverage) in accordance with Minnesota Statutes, Chapters 354 and 356. TRA is a separate statutory entity and administered by a Board of Trustees. The Board consists of four active members, one retired member and three statutory officials.

Teachers employed in Minnesota's public elementary and secondary schools, charter schools, and certain educational institutions maintained by the state (except those teachers employed by the City of St. Paul and by the University of Minnesota system) are required to be TRA members. State university, community college, and technical college teachers first employed by the Minnesota State Colleges and Universities (MnSCU) may elect TRA coverage within one year of eligible employment. Alternatively, these teachers may elect coverage through the Defined Contribution Retirement Plan (DCR) administered by MnSCU.

NOTE 7 DEFINED BENEFIT PENSION PLANS (CONTINUED)

B. Benefits Provided

PERA and TRA provide retirement, disability, and death benefits. Benefit provisions are established by state statute and can only be modified by the state legislature.

PERA: Benefit increases are provided to benefit recipients each January. Increases are related to the funding ratio of the plan. Members in plans that are at least 90% funded for two consecutive years are given 2.5% increases. Members in plans that have not exceeded 90% funded, or have fallen below 80%, are given 1% increases.

TRA: Postretirement benefit increases are provided to eligible benefit recipients each January. The TRA increase is 2.0%. After the TRA funded ratio exceeds 90% for two consecutive years, the annual postretirement benefit will increase to 2.5%.

The benefit provisions stated in the following paragraphs of this section are current provisions and apply to active plan participants. Vested, terminated employees who are entitled to benefits but are not receiving them yet are bound by the provisions in effect at the time they last terminated their public service.

1. GERS Benefits

Benefits are based on a member's highest average salary for any five successive years of allowable service, age, and years of credit at termination of service. Two methods are used to compute benefits for PERA's Coordinated and Basic Plan members. The retiring member receives the higher of a step-rate benefit accrual formula (Method 1) or a level accrual formula (Method 2). Under Method 1, the annuity accrual rate for a Basic Plan member is 2.2% of average salary for each of the first ten years of service and 2.7% for each remaining year. The annuity accrual rate for a Coordinated Plan member is 1.2% of average salary for each of the first ten years and 1.7% for each remaining year. Under Method 2, the annuity accrual rate is 2.7% of average salary for Basic Plan members and 1.7% for Coordinated Plan members for each year of service. For members hired prior to July 1, 1989, a full annuity is available when age plus years of service equal 90 and normal retirement age is 65. For members hired on or after July 1, 1989, normal retirement age is the age for unreduced Social Security benefits capped at 66. Disability benefits are available for vested members, and are based upon years of service and average high-five salary.

NOTE 7 DEFINED BENEFIT PENSION PLANS (CONTINUED)

B. Benefits Provided (Continued)

2. TRA Benefits

TRA provides retirement benefits as well as disability benefits to members, and benefits to survivors upon death of eligible members. Benefits are established by Minnesota Statute and vest after three years of service credit. The defined retirement benefits are based on a member's highest average salary for any five consecutive years of allowable service, age, and a formula multiplier based on years of credit at termination of service.

Two methods are used to compute benefits for TRA's Coordinated and Basic Plan members. Members first employed before July 1, 1989, receive the greater of the Tier I or Tier II benefits as described.

Tier 1 Benefits

Tier 1	Step Rate Formula	Percentage
Basic	First Ten Years of Service	2.2% per Year
	All Years After	2.7% per Year
Coordinated	First Ten Years if Service Years Are Up to July 1, 2006	1.2% per Year
	First Ten Years if Service Years Are July 1, 2006 or After	1.4% per Year
	All Other Years of Service if Service Years Are Up to July 1, 2006	1.7% per Year
	All Other Years of Service if Service Years Are July 1, 2006 or After	1.9% per Year

With these provisions:

- (a) Normal retirement age is 65 with less than 30 years of allowable service and age 62 with 30 or more years of allowable service.
- (b) 3.0% per year early retirement reduction factor for all years under normal retirement age.
- (c) Unreduced benefits for early retirement under a Rule-of-90 (age plus allowable service equals 90 or more).

or

Tier II Benefits

For years of service prior to July 1, 2006, a level formula of 1.7% per year for coordinated members and 2.7% per year for basic members. For years of service July 1, 2006 and after, a level formula of 1.9% per year for Coordinated members and 2.7% for Basic members applies. Beginning July 1, 2015, the early retirement reduction factors are based on rates established under Minnesota Statute. Smaller reductions, more favorable to the member, will be applied to individuals who reach age 62 and have 30 years or more of service credit.

Members first employed after June 30, 1989, receive only the Tier II calculation with a normal retirement age that is their retirement age for full Social Security retirement benefits, but not to exceed age 66.

NOTE 7 DEFINED BENEFIT PENSION PLANS (CONTINUED)

B. Benefits Provided (Continued)

2. TRA Benefits (Continued)

Six different types of annuities are available to members upon retirement. The No Refund Life Plan is a lifetime annuity that ceases upon the death of the retiree - no survivor annuity is payable. A retiring member may also choose to provide survivor benefits to a designated beneficiary(ies) by selecting one of the five plans that have survivorship features. Vested members may also leave their contributions in the TRA Fund upon termination of service in order to qualify for a deferred annuity at retirement age. Any member terminating service is eligible for a refund of their employee contributions plus interest.

C. Contributions

Minnesota Statutes, Chapter 353 sets the rates for employer and employee contributions. Contribution rates can only be modified by the state legislature.

1. GEF Contributions

Basic Plan members and Coordinated Plan members were required to contribute 9.1% and 6.5%, respectively, of their annual covered salary in fiscal year 2017. In fiscal year 2017, the District was required to contribute 11.78% of pay for Basic Plan members and 7.5% for Coordinated Plan members. The District's contributions to the GEF for the plan's fiscal year ended June 30, 2017 were \$1,565,730. The District's contributions were equal to the required contributions for each year as set by state statute.

2. TRA Contributions

Per Minnesota Statutes, Chapter 354 sets the contribution rates for employees and employers. Rates for each fiscal year were:

	2017	
	Employee	Employer
Basic	11.0%	11.5%
Coordinate	7.5%	7.5%

The District's contributions to TRA for the plan's fiscal year ended June 30, 2017 were \$3,399,100. The District's contributions were equal to the required contributions for each year as set by state statute.

D. Pension Costs

1. GERS Pension Costs

At June 30, 2017, the District reported a liability of \$24,301,675 for its proportionate share of the GERS's net pension liability. The District's net pension liability reflected a reduction due to the state of Minnesota's contribution of \$6 million to the fund in 2016. The state of Minnesota is considered a nonemployer contributing District and the state's contribution meets the definition of a special funding situation. The state of Minnesota's proportionate share of the net pension liability associated with the District totaled \$317,389. The net pension liability was measured as of June 30, 2016, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's proportion of the net pension liability was based on the District's contributions received by PERA during the measurement period for employer payroll paid dates from July 1, 2015, through June 30, 2016, relative to the total employer contributions received from all of PERA's participating employers. At June 30, 2017, the District's proportion was 0.2993%, which was a decrease of 0.01421 from its proportion measured as of June 30, 2016.

For the year ended June 30, 2017, the District recognized pension expense of \$1,071,315 for its proportionate share of GERS's pension expense. In addition, the District recognized an additional \$94,637 as pension expense (and corresponding grant revenue) for its proportionate share of the state of Minnesota's contribution of \$6 million to the General Employees Fund.

At June 30, 2017, the District reported its proportionate share of GERS's deferred outflows of resources and deferred inflows of resources from the following sources:

Description	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences Between Expected and Actual		
Economic Experience	\$ 71,924	\$ 1,974,151

D. Pension Costs (Continued)

1. GERF Pension Costs (Continued)

A total of \$1,565,730 reported as deferred outflows of resources related to pensions resulting from District contributions to GERF subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2018. Other amounts reported as deferred outflows and inflows of resources related to GERF pensions will be recognized in pension expense as follows:

Year Ending June 30,	Pension Expense Amount
2018	\$ 1,236,441
2019	681,522
2020	2,150,277
2021	877,819

2. TRA Pension Costs

At June 30, 2017, the District reported a liability of \$205,917,648 for its proportionate share of TRA's net pension liability. The net pension liability was measured as of June 30, 2016, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's proportion of the net pension liability was based on the District's contributions to TRA in relation to total system contributions including direct aid from the State of Minnesota, City of Minneapolis, and Minneapolis School District. The District's proportionate share was 0.8633% at the end of the measurement period and 0.8628% for the beginning of the period.

The pension liability amount reflected a reduction due to direct aid provided to TRA. The amount recognized by the District as its proportionate share of the net pension liability, the direct aid, and total portion of the net pension liability that was associated with the District were as follows:

Description	Amount
District's Proportionate Share of the TRA Net Pension Liability	\$ 205,917,648
State's Proportionate Share of the Net Pension Liability Associated with the District	20,669,786

There was a change in benefit provisions that affected the measurement of the total pension liability since the prior measurement date. Post-retirement benefit adjustments are now assumed to remain level at 2.0% annually. While in the previous measurement the COLA increased to 2.5% in 2034.

District Contributions Subsequent to the Measurement Date	3,399,100	-
Total	<u>\$ 131,770,814</u>	<u>\$ 2,003,452</u>

A total of \$3,399,100 reported as deferred outflows of resources related to pensions resulting from District contributions to TRA subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2018. Other amounts reported as deferred outflows and inflows of resources related to TRA will be recognized in pension expense as follows:

Year Ending June 30,	Pension Expense Amount
2018	\$ 24,743,633
2019	24,743,633
2020	27,760,772

NOTE 7 DEFINED BENEFIT PENSION PLANS (CONTINUED)

E. Actuarial Assumptions

The total pension liability in the June 30, 2016, actuarial valuation was determined using the following actuarial assumptions:

Assumptions	GERF	TRA
Inflation	2.50% per Year	2.75%
Active Member Payroll Growth	3.25% per Year	3.80% Based on Years of Service
Investment Rate of Return	7.50%	8.00%

Salary increases were based on a service-related table. Mortality rates for active members, retirees, survivors and disabilitants were based on RP 2014 tables for the proper group, with slight adjustments. Cost of living benefit increases for retirees are assumed to be 1.0% per year for all future years for the General Employees Plan. Cost of living benefit increases for retirees are assumed to be 2.0% per year for all future years for the TRA.

Actuarial assumptions used in the June 30, 2016, valuation were based on the results of actuarial experience studies. The most recent four-year experience study in the General Employees Plan and TRA was completed in 2015.

The following changes in actuarial assumptions for the General Employees Fund occurred in 2016:

- The assumed postretirement benefit increase rate was changed from 1.0% per year through 2035 and 2.5% per year thereafter to 1.0% per year for all future years.
- The assumed investment rate of return was changed from 7.9% to 7.5%. The single discount rate was changed from 7.9% to 7.5%.
- Other assumptions were changed pursuant to the experience study dated June 30, 2015. The assumed future salary increases, payroll growth, and inflation were decreased by 0.25% to 3.25% for payroll growth and 2.50% for inflation.

There was a change in actuarial assumptions that affected the measurement of the total liability for TRA since the prior measurement date. Postretirement benefit adjustments are now assumed to increase from 2.0% annually. The prior year valuation assumed a 2.5% increase commencing July 1, 2034.

NOTE 7 DEFINED BENEFIT PENSION PLANS (CONTINUED)

F. Actuarial Assumptions (Continued)

The long-term expected rate of return on pension plan investments is 7.5% for GERP and 4.66% for TRA. The State Board of Investment, which manages the investments of PERA, prepares an analysis of the reasonableness of the long-term expected rate of return on a regular basis using a building-block method in which best-estimate ranges of expected future rates of return are developed for each major asset class. These ranges are combined to produce an expected long-term rate of return by weighting the expected future rates of return by the target asset allocation percentages.

The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Domestic Equity	45 %	5.50%
International Equity	15	6.00%
Bonds	18	1.45%
Alternative Assets	20	6.40%
Cash	2	0.50%
Totals	<u>100 %</u>	

G. Discount Rate

The discount rate used to measure the total General Employees Plan pension liability in 2016 was 7.50%, a reduction from the 7.9% used in 2015. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and employers will be made at rates set in Minnesota Statutes. Based on these assumptions, the fiduciary net position of the General Employees Fund was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

The discount rate used to measure the TRA pension liability was 4.66%. This is a decrease from the discount rate at the prior measurement date of 8.00%. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the fiscal 2017 contribution rate, contributions from school districts will be made at contractually required rates (actuarially determined), and contributions from the state will be made at current statutorily required rates. Based on those assumptions, the pension plan's fiduciary net position was projected to be depleted in 2052 and, as a result, the Municipal Bond Index Rate was used in the determination of the Single Equivalent Interest Rate (SEIR). The long-term expected rate of return was applied to periods before 2052 and the Municipal Bond Index Rate of 3.01% was applied to periods on and after 2052, resulting in a SEIR of 4.66%. Based on Fiduciary Net Position at the prior year measurement date, the discount rate of 8.00% was used and it was not necessary to calculate the SEIR.

Detailed information about TRA's fiduciary net position is available in a separately-issued TRA financial report. That report can be obtained at www.MinnesotaTRA.org; by writing to TRA at 60 Empire Drive #400, St. Paul, Minnesota, 55103-2088; or by calling (651) 296-2409 or 1-800-652-9026.

NOTE 8 SUPPLEMENTAL PENSION PLAN

A. Plan Description

The District provides a single-employer defined benefit supplemental pension benefit to eligible employees. Currently, certain groups of employees are eligible to retire and receive the pension supplement after the completion of a minimum amount of years of service and, for some employee groups, the attainment of age 55. Benefits range from a flat dollar amount to percentages of annual salary up to a maximum of 100% of annual salary. Certain benefits are also dependent on the number of unused sick days remaining.

Currently, there are 1,030 active employees who are eligible to receive benefits under the plan as of July 1, 2016.

NOTE 8 SUPPLEMENTAL PENSION PLAN (CONTINUED)

B. Funding Policy

Payments under the plan are made on a pay-as-you-go basis. There are no invested plan assets accumulated for the payment of future benefits. The General Fund is used for funding all of the pension/retirement benefits. The employer makes all contributions.

C. Total Pension Liability

The District recognizes its total pension liability, rather than a net pension liability. In order for the District to recognize a net pension liability, assets must be accumulated in a trust that meets the following criteria:

- Contributions from the employer and nonemployer contributing entities, and the earnings thereon, must be irrevocable.
- Pension plan assets must be dedicated to providing pensions to Plan members in accordance with benefit terms.
- Pension plan assets must be legally protected from the creditors of employer-nonemployer contributing entities, the Plan administrator, and the Plan members.

No assets are accumulated in a trust that meets all of the above criteria. Accordingly, the District's total pension liability is not reduced by any assets accumulated, and the District must report its total pension liability.

The District's total pension liability was determined by an actuarial valuation as of July 1, 2016 (the measurement date). At June 30, 2017, the District reported a total pension liability of \$9,987,684. Changes in the District's total pension liability were as follows:

Total Pension Liability - June 30, 2016	\$	9,984,488

D. Pension Costs

For the year ended June 30, 2017, the District recognized pension expense of (\$932,321). At June 30, 2017, the District reported deferred outflows of resources and deferred inflows of resources related to the Plan from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources

NOTE 9 OTHER POSTEMPLOYMENT BENEFITS PAYABLE

At June 30, 2009, the District adopted Governmental Accounting Standards Board (GASB) Statement No. 45, *Accounting and Financial Reporting by Employers for Postemployment Benefits Other than Pensions*. The District engaged an actuary to determine the District's liability for postemployment healthcare benefits other than pensions as of July 1, 2016.

A. Plan Description

The District operates a single-employer retiree benefit plan (the Plan) that provides health and dental insurance to eligible employees and their spouses through the District's health insurance plan. There are 1,184 active participants, 78 retired participants and 6 spouses. Benefit and eligibility provisions are established through individual contracts and negotiations between the District and various unions representing District employees and are renegotiated each two-year bargaining period. The Plan does not issue a publicly available financial report.

B. Funding Policy

Contribution requirements are also negotiated between the District and union representatives. The eligibility for, amount of, duration of, and District's contribution to the cost of the benefits provided varies by contract and date of retirement. For fiscal year 2017, the District contributed \$1,170,163 to the plan.

C. Annual OPEB Cost and Net OPEB Obligation

The District's annual other postemployment benefit (OPEB) cost (expense) is calculated based on the annual required contribution (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any un-funded actuarial liabilities over a period not to exceed 30 years. The following table shows the components of the District's annual OPEB cost for the year, the amount actually paid from the plan, and changes in the District's net OPEB obligation.

Annual Required Contribution	\$ 4,629,590
Interest on Net OPEB Obligation	417,156
Adjustment to Annual Required Contribution	(824,314)
Annual OPEB Cost (Expense)	<u>4,222,432</u>
Contributions Made	<u>(1,170,163)</u>

NOTE 8 OTHER POSTEMPLOYMENT BENEFITS PAYABLE (CONTINUED)

The District's annual OPEB cost, the percentage of the annual OPEB cost contributed to the plan, and the net OPEB obligation for 2017, 2016, and 2015 were as follows:

Fiscal Year Ended	Annual OPEB Cost	Percentage of Annual OPEB Cost Contributed	Net OPEB Obligation (Asset)
6/30/2017	\$ 4,222,432	27.71%	\$ 14,971,005
6/30/2016	3,257,266	35.45%	11,918,736
6/30/2015	3,119,214	41.10%	9,816,050

D. Funded Status and Funding Progress

As of July 1, 2016, the most recent actuarial valuation date, the District's unfunded actuarial accrued liability (UAAL) was \$25,284,168. The annual payroll for active employees covered by the plan in the actuarial valuation was \$59,458,769 for a ratio of UAAL to covered payroll of 42.52%. As indicated in Note 4, the District has issued taxable OPEB bonds and placed the proceeds of the bonds in a revocable trust with the intention of funding the OPEB liability each year on a pay as you go basis from the revocable trust fund. As of June 30, 2017, the net position of the revocable trust totaled \$16,937,986, which is 67% of the actuarially accrued liability.

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and healthcare cost trends. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

NOTES TO BASIC FINANCIAL STATEMENTS

NOTE 8 OTHER POSTEMPLOYMENT BENEFITS PAYABLE (CONTINUED)

E. Actuarial Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the July 1, 2016 actuarial valuation, the projected unit credit actuarial cost method was used. The actuarial assumptions included a 3.5% discount rate which is a blended rate of the expected long-term investment returns on plan assets and on the employer's own investments calculated based on the funded level of the plan at the valuation date. The initial healthcare trend rate was 6.75%, reduced by decrements to an ultimate rate of 5% after seven years. The UAAL is being amortized as a level dollar amount on a closed basis. The remaining amortization period at June 30, 2017 was not to exceed 30 years.

NOTE 10 FLEXIBLE BENEFIT PLAN

The District has a flexible benefit plan which is classified as a "cafeteria plan" under Section 125 of the Internal Revenue Code. All employee groups of the District are eligible if and when the collective bargaining agreement or contract with their group allows eligibility. Eligible employees can elect to participate by contributing pre-tax dollars withheld from payroll checks to the plan for health care and dependent care benefits.

Before the beginning of the plan year, which is July 1 to June 30, each participant designates a total amount of pre-tax dollars to be contributed to the plan during the year. At June 30, the District is contingently liable for claims against the total amount of participants' annual contributions to the plan, whether or not such contributions have been made.

All assets of the plan are held in a separate bank account, administered by a third-party administrator. Payments are made by the District to participating employees upon submitting a request for reimbursement of eligible expenses incurred by the participant. Payments of insurance premiums (health, dental, life, and disability) are made by the District directly to the designated insurance companies. These payments are made on a monthly basis and all plan activity is included in the financial statements as a Private-Purpose Trust Fund.

All plan property and income attributable to that property is solely the property of the District, subject to the claims of the District's general creditors. Participants' rights under the plan are equal to those of general creditors of the District in an amount equal to eligible health care and dependent care expenses incurred by the participants. The District believes that it is unlikely that it will use the assets to satisfy the claims of general creditors in the future.

**HOPKINS PUBLIC SCHOOLS
INDEPENDENT SCHOOL DISTRICT NO. 270
NOTES TO BASIC FINANCIAL STATEMENTS

NOTE 11 HEALTH AND DENTAL SELF-INSURANCE PLAN

The District maintains an Internal Service Fund to account for and finance a self-insurance program for health and dental benefits. Accordingly, the District has not purchased outside insurance for the risks of losses to which it is exposed for amounts under its stop-loss limit of \$100,000 at which point reinsurance coverage is available. District management believes it is more economical to manage its risks internally and set aside assets for claim settlement. The Internal Service Fund currently services all claims and risk of loss to which the District is exposed for health and dental expenses.

Participants in the program make premium payments to the fund based on the insurance premium. The excess amount received above current year claims is used to establish a reserve for future claims. At June 30, 2017, there is a reserve of \$4,596,730.

District liabilities are reported when it is probable that a loss has occurred and the amount of that loss can be reasonably estimated. Liabilities include an amount for claims that have been incurred but not reported. Because actual claim liabilities depend on such complex factors as inflation, changes in legal doctrines, and damage awards, the process used in computing a claim liability does not necessarily result in an exact amount. Claims liabilities are re-evaluated periodically to take into consideration recently settled claims, the frequency of claims, and other economic and social factors.

There were no liabilities in excess of claims paid at June 30, 2017. There is a possibility for loss if claims are in excess of the premiums collected. The District does not believe this occurrence would have a material financial effect on the District. The District held \$6,499,677 in cash and investments at June 30, 2017 for payment of claims.

Changes in the balances of claim liabilities during fiscal years 2017 and 2016 were as follows:

	<u>2017</u>	<u>2016</u>
Beginning of Fiscal Year Liability - July 1,	\$ 700,001	\$ 729,927

NOTE 12 COMMITMENTS AND CONTINGENCIES

A. Federal and State Programs

Amounts received or receivable from federal and state agencies are subject to agency audit and adjustment. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable fund. The amount, if any, of funds which may be disallowed by the agencies cannot be determined at this time although the District expects such amounts, if any, to be immaterial.

B. Operating Leases

In November 1997, the District entered into a lease agreement with the Housing and Redevelopment Authority in and for the City of Hopkins. The District is leasing a building owned by the City to be used for the Hopkins Center for the Arts. The lease had an initial term of 10 years with a 10-year renewal period at the District's discretion. The District renewed the lease for an additional 10 years extending through October 2017. The rent is \$100,000 per year.

In June 2013, the District entered into a lease agreement with Hennepin County for the lease of space in the Wells Fargo Building in Hopkins for the District's Resource West Program. The lease terms extend for ten years through August 31, 2023 and include annual lease payments ranging from \$30,136 to \$31,564.

Future minimum lease payments required under these operating leases are as follows:

Year Ending June 30,	Amount
2018	\$ 64,714
2019	31,528
2020	31,607

C. Joint Powers Agreement

The District entered into a joint powers agreement with the City of Minnetonka to provide for the joint construction, use, maintenance, and operation of the Lindbergh Center, a multi-use athletic and community center. As specified in the agreement and related management plan, the District and the City will share in the proportionate costs to build, maintain, and operate the facility. The agreement also outlines finance-related issues such as revenue sharing.

Operating results of the Lindbergh Center for fiscal 2016-2017 are as follows:

	<u>School District</u>	<u>City</u>
Total Expenditures	\$ 256,119	\$ 104,612
Total Revenue	(61,668)	(25,189)
Final Operating Costs to Respective Government	<u>\$ 194,451</u>	<u>\$ 79,423</u>

D. Construction Commitments

At June 30, 2017, the District is committed to approximately \$5.4 million in contracts in progress.

Sources: Taxable value data used to estimate applicable percentages and Debt outstanding data provided by the District's financial advisor, Ehlers.

Notes: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the district. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of the district. This process recognizes that, when considering the district's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt, of each overlapping government. The method used to determine the percentage of overlapping debt is representative of area and geographic jurisdiction.

Source: Square footage, capacity and athletic statistics are derived from District records. Enrollment was obtained from "School Average Daily Membership" reports available on the Minnesota Department of Education website.

Notes:

- (1) Enrollment reflects average daily membership served by site. Resident students served under tuition agreements are excluded from this enrollment data.
- (2) Katherine Curren leased to Ubah Academy beginning in 2007-2008 school year through current year.
- (3) Note that 8 fields at the High School are used for football, soccer and lacrosse. The remaining fields are at West Junior High.
- (4) During fiscal year 2015 the District reassessed its building capacities based on recommendations from the Minnesota Department of Education. This resulted in a change in many of the buildings' capacities without actual additions or other alterations to the buildings.

Note 1: Percent of students scoring at or above proficiency on the Minnesota Comprehensive Assessment Test

Note 2: The MCA Reading test in 2013 was for the first time based on the Common Core national standards, which require a significantly higher level of rigor than in previous years. As a result, test scores are not directly comparable with previous MCA Reading test results, since the standards on which the test is based are not the same.

Note 3: The Grade 11 MCA Math results are not representative of Hopkins students. In 2016, 32% of the Grade 11 students opted out of the MCA Math; In 2017, refusals decreased but were still sizable at 15%.

Note 4: ACT data was reported for the high school graduating class through 2014. Beginning in 2015, the Grade 11 district administration is reported.
