SANTA ROSA
Terri Stoker, (850) 469-5425 or 1-888-445-9662

SEDNET REGION I PROJECT MANAGER
Georganna Gordon, (850) 430-7473

SUPPORT STAFF
Jan Ireland, Administrative Secretary II, (850) 469-5422

Emerald Coast Associate Center

FDLRS — Florida Diagnostic & Learning Resources System

fin — Florida Inclusion Network

SEDNET

Emerald Coast Associate Center is a partnership of discretionary projects supporting Florida student achievement

Florida Diagnostic and Learning Resources System

Locally, **FDLRS/Emerald Coast** provides Child Find, Parent, Human Resource Development (including two endorsement opportunities), and Technology services in Escambia, Okaloosa and Santa Rosa counties.

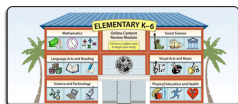

Child Find connects children potentially in need of exceptional education services, via free screenings, to services in the public schools. Click here to make a referral to Child Find, or visit the "Child Find" tab at www.fdlrsemeraldcoast.org.

Parent Services provides consultation and workshops of interest to families of exceptional and gifted education students. View various workshop and meeting opportunities at www.fdlrsemeraldcoast.org, and click the graphics below to learn more about opportunities in Florida.

Human Resource Development specialists provide professional learning opportunities supporting educators and administrators in face-to-face, online, and blended formats. Research-based trainings target the improvement of district and state student achievement goals. Follow up, mentoring, coaching and technical assistance is provided as needed. Trainings are advertised to targeted audiences. To see what is open to all educators, please visit the website at www.fdlrsemeraldcoast.org and view the "Training" tab. Additionally, click on any of the graphics below to learn more about these virtual opportunities:

Endorsements

We are pleased to offer districts the option to use FDLRS' content coursework, developed for endorsements in gifted and in autism spectrum disorders (ASD), at no cost through local FDLRS Centers. In the Emerald Coast service area, FDLRS assist districts to provide gifted endorsement in Okaloosa and Santa Rosa counties, and provides the ASD endorsement program for Escambia and Okaloosa counties.

Technology Services target the specialized hardware, software, app and program needs of students served with an IEP. A preview of hardware, software, some apps and various devices can be arranged for families seeking guidance on appropriate apps, programs or devices to meet the needs of their child. A variety of learning opportunities offered will help parents and school personnel select, use and assess appropriate technical supports.

Florida Inclusion Network

The Florida Inclusion Network (FIN) collaborates with all districts, schools, and discretionary projects to provide customized services and supports to ensure that all students with disabilities have the same educational, social, and future opportunities as their peers. Access the FIN website at floridainclusionnetwork.com.

In partnership with districts, FIN facilitates implementation of best practices for inclusive education through:

- Data-driven, student-focused planning and problem-solving across districts and schools.
- Data-driven professional development and technical assistance to increase knowledge and skills of district and school personnel.
- Coaching and resources for district and school personnel to build and sustain capacity.
- Sharing information to build collaborative relationships between families, schools and districts.

Multi-Agency Network for Students with Emotional/Behavioral Disabilities (SEDNET)

SEDNET creates and facilitates a network of key stakeholders committed to assisting in the provision of a quality system of care for students with or at-risk of emotional and/or behavioral challenges. The areas of focus for SEDNET initiatives include:

- Capacity building
- Technical Assistance and Training
- Interagency Collaboration
- Education and Systems of Care
- Parent and Youth Development and Involvement

In Florida's system of care, SEDNET works with education, mental health, child welfare and juvenile justice professionals, along with other agencies to ensure that children with mental, emotional and behavioral problems, and their families, have access to the services and supports they need to succeed. Access the SEDNET website at www.sednetfl.info.
