

Signature Needed For OPT-OUT Only

Dear Parent(s)/Legal Guardian(s),

In the upcoming weeks, your student will view a video focusing on how the body changes during puberty. Students will be seeing the video under the supervision of their Health Enhancement teacher. Boys and girls will view the video separately.

Billings Schools' philosophy is that students in the 6th grade learn about "parts and plumbing" or what the parts are and how they work. Because of the many bodily changes that they make at this age, this is the appropriate time to present this information.

We wanted to let you know because students may come home with questions that they were not willing to ask in class.

Please complete the bottom portion ONLY if you do not want your child to watch this video and have it returned to your student's Health Enhancement teacher by *February 23, 2022*. Otherwise, no action on your part is necessary.

Thank you.

My student's legal first/last name: _____

Parent/Guardian's first/last name: _____

Parent/Guardian's signature: _____
