**DISCUSSION ITEMS**

**2020 School Start Update**

Superintendent Osei and Cabinet members provided an update on the plans for the start of the 2020-21 school year. Highlights included:

- Overview of the three safe learning models as established by the Minnesota Department of Education under Emergency Executive Order 20-82.
- Minnesota Department of Education and Minnesota Department of Health learning model selection parameters determined by the number of cases per 10,000 over 14 days by county of residence.
- The learning model determination may not be the same for all grades. The research has shown much more limited transmission of COVID-19 in younger children. This combined with understanding that distance learning is more difficult with younger learners and creates a more significant burden on families, should lead districts and schools to always consider ways to keep elementary students in-person where it is safe and possible.
- Required health and safety practices. Also noting that districts and charters may have already decided to be more restrictive in their learning model prior to the consultative process and may choose to engage with a consultant to confirm or modify their plan.
- Recommendation for elementary safe learning model:
  - Start the school year in a **distance learning** model for students in grades K-5.
  - Shift to a **hybrid model** for students in grades K-5 in October 2020 (depending on the COVID-19 cases per county data).

- The hybrid model will include students having in-person classes two days a week and distance learning three days a week (number of days per week for in-person learning is contingent upon the number of families who opt into distance learning)
- One-on-one meetings with all families in early September in-person or via Google Meet
- Recommendation for secondary safe learning model:
  - Start the school year in a **distance learning** model for students in grades 6-12
  - Shift to a **hybrid model** for students in grades 6-12 in October 2020 (depending on the COVID-19 cases per county data)
  - The hybrid model will include students having in-person classes two days a week, distance learning two days a week, and a day for academic support, small group work, tutoring, etc.
  - Orientation for all new, 6th and 9th grade students
- Next steps:
  - Continue to consult the MDH learning model selection parameters
  - Meet with MDH consultant to discuss hybrid model plans for October
  - Finalize for Early Learning plans following MDE/MDH guidance
  - Finalize school age childcare plans following MDE/MDH guidance
  - Align transportation to meet the needs of the hybrid model
  - Communicate district standards for indoor air quality and daily cleaning routines
  - Support staff whose health is at risk or who have members of their household whose health is at risk
