4. Describe the action steps the school/district will take to reduce the opportunity gap in student possession of ASB cards and/or participation in extracurricular activities for the up coming school year.

As a school, we will provide students with the district statement around HB1660. We will send this information to families and students (when it has been provided to us by the district) in our bi-monthly newsletters, on our athletic & club websites, over social media, and in our weekly announcements. We will continue to advocate for consistency across all high schools in our district. We believe no matter the school's income level opportunities for students will be the same across the district. We also believe that the participation numbers pulled this past school year were an anomaly due to the COVID pandemic as participation decreased significantly due to all the sports season being truncated and placed in the spring rather than in their normal cycles. Numbers for all sports were down from previous years due to restriction guidelines because of COVID pandemic for athletics.
