4. Describe the action steps the school/district will take to reduce the opportunity gap in student possession of ASB cards and/or participation in extracurricular activities for the up coming school year.

As a school, we will provide students the district statement around HB1660. We will send this information to families and students (when it has been provided to us by the district) in our bi-monthly newsletters, on our athletic & club sites, over social media and in our weekly announcements. We will continue to work with coaches and club advisors to evaluate the necessary needed items for their club/sport. We will continue to advocate for consistency across all high schools in our district. We believe, no matter the school's income level opportunities for students should be the same across the district.
