

ANNUAL BUDGET

(This policy replaces previously approved Board of Education Policy #3100)

The school budget is the legal basis for the establishment of the tax levy. It is the official document that describes the programs to be offered during a given period of time. It is the operational plan, stated in financial terms, for the conduct of all programs in the school system.

The annual school budget process is important to District operations and serves as a means to improve communications within the school organization and with the residents of the school community.

The budget will be presented to the public in three components to be voted upon as one proposition:

1. Program component: which includes all program expenditures of the District, including the salaries and benefits of teachers and any school administrators or supervisors who spend a majority of their time performing teaching duties, and all transportation operating expenses;
2. Capital component: which includes all transportation capital, debt service and lease expenditures; costs resulting from court judgments, administrative orders or settled or compromised claims; and all facilities costs of the District, including facilities lease expenditures, annual debt service and total debt for all facilities financed by bonds and notes of the District, and costs of construction, acquisition, reconstruction, rehabilitation or improvement of school buildings; and
3. Administrative component: which includes office and central administrative expenses, traveling expenses, salaries and benefits of all certified school administrators and supervisors who spend a majority of their time performing administrative or supervisory duties, all expenditures associated with the operation of the school board, the Office of the Superintendent of Schools, general administration, the School Business Office, any consulting costs not directly related to direct student services and programs, planning, and all other administrative activities.

In addition, each component must be separately delineated in accordance with Regulations of the Commissioner. The budget will categorize revenues, property tax refunds, expenditures, budget transfers and fund balance information, and will be formatted to show changes in the data as compared with the previous year. Finally, the budget will be written in plain language and organized in a manner which best promotes the public's understanding of its contents.

ANNUAL BUDGET

The budget will be distributed to school buildings and the Brentwood Public Library at least seven (7) days before the public hearing at which time the Board will present the budget to the voters. Copies of the budget will be made available upon request to residents within the District (not just District taxpayers) during the 14 days preceding the date of the annual meeting and election at each school building in the District during normal operating hours on each day, other than Saturday, Sunday or holidays. In addition, at least once during the school year, the Board will include in a District-wide mailing, informing the community of the availability of copies of the budget. A budget newsletter will be prepared by the District and made available at the budget hearing.

The following documents will be available for review with the budget:

- A detailed statement of the total compensation to be paid to the Superintendent of Schools, and any assistant superintendent(s) in the coming school year, including a delineation of the salary, annualized cost of benefits and any in-kind or other form of remuneration;
- A list of all other school administrators and supervisors, as specified by the State Education Department, along with their title and annual salary;
- A school district report card detailing the academic and fiscal performance of the District; and
- A property tax report card prepared pursuant to the Regulations of the Commissioner of Education.

The Board may not submit the proposed budget or a related proposition to the voters more than twice. If the voters fail to approve the proposed budget or budget proposition after the second submission, or if the Board elects not to put the proposed budget to a public vote a second time, the Board must adopt a contingency budget.

The Board may use District monies to present educational and informational material about the annual budget and related information to the voters. It shall not, however, use these funds to urge voters to cast their ballots in a particular fashion.
