Dear STSD Families,

Susquehanna Township School District is proud to announce the rollout of our new interactive transportation software, *Traversa Ride 360*. As a parent or guardian, you now have instant access to your student's transportation information and real-time GPS tracker. With its easy set-up and registration, you will be able to see for yourself the estimated time of arrival of your student's bus.

Your student's information can be accessed by installing the **free** app to your smart phone via the app store, [Traversa Ride 360 Mobile App for Android](#) / [Traversa Ride 360 Mobile App for iOS](#), or through the *Traversa Ride 360* website, [Traversa Ride 360 Website](#). To access the GPS tracker, you will need to install and register in the mobile app. Please click on the links below for directions on installing and registering in the *Traversa Ride 360* mobile app and navigating the website. Once your set-up in the mobile app is complete, **you will need to remain signed in** to receive notifications which include route delays and other important information that would impact your student's transportation.

**It is vitally important to note and for you to understand that starting with the 2021-22 school year, all student transportation assignments will need to be accessed through either the mobile app or website. The bus assignment letters will no longer be mailed home as in past years.** Each year your student receives transportation services through the Susquehanna Township School District, you will be notified via an email message prior to the start of school to view your student's new bus assignment through the mobile app or website. Please be sure to notify the school any time there is a change to your contact information, and check for accuracy through the Parent Portal.

As always, feel free to contact the Transportation Department at 717-657-5100, ext. 50162 with any questions you have.

Thank you for your continued support of the Susquehanna Township School District.
