TITLE Student Progress Reports to Parents/Guardians

Reporting pupil progress is an essential aspect of the instructional program. The administration and staff shall work together to improve methods for evaluating and reporting student growth and development in cognitive, effective, and psycho-motor areas. Evaluation and reporting procedures including the interpretation of standardized test results should be designed to enhance student opportunities for learning.

Teachers, building principals, and other appropriate staff members shall communicate with parents regarding pupil progress at any time deemed necessary or beneficial, in addition to the regularly scheduled reporting dates. Provision also shall be made to involve students in periodic conferences regarding their individual progress.
