Acting Principal: Mr Anthony Snape

15 July 2021

Dear Parent/Carer,

As you will have heard through government announcements, there are a number of changes to Covid rules and regulations across society as of Monday 19th July. However, concerning school, I propose not to make any changes in light of these, in order to maintain consistency and stability for the students in their final week of school: masks will still be required when moving around the site and we will still maintain the bubbles for the most part. The only exception to this will be for the arrangements for the final day of term, Friday 23rd July, when years 7 and 8 will enjoy their first combined break time; the same will happen for years 9 and 10. On the final day, students will attend school at their normal time and remain with us until 12:20pm, when they will be dismissed home. Breaks will be extended on this day to allow students to eat/use the cafeteria, including using their FSM allowance if applicable to them.

Next week, I will be hosting Parent Forums ahead of the summer break and to explain about arrangements starting back in September. You should have received an email inviting you to the meeting with a link included.

I will send my final communication of this academic year at the end of next week.

Yours sincerely,

Anthony Snape
Acting Principal
