

LAKE MARY

PREPARATORY SCHOOL

Clinic

Illness or Injury

- Please keep children home if they are sick.
- Children who have a fever of 100.4 °F or above must be fever-free without medication for 24 hours prior to returning back to school.
- Children who have been prescribed antibiotics must wait 24 hours before returning to school.
- Following a doctor's visit for illness or injury, please submit a doctor's note. Please make sure doctor's note releases the child to return to school if he/she has been diagnosed with a contagious illness.
- Please communicate any information to the school nurse regarding student illness that may impact others.

Medication

- Please submit Medication Request Forms indicating the type, frequency, and dosage of any medications to be administered at school by the school nurse. The Medication Request Form can be found in Griffin Connect.
- While the clinic keeps various over-the-counter medications in stock, particular brands for specific students may be labeled with the student's name and given to the school nurse to be kept in the clinic.

Spare Clothing

- The clinic keeps a small supply of spare clothing. If a student borrows a clothing item, please wash and return that item back to the clinic as soon as possible.
