## SUPERINTENDENT'S BUDGET MESSAGE – PROPOSED BUDGET

May 9, 2019

Dear Pleasant Hill School District #1 Budget Committee and Community:

The 2019-20 Pleasant Hill School District (PHSD) budget will provide the educational and support services for Pleasant Hill Elementary, Middle, and High School and the approximately 1,025 students projected to attend our schools during the 2019-20 school year. We are projecting enrollment to increase by approximately 24 students from the 2018-19 projection.

### ***2019-20 General Budget Overview***

The Co-Chair's Recommended Budget states that Oregon continues to face a structural deficit for the 2019-21 biennium that is projected to worsen in the 2021-23 and 2023-25 biennia. No matter the cause, these deficits threaten vital services to vulnerable Oregonians, education funding, the Oregon Health Plan, and ensuring our workforce has the tools and support they need to succeed. We cannot continue to provide the same level of service or meet future critical needs by staying on the same course we have been on for over a decade.

**State School Fund (SSF)** The Co-Chair's Recommended Budget has allocated \$8.87 billion for K-12 education. This is \$100 million

lower than the Governor's Recommended Budget, which was actually fairly close to Current Service Level (CSL). At the Co-Chair's funding level, there are districts in our region that will be making budget cuts. The Oregon Association of School Business Officials have stated the State needs to fund education statewide at \$9.1 billion in order to maintain current levels of educational services for the 2019-21 biennium. Due to continued conservative money management, we are happy to say that PHSD is not proposing to make cuts for the upcoming school year.

### ***The PHSD budget is based on the following premises:***

- Provide a balanced and financially responsible program for our K-12 students that facilitates improving student achievement and provides a safe educational environment.
- Develop a budget document that reflects actual investments, annual revenue, general fund expenditures and real dollar long-term financial liabilities.
- Manage rising PERS costs. Statewide in 1988, PERS cost the district 11.8%. By July 1 of 2019, will be 32.9% of payroll. State economists predict substantial PERS jumps in the next several biennia.

### **2019-20 Priority Focus Areas:**

- Roll forward salaries based on the collective bargaining agreements by an additional \$201,041.
- Roll forward benefits based on the collective bargaining agreements by additional \$293,888.
- We project that we will end the 2018-19 school year with a Maintenance Reserve Fund balance of \$286,373. For the upcoming school year we will add an additional \$160,000 to this fund. A couple of key projects will be the upgrade of the elementary music room and the building of a greenhouse at the secondary level.
- We will be adding \$90,000 to the Textbook Reserve to purchase Social Studies and update Science curriculum in alignment with Oregon State Standards and ESSA (Every Student Success Act).
- Assurance of Maintenance of Effort (MOE) and meeting the needs of our special population students.
- The continuation of the upgrading of school district facilities. State-funded Technical Assistance Program (TAP) grants are awarded to some districts to help determine the level of deferred maintenance and capital construction needs. We were awarded \$25,000 to help create a long-range facility plan and \$25,000 to help create a seismic assessment plan.
- We are proposing to set our Contingency Fund at \$614,918. Historically, contingencies are set at 2% of our operating expenses, which would be \$214,918. There is potential that the State School Fund could finalize closer

to the \$9 billion mark. We believe this could result in an additional \$400,000 to our district. In order to use this potential additional funding, it needs to be added to both revenues and the expenses in this budget. We have added \$400,000 to our State School revenue and \$400,000 to our Contingency Fund. If we are funded at this higher level, the Board can authorize us by Board action to move money from contingency into the General Fund for agreed-upon purposes. Any contingency funds not used in this manner will go into our Ending Fund Balance at the end of the year.

- This budget is projected to leave us with an Ending Fund Balance of \$1,610,899. This equals 14.5% of operating revenues. The Government Finance Officers Association (GFOA) guideline is to reserve no less than two months operating revenues. Because we are on a 10 month expense cycle, this translates into a goal of 20%. If we apply our 1% presumed underspending, our Ending Fund Balance percentage would become 17.4%.

### **Continued Priority Focus Areas:**

- In an effort to keep class sizes at a manageable level we restored 1.0 FTE at the secondary level which was cut coming into the school year of 2018-19.
- Providing continued improvement in the area of Career and Technical Education (CTE) opportunities. We currently have Agriculture as a Program of Study (POS)

recognized by the Oregon Department of Education (ODE). We are looking to add Computer Science, Health Science, and a Wood and Metals program within the next two years, making our programs Perkins-eligible.

- Continued implementation of Smarter Balanced state testing and related Common Core State Standards.
- Continuation of updating our technology access, hardware, software and infrastructure.

**Ongoing Priority Focus Areas for 2019-2020:**

- To graduate all students with high levels of academic and personal achievement. To graduate all students to be prepared for productive, compassionate citizenship through research-based instruction with a collaborative system of support.
- Placeholder funds to complete repairs throughout the Pleasant Hill School District.

**Future Considerations:**

**State Funding:** House Bill (HB) 3427, known as the Student Success Act, is working its way through the Legislature at the time of this writing. The passage of this bill will bring an approximately \$2 billion increase for K-12 education in each succeeding biennium. The current biennium would see an increase of approximately \$951.5 million which would be distributed to three accounts:

- \$190.3 million to Early Learning
- \$285.5 million to Statewide Education Initiatives (including fully funding Measure 98, increasing the High Cost Disability Fund and targeted equity focused initiatives)
- \$475.8 million to a Student Investment Account, formerly known as the School Improvement Fund, where districts can choose to spend it on student social-emotional health and safety, well-rounded educational opportunities, smaller class sizes, and more learning time.

Looking at the budget survey that was conducted by the district this past school year, the number one priority from the responses given to the survey is reducing class sizes. We do need to consider that this means not only additional staffing, but also the building costs to the district to meet this demand. I offer this up as a consideration, as our schools are currently at capacity.

Respectfully submitted,

Scott Linenberger  
Superintendent  
Pleasant Hill School District

## BUDGET SURVEY RESULTS

**Question 1.** *Financial transparency is important to the Pleasant Hill School District. Currently our business manager makes regular reports at monthly School Board meetings. What are other ways we can establish and maintain financial transparency?*

The highest suggestion for establishing/maintaining transparency with regards to the District's finances was clearly **website** posting. Adding this to sending reports via **email or adding to social media**, it is clear that many prefer their results electronically. There are a few who prefer to receive notifications via **printed newsletters**, and even fewer who prefer filling out **surveys** to give their input. Many also felt that the current ways are working well and did not suggest changes be made. (64 responses)

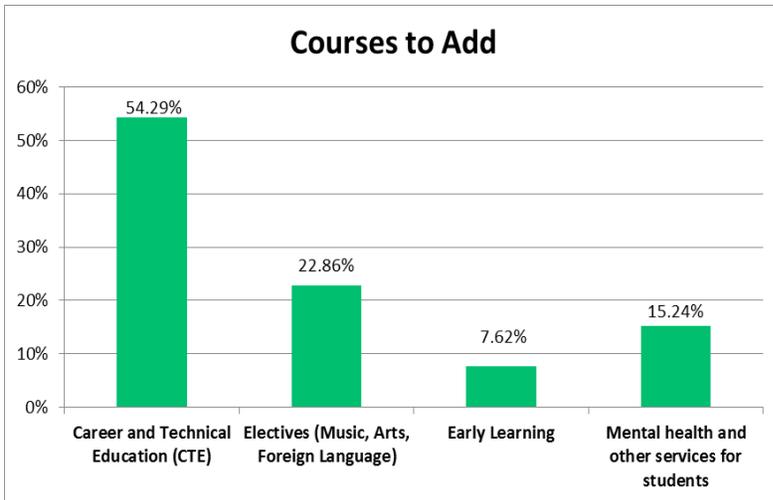

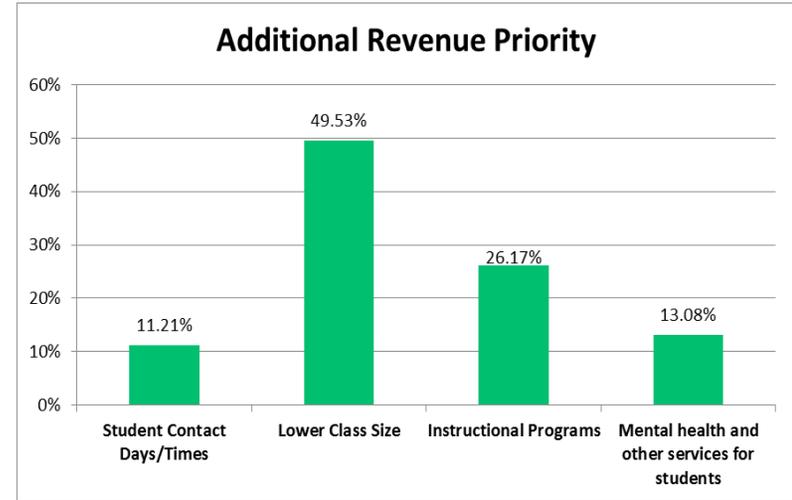

**Question 2.** *During each school year, the School Board completes a budget cycle that includes several steps before the final budget for the next school year is approved in June. One of these steps is receiving input from the community and staff. What are some ideas that would meet this need and get the most participation?*

Ways to improve public participation were primarily through **surveys and public meetings and/or gatherings**. Some suggested posting information for input on social media or sending emails requesting input and informing of upcoming meetings. There were a few who suggested physical mail information. (56 responses)

**Question 3.** In considering our mission, if Pleasant Hill School District received additional revenue, which would be the highest priority?

The biggest suggestion for prioritizing additional revenue was to **lower class sizes**. Reasons given were to allow teachers to better individually assist children, reduce distractions, and increase learning potential. **Adding instructional programs** was an important suggestion with many believing children would benefit by having a better idea of what they want to do in their futures. Both of these options would include adding instructors and would have an effect on the other (lowering class sizes, and adding more course options). **Mental health services** were suggested due to the growing concerns for youth anxiety/depression. Very few opted for adding contact days/times. Those who selected this option stated that children have too much time off and it often leads to distraction and inability to focus when returning to school. (107 responses)

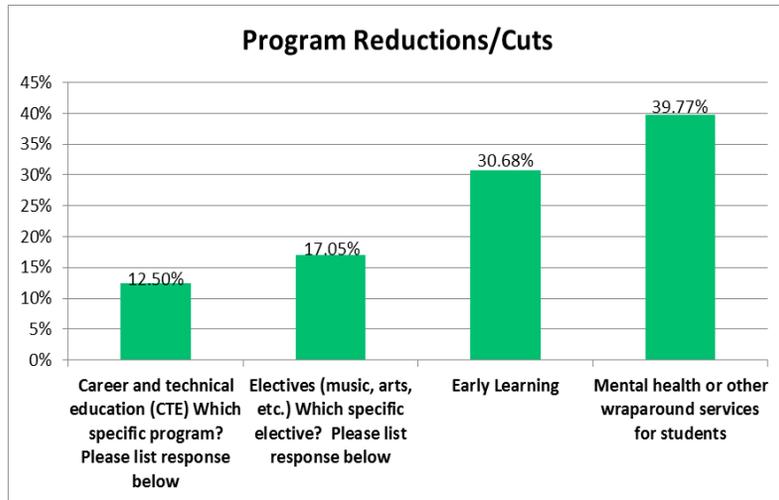

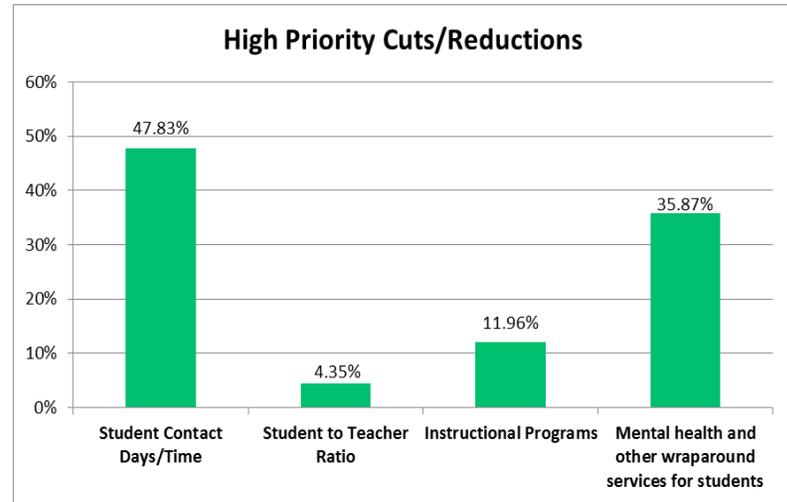

**Question 4.** In considering our mission, if Pleasant Hill School District received additional resources, and it was decided to add or expand programs, what instructional program should we add?

The highest suggestion for courses to add was by far **CTE programs**. Most responses added that many students will not continue to college after high school and these courses would give them access to job trainings and better options after graduation, in addition to life skills. Added course suggestions included Culinary, Mechanics, Agriculture, and several more. The second most chosen option was **adding electives** such as music, arts, and languages. Explanations included improving student learning and less time in front of electronics when outside of school. It was also mentioned that it gives students the opportunity to express themselves and produce something in addition to taking in so much information. **Mental health services** were suggested for students to learn more about how to prevent future tragedies and feel more positive about different things. **Early learning** was important to the responders because it gave their children a head start to higher level learning and prepared them for the learning processes. (105 responses)

**Question 5.** In considering our mission, if Pleasant Hill School District had to make reductions or cuts, which would be the highest priority to cut or reduce?

Most felt that **school days** should be lengthened and number of days should become a four-day student contact week thus, giving teachers the opportunity to use that extra day for class prep. Should spending be reduced by shortening the student contact week, some suggested the additional funds could be reallocated to places where funds can be used for smaller class sizes. The second most suggested cuts were regarding **mental health services**. Many stated that the school not be responsible for these things, but directly suggest outside assistance. Cuts to programs and student to teacher ratio were extremely frowned upon. **Small class sizes** are thought to benefit learning and more instructional programs allow students to prepare for the future. (92 responses)

**Question 6.** In considering our mission, if we had to make reductions or cuts in programs, which would you recommend? Please explain your rationale and list the programs or electives you would recommend.

Program cuts were primarily suggested in **mental health services**. Most stated (as in the previous question) that the school should not directly be responsible for mental health resources. It was suggested that the school should recommend outside providers when requested. Many suggested that **early learning programs** be less prioritized as there are many private options as well as Head Start. It was mentioned that focusing on K-12 should be the main focus until more funding is available. **Electives and CTE programs** were the least suggested options to cut. A few reasons why included that these courses allow for future preparedness, learning improvement, and practical skills utilization. (88 responses)

NOTE: Of the 143 people who participated in this survey, 19.58% were district employees, 22.38% were community members, 48.95% were PHSD parents, and 9.09% indicated they were “other,” who identified themselves as alumni, other family members, and volunteers.

## INTRODUCTION AND OVERVIEW

### WELCOME!

This section of the budget explains how the Pleasant Hill School District budget is organized and developed.

The purpose of the budget is to present meaningful estimates of resources and requirements for district programs in the following year, in a way that can be readily understood by members of the community.

The budget process is open to the public, and all budget discussions are held in public meetings. Any member of the public is invited to address the Budget Committee or Board. The budget process and calendar are described below.

### BUDGET FORMAT

Inside the cover is a list of the names and terms of the ten members of the Budget Committee. The Budget Committee consists of five elected school board members and five appointed lay members. As a committee, they are responsible for reviewing the proposed budget, receiving public comment and approving the budget.

The budget document is organized into five main sections:

- **Superintendent’s Budget Message** – Explanation of priorities and key issues addressed during the budget process and any significant changes from the previous year
- **Introduction and Overview** – Descriptions of budget format, process, calendar and structure; fiscal management policies;

student enrollment and staffing summaries; academic performance measures; and tax rate computations

- **Financial Summaries** – Summaries of all funds budget totals, descriptions and summary of General Fund resources, summaries of expenditures by fund, and impact of interfund transfers
- **General Fund** – Budget detail for chief operating fund used to account for the daily operations of the district
- **Other Funds** – Budget detail for special funds established to account for resources with restricted uses: Special Revenue Fund, Debt Service Fund and Capital Projects Fund
- **Appendices** – Glossary, State School Fund Grant and ADMw (weighted average daily membership) estimates

### BUDGETING AND ACCOUNTING

The budget was prepared in accordance with Oregon Local Budget Law, which provides standard procedures for Oregon municipalities, promotes citizen involvement in the budgeting process and controls the expenditure of public funds. The budget was also developed to reflect Generally Accepted Accounting Principles (GAAP), a uniform minimum standard for financial accounting and reporting.

As governmental funds, revenues and expenditures are budgeted and accounted for using the modified accrual basis of accounting. Under this method, revenues are recognized when they become

measurable and available. “Measurable” means the amount of the transaction can be determined and “available” means collectible within the current period or soon enough thereafter to pay obligations of the current period. Revenues subject to accrual include property taxes, grant proceeds, interest earnings and charges for services.

Expenditures are recorded when a liability is incurred, except for principal and interest on long-term debt which are recorded when payments are due.

## BUDGET PROCESS

The budget is a financial plan based on estimates of resources and requirements of the school district’s operations and programs for the next fiscal year. It is prepared in accordance with the requirements of Oregon Local Budget Law (ORS 294), which provides standard procedures for the preparation, presentation, administration and review of budgets. The law requires citizen involvement in the preparation of the budget and public disclosure of the budget before its final adoption. The law also requires that the budget be balanced – that resources equal requirements in each fund.

The proposed budget is prepared by district staff under the direction of the superintendent, the district’s budget officer. Once the budget is developed, the superintendent presents it and the budget message to the budget committee. The budget committee reviews the proposed budget, hears and considers public comment, makes revisions as needed and approves the budget. Once the budget document is given to budget committee members, it is considered to be a public document and made available to members of the community.

Upon approval by the budget committee, the budget is forwarded to the board for further public input and discussion. Between five and 30 days prior to the public hearing, the district must publish public

notice of the board hearing on the approved budget as well as a summary of the approved budget.

The school board may make changes in the approved budget prior to adoption, which must take place no later than June 30. Should any expenditure in any fund increase by more than 10% or tax rates increase at all, notice of a hearing and a revised budget summary must be published and another budget hearing must be held.

The board then adopts the budget, making appropriations for public funds to be spent and imposing and categorizing taxes.

After the budget is adopted, public funds must be spent for the purposes and within the amounts appropriated in the budget, except for certain changes permitted by statute. Any board revisions must be approved through board resolution or supplemental budget.

## BUDGET FUND STRUCTURE

Oregon Budget Law requires that school district budgets be prepared by fund. A fund is a fiscal and accounting entity with self-balancing accounts set aside to carry on a specific activity or meet certain objectives. Within each fund, the budget includes estimates of resources and requirements in line-item detail. Again, resources and requirements must balance.

Budget resources, which are classified as local, intermediate, state and federal sources, include beginning fund balances and revenues.

Budget requirements are categorized by program or function – the type of activity that is being carried out. Requirements include appropriations for expenditures, contingencies, and unappropriated ending fund balances which cannot be spent during the budget year. Expenditures are presented in five major functional areas: Instruction, Support Services, Community Services, Facilities Acquisition and Construction, and Other Uses (e.g., transfers). Contingencies or planned reserves are budgeted to allow for unforeseen expenditures in funds where Local Budget Law permits. Unappropriated ending fund balances represent a cash carry-over to the next year for stability in uncertain economic times and support cash flow needs until other resources are received.

Every budget has at least one fund, commonly called the General Fund, to account for the daily operations of the district. Special funds may also be established to account for revenues that must be used for particular types of expenditure. Examples of special revenue funds include grant funds and reserve funds.

This budget document presents budgets for four individual governmental funds: the General Fund, the Special Revenue Fund, the Debt Service Fund, and the Capital Projects Fund. Descriptions of each fund and the functions they address are provided below.

### General Fund

The General Fund is the district's general operating fund where most revenues and expenditures are recorded. The primary sources of revenue are the State School Fund and local property taxes. Other sources include earnings on investments, fees for services and reimbursements for certain costs. Expenditures represent the costs associated with the district's on-going operations – educational programs, administrative support and other support services.

Staff compensation comprises the greatest portion of the district's operating expenditures. Additional costs include purchased services, materials and supplies, capital outlay (more typically accounted for in reserve funds and the Capital Projects Fund), transfers, other expenditures such as dues and fees, insurance premiums and transfers to other funds.

### Special Revenue Fund

The District utilizes the Special Revenue Fund to account for revenues and expenditures related to grants, student activities, and reserves for insurance and to support operations outside the General Fund. Main categories of special revenue funds include the following:

- Federal, state, local and private grants
- Student activity funds
- Board-approved reserves
- Preschool Fund
- Nutrition Services Fund.

These funds are described in more detail in the Other Funds section of the budget document.

### Debt Service Fund

This fund accounts for the district's repayment of general obligation (G.O.) bonds. Taxes levied for this purpose and scheduled principal

and interest payments on the bonds are budgeted in the Debt Service Fund.

## CLASSIFICATION OF RESOURCES AND REQUIREMENTS

### Resources

Revenues are classified by fund and by source. Sources are designated as Local, Intermediate, State, Federal or Other. Examples of each include the following:

*Local Sources (1000)* – Property taxes, interest earnings

*Intermediate Sources (2000)* – County School Fund, reimbursements from Lane ESD

*State Sources (3000)* – State School Fund grant proceeds, Common School Fund payments

*Federal Sources (4000)* – Federal Forest Fees, grants

*Other (5000)* – Interfund transfers, beginning fund balance

### Requirements

Expenditures are classified by fund, function and object. **Functions** describe the activity for which a service or material object is acquired. The seven major functions are:

*Instruction (1000)* – Activities dealing directly with teaching students

*Support Services (2000)* – Services to provide administrative, technical, personal and logistical support to facilitate and enhance instruction

*Enterprise and Community Services (3000)* – Activities concerned with operations that are financed in a manner similar to private businesses or for which costs are recovered primarily through user charges and community programs

*Facilities Acquisition and Construction (4000)* – Activities concerned with the acquisition of land and buildings; major remodeling and construction of buildings and major additions to buildings; installation or extension of service systems and other built-in equipment; and major improvements to sites. Major capital expenditures eligible for general obligation bond financing are recorded here.

*Other Uses (5000)* – Activities including debt service and transfers between funds

*Contingencies (6000)* – To budget for expenditures which cannot be foreseen and planned in the budget process

*Unappropriated Ending Fund Balance (7000)* – An estimate of funds needed to maintain operations of the district from July 1 of the ensuing fiscal year and the time when sufficient new revenues become available to meet cash flow needs of the fund. No expenditure can be made from the UEFB in the year in which it is budgeted.

**Objects** represent the service or commodity obtained as the result of a specific expenditure. Seven object categories are used for this purpose:

**Salaries (100)**

**Associated Payroll Costs (200)**

**Purchased Services (300)**

**Supplies and Materials (400)**

**Capital Outlay (500)**

**Other Objects (600)** (*i.e., debt service, dues and fees, insurance*)

**Transfers (700)**

**Reserves (800)**

## **DISTRICT POLICY – SECTION D: FISCAL MANAGEMENT**

### **DB. District Budget**

The district budget will serve as the financial plan of operation for the district and will include estimates of expenditures for a given period and purpose and the proposed means of financing the estimated expenditures.

The amount of the budget will be based upon the financial requirements of the educational program, insofar as the district's financial resources permit and in keeping with statutory provisions.

The district budget will be prepared in full compliance with Local Budget Law. The superintendent will be designated as budget officer and will prepare the budget document.

### **DBC. Budget Calendar**

The Board will annually, in the fall of each year, adopt a budget calendar which identifies dates and deadlines required for the legal presentation and adoption of the budget.

The superintendent will prepare and recommend a proposed calendar for Board approval. The calendar will identify dates and activities to include those needed to comply with state law.

### **DBE. Budget Preparation**

The superintendent has the overall responsibility for budget preparation and will develop such procedures necessary to ensure that the proposed budget reflects all areas of district operation.

The superintendent and administrative staff will establish budget priorities for the district and will make appropriate recommendations related to those priorities to the Board and budget committee.

The superintendent will deliver the budget message and actual budget document to the budget committee when the message and budget have been completed and are ready for presentation.

A copy of the budget document will be made available at the district office for local district patrons to review. In addition, specific pages of the budget document or the budget document as a whole will be available for purchase.

### **DBG. Budget Hearing**

After the budget document has been approved by the budget committee, a public hearing will be held regarding the recommended budget document. The date, time and place will be determined by the Board. At the hearing, any person may speak for or against items in the budget document.

### **DBH. Budget Adoption Procedures**

After the public hearing on the budget and any modifications of the budget deemed necessary as a result of that hearing, the Board will approve the proper resolutions to adopt and appropriate the budget. The Board will further determine, make and declare the ad valorem

property taxes to be certified to the assessor for the ensuing year; and itemize and categorize the ad valorem property taxes.

The superintendent will ensure all necessary documentation is submitted to the county assessor's office as required by the Local Budget Law.

#### **DBJ. Budget Implementation**

The budget, as adopted by the Board, becomes the financial plan of the district for the coming year.

The superintendent and staff are authorized to make expenditures and commitments in accordance with the policies of the Board and the approved budget.

The superintendent will make the Board aware of any substantial changes in expected revenues or unusual expenditures so the Board may adjust the budget, if necessary.

#### **DBK Budget Transfer Authority**

The adopted budget is a financial plan which may be subject to change as a result of circumstances or events occurring during the fiscal year. All appropriation transfers shall be made as follows:

#### ***Intrafund Transfers***

Transfers between the levels of appropriation (i.e., functions 1000 - instruction, 2000 - support services, 3000 - community services, etc.) must be made by official resolution of the Board stating the need for the transfer, the purpose and the amount.

The superintendent has the authority to approve transfers between programs (i.e., elementary, middle school, high school) and/or object codes (i.e., 100 - salaries, 200 - benefits, 300 - purchase services, 400 - supplies, etc.) within the same level of appropriation.

#### ***Interfund Transfers***

Transfers from the general fund to any other fund are authorized when completed by official resolution of the Board stating the need, the purpose and the amount.

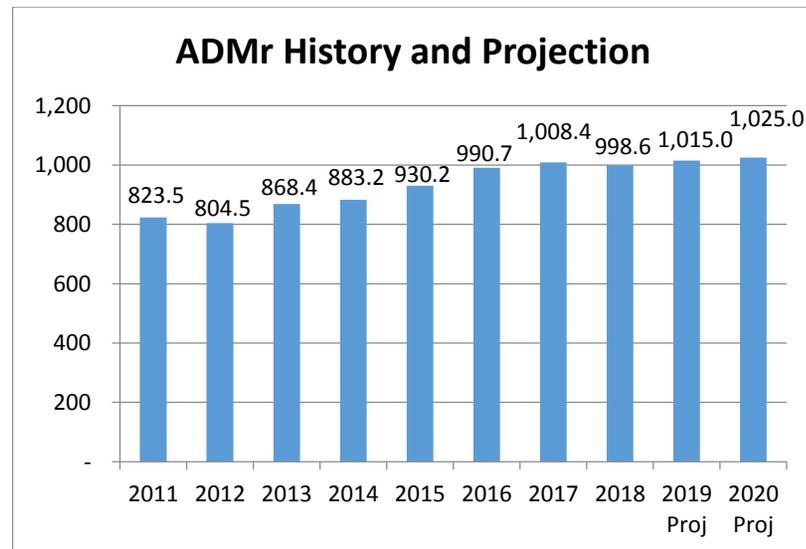

Appropriations transfers from any special revenue fund to the general fund or any other special revenue fund are prohibited.

Student enrollment, as resident average daily membership (ADMr), represents average annual enrollment. ADMr serves as the basis for the distribution of state resources to K-12 districts through the State School Fund formula.

State funding is distributed on the basis of ADMw, or weighted average daily membership. Weighting is added to the district's ADMr to recognize the additional cost of serving students in special education programs, poverty, foster care, English as a Second Language programs, and pregnant or parenting programs. Additional student weighting is also assigned for districts with small high schools. The difference in ADMr and ADMw above reflects weighting added to the district's ADMr for state funding purposes. Increased ADMr is projected for 2019-20.

## 2019-20 GENERAL FUND RESOURCES

The 2019-20 General Fund budget includes total resources of \$13,146,732. This is \$1,650,689 (14.35%) higher than the budget adopted for 2018-19.

This proposed General Fund budget is based on the \$8.871 billion Co-Chair's Recommended Budget for the 2019-21 biennium. We do anticipate a higher final budget number, but there is no reliable consensus on what that number will be.

### State School Fund - \$7,542,408

State aid to K-12 schools is appropriated by the Oregon Legislature and provided through the State School Fund (SSF) which consists of State General Fund and Lottery Fund revenues. Aid is distributed to school districts using a formula designed to provide equal funding for

all school districts. Funds are allocated on a per student (average daily membership) basis with additional weight provided for factors such as special education, poverty, foster care and remote small schools.

The SSF grant consists of a general purpose grant, transportation grant, small high school grant, high cost disability grant and facility grant, less local revenues. Local revenues are defined as local property taxes designated for school operations (excluding taxes to pay general obligation bonds), and funds provided from the Common School Fund, County School Fund, and other funds received in lieu of taxes.

A district's general purpose grant is determined by multiplying a district's total weighted average daily membership (ADMw) by a statewide target amount. This amount is adjusted by \$25 per year that a district's average teacher experience exceeds state average teacher experience. A funding ratio representing available state resources is applied to determine the grant amount.

The general purpose grant is added to a transportation grant (70% state reimbursement of eligible transportation expenditures) to determine a district's total formula revenue.

State funding is set on a biennial basis in the State budget adopted by the Legislature. Appropriations are based on projected corporate and personal income taxes as well as local property taxes. Every other year, school districts must develop their proposed budgets before the conclusion of the legislative process.

The 2019-20 General Fund budget includes a State School Fund grant of \$7,440,408, a \$67,000 Small High School Grant, and a \$35,000 High

Cost Disability Grant. Grant amounts are based on estimates provided by the Oregon Department of Education in March 2019.

### **Local Property Taxes - \$2,979,500**

School districts have permanent authority to levy property taxes for general operations up to a maximum rate. The permanent tax rate for Pleasant Hill School District is \$4.6414 per \$1,000 of assessed property value. Increases in assessed value are limited to 3% per year, with exceptions such as for the value of new construction.

General Fund revenues budgeted for 2019-20 include \$2,939,700 in current year taxes and \$39,800 in taxes that were levied in prior years and penalties and interest on delinquent taxes. The budget assumes that 94.5% of current year's taxes will be collected, based on current trends. Local property taxes are included in the State School Fund formula.

### **Other SSF Revenue - \$122,079**

Income from the Common School Fund and the County School Fund is also included in the State School Fund formula.

### **Common School Fund - \$97,079**

The State of Oregon holds income from lands granted by the federal government in trust for the benefit of public schools. Investment earnings from the management of these lands are distributed annually to school districts based on the value of the fund. Amounts are allocated to districts on a per student basis. Budgeted revenues are based on estimates provided by the Oregon Department of Education.

### **County School Fund - \$25,000**

A portion of revenues received by counties from the sale of timber cut on federal forest land and other sources are shared with local school districts. Funds are distributed to schools on a per student

basis. Funds included in the 2019-20 General Fund budget are estimated based on prior year receipts.

### **Other Revenue - \$321,528**

Additional revenues include earnings on investments, transportation fees, rental income and other miscellaneous sources. Revenue also includes a \$68,000 transfer from the Insurance Benefit Reserve to offset increased PERS costs. These revenues are not included in the State School Fund Formula.

### **Beginning Fund Balance - \$2,181,217**

Other resources include unexpended amounts and the unappropriated ending fund balance carried over from the prior year. These funds are excluded from the SSF formula.

**STATEMENT OF CHANGES IN ACTIVITIES and SOURCES OF FINANCING \***

State School Fund (SSF) The Legislative Co-Chair's Budget has allocated \$8.87 billion for K-12. This is \$100 million lower than the Governor's Recommend Budget, which was actually fairly close to Current Service Level (CSL). At the Co-Chair's funding level, there are districts in our region that will be making budget cuts. The Oregon School Business Officials have stated the state need to fund education statewide at \$9.1 Billion in order to maintain current levels of educational services for the 2019-21 biennium. We are happy to say that PHSD is projected not to make cuts for the upcoming school year. The PHSD budget is based on the following premises:

- Provide a balanced and financially responsible program for our students K-12 that facilitates improving student achievement and provides a safe educational environment.
- Develop a budget document that reflects actual investments, annual revenue, general fund expenditures and real dollar long-term financial liabilities.
- Statewide in 1988 PERS cost the district 11.8%. By July 1 of 2019, it is 32.9% of payroll. State economists predict substantial PERS jumps in the next several biennia.
