Instruction

Comparability of Services

The Superintendent or his/her designee shall pursue funding under Title I of the Academic Achievement of the Disadvantaged, as amended by the Every Student Succeeds Act (ESSA) to supplement instructional services and activities in order to improve the educational opportunities of educationally disadvantaged or deprived children.

All District schools, regardless of whether they receive Title I funds, shall provide services that, taken as a whole, are substantially comparable. Teachers, administrators and other staff shall be assigned to schools in a manner that ensures equivalency among the District's schools. Curriculum materials and instructional supplies shall be provided in a manner that ensures equivalency among the District's schools.

Comparability, is defined, for purposes of this policy, that the District uses state and local funds to provide services to Title I schools that are comparable to those offered in non-Title I schools in order to get federal funding under ESSA.

The Board of Education believes that at all times its schools should be equally as well equipped and maintained as may be possible within existing financial limitations.

It shall be the policy of the Board of Education to insure comparability of services funded by state and local sources in both Title I project schools and non-project schools. The Board of Education will therefore:

1. Maintain a district-wide salary schedule.
2. Provide services with federal, state and local funds in schools serving Title I project areas that are at least comparable to services in non project areas.
3. Use federal, state and local funds to provide for an equivalence among all schools in all schools with the same grade levels in teachers, administrators, auxiliary personnel.
3. Use federal, state and local funds to provide for an equivalence among all schools with the same grade levels in the provision of curriculum and instructional materials, books and supplies.

The District shall maintain records that are updated biannually documenting its compliance with this ESSA requirement.

Nothing in this policy will prohibit the administration from addressing identified problems at individual schools.

Note: The comparability requirements of 20 U.S.C. Section 6321(c) shall not apply to a district that does not have more than one building from each grade span. (20 U.S.C. Section 6321(c)(4))

Parent and Family Engagement Policy for Title I Students

In accordance with Section 1010 of the Every Student Succeeds Act (“ESSA”), Public Law 1114-95, it is the policy of the Westport Board of Education to provide parents and family members of students participating in the district’s Title I programs meaningful opportunities to participate in the education of their children within these programs. To facilitate parental and family participation, the Board encourages parents and family members of Title I eligible students to be involved in regular meetings, communications, and activities that will inform them about the district’s Title I programs, to participate in the improvement of such programs and to help improve their child’s progress within these programs.

This policy has been developed jointly with, and agreed upon by, parents and family members of children participating in Title I programs. The district shall distribute this written Parent and Family Engagement Policy to parents and family members of participating students in an understandable and uniform format and, to the extent practicable, in a language the parents can understand. The policy shall be made available to the public and updated periodically, as necessary to carry out the requirements of the parent and family engagement portion of Section 1010 of ESSA.

The Board shall conduct, with the meaningful involvement of Title I parents and family members, an annual evaluation of the content and effectiveness of this policy in improving the academic quality of the schools receiving Title I funds. The Board shall use the findings of such evaluation to design evidence-based strategies for more effective parental involvement, and to revise, if necessary, the policy. Such annual evaluation shall include identifying:

1. barriers to greater participation by parents in activities authorized by 20 U.S.C. § 6318 (with particular attention to parents who are economically disadvantaged, are disabled, have limited English proficiency, have limited literacy, or are of any racial or ethnic minority background);
2. the needs of parent and family members to assist with the learning of their children, including engaging with school personnel and teachers; and
3. strategies to support successful school and family interactions.

Each year, each school within the district that is involved in Title I programs shall conduct a meeting, at a convenient time, to involve parents in the planning, review and improvement of programs funded by Title I. All parents of participating children must be invited and encouraged to attend. At this meeting, parents shall be given a description and explanation of the Title I programs, the curriculum in use at the school, the forms of academic assessment used to measure student progress, the achievement levels of the challenging State academic standards, and information regarding the importance of parental involvement and their right to be involved.

In addition to the required annual meeting, and if requested by parents, schools within the district that are involved in Title I programs shall offer opportunities for regular meetings at flexible times of the day in order to allow parents to formulate suggestions for the Board’s Title I programs and their application to their child(ren)’s programs; and to participate, as appropriate, in decisions related to

the education of their children. Parents will be given opportunities to participate in the joint development of the district's Title I plan, as required by Section 1006 of ESSA, and in the process of any school review and improvement in accordance with the State's plan, as required by Section 1111 of ESSA. At any time, if a parent is dissatisfied with a school's Title I program, he/she shall have the opportunity to submit comments for review at the district level.

The Board will provide the coordination, technical assistance and other support necessary to assist and build capacity of Title I schools in planning and implementing effective parent and family involvement activities to improve student academic achievement and school performance. Parental and family engagement in Title I programs shall be coordinated and integrated with parental and family engagement strategies, to the extent feasible, under other federal, state, local and district programs.

In order to build the schools' and parents' capacity for strong parental involvement, the Board shall:

1. provide assistance to parents of students participating in Title I programs in understanding topics such as the challenging state academic standards, state and local academic assessments, the requirements under Title I, and how to monitor their child's progress and work with educators to improve the achievement of their children;
2. provide materials and training to help parents to work with their children, such as literacy training and using technology (including education about the harms of copyright piracy);
3. educate teachers, specialized instructional support personnel, staff and administrators, with the assistance of parents, about how to better communicate and work with parents;
4. to the extent feasible and appropriate, coordinate and integrate parent involvement programs and activities with other federal, state and local programs, including public preschool programs, conduct other activities that encourage and support parent participation;
5. ensure that information related to school and parent programs, meetings and other activities is sent to participating parents in a format and, to the extent practicable, in a language the parents can understand;
6. provide such other reasonable support for parental involvement activities as parents may request; and
7. inform parents and parental organizations of the existence and purpose of parent resource centers within the State.

School-Parent Compact

This policy further requires that each school involved in Title I programs shall jointly develop with parents of participating children a school-parent compact that outlines how parents, staff, and students will share the responsibility for improved student academic achievement and the means by which the school and parents will build and develop a partnership to help children achieve the State's high standards. The school-parent compact shall:

1. describe the school's responsibility to provide high-quality curriculum and instruction in a supportive and effective learning environment that enables Title I students to meet the challenging State academic standards;

2. indicate the ways in which each parent will be responsible for supporting their child's learning; volunteering in their child's classroom; and participating, as appropriate, in decisions related their child's education and positive use of extracurricular time;
3. address the importance of ongoing teacher-parent communication through parent-teacher conferences, frequent reports to parents, reasonable access to school staff, and opportunities to volunteer, participate in, and observe their child's classroom activities; and
4. ensure regular, two-way, meaningful communication between family members and school staff, and, to the extent practicable, in a language that family members can understand.

The Board authorizes the Superintendent, or his/her designee, to develop a school-parent compact and other procedures such as those relating to meetings, parent communication and parental involvement activities, as he/she deems necessary in order to ensure compliance with this policy.

The Superintendent is required to include information about parental involvement and actions taken to improve parental involvement in the strategic school profile he or she submits annually to the Board of Education and Commissioner of Education. Such actions to improve parental involvement may include methods to engage parents in the planning and improvement of school programs and to increase support to parents working at home with their children on learning activities.

Research: Testing

Testing Program

A plan of system-wide testing in addition to mandated statewide assessments, shall be developed and implemented as one indication of the success and quality of the district's total educational program. In the case of individual students, standardized achievement tests, in combination with other criteria, can provide an indication of student achievement. When appropriate, students may also be tested for mental ability, aptitude and interest.

The purposes of the district-wide testing program are to facilitate and provide information for the following:

1. **Student Achievement** - To produce information about relative student achievement so that parents/guardians, students and teachers have a baseline against which to monitor academic progress. Within the limitations of group testing instruments, the information should be useful to serve as a validation device for other measures of student progress.
2. **Student Counseling** - To serve as a tool in the counseling and guidance of students for further direction and for specific academic placement.
3. **Instructional Change** - To provide data which will assist in the preparation of recommendations for instructional program changes to:
 - a. Help teachers with instructional decisions, plans and changes regarding classroom objectives and program implementation;
 - b. Help the professional staff formulate and recommend instructional policy; and
 - c. Help the Board of Education adopt instructional policies.
4. **School and District Assessment** - To provide additional indicators of the progress of the district toward established goals.

The testing program is an integral part of the district's needs assessment and evaluation programs. The program should be developed primarily for furnishing needed information to decision makers, including the Board, administrators, teachers, parents/guardians and students.

The needs of these various groups shall be clearly identified, and the testing program shall be limited to obtaining that information which is needed and useful.

In planning, every effort will be made to see that testing contributes to the learning process rather than detracts from it. Efforts shall be made to incorporate necessary culture-free and culture-fair tests to assure reasonably accurate measurements.

The district shall not discriminate in the methods, practices and materials used for testing, evaluating

and counseling students on the basis of sex, race, national origin, creed, sexual orientation or physical, mental, emotional or learning disability. Discrimination complaints shall be processed in accordance with established procedures.

Parents shall be notified prior to any individual student testing, beyond that which is part of the regular classroom routine. Parental notification shall include the reason for the testing and an explanation of the test to be used. All such tests results shall be shared with parents.

Staff will receive in-service education in the use of designated tests, confidentiality issues and interpretation of test results.

A periodic review and evaluation of the district's testing program will be conducted.

Instruction**Survey of Students**

Surveys can be a valuable resource for schools and communities in determining student needs for educational services. When a survey is used, every effort should be made to ask questions in a neutral manner to ensure the accuracy of the survey.

Administrators, teachers, other staff members and the Board of Education may use surveys for many purposes. Such purposes may include, but are not limited to, the need for student services, the determination of prevailing views pertaining to proposed policies and/or practices, or the determination of student knowledge and/or attitudes related, to a specific subject or units. These are examples of surveys and not intended to be an all-inclusive listing. Administrative approval is required for surveys. Responses will not be used in any identifying manner.

Surveys used in any experimental program or research project will be subject to the requirements of Policy 6141.11. Parents shall have the right to inspect all instructional material that will be used for a survey, analysis, or evaluation as part of a federal program.

Prior to administering a survey, the Board of Education must approve all that are received by the Superintendent that include reference to any of the factors listed below. In addition, no student may, without parental consent, take part in a survey, analysis, or evaluation that reveals information concerning:

1. political affiliations or beliefs of the student or the student's parents;
2. mental or psychological problems of the student or the student's family;
3. sex behavior or attitudes;
4. illegal, anti-social, self-incriminating and demeaning behavior;
5. critical appraisals of other individuals with whom respondents have close family relationships;
6. legally recognized privileged or analogous relationships, such as those of lawyers, physicians and ministers;
7. income (other than that required by law to determine eligibility for participation in a program or for receiving financial assistance under such program); or
8. religious practices, affiliations or beliefs of the student or the student's parent/guardian.

Surveys conducted for other agencies, organizations or individuals must have the recommendation of the Superintendent of Schools and the approval of the Board of Education as to content and purpose. The results of such approved surveys must be shared with the Board of Education.

Parents/guardians shall have the right to inspect, upon their request, a survey created by a third party before the survey is administered or distributed by a school to a student. Such requests shall be made in writing with a response to be at least two weeks in advance of any survey to be given.

For surveys not funded in any part by the federal government, parents/guardians need not give written consent, but must instead be given prior notice of the survey with the opportunity to opt their child out of participation if the survey elicits information concerning any of the eight protected areas listed above

Overall survey results following decisions must be shared with all parties who request such information.

Parents/guardians shall be notified at least annually, at the beginning of the school year, of this policy and when enrolling students for the first time in district schools. This notification must explain that parent/guardians, or students 18 or older, have the right to "opt the student out of participation," in writing, in the following activities;

1. The collection, disclosure and use of personal information gathered from students for the purpose of marketing or selling that information. This does not apply to the collection, disclosure, or use of personal information collected from students for the exclusive purpose of developing, evaluating, or providing educational products or services for, or to students, such as:
 - a. College or other post-secondary education recruitment, or military recruitment;
 - b. Book clubs, magazines and programs providing access to low-cost literary products;
 - c. Curriculum and instructional materials used in schools;
 - d. Tests and assessments;
 - e. Student recognition programs; and
 - f. The sale by students of products or services to raise funds for school-related activities;

2. The administration of any survey that delves into the restricted sensitive subject areas identified and listed above, or
3. The administration of any non-emergency, invasive physical examination or screening that is required as a condition of attendance, administered by the school not necessary to protect the immediate health or safety of the student or other students and not otherwise permitted or required by state law.

Note: The term "invasive physical examination" means any medical examination that involves the exposure of private body parts, or any act during such examination that includes incision, insertion, or injection into the body, but does not include a hearing, vision or scoliosis screening.

The term "personal information" means individually identifiable information including a student's or parent's name, address, telephone number, or social security number.

Parents/guardians of a student shall also have the right to inspect, upon request, any instructional material used as part of the educational curriculum. The District shall grant reasonable access to instructional material within a reasonable period of time after a parental request is received.

Note: The term "instructional material" means instructional content that is provided to a student, regardless of format. It does not include tests or academic assessments.

Students**On-Campus Recruitment**

All recruiters, military, non-military, commercial and educational providing information to high school students about post high-school educational and/or career opportunities shall be afforded substantially equal opportunity, with respect to the conduct of on-campus student recruitment. Recruiters will be afforded the opportunity to conduct meetings during the school day, at a time, and in place designated by the high school administration, with those students who are voluntarily interested. The administration may limit the number of such opportunities to be granted to each organization and agency to avoid undue interference with the educational process.

Follow up visits to the high school by recruiters (in all categories specified above) in order to meet with individual students will be permitted, provided that the student is a voluntary participant in the follow up and that the appointment is scheduled on the request of the student.

Students**On-Campus Recruitment**

Subject to the provisions of Subdivision (11) of Subsection (b) of Section [1-210](#) of the Connecticut General Statutes, the high schools of the school district shall provide the same directory information and on campus recruiting opportunities to representatives of the armed forces of the United States of America and State Armed Services as are offered to nonmilitary recruiters, recruiters for commercial concerns and recruiters representing institutions of higher education.

The Board of Education (Board) will inform, at the middle and high school level, students and parents/guardians of the availability of (1) vocational, technical and technological education and training at technical high schools, and (2) agricultural sciences and technology education at regional agricultural science and technology education centers.

The Board shall also provide full access for the recruitment of students by technical high schools, regional agricultural science and technology education centers, inter-district magnet schools, charter schools and inter-district student attendance programs, provided such recruitment is not for the purpose of interscholastic athletic competition. The Board shall also post information about these school options on its website.

Directory information or class lists of student names and/or addresses shall not be distributed without the consent of the parent or legal guardian of the student or by the student who has attained majority status.

Military recruiters or institutions of higher learning shall have access to secondary school students' names, addresses, and telephone listings unless the parent/guardian of such student submits a written request that such information not be released without their prior written consent. A student, eighteen years of age or older, rather than his/her parent/guardian, may request in writing that such information not be released without his/her prior written permission. The Board of Education shall notify parents/guardians and students of the option to make such request and shall comply with any request received.

ESSA requires the release of the student's name, address and telephone listing unless, after giving appropriate notice to parents/guardians and students 18 years of age or older, of their right to opt-out and to require, after such opt-out, written permission to release the information.

The school administrator may make the determination of when the recruitment meetings are to take place and reserves the right to deny such meeting where the holding of such meeting will materially and substantially interfere with the proper and orderly operation of the school.

Any person or organization denied the rights accorded under this policy shall have the right to request a review of the decision by the Board of Education by filing a written request with the Superintendent of Schools.

Personnel --Certified**Evaluation**

The Professional Development and Evaluation Program (PDEP) is the system used in Westport for evaluating teachers' performance and fostering professional improvement. The ultimate goal of PDEP is the improvement of instruction, resulting in improved student learning.

The evaluation component of PDEP serves three basic purposes: the first is to improve student learning, the second to help teachers improve; the third is to establish the basis for decisions about a teacher's employment status. PDEP employs a constructive approach to evaluation that has improvement of performance and high student achievement as its objective.

The basic assumption underlying Westport's system of staff evaluation is that staff members are capable of increasing their skills and willing to make efforts to do so. The PDEP evaluation process provides teachers with the feedback and support necessary for them to develop their professional skills. The Plan complies with State mandates.

Basic Performance Expectation

Performance expectations for Westport teachers, administrators and school psychologists, guidance counselor, social workers and speech/language pathologists are enumerated in the evaluation document. These are the standards by which the performance of staff members is assessed. The standards are used by the supervisor in making employment status recommendations for staff.

The evaluation document references the "Connecticut Teaching and Administrative Competencies".

Personnel - Certified**Evaluation and Support Program**

It is universally accepted that good teaching is the most important element in a sound educational program. Student learning is directly affected by teacher competence; therefore, teacher evaluation shall be accomplished using a teacher evaluation plan which demonstrates a clear link between teacher evaluation, professional development and improved student learning. (The educator evaluation and support plan or revisions must be approved annually by the State Department of Education prior to District implementation.)

The submission of the District's evaluation plans for SDE review and approval, including flexibility requests, shall take place no later than the annual deadline set by the State Department of Education.

Note: "Teacher" or "Administrator" for purposes of evaluation shall include each professional employee of the Board, below the rank of Superintendent, who holds a certificate or permit issued by the State Board of Education.

Appraisal of teaching performance should serve three purposes:

1. To raise the quality of instruction and educational services to the children of our community resulting in improved student learning.
2. To raise the standards of the teaching profession as a whole.
3. To aid the individual teacher to grow professionally, linking district-wide teacher evaluation and professional development plans.

Evaluation of teacher performance must be a cooperative, continuing process designed to improve student learning and the quality of instruction. The Superintendent shall annually evaluate or cause to be evaluated all certified employees in accordance with the teacher evaluation and support program, developed through mutual agreement with the Professional Development and Evaluation committee for the District. The required union representation on such committee shall include at least one representative from each of the teachers' and administrators' unions. The teacher shares with those who work with the teacher the responsibility for developing effective evaluation procedures and instruments and for the development and maintenance of professional standards and attitudes regarding the evaluation process.

The Board of Education shall adopt and implement a teacher evaluation and support program. Such teacher evaluation and support program shall be developed through mutual agreement with the District's Professional Development and Evaluation Committee. If unable to attain mutual agreement, the Board and the Professional Development and Evaluation Committee shall consider adopting by mutual agreement the State Board of Education (SBE) adopted model teacher evaluation and support program without any modification. Further, if the Board and the Professional Development and Evaluation Committee fail to agree on the SBE model, the Board, will use its statutory authority to adopt and implement a teacher evaluation program of its choice, provided such program is consistent with the SBE adopted guidelines.

The system-wide program for evaluating the instructional process and all certified personnel is viewed as one means to improve student learning and insure the quality of instruction. The evaluation plan shall include, but need not be limited to, strengths, areas needing improvement, strategies for improvement and multiple indicators of student academic growth. *Further, claims of failure to follow the established procedures of such teacher evaluation and support program shall be subject to the grievance procedure in collective bargaining agreements negotiated subsequent to July 1, 2004.

Note: The district's evaluation plan, submitted to the State Department of Education for approval, may be the district's selection of the state model evaluation plan, SEED (Connecticut's System for Educator Evaluation and Development), or a hybrid of SEED, or a district proposed alternative evaluation and support plan which fulfills the state guidelines.

The Superintendent and all employees whose administrative and supervisory duties equal at least 50% of their time shall include a minimum of fifteen hours of training in the evaluation of teachers pursuant to Section 10-151b, as part of the required professional development activity during each five year period for reissuance of their professional educator certificate.

The State Board of Education as required has adopted guidelines for a model teacher and administrator evaluation and support program which is to provide guidance on the use of multiple indicators of student academic growth in teacher evaluations. The guidelines include, but are not limited to:

1. The use of four performance evaluations designators: exemplary, proficient, developing and below standards;
2. The use of multiple indicators of student academic growth and development in teacher and administrative evaluations;
3. Methods for assessing student academic growth and development;
4. A consideration of control factors, tracked by the state-wide public school information system that may influence teacher performance ratings, including, but not limited to, student characteristics, student attendance and student mobility;
5. Minimum requirements for teacher evaluation instruments and procedures, including scoring systems to determine exemplary, proficient, developing and below standard ratings;
6. The development and implementation of periodic-training programs regarding the teacher evaluation and support program to be offered by the local or regional board of education or RESC to teachers whose performance is being evaluated and to administrators who are conducting the performance evaluations;
7. The provision of professional development services based on individual or group needs identified through the evaluation process;
8. The creation of individual teacher improvement and remediation plans for teachers who are rated "developing" or "below standard" in

performance, designed in consultation with such teacher and his/her exclusive bargaining representative chosen pursuant to CGS [10-1536](#); 9. Opportunities for career development and professional growth; and 10. A validation procedure to audit evaluation ratings of "exemplary" or "below standard" evaluation ratings by the SDE or third-party entity approved by the SDE.

The Superintendent shall annually evaluate or cause to be evaluated each teacher and administrator in accordance with the teacher evaluation and support program and may conduct additional formative evaluations toward producing an annual summative evaluation.

In the event that a teacher or an administrator does not receive a summative evaluation during the school year, such individual shall receive a rating of "not rated" for that year.

Note: The SBE may waive the requirement of consistency with SBE's model guidelines for any district that, before the model guidelines are validated, (after the pilots 2012-2013), developed a teacher evaluation program that is determined by the SBE to substantially comply with the guidelines.

The Superintendent shall report to the Board by September 15th annually on the status of the evaluations. In addition, annually, by dates determined by the State Department of Education, the Superintendent shall report to the Commissioner of Education on the implementation of the teacher evaluation and support program, including the frequency of evaluations, aggregate evaluation ratings, the number of teachers and administrators not evaluated, and other requirements as determined by the State Department of Education.

Improvement and Remediation Plans

Teachers rated "below standard" or "developing" shall have a well-articulated improvement and remediation plan that:

1. is developed in consultation with the teacher and his/her union representative and is differentiated by the level of identified need and/or stage of development;
2. identifies resources, support, and other strategies to be provided by the Board to address documented deficiencies;
3. contains a timeline for implementing such measures in the same school year as the plan is issued; and
4. provides success indicators that include a minimum overall rating of "proficient" at the end of the improvement and remediation plan.

Evaluation Training

The Board, prior to any evaluation conducted under the teacher evaluation and support program, shall conduct training programs for all evaluators and orientation for all District teachers regarding the District's teacher evaluation and support program. Such training shall provide instruction to evaluators regarding how to conduct proper performance evaluations prior to conducting an evaluation under the teacher evaluation and support program. The orientation for each teacher shall be completed before a teacher receives an evaluation under the teacher evaluation and support program.

Note: "Teacher" includes all certified employees below the rank of Superintendent.

Implementation Plan

The Board of Education recognizes that the State Board of Education (SBE) utilizes a flexible plan for the implementation of Connecticut's Educator Evaluation and Support System.

Note: Districts intending to renew or request waivers shall do so in conformity with the process and timelines established by the State Department of Education.

Options: The District will:

- ☐ Implement the SEED state model in its entirety and implement all components as written within the Handbook.
- ☐ Use the State Department of Education approved plan with adopted flexibilities.
- ☐ Use a District developed plan. (Such plan must have at least one variation from any of the elements/components of the SEED model.)

Beginning with the 2014-15 school year and all subsequent years, the submission of the District's evaluation plans for State Department of Education's review and approval, including flexibility requests, shall take place by annual deadlines set by the State Department of Education.

Complementary Observers

The primary evaluator for most teachers will be the school principal or assistant principal who will be responsible for the overall evaluation process, including assigning summative ratings. The District may also decide to use complementary observers to assist the primary evaluator. Complementary observers are certified educators, who may have specific content knowledge, such as department heads or curriculum coordinators. Complementary observers shall be fully trained as evaluators in order to be authorized to serve in this role.

Complementary observers may assist primary evaluators by conducting observations, including pre- and post-conferences, collecting additional evidence, reviewing student learning objectives (SLOs) and providing additional feedback. A complementary observer shall share his/her

feedback with the primary evaluator as it is collected and shared with teachers.

Primary evaluators will have sole responsibility for assigning final summative ratings. Both primary evaluators and complementary observers must demonstrate proficiency in conducting standards-based observations.

Dispute-Resolution Process

In accordance with the requirement in the "Connecticut Guidelines for Teacher Evaluation and Professional Development," in establishing or amending the local teacher evaluation plan, the Board of Education shall include a process for resolving disputes in cases where the evaluator and teacher cannot agree on goals/objectives, the evaluation period, feedback or the professional development plan.

When such agreement cannot be reached, the issue in dispute may be referred for resolution to a subcommittee of the Professional Development and Evaluation Committee (PDEC). The Superintendent and the collective bargaining unit for the District shall each select one representative from the PDEC to constitute this subcommittee, as well as a neutral party as mutually agreed upon between the Superintendent and the collective bargaining unit. In the event the designated committee does not reach a unanimous decision, the issue shall be considered by the Superintendent whose decision shall be binding. This provision is to be utilized in accordance with the specified processes and parameters regarding goals/objectives, evaluation period, feedback, and professional development contained in this document entitled "Connecticut Guidelines for Educator Evaluation." Should the process not result in resolution of a given issue, the determination regarding that issue shall be made by the Superintendent. An example will be provided within the State model.

Note: The above is an illustrative example of such a process provided by the State Board of Education.

Data Management

Annually prior to September 15, the District's Professional Development and Evaluation Committee will review and report to the Board the user experiences and efficiency of the District's data management system/platform to be used by teachers and administrators to manage the evaluation plans.

Annually, data management systems/platform to be used by teacher and administrators to manage evaluation plans shall be selected by the Board with considerations given to functional requirements/needs and efficiencies identified by the Professional Development and Evaluation Committee.

Such plans shall consider guidance pertaining to the entry of data into the District's data management system/platform needed to manage the evaluation plan. Such guidance shall address items to be entered, prohibitions pertaining to the sharing and transference of individual teacher data to another district or entity without consent of the teacher or administrator, limits on the access to teacher and administrator data and a process for recording authorized individuals' access to information.

Audit

The Board, if selected, will participate as required, in an audit of its evaluation program, conducted by the State Department of Education.

All teachers teaching in public schools at the elementary, middle and high school levels (including special education teachers) must be determined to be an "effective educator," as defined in the Every Student Succeeds Act. To be determined an "effective educator," a teacher must meet state certification and licensure criteria.

The reauthorized Individuals with Disabilities Act (IDEA) identifies special education teachers as teachers who must demonstrate competency in the core academic subjects that they teach.

The District evaluates a teacher's subject-matter competency in the core academic content areas, based on the Common Core of Teaching (CCT), using both of the following:

- A. foundational skills and competencies; and
- B. the discipline-based professional standards.

Policy adopted:

Personnel – Certified**Employment of Athletic Coaches**

It is the policy of the Board of Education of the Town of Westport (the “Board”) that an athletic coach employed by the Board shall:

1. adhere to all Board policies, rules and regulations;
2. conduct himself or herself in a professional manner;
3. serve as a role model for students; and
4. demonstrate competence and proficiency in his or her role as an athletic coach of a particular sport.

For purposes of this policy, the term “athletic coach” means any person holding a coaching permit who is hired by a local or regional board of education to act as a coach for a sport season. This term “coach” under this policy shall include coaches who have direct responsibility for one or more teams [assistant coaches who serve as coach to a team (e.g., JV)] and other assistant coaches.

I. Evaluations

Pursuant to state law, the Board requires that an athletic coach employed by the Board be evaluated on an annual basis by the coach's immediate supervisor. An athletic coach shall be provided with a copy of any such evaluation.

II. Employment of an Athletic Coach

Athletic coaches serve at the discretion of the Superintendent, and their employment in their specific coaching positions (e.g., basketball, golf) may be non-renewed or terminated at any time except as follows.

If the athletic coach has served in the same coaching position for two or more consecutive school years, the following procedures shall apply. The Athletic Director may non-renew the employment of any such athletic coach by providing written notification of that action within ninety (90) calendar days of the end of the season. The Athletic Director or the Superintendent may terminate the employment of any such athletic coach at any time for 1) for reasons of moral misconduct, insubordination, failure to comply with the Board's policies, rules and regulations; or 2) because the sport has been canceled. If a decision to terminate a coach's employment is made during the athletic season, the Superintendent shall remove the coach from duty during the pendency of any hearing conducted pursuant to this policy.

III. Hearing Procedures

An athletic coach who has served in the same coaching position for two or more consecutive years may appeal any such non-renewal or termination decision (except if such decision was due to cancellation of the sport) as follows:

First, within seven school days of the written notification of non-renewal or termination, the coach may file a written request to the Superintendent for review of that decision. Failure to submit a timely request for review shall constitute a waiver of said opportunity for review. The Superintendent shall meet with the coach, the evaluator and other appropriate personnel, and shall render a written decision on the matter within seven school days of such meeting.

If the coach is not satisfied with the decision of the Superintendent, the coach may appeal to the Board of Education in accordance with the following procedures:

- A. The athletic coach must file a written appeal with the Board within ten (10) calendar days of the Superintendent's written decision. Such appeal shall set forth the basis on which the athletic coach seeks review of that decision, and a copy of said appeal shall be sent to the Superintendent. Failure to submit a timely written appeal shall constitute a waiver of said appeal opportunity.
- B. Within a reasonable period of time of its receipt of a written appeal of the Superintendent's decision, a subcommittee of the Board that consists of no more than four (4) members, shall conduct a hearing to consider such appeal. Reasonable notice of the time and place for such hearing shall be issued to the athletic coach prior to the commencement of the hearing.
- C. At the hearing, the athletic coach shall have an opportunity to present facts and evidence in support of renewal and/or reinstatement, and the Superintendent shall have the opportunity (but shall not be obligated) to present facts and evidence in support of the decision of non-renewal and/or termination. For good cause shown, the athletic coach may call a limited number of witnesses to testify if there is a clear need for witnesses to present factual information (rather than simply expressing an opinion on the skill or competence of the athletic coach). In any event, cumulative or redundant testimony shall not be allowed.
- D. The decision of non-renewal or termination shall be affirmed unless the Board determines that the decision is arbitrary and capricious. The coach shall bear the burden of proof on this point.
- E. Within a reasonable period of time following the hearing (generally within fourteen (14) school days), the Board shall evaluate the findings of its subcommittee and shall determine whether the Superintendent acted in an arbitrary and capricious manner in making his/her decision not to renew and/or to terminate, and shall provide a written decision to the coach. The decision of the Board shall be final.

Personnel - Certified**Evaluation****Coaches**

There shall be an annual evaluation of all coaches, to be conducted by the athletic director or the coach's immediate supervisor. Each coach shall receive a written copy of the evaluation.

The purposes of evaluation are:

1. To provide a systematic process whereby coaches may increase the effectiveness of their services to the athletic program utilizing the available professional resources.
2. To provide an opportunity for coaches to analyze their strengths and weaknesses, and to discuss objectively the contributions they have made to the athletic program.
3. To provide an opportunity for the administrative staff to analyze the strengths and weaknesses of individual coaches, and to utilize this knowledge to develop supervisory service to assist individuals in developing their competence.
4. To provide an effective means by which administrators may make recommendations concerning the continued employment of personnel, the granting of increments, and/or other recommendations to the Board of Education.

It is the responsibility of all administrators, coaches and other professional staff members to recognize that the district schools intend to seek and maintain the best qualified staff to provide quality coaching for student athletes. In keeping with this goal, all personnel are expected to participate fully in the appraisal process.

An integral part of this process is self appraisal. The self and administrative appraisals include: knowledge of sports area, coaching skills and techniques, attitudes, behavior patterns, values and ethics.

Any coach that has held the same coaching position for three or more years, for which the Board terminates or non-renews the contract shall be informed of the Board's decision within ninety (90) days of the completion of the sport season covered by the contract. The coach may request a written statement from the Board specifying the reason(s) for the Board's action. The statement shall be provided within thirty (30) days of the request. The decision to terminate or non-renew the coach's contract may be appealed by the coach in a manner prescribed by the Board.

The Board may terminate the contract of any coach at any time for reasons of moral misconduct, insubordination or a violation of the rules of the Board or because a sport has been cancelled by the Board.

**EVALUATION, TERMINATION AND NON-RENEWAL OF ATHLETIC
COACHES**

It is the policy of the [] Board of Education (the “Board”) that an athletic coach employed by the Board shall:

- 1) adhere to all Board policies, rules and regulations;
- 2) shall conduct himself or herself in a professional manner;
- 3) serve as a role model for students; and
- 4) demonstrate competence and proficiency in his or her role as an athletic coach of a particular sport.

For purposes of this policy, the term “**athletic coach**” means any person holding (and required to hold) a coaching permit issued by the Connecticut State Department of Education who is hired by the [] Board of Education to act as a coach for a sport season. This term “coach” under this policy shall include only coaches who have direct responsibility for one or more teams (including assistant coaches if they serve as a coach to another team (*e.g.*, JV)), and the term shall not include other assistant coaches and volunteer coaches.

The Superintendent may adopt administrative regulations in accordance with this policy.

I. Evaluations

Pursuant to state law, the Board requires that an athletic coach employed by the Board be evaluated on an annual basis by the coach’s immediate supervisor. An athletic coach shall be provided with a copy of any such evaluation. Other assistant and volunteer coaches may be evaluated as directed by the Superintendent of Schools or his/her designee.

II. Employment of an Athletic Coach

- A. Athletic coaches serve at the discretion of the Superintendent, and their employment in their specific coaching positions (*e.g.*, basketball, golf) may be non-renewed or terminated at any time, subject to the provisions set forth below which apply to athletic coaches who have served in the same position for three or more consecutive years.
- B. If the Superintendent terminates or non-renews the coaching contract of an athletic coach who has served in the same coaching position for three or more

consecutive school years, the Superintendent shall inform such coach of the decision within ninety (90) calendar days of the end of the athletic season covered by the contract. In such cases, the athletic coach will have an opportunity to appeal the decision of the Superintendent in accordance with the procedures set forth below in Section III.

- C. Notwithstanding any rights an athletic coach may have to a hearing, nothing prohibits a Superintendent from terminating the employment contract of any athletic coach at any time, including an athletic coach who has served in the same coaching position for three or more consecutive school years:
 - 1) for reasons of moral misconduct, insubordination, failure to comply with the Board's policies, rules and regulations; or
 - 2) because the sport has been canceled.
- D. If a decision to terminate a coach's employment is made during the athletic season, the Superintendent shall remove the coach from duty during the pendency of any hearing conducted pursuant to this policy.

III. Hearing Procedures:

An athletic coach who has served in the same coaching position for three or more consecutive years may appeal any such non-renewal or termination decision (except if such decision was due to cancellation of the sport) to the Board of Education in accordance with the following procedures:

- A. The athletic coach must file a written appeal with the Board within ten (10) calendar days of the Superintendent's written notification of non-renewal or termination. Such appeal shall set forth the basis on which the athletic coach seeks review of that decision, and a copy of said appeal shall be sent to the Superintendent. Failure to submit a timely written appeal shall constitute a waiver of said appeal opportunity.
- B. Within a reasonable period of time of its receipt of a written appeal of the Superintendent's decision, the Board or a committee of the Board as designated by the Chairperson shall conduct a hearing to consider such appeal. Reasonable notice of the time and place for such hearing shall be issued to the athletic coach prior to the commencement of the hearing.
- C. At the hearing, the athletic coach shall have an opportunity to present facts and evidence in support of renewal and/or reinstatement, and the Superintendent shall have the opportunity (but shall not be obligated) to present facts and evidence in support of the decision of non-renewal and/or termination. For good cause shown, the athletic coach may call a limited number of witnesses to testify if there is a clear need for witnesses to present factual information (rather than simply

expressing an opinion on the skill or competence of the athletic coach). In any event, cumulative or redundant testimony shall not be allowed.

- D. The decision of non-renewal or termination shall be affirmed unless the Board determines that the decision is arbitrary and capricious. The coach shall bear the burden of proof on this point.
- E. Within a reasonable period of time following the hearing, the Board shall determine whether the Superintendent acted in an arbitrary and capricious manner in making his/her decision not to renew and/or to terminate, and shall provide a written decision to the coach. The decision of the Board shall be final.

Personnel records shall be kept on all current employees and shall include information usually expected in good personnel administration.

A file shall be kept for all resigned or retired employees, including such essential information as shall seem appropriate to the administration as specified by state and federal laws.

The Superintendent or designee, on behalf of the Board, shall notify an employee and a collective bargaining representative, if any, in writing when a request is made for disclosure of the employee's personnel, medical or similar files, if the Superintendent reasonably believes disclosure would invade the employee's privacy.

The records will be disclosed unless written objection is received from the teacher or employee's collective bargaining representative, within seven business days from the receipt by employee or collective bargaining representative.

Records of a teacher's performance and evaluation shall not be released without the written consent of the teacher.

All written materials shall be made available for inspection by the employee and a collective bargaining representative, if any, involved at an off-duty time in the presence of an administrator. Upon request, in accordance with state law, a professional employee will be provided a copy of supervisory records and reports maintained in said employee's personal file as a guide to evaluation of performance.

Other members of an employee's household, whether or not related, will be considered to be members of the immediate family for purposes of this policy.

2. Employees are expected to inform their immediate supervisor of a family relationship with other employees in the school district.
3. The Principal is to be informed of such a relationship within the school building.
4. Employees may not directly supervise members of their own family, as defined above.

(Exceptions to these rules are permitted only with the approval of the Superintendent of Schools.)

Personnel - Certified and Non Certified**Personnel Records**

Personnel records shall be maintained securely and confidentially in the central office for all current employees and shall include information customarily kept in personnel files. Files also shall be maintained for past employees, including years of employment, salaries, and such other basic and essential information as the Superintendent of Schools shall require.

There shall be only one personnel file for each employee, and Principals shall not maintain employee files separate from the official employee file in the Central Office.

Requests for access to personnel files, except from an employee to see his or her own file, shall be referred to the Superintendent who shall determine whether disclosure of such records would legally constitute invasion of employee privacy. If the Superintendent believes disclosure is not an invasion of privacy, requested information shall be disclosed, but professional courtesy suggests the employee should be notified of such disclosure.

If the Superintendent determines disclosure would invade employee privacy, the employee/s and collective bargaining representatives if any, shall be notified in writing of the request. If the Superintendent does not receive a written objection, from the employee or bargaining representative, within seven business days from receipt of their notification, or if there is no evidence of receipt not later than nine business days from the date the notice was mailed, sent, posted, or otherwise given, requested records shall be disclosed. However, if an objection is received in a timely manner on the form prescribed, the Superintendent shall not disclose requested information unless directed to do so by the Freedom of Information Commission. Notwithstanding an objection filed by an employee's bargaining representative, the employee may subsequently approve disclosure of records by filing a written notice with the Superintendent.

Employee or bargaining representative objections to disclosure of records shall be made in writing on a form developed by the Superintendent including a signed statement by the employee or bargaining representative, under penalties of false statement, that to the best of respondent's knowledge, information, and belief, there is good grounds to support the objection and that the objection is not interposed for delay.

The records may be disclosed when the Superintendent does not believe such disclosure would legally constitute an invasion of privacy. The records, in such a situation, shall first be disclosed to the requestor, followed within a reasonable time after disclosure, with the sending of a written or electronic copy or brief description of such request to the employee and any applicable collective bargaining representative. Disclosure shall only be considered an invasion of privacy where (1) such records do not pertain to a legitimate matter of public interest and (2) disclosure of such records would be highly offensive to a reasonable person.

Records maintained or kept on file by the State Department of Education or the Board which are records of a teacher's personal misconduct shall be deemed to be public records, and subject to disclosure under the Freedom of Information Act. Disclosure of such records of a teacher's personal misconduct shall not require the consent of the teacher.

Notwithstanding earlier provisions of this policy, personnel evaluations of certified employees, except the Superintendent, are not public records subject to disclosure - unless the employee consents in writing to the release of such records.

Each employee's own file shall be available for his or her inspection at reasonable times, and, upon request, employees will be provided a copy of information contained in his or her file.

In accordance with federal law, (ESSA), the District shall notify parents at the beginning of each school year of their right to request information regarding the professional qualifications and degrees of teachers and the qualifications of paraprofessionals for any teacher or paraprofessional who is employed by a school receiving Title I funds and who provides instruction to their child at that school. The District will provide such information on request in a timely manner. The District shall also provide notification to the parent/guardian of a child who has been assigned or has been

taught for four or more consecutive weeks by a teacher not meeting applicable state certification at the grade level and subject area in which the teacher has been assigned.

Files containing medical information regarding an employee will be kept separate from other personnel files.

A. Teachers with less than forty consecutive school months of Westport service go on tenure at the time forty consecutive school months of Westport service is completed on the recommendation of the Superintendent of Schools and offered a contract to return for the following year. During this probationary period, the Board of Education may notify the teacher prior to April 1 that his/her contract will not be renewed for the following year. Upon a teacher's written request, such notice shall be supplemented within seven days by a statement of the reason or reasons for such failure to renew. Within twenty days of receipt of non-renewal notice, the teacher may request in writing a hearing before the Board of Education, unless the reason for the non-renewal is elimination of position or loss of position to another teacher, to be held within fifteen days of such request, and at such hearing the teacher has a right to appear with counsel of his choice.

B. When a teacher who has attained tenure status in another Connecticut town moves to Westport, he/she becomes covered by the tenure provisions of the law after twenty consecutive school months unless April 1 non-renewal notice is given him/her prior to the completion of twenty months service.

C. Westport "service" includes only that teaching experience in Westport for teachers holding certificates issued by the State Board of Education.

D. Tenure includes all certified staff members below the rank of Superintendent. When a person moves from a Westport teaching assignment to an administrative position he/she retains his/her tenure rights as a teacher, but must serve a three (3) year probationary period in administrative work.

E. A tenure teacher who is granted a leave of absence by the Board does not forfeit tenure rights. However, a tenure teacher who interrupts continuity of service by resignation or transfer to another system, must serve the probationary period of 20 months upon reemployment.

Teachers who leave the Westport schools prior to attaining tenure must serve the full probationary period of forty consecutive months after re-employment.

Probationary/Tenure Status

All certified personnel may attain tenure as provided by law. (C.G.S. 10-151, as amended*)

The Board of Education will expect thorough and competent evaluations of all personnel before they become candidates for tenure. The awarding of a contract by the Superintendent for a teacher to return for the following year must be based on effective practice as informed by performance evaluations conducted pursuant to Connecticut General Statute 10-151b, as amended and with the teacher evaluation guidelines recommended by the Performance Evaluation Advisory Council (PEAC) and approved by the State Board of Education (6/27/12).

Procedures for continuation or termination of a contract, failure to renew a teacher's contract, or appeals thereof shall be in accordance with Connecticut General Statute 10-151, as amended.

Teachers Working Under Cooperative Arrangements

Teachers working under cooperative arrangements recognized in statute retain their credited service toward tenure with a Board of Education if their service is transferred to a committee administering a cooperative arrangement and the District is part of the committee. Also permitted is allowing a teacher with tenure at a district to be considered as having continuous employment for tenure purposes if the teacher becomes employed under a cooperative arrangement in which the district participates.

Awarding of Tenure

The most important person in the educational life of any student is his or her teacher. Therefore, it is the policy of the Board of Education to allow tenure to accrue only to those teachers who have demonstrated outstanding achievement and talent in their work in this school system. The awarding of a contract the Superintendent for a teacher to return for the following year must be based on effective practice as informed by performance evaluations conducted pursuant to Connecticut General Statute 10-151b, as amended and with the teacher evaluation guidelines recommended by the Performance Evaluation Advisory Council (PEAC) and approved by the State Board of Education (6/27/12).

In addition to the evaluations usually done by Principals and/or Department Heads, the Superintendent of Schools shall formally observe and evaluate, under the District's Evaluation Document, the work of each non-tenured teacher each year. In addition, 60 days before the date on which tenure shall accrue to a teacher, the Superintendent shall review with the Board of Education in executive session the quality of that teacher's work.

Teachers Working Under Cooperative Arrangements

Teachers working under cooperative arrangements recognized in statute retain their credited service toward tenure with a board of education if their service is transferred to a committee administering a cooperative arrangement and the District is part of the committee. Also permitted is allowing a teacher with tenure at a district to be considered as having continuous employment for tenure purposes if the teacher becomes employed under a cooperative arrangement in which the district participates.

Study/Use of Religious Symbols, Music, etc.

Study/Display: On a developmentally appropriate basis, the school system should encourage students to learn about the customs, practices and holiday celebrations of many different religions and cultures. Studies of the religious histories, arts, symbols, and tenets, must be for educational purposes, and must neither advocate nor disparage the practice of religion or the beliefs of any particular religion.

1. **Religious Holidays:** May be noted at appropriate times; their historical origins, contemporary significance and symbols may be studied. Teachers should be sensitive to children of different religions and provide balance in assignments.
2. **Religious Symbols:** These include Buddha, Crèche, Cross, Star of David, and symbols of other religions that may be studied within the curriculum. These are sacred to particular faiths and belong primarily in a place of worship or a home. School use must be for educational purposes only, on a brief, temporary basis.
3. **Holiday Symbols:** Symbols such as Santa Claus, menorah, dreidels, shofar, Easter eggs, Christmas wreaths and trees, etc., while they may have no religious significance or liturgical applications, have unquestionably become associated with religious celebrations. Therefore, to avoid having students or visitors to the schools feel uncomfortable or left out, staff should be sensitive when displaying holiday symbols. If used in classrooms or hall bulletin boards, they are to be used in an educational context, and are to reflect cultural and religious diversity.

Decorations in public areas should be minimal. They should not use the holiday symbols of one religion exclusively or dominantly, or display them in such a way as to suggest that the school is celebrating a particular religious holiday.

4. **Art, Literature, Music:** Some of the world's greatest art, music and literature were developed in connection with religion. They may be studied if presented in an objective and neutral manner as the cultural heritage of religious holiday.

Performances: Follow these guidelines for winter holiday programs:

1. Material for performances near religious holidays must be chosen on the basis of educational merit.
2. Material associated with one religion should not dominate a program.
3. Sacred music should **not** be included in elementary schools, as there is a wide selection of non-sacred music appropriate for this age group.
4. Sacred music may be used at the middle schools and Staples. We rely on the sensitivity of our staff to plan a mixture of secular and sacred music, to seek balance so that sacred music of one religion does not dominate, and to convey that study and/or performance of such music will not be construed as a religious holiday observance.

Scheduling

Normal School/Extra Curricular Activities: No school events (including rehearsals, games and athletic practices) are to be scheduled on major religious holidays that are also school holidays, i.e., Good Friday, Easter, Christmas, Rosh Hashanah, Yom Kippur. Normal school activities may proceed on religious holidays that are not school holidays but ***students are not to be required to attend or to be penalized for missing practices, rehearsals, etc., because of religious observance.*** Jewish holidays run from sundown the evening before the holiday to just after sundown on the day of the holiday. Therefore, avoid evenings before the holidays.

Special Programs: On religious holidays that are *not* school holidays, some observant children may miss school or be involved in family observances the night before. Therefore, although normal school activities may be scheduled, *whenever possible* do not schedule special programs, assemblies, one-time performances, field trips, proms, or other activities that are *unique or hard to duplicate* on days or evenings when some students may be unable to attend. The same sensitivity should be shown in planning programs for parents such as Back-to-School Nights, curriculum nights, and special informational meetings, so that those involved in religious obligations do not miss important events.

Exceptions: There may be times when such scheduling is unavoidable because of the involvement of other districts, athletic leagues, etc., or because a particular site or speaker is available only at that time. Similarly, in developing the system-wide calendar, avoidance of scheduling on a religious holiday may be difficult or may not be possible because of conflicts with other school or school system events, staff members' own schedules, etc.

Homework and Tests: Students involved in religious observance or family celebrations on some holidays may not have the time to do schoolwork assigned specifically over the holiday period, or to study for a test scheduled for the very next day. Teachers may find it least complicated not to assign homework to be due on, or schedule tests for, those days. If assignments are unavoidable, students observing the holidays are to be given the opportunity to make up tests or homework. *All students should be required to do all assigned work but no student should be penalized for religious observances.*

Note: *The homework caveat need not apply to assignments given many weeks in advance.* During any lengthy period, many students encounter diversions due to family obligations, temporary illness, extra-curricular activities, and after school jobs, as well as religious observances. It is appropriate to expect students to plan ahead, so that they can complete their work on time despite those other demands.

New Material: Teachers should avoid introducing new material, or work that would be difficult to repeat or make up, on days when some students may be absent for religious observance.

Personnel – Certified/Non-Certified

Freedom of Speech

Display of Religious Symbols and Decorations

This policy applies to office, administrative, and other spaces where the instruction of students or the provision of services to students is not intended to occur and where students are not typically found.

It is the policy of the Board that it shall neither promote nor discourage any religious belief or non-belief. Instead, the Board encourages all students and employees to have an appreciation for and tolerance of the many points of view which they may encounter among the District's many students and employees.

Consistent with this policy the Board recognizes and respects the right of all of its employees to engage in private and quiet religious activities, so long as that conduct is not disruptive and does not interfere with the rights of others to not participate in those activities or to have those activities imposed upon them. Employees whose religious beliefs require religious activity during the work day are to request of their supervisor a non-disruptive place for such practice. Time for such practice will be during break periods or non-paid time.

In some religious traditions there is an expectation that specific apparel will be worn in the workplace. Moreover, many employees occasionally, choose to wear to work clothing that suggests or implies the observance of a religious holiday. The District's policy is to balance the rights of employees to express their religious beliefs with the right of their co-employees to not have religious beliefs, customs, or practices imposed upon them. At the same time, the District requires all employees to maintain a professional appearance and to respect the integrity of the workplace. Restraint, tolerance, and respect for the traditions of other employees is both expected and required.

The use of District resources, including office supplies and equipment, including word processors, copying machines and fax machines, in connection with or in support of the personal observance of religious beliefs, is no more appropriate than the use of District resources and equipment for any non-religious personal purpose, and will not be tolerated.

Any and all decoration of work spaces by employees is expected to be done in a manner which is not disruptive and which does not interfere with work performance. Employees are expected to be sensitive to the rights and views of others. The visibility of decorations to other employees and their resulting impact upon the workplace should be considered by employees who place them in the workplace, and will be considered by the Administration in monitoring adherence to this policy.
