

Richfield Public Schools Pay-To-Ride Transportation Contract

- A. Eligible Pay-To-Ride students will be considered public and nonpublic middle school students (grades 6-8) residing less than two miles from school, and high school students (grades 9-12) residing less than two miles from school, and designated as not eligible for regular to-and-from transportation service as defined by School Board Policy 700, section 743.1 and State Statute 123B.36.
- i. The school district shall make the determination of sufficient time and space availability for servicing “Pay-To-Ride” students on transportation equipment that would normally have in use on the average school day.
 - ii. It is understood by the parent/guardian that this contract is on a space-available basis and that during the period of this agreement the school district must give priority to students who are eligible to ride, and that the student on Pay-To-Ride may be denied transportation at such time.
 - iii. Bus routes shall not be altered to accommodate Pay-To-Ride students, but allow access to the bus on the scheduled route. The service shall not typically add distance to the existing route.
- B. All contractual agreements between the school district and parent/guardians of students shall comply with State laws and regulations.
- i. Determination of Services
 1. Services will be billed in advance on an annual basis.
 2. Transportation services for full-year Pay-To-Ride students will begin on the first day of school and will conclude on the last day of school.
 3. Transportation services for winter Pay-To-Ride students will begin on the first Monday in November and will conclude the last day before Spring Break.
 4. Students may have to walk three quarters of a mile to access a bus stop.
 5. Students are required to show an approved district bus pass to the driver to receive a ride.
 - ii. Cancellation of Contract
 1. The district, upon five (5) days written notice, may accept cancellation of the service.
 2. The district may cancel service resulting from a subsequent determination of time and space available.
 3. The Pay-To-Ride service is a privilege and may be canceled or suspended at any time by the school district due to disciplinary problems occurring during the day.
 4. Contracts canceled by the school district shall not be considered renewable during the same fiscal year.
 - iii. Contract Reimbursement by the District
 1. Reimbursement for students moving to another school district will be prorated based on the number of student membership days.
 2. There will be no reimbursement for those days that the student is suspended from transportation services or due to emergency school closings, etc.
 3. Reimbursement will not be made for infrequent ridership due to attendance or actual usage.
 4. The approved reimbursements will be processed annually by July 1.
 - iv. Ability to Pay
