Cosmetology

Available at: Diamond, Laurel, Live, Scarlet

COURSES

Microbiology and Infection Control

Students will learn basic bacteriology, infection control, and salon safety practices. Students will be able to recognize infectious disorders and contagious diseases and learn the dispensary requirements, product storage, and requirements of the laws and rules which regulate the cosmetology industry in Ohio.

Hand & Foot Treatment Fundamentals and Enhancements

Students will learn the knowledge and skills to perform both manicures and pedicures. They will learn how to maintain personal hygiene and infection control. Students will give plain/oil manicures, pedicures, and hand/arm and foot/leg massages. Enhanced hand and foot treatments using specialized products and techniques will be performed.

Fundamentals of Hair Cutting and Styling

Students will learn basic shampooing, conditioning and haircutting including trimming, wet styling and thermal styling techniques when working with natural and synthetic hair. Students will also learn infection control and safety along with the science of ergonomics.

Skin Care Fundamentals and Enhancements

Students will apply the principles of anatomy, skin analysis, infection control and safety to safe hair removal, skincare treatments, and facial massage. Students will use electrical and manipulative facial treatments including masks, packs, make-up techniques. Students will also learn advanced skin care treatments, targeted massage, and enhancement applications using specialized products and techniques.
