

Galveston Independent School District

SHAC Agenda 3-7-17

- Welcome and Introduce New SHAC members
- What is SHAC- why districts have it and what it is-
A SHAC is a group of individuals representing segments of the community, appointed by the school district to serve at the district level, to provide advice to the district on coordinated school health programming and its impact on student health and learning.

SHACs provide an efficient, effective structure for creating and implementing age-appropriate, sequential health education programs, and early intervention and prevention strategies that can easily be supported by local families and community stakeholders.

Benefits of Having a SHAC

- Addressing the health needs of students through the work of the SHAC, helps meet district performance goals and alleviates financial constraints.
 - SHACs play an important role in communicating the connection between health and learning to school administrators, parents and community stakeholders.
 - SHACs can help parents and community stakeholders reinforce the health knowledge and skills children need to be healthy for a lifetime.
-
- Campus visits- will go over the Campus Visit forms during the meeting on March 7th, discuss the action needed to complete these visits
 - Topics/Ideas for next meeting
 - Date for next meeting
