COURSES

Foundations of Firefighting and Emergency Medical Services

This course introduces students to the foundational concepts of firefighting safety and emergency medical services. Students will analyze and practice skills outlined in the Ohio Department of Public Safety Fire Protection and Ohio Emergency Medical Services rules and regulations in preparation for Firefighter I&II curriculum and EMT licensure.

Homeland Security Protecting America's Critical Infrastructure

In this course, students will learn techniques to secure and protect America's people and infrastructure from natural and manmade disaster. Students will look at a range of issues including cyber security, intelligence gathering, and local emergency planning that can be applied in their own community. Students will also learn to manage critical incidents through training in National Incident Management and the Incident Command System. Student will complete multiple FEMA certifications in this course.

Firefighter I*

This course prepares students for a career in the fire service. Students learn the history of firefighting, ground operations, fire science, fire suppression, and use of protective equipment, rescue equipment, tools and appliances. Students will apply knowledge by training with fire equipment and live fire exercises, and practicing a variety of rescue situations. Students who successfully complete this course at a chartered institution (Great Oaks) will be eligible to take the Ohio Firefighter I certification test.

Firefighter II*

This course builds on the knowledge and skills learned in Firefighter I. Students will apply knowledge and skills to advanced training in fire suppression, fire science, rescue, equipment, tools, appliances, and hazardous materials operations. Students who have completed Firefighter I and successfully complete this course will be eligible to take the Ohio Firefighter II certification test.

Emergency Medical Technician*

Emergency Medical Technicians are first responders who provide basic medical care to sick and injured people. In this course, students will learn the knowledge and skills necessary to provide lifesaving first aid. Students will assess, diagnose, and treat a variety of illnesses and injuries in the process of providing pre-hospital care. Students who successfully complete this course at a chartered institution (Great Oaks) will be eligible to take the National Registry Exam for Ohio EMT certification.

**These courses are eligible for college credit under the Career-Technical Assurance Guide (CTAG.)*
