Members of the Board of Education and Citizens of District 225 Northfield Township High School District 225 3801 W. Lake Ave Glenview, IL 60026

The Illinois State Board of Education requires that every school district issue a complete set of audited financial statements. This report is published to fulfill that requirement for the fiscal year ended June 30, 2017.

The Comprehensive Annual Financial Report of Northfield Township High School District 225 for the fiscal year ended June 30, 2017, is submitted herewith.

The District's leadership team assumes full responsibility for the completeness and reliability of the information contained in this report, based on a comprehensive framework of internal control that has been established for this purpose. Because the cost of internal control should not exceed anticipated benefits, the objective is to provide reasonable, rather than absolute, assurance that the financial statements are free from any material misstatements.

Miller Cooper & Co., Ltd., Certified Public Accountants, have issued an unmodified ("clean") opinion on the Northfield Township High School District 225 financial statements for the year ended June 30, 2017. The independent auditors' report is located at the front of the financial section of this report.

A discussion and analysis from the District's leadership team is provided in the management's discussion and analysis (MD&A) located in the financial section, immediately following the independent auditors' report, providing a narrative introduction, overview and analysis of the basic financial statements. The MD&A complements this letter of transmittal and should be read in conjunction with it.

Profile of the District

Northfield Township High School District 225, doing business as Glenbrook High School District 225, located approximately twenty-five miles north of downtown Chicago, Illinois, is a high school district serving students in grades 9 - 12. During fiscal year 2017, the District served 5,075 students¹ in two high schools, Glenbrook North, located in Northbrook, and Glenbrook South, located in Glenview, as well as in a therapeutic day school (Glenbrook Off-Campus) also located in Glenview.

The governing body consists of a seven-member Board of Education elected from within the Northfield Township boundaries, who each serve a four-year term. Board members are volunteers who do not receive a salary for their services. The most common areas of action for the Board of Education include approving policies for the operation of the schools, adopting and monitoring the budget, adopting the levy, authorizing curriculum development, approving the appointment of teachers and other staff members, and providing overall direction.

¹ Enrollment data based on October 1, 2016 actual counts.

The Board of Education appoints a superintendent, who in turn recommends to the Board of Education the appointment of the remaining administrative team. An organizational chart is provided in the Introductory Section of this report.

Glenbrook High School District 225 serves students in the Villages of Glenview and Northbrook and offers its diverse student population a broad cross-section of courses and opportunities tailored to the needs of every student. Extensive curricular offerings are available from which students may choose, including Advanced Placement (AP), Work Study opportunities and a comprehensive special education program. We also encourage student involvement in extra-curricular activities, athletics, clubs and the fine arts. There are more than 25 competitive sports and over 150 clubs for our students to join. District 225's students enjoy an excellent blend of educational opportunities in academics, athletics and activities.

The District is required to adopt an annual budget for all of its funds by September 30 of each year. The annual budget serves as a foundation for financial planning and control. The budget is organized by fund, location, function (e.g., instruction, support services), object (e.g., salaries, employee benefits), and program. Development and presentation of the budget is progressive and presented in distinguishable parts beginning in January of each calendar year. A complete presentation of the tentative budget is presented to the Board of Education in July, and made available for public inspection throughout the month of August. After a public hearing, the Board of Education formally adopts a finalized budget for the fiscal year in September. Throughout the fiscal year, the Board of Education participates in the regular review and approval of personnel actions, awarding of bids, and payments to vendors at its meetings throughout the year.

Local Economy

Northfield Township is located in Cook County, Illinois, and is comprised of the Villages of Glenview, Northbrook, and unincorporated parts of northern Cook County. In addition to its residential real estate, the Township houses numerous national and international businesses, such as Allstate Insurance Company, Baxter Healthcare Corp., Walgreen Company, Underwriters Laboratories, Inc., CVS Caremark, Astellas Pharmacy US, Inc., ABT Electronics, Anixter International, Inc., Kraft Foods, Inc., Takeda Pharmaceuticals North America, and North Shore University Health Systems Glenbrook Hospital.

The equalized assessed valuation of all real property located within the boundaries of Northfield Township has increased by 19.8% from tax year 2015 to 2016. This appreciation represents an upward trend in property values, which due to economic conditions, had been declining over prior years.

In February 1995, the Illinois General Assembly passed tax cap legislation (P.A. 89-1) for Cook County making it retroactive to the 1994 tax year. This legislation, known as the Property Tax Extension Limitation Law (PTELL), controls the District's ability to generate property tax revenues. In addition to P.A. 89-1, the Illinois General Assembly amended Article 20, which limits the amount of taxes for debt service that can be generated through the sale of non-referendum bonds, to the district's 1994 aggregate non-referendum debt service amount, increased annually by the change in the Consumer Price Index (CPI). For District 225 this current limit is \$2.3 million.

In November 2006, the voters of District 225 approved a \$94 million building bond referendum increasing the debt service tax rate by 8.5 cents. As outlined in the District's pre-referendum planning process, initial proceeds were used to restructure debt, with the balance of funds invested for future capital projects. As a result of these transactions, approximately \$4 million was replenished to the District's operating funds that had previously been restricted for alternate revenue bond payments, building maintenance and infrastructure.

In October 2016, the District approved the refunding of existing debt from the 2006 referendum, to maximize debt service funds given historically low interest rates. The District was able to save approximately \$6.6M in interest expenses as a result of the refunding activities. With access to these savings, and additional DSEB capacity, the District was able to raise approximately \$15M through the sale of limited life safety bonds, for the purposes of performing necessary facility and learning space projects.

A goal of the 2016 restructuring was to positively position the District to become debt free in tax year 2026.

For information regarding the District's financial position and respective changes in financial position, please read the Management's Discussion and Analysis.

Long-Term Financial Planning

Although the District has benefited from a successful building referendum, it will continue to monitor its operating budget. Key areas of concern are property tax refunds, reduced/deferred state funding, unfunded mandates, utility costs, growing special education student needs, increasing health care costs, decreasing investment earnings, and the overall impact of economic conditions. The District will continue to explore reducing expenditures wherever possible.

District administration routinely completes five year projections as part of its comprehensive financial planning process. Over the past five years, the District has aggressively reviewed every area of operations for improvements in efficiencies. This on-going review has resulted in major cost reductions in the areas of energy, insurance, bookstore operations, food service, technology infrastructure, transportation, printing and copy services and investment property.

District finances are monitored through such means as periodic financial reports to the Board of Education, the annual budget process and long-term financial projections. The Board of Education has an established Finance Committee that meets several times per year to review financial reports, updated budgetary data, significant legislative issues and pending events that may have a financial impact upon the District.

As a result of the District's internal control policies and procedures, budget oversight and fiscal management, both Standard and Poor's Financial Services LLC and Moody's Investors Service have awarded the District "AAA" bond ratings. In addition to these excellent financial ratings, Standard and Poor's has awarded the District their highest management rating of "strong", which reflects an independent opinion of excellence in financial management.

Relevant Financial Policies

Budget planning for the upcoming fiscal year begins no later than October, following adoption of the District's final budget. The proposed budget is available for public inspection and comment at least 30 days before the budget hearing. Within 30 days of adoption, the budget is filed with the Cook County Clerk's office and filed electronically with the Illinois State Board of Education (ISBE). Also, the adopted budget is posted on the District's website. The Board of Education may amend the budget by following the same procedure as provided for in the original adoption.

The Board of Education maintains an established budget policy that requires unassigned reserves in the operating funds be maintained at a level equal to approximately 33% of the next year's projected operating expense budget. The budget policy outlines parameters for the distribution of resources, maintenance of the District's tax rate, provisions for safe and operationally sound facilities, compliance with all applicable regulation, establishment of reasonable contingencies and the continuous monitoring of efficiencies.

The Township Treasurer serves as the Chief Investment Officer. The Township Treasurer invests funds not required for current operations in accordance with Board policy and State law. The Board of Education has an established investment policy to ensure safety of principal, liquidity of principal, return on investments, and maintenance of the public's trust. See the Notes to the Basic Financial Statements for additional information on cash and investments.

The certificate of property tax levy is filed with the Cook County Clerk's office by the last Tuesday in December. The District annually publishes a statement of affairs regarding its financial position by December 1st of each year.

Major Initiatives

Building Capacities/Student Enrollment

The District has been carefully monitoring student enrollment and building capacities, especially with respect to increasing enrollment at Glenbrook South. After commissioning an independent demographic enrollment study and gathering input from the community, the Board of Education determined that both Glenbrook North and Glenbrook South schools can accommodate anticipated student populations without a need to consider changes to District boundaries or practices. Student enrollment is projected to increase over the next several years, stabilizing at some point in the future. This trend may require temporary facility modifications in order to maintain ideal student capacity in some curricular areas.

Curriculum and Instruction

District 225 believes in the importance of community input relative to future initiatives in the area of curriculum and instruction. The District is embarking upon a comprehensive strategic planning process in this area, obtaining feedback from stakeholders regarding academic skills, course offerings and student academic work. In addition, the District's instructional practices enhance student engagement with an emphasis on collaboration, communication, critical thinking, and creativity. A three-year strategic plan in the area of curriculum is being developed with input from a variety of stakeholders.

Student Wellness

District 225 believes in the importance of community input relative to future initiatives in the area of student wellness. The District is embarking upon a comprehensive strategic planning process, obtaining feedback from stakeholders regarding student emotional wellbeing, physical wellbeing, mental health issues and substance use. A three-year strategic plan in the area of student wellness is being developed with input from a variety of stakeholders.

Technology Integration

The District approved the adoption of a 3-year technology vision that provides a roadmap for areas in which to focus on, enabling a greater degree of innovation in our schools. The plan emphasizes the need for ongoing communication across stakeholder groups in order to create effective learning environments, enriched by technology, and designed to develop citizenship, collaboration, communication, critical thinking, and creativity across the curriculum.

Communication

The District utilizes a three-year communications plan to guide efforts to build trust and support for the Glenbrook schools. In year two of the plan (FY2016), the communications office planned the design of a new external website and mobile device interface. The new social media campaigns conducted several focus groups of students, parents, and staff, with the new website launched during FY2017.

Awards and Achievements

The Glenbrooks believe that student recognitions go beyond the traditional format of honoring 1st, 2nd and 3rd place finishers in state and national competitions or test scores alone. While these students are worthy of praise, it is our goal to showcase the lesser known stories of those who demonstrate success in a variety of non-traditional ways. Through this process we have been able to reinforce our value of learning, demonstrate our celebration of diversity, and expose our school community to a wider range of academic, athletic and extra-curricular achievements.

The following stories of our students, faculty and alumni are examples of the many achievements recognized and celebrated by the District that help bring the statistical data to life.

Glenbrook South Model U.N. Team Finds Success through Peer Support

The Glenbrook South Model United Nations team has won numerous awards over the years. But this team never measures its success only with trophies.

"We've grown in size and in awards, but we compete for our own enjoyment,"said Lori Steffel, vice president. "We are all friends no matter our ages. We talk about Model U.N., and we also talk about how life is going. There's a family atmosphere between underclassmen and upperclassmen."

The team was originally started 8 years ago by advisor Terry Jozwik while he was teaching social studies at GBS. Model U.N. competitions were first popular on the east and west coasts, Terry said, explaining that the Midwest is now becoming more of a powerhouse with Glenbrook South being a key contender.

Terry believes that knowledge is power when it comes to Model U.N. "These kids are improving their writing skills, public speaking skills, collaborative skills...," Terry said. "It's real-world experience for them because they're dealing with hundreds of people at competitions. Even if they don't win an award, they learn a lot."

President Yoana Sidzhimova said that Model U.N. has taught her the meaning of teamwork. She joined as a freshman and soon looked toward upperclassmen to understand how to find real solutions to complex problems.

"At first I only joined Model U.N. to earn extra credit in world history class," Yoana said. "But then I met a lot of older kids who I looked up to, and they made me want to do well. It's honestly the best group of people – you've got the varsity football captain working with the president of the juggling club." Yoana said that she was able to learn from people who genuinely enjoyed the competitions once she got beyond her own "need-to-win" mindset.

"That's when the awards came naturally," Yoana said. "... when we were working together to find solutions."

GBS Model U.N. won eight awards during the 2016-17 school year. They were one of only three teams to win an Award of Distinction at the national conference in New York this past March. In addition, student leaders were recently invited to speak at the Illinois State University History Conference and were featured in the John Hopkins Center for Talented Youth's Imagine Magazine.

Glenbrook South's Steve Rockrohr Named Athletic Director of the Year

GBS Athletic Director Steve Rockrohr has been named the 2016-17 3A/4A Athletic Director of the Year by the Illinois Athletic Directors Association (IADA). He was presented with the award May 7, 2017 in Peoria. Steve has been the GBS athletic director for the past 15 years. In 2015, he received the State Award of Merit from the IADA.

"I'm just thankful for the opportunity I have to work with the students, coaches, and administration at GBS and District 225," Steve said of the honor.

GBS Principal Lauren Fagel said Steve is a "dedicated member of the IADA and a trusted member of the GBS administrative team." "I am honored to work with such an experienced and effective athletic director," Lauren said. "Steve focuses on creating opportunities for students, and, as he likes to say, 'clearing the way for coaches."

Alumnus, Angel Investor Visits Math and Science Students

Stepping into Glenbrook North High School nearly 24 years after his 1993 graduation, Spartan alumnus Navin Thukkaram had a story to share with students – something he refers to as the "epic exit." Navin spoke to computer science and math team students Feb. 27. He was on the math team while attending GBN, and therefore has been a great supporter of the team, having helped send 12 students to the Harvard-MIT Mathematics Tournament this year though a matching grant challenge.

His advice to students: "Learn how to code and learn computer science," he said. "Always think about your ultimate outcome – your exit strategy."

Navin is an angel investor and entrepreneur who has completed five successful exit plans from business ventures, creating more than \$3 billion in value. He was chief operating officer, seed investor and a board member of Qwiki, a mobile video startup that was acquired by Yahoo! for \$50 million in 2013. Currently, he is working with drone technology and cloud-based business services. "Math and science is all related to technology," Navin told the GBN students, explaining how their high school courses ultimately build the foundation for tech-heavy careers. Prior to Qwiki, Thukkaram was a partner at Vulcan Capital, the multi-billion-dollar investment fund of Paul Allen.

After graduating from GBN, Navin earned his Bachelor of Science in Engineering degree from Princeton University and his Master of Business Administration degree from Harvard Business School. He was captain of the GBN golf team during his senior year and went on to play at Princeton.

Certificate of Excellence in Financial Reporting

Glenbrook High School District 225 has been awarded the Certificate of Excellence in Financial Reporting (COE) recognition from Association of School Business Officials International (ASBO International) for the past 8 years. The District first received the award in conjunction with the Comprehensive Annual Financial Report from the 2007-2008 fiscal year.

In addition to nationwide recognition, the COE program provides school districts with additional feedback for use in continuing to improve the quality of financial reporting, and recognizes districts for their commitment to excellent in financial management and reporting.

Certificate of Achievement for Excellence in Financial Reporting

Glenbrook High School District 225 has received the Certificate of Achievement for Excellence in Financial Reporting from the Government Finance Officers Association (GFOA) for the past 8 years. The District first received the award in conjunction with our Comprehensive Annual Financial Report from the 2008-2009 fiscal year.

This recognition is awarded to state and local governments that go beyond the minimum requirements of financial reporting, by providing comprehensive financial reports that provide transparency and full disclosure.

Moody's Investors Services - Aaa Bond Rating

Glenbrook High School District 225 has received the highest bond rating available for the District's outstanding debt from Moody's Investors Services.

The rating of 'Aaa' indicates that our obligations have been judged to be of the highest quality, subject to the lowest level of credit risk.

S&P Global Ratings - AAA Bond Rating

Glenbrook High School District 225 has received the highest bond and management rating available for the District's outstanding debt from S&P Global Ratings.

The rating of 'AAA' indicates that our capacity to meet our financial commitments of our obligations is extremely strong. Additionally, a financial management assessment (FMA) rating of 'Strong' indicates that our management practices are strong, well embedded, and likely sustainable.

<u>Illinois State Board of Education – Financial Recognition Status</u>

Glenbrook High School District was issued the status of "Financial Recognition" for 2017 from the Illinois State Board of Education. The numeric rating of 3.90 indicates that the District is in the highest category of financial strength. This rating was issued based on the 2015-2016 Annual Financial Report data.

The Illinois State Board of Education takes into consideration (5) factors when assigning a financial profile designation: fund balance to revenue ratio; expenditures to revenue ratio; days cash on hand; percent of short-term borrowing maximum remaining, and percent of long-term debt margin remaining.

Acknowledgements

The preparation of this report would not have been possible without the efficient and dedicated service of the entire Central Office staff. We wish to express our appreciation to all members of the Central Office who assisted and contributed to the preparation of this report. Also, credit must be given to the President and members of the Board of Education for their desire and commitment to maintain the highest standards of professionalism in the management of Northfield Township High School District 225 finances.

INDEPENDENT AUDITORS' REPORT

The Members of the Board of Education Northfield Township High School District 225 Glenview, Illinois

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Northfield Township High School District 225, as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise Northfield Township High School District 225's basic financial statements, as listed in the table of contents.

Management's Responsibility for the Financial Statements

Northfield Township High School District 225's management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

NEXIA INTERNATIONAL

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Northfield Township High School District 225, as of June 30, 2017, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter - Correction of an Error

As discussed in Note O to the basic financial statements, the fund balance in the Operations and Maintenance Fund and the net position of the governmental activities as of June 30, 2016 has been restated as a result of a correction of an error to unearned revenue related to an overstatement of revenue in the prior year. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 5 through 16, the Illinois Municipal Retirement Fund and Teachers' Retirement System of the State of Illinois Pension data on pages 68 through 71, the other postemployment benefits data on page 72, budgetary comparison schedules and notes to the required supplementary information on pages 73 through 96 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit for the year ended June 30, 2017 was conducted for the purpose of forming opinions on the financial statements that collectively comprise Northfield Township High School District 225's basic financial statements. The other schedules listed in the table of contents, in the introductory section, the supplementary financial information, and the statistical section, are presented for purposes of additional analysis and are not a required part of the basic financial statements.

-2- (Continued)

Other Information (Continued)

The supplementary financial information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information for the year ended June 30, 2017 has been subjected to the auditing procedures applied in the audit of the basic financial statements for the year ended June 30, 2017 and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary financial information for the year ended June 30, 2017 is fairly stated in all material respects in relation to the basic financial statements as a whole for the year ended June 30, 2017.

We also have previously audited, in accordance with auditing standards generally accepted in the United States of America, the basic financial statements of Northfield Township High School District 225, as of and for the year ended June 30, 2016 (not presented herein), and have issued our report thereon dated January 12, 2017, which contained unmodified opinions on the respective financial statements of the governmental activities, each major fund, and the aggregate remaining fund information. That audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Northfield Township High School District 225's basic financial statements. The Schedule of Revenues, Expenditures, and Changes in Fund Balance - Budget and Actual for the Capital Projects Fund, Debt Service Fund, and Fire Prevention and Safety Fund, with comparative actual amounts for the year ended June 30, 2016 are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the 2016 basic financial statements. The Schedule of Revenues, Expenditures and Changes in Fund Balance - Budget and Actual for the Capital Projects Fund, Debt Service Fund, and Fire Prevention and Safety Fund have been subjected to the auditing procedures applied in the audit of the 2016 basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Schedule of Revenues, Expenditures, and Changes in Fund Balance - Budget and Actual for the Capital Projects Fund, Debt Service Fund, and Fire Prevention and Safety Fund are fairly stated in all material respects in relation to the basic financial statements as a whole for the year ended June 30, 2016.

The Introductory and Statistical Sections, as stated in the table of contents, have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 13, 2017, on our consideration of Northfield Township High School District 225's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Northfield Township High School District 225's internal control over financial reporting and compliance.

Deerfield, Illinois November 13, 2017

The discussion and analysis of Northfield Township High School 225's (the District) financial performance provides an overall review of the District's financial activities for the year ended June 30, 2017. The District's leadership team encourages readers to consider the information presented herein in conjunction with the basic financial statements to enhance their understanding of the District's financial performance. Certain comparative information between the current year and the prior is required to be presented in the Management's Discussion and Analysis (the "MD&A").

Financial Highlights

- For tax year 2016, payable in 2017, the District's aggregate equalized assessed value (EAV) for all real property within the boundaries of Northfield Township increased approximately 19.8% from \$4.39 billion to \$5.26 billion.
- In October 2016, the District approved the refunding of existing debt from the 2006 referendum, to maximize debt services funds given historically low interest rates. The District was able to save approximately \$6.6 million in interest expense as a result of the refunding activities. With access to these savings, and additional DSEB capacity, the District was able to raise approximately \$15 million through the sale of limited life safety bonds, for the purposes of performing necessary facility and learning space projects.
- General revenues accounted for \$122.1 million, or 68.2% of total revenue. Program specific revenues in the form of charges for services and grants and contributions accounted for \$57.0 million, or 31.8% of total revenue.
- The District had \$182.5 million in expenses related to governmental activities, of which \$57.0 million were offset by program specific charges for services or operating grants and contributions. General revenues of \$122.1 million and reserves of \$3.5 million were adequate to provide for the remaining costs of these programs.
- Among the major funds, the General Fund (Educational and Working Cash Accounts) had \$149.1 million in revenues, primarily consisting of property taxes, state and federal aid, and other local revenue, and \$147.9 million in expenditures.
- Enrollment remained relatively stable, increasing slightly by 0.3% or 16 students between FY2016 and FY2017.
- The FY2017 budget included numerous initiatives that were implemented during the year. These initiatives are on-going and include a continuous review of all District operations by School and District leadership teams, as well as by the Board of Education.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The basic financial statements are comprised of three components:

- Government-wide financial statements
- Fund financial statements
- Notes to the financial statements

This report also contains required supplementary information and supplementary financial information in addition to the basic financial statements.

Government-wide financial statements

The government-wide financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business.

The statement of net position presents information on all of the District's assets and deferred outflows of resources and liabilities and deferred inflows of resources, with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The statement of activities presents information showing how the government's net position changed during the fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods.

The government-wide financial statements present the functions of the District that are principally supported by taxes and intergovernmental revenues (governmental activities). The District has no business-type activities; that is, functions that are intended to recover all or a significant portion of their costs through user fees and charges. The District's governmental activities include instructional services (regular education, special education and other), supporting services, operation and maintenance of facilities and transportation services.

Fund financial statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District can be divided into two categories: governmental funds and fiduciary funds (the District maintains no proprietary funds).

Overview of the Financial Statements (Continued)

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental funds financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a school district's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental funds balance sheet and the governmental funds statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The District maintains seven governmental funds. Information is presented separately in the governmental funds balance sheet and in the governmental funds statement of revenues, expenditures and changes in fund balances for the General (includes the Educational and Working Cash Accounts), Operations and Maintenance, Transportation, Municipal Retirement/Social Security, Debt Service, Capital Projects and Fire Prevention and Safety Funds, all of which are considered to be major funds.

The District adopts an annual budget for each of the funds listed above. A budgetary comparison statement has been provided for each fund to demonstrate compliance with this budget.

Fiduciary (agency) funds are used to account for resources held for the benefit of parties outside the school district. Fiduciary (agency) funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the District's own programs. The accounting used for fiduciary (agency) funds is much like that for the government wide financial statements.

Notes to the financial statements

The notes to the financial statements provide additional information that is essential to a better understanding of the data provided in the government-wide and fund financial statements.

Other information

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information, including fund budgetary data, as well as pension data related to the Teachers' Retirement System of Illinois (TRS) and the Illinois Municipal Retirement Fund (IMRF), and the schedule of funding progress for the other postemployment benefits (OPEB) plan.

Revenues by Source

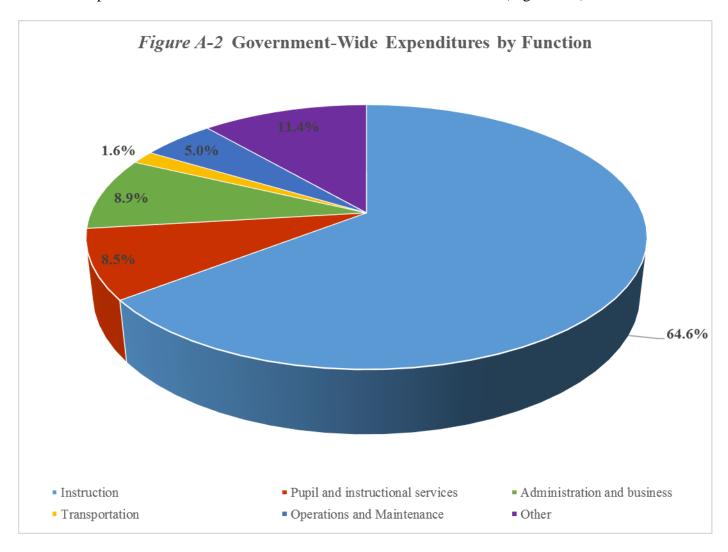

Property taxes and personal property replacement taxes in the amount of \$118.6 million accounted for 66.2% of total revenues, while operating grants and contributions in the amount of \$54.4 million accounted for 30.4%, charges for services in the amount of \$2.6 million accounted for 1.4%, general state aid in the amount of \$1.8 million accounted for 1.0%, and other local revenue in the amount of \$1.7 million accounted for 1.0% (Figure A-1).

The District's total revenue increased compared to June 30, 2016 by \$23.4 million. This increase is primarily due to an increase in TRS on-behalf payments from the State of Illinois of \$20.1 million, and an increase of \$3.1 million in property, personal property replacement, and make-whole taxes.

Expenditures by Function

Expenditures for instruction in the amount of \$118.0 million accounted for 64.6% of total expenditures, while pupil and instructional services in the amount of \$15.5 million accounted for 8.5%, administration and business in the amount of \$16.3 million accounted for 8.9%, transportation in the amount of \$2.9 million accounted for 1.6%, operations and maintenance in the amount of \$9.2 million accounted for 5.0%, and other expenditures in the amount of \$20.8 million accounted for 11.4% (Figure A-2).

The Districts total expenditures increased compare to June 30, 2016 by \$29.9 million. This increase is primarily due to an increase in TRS on-behalf payments from the State of Illinois of \$20.1 million, and an increase of \$2.7 million in capital projects related to life safety. The additional increases to instruction and instructional services are related to the increase in enrollment, increase in instructional staff, and technology upgrades.

Financial Analysis of the District's Funds

As the District closed the year, the District's governmental funds reported a combined fund balance of \$98,737,867, which is higher than last year's ending fund balance of \$82,147,117, an increase of approximately 20.2%. This increase is mainly the result of proceeds from the sale of Life Safety bonds in the amount of \$15.2 million.

The General Fund is the largest of the governmental funds. The fund balance at the beginning of the year was \$61,369,841. Actual total revenues were \$149,139,977; actual total expenditures were \$147,867,187; actual net total for other financing sources/uses related to the payment and proceeds for capital leases and gain on sale of capital assets were \$292,320. The net change in fund balance was an increase of \$1,562,110; the fund balance at the end of the year was \$62,931,951. This increase is primarily due to revenues exceeding expenditures.

The Operations and Maintenance Fund balance at the beginning of the year was \$11,846,587, as restated. Actual total revenues were \$13,671,928; actual total expenditures were \$7,558,818. There were transfers out of the fund in the amount of \$1,874,697 for the payment of long-term liabilities and capital projects. The net change in fund balance was an increase of \$4,238,413; the fund balance at the end of the year was \$16,085,000. This increase is primarily due to a higher than anticipated receipt of corporate replacement and make whole taxes.

The Transportation Fund balance at the beginning of the year was \$1,782,986. Actual total revenues were \$1,949,828; actual total expenditures were \$3,060,257; actual net total for other financing sources/uses related to the proceeds from capital lease of \$255,644. The net change in fund balance was a decrease of \$854,765; the fund balance at the end of the year was \$928,221. This decrease is primarily due to increased transportation costs, and increased board of education subsidies for free, and reduced student riders.

The Municipal Retirement/Social Security Fund balance at the beginning of the year was \$1,943,187. Actual total revenues were \$3,278,060; actual total expenditures were \$3,400,165. The net change in fund balance was a decrease of \$122,105; the fund balance at the end of the year was \$1,821,082. This decrease is primarily due to higher than anticipated municipal retirement contributions.

The Debt Service Fund balance at the beginning of the year was \$4,831,183. Actual total revenues were \$9,168,123; actual total expenditures were \$10,996,519; actual net total for other financing sources/uses related to operating transfers and debt issuance premiums and payments were \$1,652,938. The net change in fund balance was a decrease of \$175,458; the fund balance at the end of the year was \$4,655,725. This decrease is primarily related to higher than anticipated fees related to the bond restructuring.

Financial Analysis of the District's Funds (Continued)

The Capital Projects Fund balance at the beginning of the year was \$373,333. Actual total revenues were \$1,406,017; actual total expenditures were \$3,467,727; actual net total for other financing sources/uses related to operating transfers were \$1,500,000. The net change in fund balance was a decrease of \$561,710; the fund deficit at the end of the year was \$188,377.

The Fire Prevention and Safety Fund balance at the beginning of the year was \$0. Actual total revenues were \$46,222; actual total expenditures were \$2,708,066; actual net total for other financing sources/uses related to debt issuances was \$15,166,109. The net change in fund balance was an increase of \$12,504,265; the fund balance at the end of the year was \$12,504,265.

General Fund Budgetary Highlights

The District's amended budget for the General Fund (Education and Working Cash Funds) anticipated that expenditures would exceed revenues by \$2,398,662. The year ended with an actual \$1,562,110 surplus, resulting in a favorable variance. Actual revenues exceeded the budgeted amount by \$287,380 (excluding on-behalf payments), resulting from higher than budgeted revenue from federal sources. Actual expenditures were less than the budgeted amount by \$3.38 million (not including on-behalf payments), resulting in less than budgeted general operating expenditures.

Capital Asset and Debt Administration

Capital assets

By the end of FY2017, the District had invested \$138 million (net of depreciation) in a broad range of capital assets, including land, construction in progress, buildings and land improvements, and equipment and vehicles (Table 3). Additional detailed information on capital assets is in Note E to the financial statements.

Capital Asset and Debt Administration (Continued)

Table 3 Capital Assets (net of depreciation)		
	Governmental Activities FY2016	Governmental Activities FY2017
Land	\$1,477,361	\$1,477,361
Construction in progress	1,045,766	2,321,391
Buildings and land improvements	133,039,859	130,160,433
Equipment and vehicles	4,067,873	<u>4,033,152</u>
Total	<u>\$139,630,859</u>	<u>\$137,992,337</u>

Long-term debt and other long-term liabilities

In October 2016, the District approved the refunding of existing debt from the 2006 referendum. A goal of the 2016 restructuring was to positively position the District to become debt free in tax year 2026. In February 2017, the District approved the issuance of Life Safety bonds. These combined issuances resulted in the retirement of \$46.4 million in bonds payable and an addition of \$54.3 in bonds payable, the net effect increased the District's bonds payable \$7.9 million.

The District reports compensated absences, net pension liabilities, and other postemployment benefits as long-term liabilities. Additional detailed information on long-term liabilities, pension obligations, and other post-employment benefits are in Note F, Note G, and Note H to the financial statements.

Capital Asset and Debt Administration (Continued)

Table 4 Long-Term Liabilities		
	Governmental Activities FY2016	Governmental Activities FY2017
General obligation bonds	\$87,635,042	\$97,008,388

Compensated absences	410,376	896,412
IMRF net pension liability	7,113,453	7,072,470
TRS net pension liability	6,970,006	7,663,855
Other postemployment benefits	<u>3,601,645</u>	<u>3,778,898</u>
Total	<u>\$106,903,391</u>	<u>\$117,920,236</u>

Factors bearing on the District's Future

Following are significant issues that will affect the District's future:

- Corporate Campus Consolidation and Relocations: The Villages of Glenview and Northbrook benefit from a strong corporate campus presence within their communities. As corporations continue to evaluate their real estate holdings and the residential preferences of their workforce, larger suburban corporate offices have been consolidating and relocating to metropolitan areas. While the District's largest representative taxpayers remain committed to our two communities, this is an area that is closely monitored by the District as we plan for the future.
- The Glen TIF: The Glen (formally known as the Glenview Naval Air Station, "GNAS") TIF (Tax Incremental Financing) provides that the District receives make-whole payments for new students attending the District. A critical factor for future financial planning is the rate at which housing is occupied and high school enrollment increases. It is anticipated that the property located in The Glen will become part of the District's EAV in tax year 2022. The District is working closely with the Village of Glenview regarding the future impact of development upon student enrollment.

Factors bearing on the District's Future (Continued)

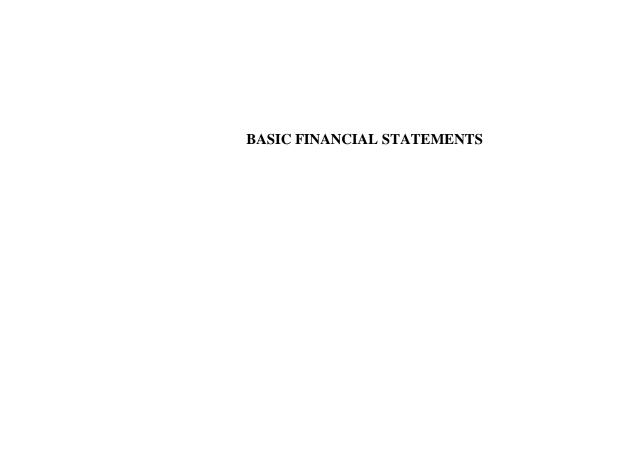

- Property Tax Appeals: Business taxpayers have the choice of filing property tax appeals through either the Property Tax Appeals Board (PTAB) or the Cook County Circuit Court (tax court). The District has the right to intervene in cases filed through the PTAB or the Circuit Court for assessment adjustments over \$100,000. Over the last fifteen fiscal years, District 225 has lost over \$32 million to property tax refunds, through both the PTAB and the tax court. This is an average of \$2.2 million per year, which is included in the District's annual operating budget. If not for the District's intervention, this amount would be significantly higher. The District will continue to exercise its legal right to reduce losses through property tax appeals.
- <u>Collective Bargaining:</u> The District successfully negotiated multi-year contracts with the Glenbrook Education Association (G.E.A.), the Glenbrook Educational support Staff Association (G.E.S.S.A.) and the Glenbrook Educational Support Paraprofessionals Association (G.E.S.P.A.). The negotiated agreements are within the parameters set by the Board of Education and provide for consistency and stability across all employee groups. The G.E.A. contract is scheduled to expire on June 30, 2018; the G.E.S.S.A. and G.E.S.P.A. contracts are scheduled to expire on June 30, 2019.
- <u>Health Care Reform</u>: The Patient Protection and Affordable Care Act (PPACA) and Health Care and Education Reconciliation Act of 2010 were signed into law in the spring of 2010. The District is pursuing legal and analytical advice from experts in the field in order to stay proactive and in full compliance with the law. The District has also established a joint committee of school leaders and collective bargaining representatives to review health care claim trends, and propose health benefit plan changes for each plan renewal cycle.

Factors bearing on the District's Future (Continued)

• <u>Student Enrollment</u>: Recent enrollment and census data indicate a projected increase in student enrollment over the next four years, particularly at Glenbrook South High School. Two distinct methodologies have been implemented to measure enrollment trends on an annual basis, and have resulted in near precise enrollment estimates since FY2014. Current District budget strategies include provisions for future enrollment variances.

Requests for Information

This financial report is designed to provide the District's citizens, taxpayers, and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the money it receives. If you have questions about this report, or need additional financial information, contact the Business Services Department: Northfield Township High School District 225, 3801 W. Lake Avenue, Glenview, IL 60026.

NOTES TO THE FINANCIAL STATEMENTS
June 30, 2017

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of Northfield Township High School District 225 (the District) have been prepared in conformity with accounting principles generally accepted in the United States of America as applied to government units (hereinafter referred to as generally accepted accounting principles (GAAP)). The Governmental Accounting Standards Board (GASB) is the standard-setting body for establishing governmental accounting and financial reporting principles.

The more significant of the District's accounting policies are described below.

1. Reporting Entity

The District is located in Cook County, Illinois. The District is governed by an elected Board of Education. The Board of Education maintains final responsibility for all budgetary, taxing, and debt matters.

The District includes all funds of its operations that are controlled by or dependent upon the District as determined on a basis of financial accountability. Financial accountability includes appointment of the organization's governing body, imposition of will, and fiscal dependency. The accompanying financial statements include only those funds of the District, as there are no organizations for which it has financial accountability.

Also, the District is not included as a component unit in any other governmental reporting entity, as defined by GASB pronouncements.

2. Fund Accounting

The accounts of the District are organized on the basis of funds. A fund is an independent fiscal and accounting entity with a self-balancing set of accounts. Fund accounting segregates funds according to their intended purpose and is used to aid management in demonstrating compliance with finance-related and contractual provisions. The minimum number of funds maintained are consistent with legal and managerial requirements.

Funds are classified into the following categories: governmental and fiduciary.

Governmental funds are used to account for all or most of the District's general activities, including the collection and disbursement of earmarked monies (special revenue funds), the servicing of general long-term debt (Debt Service Fund), and the acquisition or construction of major capital facilities (capital projects funds). The General Fund is used to account for all activities of the general government not accounted for in some other fund. The District considers all governmental funds to be major.

Fiduciary funds (agency funds) are used to account for assets held on behalf of outside parties, including other governments, or on behalf of other funds within the District.

NOTES TO THE FINANCIAL STATEMENTS
June 30, 2017

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

3. Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all the nonfiduciary activities of the District. The effect of interfund activity has been eliminated from these statements. Governmental activities normally are supported by property taxes, intergovernmental revenues, and local fees.

The statement of activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include (1) amounts paid by recipient of goods or services offered by the program and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not properly included among program revenues are reported as general revenues.

Separate financial statements are provided for governmental funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements.

a. General Fund

The *General Fund* includes the Educational Account and the Working Cash Account. The Educational Account is the District's primary operating account. It accounts for all financial resources of the general government, except those required to be accounted for in another fund. The Working Cash Account is for the financial resources held by the District to be used as temporary interfund loans for working capital requirements. Money loaned by the Working Cash Account to other funds must be repaid upon the collection of property taxes in the fund(s) loaned to. As allowed by the School Code of Illinois, this Account may be permanently abolished and become part of the Educational Account, or it may be partially abated to any fund in need as long as the District maintains a balance in the Working Cash Account of at least 0.05% of the District's current equalized assessed valuation.

b. Special Revenue Funds

The special revenue funds are used to account for the proceeds of specific revenue sources (other than those accounted for in the Debt Service, capital projects, or fiduciary funds) that are legally restricted to expenditures for specified purposes.

Each of the District's special revenue funds has been established as a separate fund in accordance with the fund structure required by the state of Illinois for local educational agencies. These funds account for local property taxes restricted to specific purposes. A brief description of the District's special revenue funds are as follows:

Operations and Maintenance Fund - accounts for all revenues and expenditures made for operations, repair, and maintenance of the District's buildings and land. Revenue consists primarily of local property taxes, tax increment financing district monies, and personal property replacement taxes.

NOTES TO THE FINANCIAL STATEMENTS
June 30, 2017

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

3. Government-Wide and Fund Financial Statements (Continued)

b. Special Revenue Funds (Continued)

Transportation Fund - accounts for all revenue and expenditures made for student transportation. Revenue is derived primarily from local property taxes and state reimbursement grants.

Municipal Retirement/Social Security Fund - accounts for the District's portion of pension contributions to the Illinois Municipal Retirement Fund, payments to Medicare, and payments to the Social Security System for noncertified employees. Revenue to finance contributions is derived primarily from local property taxes and personal property replacement taxes.

c. Debt Service

Debt Service Fund - accounts for accumulation of resources for, and the payment of, general long-term debt principal, interest, and related costs. The primary revenue source is local property taxes levied specifically for debt service and transfers from other funds.

d. Capital Projects Fund

Capital Projects Fund - accounts for financial resources to be used for the acquisition or construction of major capital facilities. Revenues are derived from bond proceeds, tax increment financing district monies, and transfers from other funds.

Fire Prevention and Safety Fund - accounts for state-approved life safety projects financed through general obligation bond issues.

e. Fiduciary Fund

The fiduciary funds account for assets held by the District in a trustee capacity or as an agent for individuals, private organizations, other governments, or other funds.

The *Student Activity Funds* (Agency Funds) are custodial in nature (assets equal liabilities) and do not involve the measurement of the results of operations. These funds account for assets held by the District which are owned, operated, and managed generally by the student body, under the guidance and direction of adults or a staff member, for educational, recreational, or cultural purposes. It accounts for activities such as student yearbook, student clubs and council, and scholarships.

The *Private Purpose Trust Fund* is accounted for on the flow of economic resources measurement focus and uses the accrual basis of accounting. Under this method, revenues are recorded when earned and expenses are recorded at the time liabilities are incurred. The Private Purpose Trust Fund accounts for the activity of Glenbrook Aquatics, a year-round aquatics program run by the District.

NOTES TO THE FINANCIAL STATEMENTS
June 30, 2017

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

4. Measurement Focus, Basis of Accounting, and Basis of Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues and additions are recorded when earned, and expenses and deductions are recorded when a liability is incurred. Property taxes are recognized as revenues in the year for which they are levied (i.e. intended to finance). Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual, i.e., when they are both "measurable and available". "Measurable" means that the amount of the transaction can be determined, and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. The District considers most revenues available if they are collected within 60 days after year-end. Revenues that are paid to the District by the Illinois State Board of Education are considered available if they are vouchered by year-end. Expenditures are recorded when the related fund liability is incurred, except for unmatured principal and interest on general long-term debt, which is recognized when due, and certain compensated absences, claims, and judgments, which are recognized when the obligations are expected to be liquidated with expendable available financial resources.

Property taxes, replacement taxes, interest, and intergovernmental revenues associated with the current fiscal period are all considered to be susceptible to accrual and are recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the District.

The District reports unearned and unavailable revenue on its financial statements. Unearned and unavailable revenue arises when a potential revenue does not meet both the "measurable" and "available" criteria for recognition in the current period. In subsequent periods, when both revenue recognition criteria are met, or when the District has a legal claim to the resources, the liability or deferred inflow of resources for unearned or unavailable revenue is removed from the balance sheet and revenue is recognized. Governmental Funds also defer revenue recognition in connection with resources received, but not yet earned.

The fiduciary fund statements are reported using the accrual basis of accounting.

5. Deferred Outflows / Deferred Inflows

In addition to assets, the statement of net position and the governmental funds balance sheet may report deferred outflows of resources. Deferred outflows of resources represent a consumption of net position / fund balance that applies to future periods. At June 30, 2017, the District reported deferred outflows of resources related to pension liabilities. In addition to liabilities, the District may report deferred inflows of resources. Deferred inflows of resources represent the acquisition of resources that is applicable to future reporting periods. At June 30, 2017, the District reported deferred inflows related to property taxes levied for a future period, a gain on the refunding of bonds, unavailable interest revenue, and pension liabilities.

NOTES TO THE FINANCIAL STATEMENTS
June 30, 2017

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

6. Fund Balance

The governmental funds report five components of fund balance: nonspendable, restricted, committed, assigned, and unassigned.

- a. *Nonspendable* includes amounts that cannot be spent because they are either not in spendable form or legally or contractually required to be maintained intact. The nonspendable in form criteria includes items that are not expected to be converted to cash such as prepaid items or inventories.
- b. Restricted refers to amounts that are subject to outside restrictions such as creditors, grantors, contributors, laws and regulations of other governments, or imposed by law through enabling legislation. Special revenue funds as well as debt service and capital projects funds are by definition restricted for those specified purposes.
- c. Committed refers to amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the District's highest level of decision making authority (the Board of Education). The Board of Education commits fund balances by passing a resolution. Amounts committed cannot be used for any purpose unless the District removes or changes the specific use by taking the same type of formal action it employed to previously commit those funds. The District had no committed fund balances at June 30, 2017.
- d. *Assigned* refers to amounts that are constrained by the District's intent to be used for a specific purpose, but are neither restricted or committed. Intent may be expressed by the Board of Education or the individual the Board of Education delegates the authority to assign amounts to be used for specific purposes. The Board of Education delegated this authority to the Assistant Superintendent for Business Services/CSBO. The District had no assigned fund balances at June 30, 2017.
- e. *Unassigned* refers to all spendable amounts not contained in the other four classifications described above. In funds other than the general fund, the unassigned classification is used only to report a deficit balance resulting from overspending for specific purposes for which amounts had been restricted, committed, or assigned.

The nonspendable fund balance in the General Fund consists of \$122,896 for prepaid items. Fund balances in the Operations and Maintenance Fund, the Transportation Fund, the Municipal Retirement/Social Security Fund, the Debt Service Fund, and the Fire Prevention and Safety Fund are restricted based on the nature of the funds.

Unless specifically identified, expenditures act to reduce restricted balances first, then committed balances, next assigned balances, and finally they act to reduce unassigned balances. Expenditures for a specifically identified purpose will act to reduce the specific classification of fund balance that is identified.

NOTES TO THE FINANCIAL STATEMENTS
June 30, 2017

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

6. Fund Balance (Continued)

The District also has a contingency reserve policy. The policy states that unassigned reserves in the operating funds shall be maintained at a level equal to not less than 33.0% of the next year's projected operating budget. The operating budget is composed of the Educational, Operations and Maintenance, Transportation, Municipal Retirement/Social Security, Working Cash, Fire Prevention and Safety Funds, and any other fund, as may be required by state law.

7. Deposits and Investments

The Illinois Compiled Statutes require the District to utilize the investment services of the Northfield Township School Treasurer (the Treasurer). Investments are stated at fair value. Changes in fair value are included in investment income.

8. Personal Property Replacement Taxes

Personal property replacement tax revenues are first allocated to the Municipal Retirement/Social Security Fund, with the balance allocated at the discretion of the District.

9. Prepaid Items

Certain payments to vendors that reflect costs applicable to future accounting periods are recorded as prepaid items in both the government-wide and the fund financial statements. The costs of prepaid items is recorded as expenditures when consumed rather than when purchased.

10. Capital Assets

Capital assets, which include land, construction in progress, land improvements, buildings, transportation equipment, and equipment, are reported in the government-wide financial statements. Capital assets are defined by the District as assets with an initial individual or group cost of more than \$5,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are listed at acquisition value as of the date of donation.

Construction in progress is stated at cost and includes engineering, design, material, and labor incurred for planned construction. No provision for depreciation is made on construction in progress until the asset is completed and placed in service.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized.

NOTES TO THE FINANCIAL STATEMENTS
June 30, 2017

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

10. Capital Assets (Continued)

Depreciation of capital assets is provided over the estimated useful lives using the straight-line method. The estimated useful lives are as follows:

<u>Assets</u>	<u>Years</u>
Buildings	40
Land improvements	20 - 40
Equipment	5 - 15
Transportation equipment	8

11. Long-Term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the statement of net position. Bond premiums and discounts and losses on refunding are deferred and amortized over the life of the bonds using the straight-line method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are expensed as incurred.

In the fund financial statements, governmental funds recognize bond premiums and discounts, losses on refunding, and bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources, while discounts on debt issuances are reported as other financing uses. Issuance cost and losses on refunding are reported as debt service expenditures.

12. Accumulated Unpaid Vacation and Sick Pay

Employees who work a twelve-month year are entitled to be compensated for vacation time. Vacations are usually taken within the calendar year. Accrued but unpaid vacation leave at June 30, 2017 has been reflected as a liability. All accrued vacation is considered a long-term liability, with a portion reported as due within one year. When a certified employee with 120 or more days of service resigns from the District, he/she receives payment of unused accrued vacation time payable at their current salary rate.

A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee termination, resignation, or retirements. These amounts are recorded in the fund from which the employees who have accumulated vacation leave are paid.

Educational support personnel receive 11 vacation days per year. The District reimburses employees for unused accrued vacation days remaining upon termination of employment at their current salary rate.

NOTES TO THE FINANCIAL STATEMENTS
June 30, 2017

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

12. Accumulated Unpaid Vacation and Sick Pay (Continued)

All certified employees receive a specified number of sick days per year depending on their years of service, in accordance with the agreement between the Board of Education and the Education Association. Unused sick leave days accumulate to a maximum of 360 days. Upon retirement, a certified employee may apply up to 180 days of unused sick leave toward service credit for the Teachers' Retirement System (TRS). Upon retirement, a member of the Illinois Municipal Retirement Fund (IMRF) may apply up to 221 days of unused sick leave toward IMRF service credit.

Due to the nature of the policies on sick leave, and the fact that any liability is contingent upon future events, and cannot be reasonably determined, no liability for unused sick leave has been reported within the financial statements.

13. Use of Estimates

In preparing financial statements, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities, and the reported amounts of revenues and expenses/expenditures during the reporting period. Actual results could differ from those estimates.

14. Budgetary Data

Budgets are adopted on a basis consistent with generally accepted accounting principles. Annual budgets are adopted at the fund level for the governmental funds. The annual budget is legally enacted and provides for a legal level of control at the fund level. All annual budgets lapse at fiscal year-end.

15. Restricted Net Position

For the government-wide financial statements, net position is reported as restricted when constraints placed on net position are either: (1) externally imposed by creditors (such as debt covenants), grantors, contributors, or laws or regulations of other governments, (2) imposed by law through constitutional provisions, or (3) imposed by enabling legislation. The District's restricted net position was restricted as a result of enabling legislation.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, and then unrestricted resources, as the resources are needed.

16. Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the pension plan and additions to/deductions from the pension plan's fiduciary net position have been determined on the same basis as they are reported by the pension plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms.

NOTES TO THE FINANCIAL STATEMENTS
June 30, 2017

NOTE B - RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

1. <u>Explanation of Certain Differences Between the Governmental Funds Balance Sheet and the Government-wide Statement of Net Position</u>

The governmental funds balance sheet includes a reconciliation between fund balance - total governmental funds and net position - governmental activities as reported in the government-wide statement of net position. One element of that reconciliation explains that "Long-term liabilities included in the statement of net position are not due and payable in the current period and, accordingly, are not reported in the governmental funds balance sheet." The details of this difference are as follows:

General obligation bonds	\$	(87,983,971)
Lease certificates		(615,000)
Capital leases		(1,500,213)
Unamortized bond premium and discount, net		(8,409,417)
Compensated absences		(896,412)
IMRF net pension liability		(7,072,470)
TRS net pension liability		(7,663,855)
Other postemployment benefit obligations	_	(3,778,898)
Net adjustment to reduce fund-balance total governmental funds		

2. <u>Explanation of Certain Differences Between the Governmental Funds Statement of Revenues, Expenditures,</u> and Changes in Fund Balances (Deficit) and the Government-wide Statement of Activities

\$ (117,920,236)

to arrive at net position - governmental activities

The governmental funds statement of revenues, expenditures, and changes in fund balance (deficit) includes a reconciliation between net changes in fund balance - total governmental funds and changes in net position - governmental activities as reported in the government-wide statement of activities. One element of that reconciliation explains that "Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense." The details of this difference are as follows:

Capital outlay	\$ 6,133,869
Depreciation expense	(7,772,391)
Net adjustment to decrease net change in fund balances - total	
governmental funds to arrive at change in net position of	
governmental activities	\$ (1,638,522)

NOTES TO THE FINANCIAL STATEMENTS
June 30, 2017

NOTE B - RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS (Continued)

2. Explanation of Certain Differences Between the Governmental Funds Statement of Revenues, Expenditures, and Changes in Fund Balances (Deficit) and the Government-wide Statement of Activities (Continued)

Another element of that reconciliation states that "The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. The details of this difference are as follows:

Principal repayments		
General obligation bonds	\$	5,995,000
Lease certificates		340,000
Capital leases		834,764
Proceeds from bond issuance		(54,330,000)
Payment on refunded debt		46,408,714
Issuance of capital lease		(1,162,108)
Accretion of capital appreciation bonds		(890,493)
Compensated absences, net		(486,036)
IMRF pension expense, net		40,983
TRS pension expense, net		(693,849)
Other postemployment benefit obligations, net	_	(177,253)
Net adjustment to increase net change in fund balances - total		
governmental funds to arrive at change in net position of		
governmental activities.	\$_	(4,120,278)

NOTE C - DEPOSITS AND INVESTMENTS

The Treasurer's and the District's investment policies are in line with State Statutes. The investments that the District may purchase are limited by Illinois law to the following: (1) securities that are fully guaranteed by the U.S. government as to principal and interest; (2) certain U.S. government agency securities; (3) interest-bearing savings accounts, interest-bearing certificates of deposit or time deposits or any other investments constituting direct obligations of any bank as defined by the Illinois Banking Act; (4) short-term discount obligations of corporations organized in the United States with assets exceeding \$500,000,000; (5) interest-bearing bonds of any county, township, city, village, incorporated town, municipal corporation or school district; (6) fully collateralized repurchase agreements; (7) the State Treasurer's Illinois and Prime Funds; and (8) money market mutual funds and certain other instruments.

NOTES TO THE FINANCIAL STATEMENTS
June 30, 2017

NOTE C - DEPOSITS AND INVESTMENTS (Continued)

At June 30, 2017, the District's cash and investments consisted of the following:

	-	Governmental	 Fiduciary	Total
Cash and investments	\$	100,454,087	\$ 1,591,483 \$	102,045,570

For disclosure purposes, cash held by the District and Treasurer is segregated into the components as follows:

	_	Total
Cash on hand	\$	1.207
Deposits with financial institutions*	Ψ	82,966,582
Illinois School District Liquid Asset Fund Plus (ISDLAF+)	_	19,077,781
	\$	102,045,570

^{*} Includes accounts held in demand and savings accounts, but primarily consists of non-negotiable certificates of deposit and money market savings accounts, which are valued at cost.

1. Cash and Investments Under the Custody of the Township Treasurer

As explained in Note A, the Illinois Compiled Statutes require the District to utilize the investment services of the Township School Treasurer (the Treasurer). As such, the Treasurer is the lawful custodian of these school funds. The Treasurer is appointed by the Township Treasurer's Board of Trustees, an independently elected body, to serve the school districts in the township. The investment policies are established by the Treasurer, which are in line with state statutes. The Treasurer is the direct recipient of property taxes, replacement taxes, and most state and federal aid, and disburses school funds upon lawful order to the School Board. The Treasurer invests excess funds at his discretion, subject to the legal restrictions discussed below.

District cash and investments (other than the student activity funds) are held by the Township Treasurer. The Treasurer maintains records that segregate the cash and investment balances by district. Cash for all funds, including cash applicable to the Debt Service Fund and the Municipal Retirement/Social Security Fund, is not deemed available for purposes other than those for which these balances are intended.

The Treasurer also holds deposits with financial institutions, including non-negotiable certificates of deposit. As of June 30, 2017, the value of all cash and investments held by the Treasurer's office was \$81,990,800.

2. Interest Rate Risk

Interest rate risk is the risk that changes in interest rates will adversely affect the value of an investment. The District does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. However, a periodic review of the investment portfolio is performed to ensure performance is consistent with the safety, liquidity, rate of return, diversification and overall performance the District needs.

NOTES TO THE FINANCIAL STATEMENTS
June 30, 2017

NOTE C - DEPOSITS AND INVESTMENTS (Continued)

2. Interest Rate Risk (Continued)

Investments measured at net asset value (NAV):

				Redemption
		Unfunded	Redemption	Notice
		Commitments	Frequency	Period
ISDLAF+	\$ 19,077,781	n/a	Daily	1 day

3. Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. State law limits investments in commercial paper, corporate bonds and mutual funds to the top two ratings issued by nationally recognized statistical rating organizations (NRSROs).

The Illinois School District Liquid Asset Fund Plus (ISDLAF+) is a not-for-profit pooled investment trust formed pursuant to the Illinois Municipal Code and managed by a Board of Trustees, elected from participating members. The trust is not registered with the SEC as an investment company. Investments are rated AAAm and are valued at share price, which is the price for which the investment could be sold.

4. Cash and Investments in the Custody of the District

At June 30, 2017, the carrying value of the District's student activity fund and private purpose trust fund was \$1,591,483, all of which was deposited with financial institutions and fully insured or collateralized.

5. Concentration of Credit Risk

The District's investment policy requires diversification of the investment portfolio to minimize the risk of loss resulting from overconcentration in a particular type of security, risk factor, issuer, or maturity. The policy requires diversification strategies to be determined and revised periodically by the District's Investment Officer (Treasurer) to meet the District's ongoing need for safety, liquidity, and rate of return.

6. <u>Custodial Credit Risk</u>

With respect to deposits, custodial credit risk is the risk that, in the event of a bank failure, the District's deposits may not be returned to it. The District's investment policy limits the exposure to deposit custodial credit risk by requiring all deposits in excess of FDIC insurable limits to be secured by collateral in the event of default or failure of the financial institution holding the funds. At June 30, 2017, the bank balances of the District's deposits with financial institutions totaled \$84,864,496, all of which was fully insured or collateralized.

With respect to investments, custodial credit risk is the risk that, in the event of the failure of the counterparty, the District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The District's investment policy limits the exposure to investment custodial credit risk by requiring that all investments be secured by private insurance or collateral.

NOTES TO THE FINANCIAL STATEMENTS
June 30, 2017

NOTE D - PROPERTY TAXES RECEIVABLE

The District must file its tax levy resolution by the last Tuesday in December of each year. The tax levy resolution was approved by the Board on December 12, 2016. The District's property tax is levied each year on all taxable real property located in the District and becomes a lien on the property on January 1 of that year. The owner of real property on January 1 (the lien date), in any year, is liable for taxes of that year. The District's annual property tax levy is subject to two statutory limitations; individual fund rate ceilings and the Property Tax Extension Limitation Law (PTELL).

The PTELL limitation is applied in the aggregate to the total levy (excluding certain levies for the repayment of debt). PTELL limits the increase in total taxes billed to the lesser of 5% or the percentage increase in the Consumer Price Index (CPI) for the preceding year. The amount can be exceeded to the extent there is "new growth" in the District's tax base. The new growth consists of new construction, annexations, and tax increment finance district property becoming eligible for taxation. The CPI applicable to the 2016 and 2015 levies was 0.7% and 0.8%, respectively.

The Cook County Assessor is responsible for the assessment of all taxable real property within Cook County except for certain railroad property, which is assessed directly by the state. One-third of the county is reassessed every year by the Assessor.

The Illinois Department of Revenue has the statutory responsibility of ensuring uniformity of real property assessments throughout the state. Each year, the Illinois Department of Revenue furnishes the county clerks with an adjustment factor to equalize the level of assessment between counties at one-third of market value. This factor (the equalization factor) is then applied to the assessed valuation to compute the valuation of property to which the tax rate will be applied (the equalized assessed valuation). The equalization factor for Cook County was 2.8032 for 2016.

The County Clerk adds the equalized assessed valuation of all real property in the county to the valuation of property assessed directly by the state (to which the equalization factor is not applied) to arrive at the base amount (the assessment base) used to calculate the annual tax rates, as described above. The equalized assessed valuation for the extension of the 2016 tax levy was \$5,264,632,513.

Property taxes are collected by the Cook County Collector/Treasurer who remits them to the School Treasurer. Taxes levied in one year become due and payable in two installments on March 1 and August 1 during the following year. The first installment is an estimated bill, and is fifty-five percent of the prior year's tax bill. Property taxes are normally collected by the District within 60 days of the respective installment dates. The second installment is based on the current levy, assessment, and equalization, and any changes from the prior year will be reflected in the second installment bill.

NOTES TO THE FINANCIAL STATEMENTS
June 30, 2017

NOTE D - PROPERTY TAXES RECEIVABLE (Continued)

The portion of the 2016 property tax levy not received by June 30 is recorded as a receivable, net of estimated uncollectibles of 1%. The net receivable collected within the current year or due and expected to be collected soon enough thereafter to be used to pay liabilities of the current period, less the taxes collected soon enough after the end of the previous fiscal year, are recognized as revenue. Such time, thereafter, does not exceed 60 days. Net taxes receivable less the amount expected to be collected within 60 days is reflected as deferred inflows of resources - property taxes levied for a future period.

NOTE E - CAPITAL ASSETS

Capital asset activity for the year ended June 30, 2017 was as follows:

_	Balance July 1, 2016	Increases / Transfers	Decreases / Transfers	Balance June 30, 2017

Lease certificates		355,000		
Capital leases		616,365		
Compensated absences	_	17,928		
	\$_	6,189,293		

2. General Obligation Bonds

During the year ended June 30, 2017, the District issued \$39,845,000 of General Obligation Refunding School Bonds, Series 2016A. These bonds payable were used to refund all of the principal and interest maturities on the District's 2007A General Obligation Refunding School Bonds, 2007B Capital Appreciation Bonds, and to restructure the District's debt. This transaction resulted in a theoretical economic gain (difference between the present value of the debt service payments on the old and new debt) of \$7,063,927. The actual gain on refunding was \$6,563,714 which will be amortized over the life of the bonds in the government-wide financial statements in the current year.

The District defeased the debt by placing the proceeds of the new bonds in an irrevocable trust to provide for future debt service payments on the old bonds. Accordingly, the trust account assets and the liability for the defeased debt are not included in the District's financial statements. At June 30, 2017, \$46,408,714 of bonds principal outstanding are considered defeased.

During the fiscal year ended June 30, 2017, the District issued \$4,485,000 of Limited Tax Life Safety Bonds, Series 2016B, and \$10,000,000 of Limited Tax Life Safety Bonds, Series 2017. The 2016B and 2017 issuances were used to fund life safety projects throughout the District.

NOTES TO THE FINANCIAL STATEMENTS $\underline{\text{June } 30,\,2017}$

NOTES TO THE FINANCIAL STATEMENTS
June 30, 2017

NOTE F - LONG-TERM LIABILITIES (Continued)

3. Lease Certificates (Continued)

At June 30, 2017, the District's future cash flow requirements for retirement of lease certificates principal and interest was as follows:

Year Ending June 30	_	Principal	 Interest	 Total
2018 2019	\$	355,000 260,000	\$ 19,338 5,746	\$ 374,338 265,746
Total	\$_	615,000	\$ 25,084	\$ 640,084

The future payments for bonds and lease certificates will be made from amounts budgeted from the debt service tax levies in future periods. There is \$4,655,725 in the Debt Service Fund to service the outstanding bonds payable. A portion of the interest amount reported on the Build America Bonds will be refunded to the District by the Federal government.

The District is subject to the Illinois School Code, which limits the bond indebtedness to 6.9% of the most recent available equalized assessed valuation of the District. As of June 30, 2017, the statutory debt limit for the District was \$363,259,643, of which \$271,879,430 is fully available.

4. Capital Leases

The District currently has four capital lease agreements for financing the acquisition of computers and electronic and transportation equipment. The leases require annual installment payments over the next four years. The obligations for these loans will be repaid from the Transportation Fund and Debt Service Fund with transfers from the General (Educational) Fund.

At June 30, 2017, the District's future cash flow requirements for retirement of leases payable principal and interest were as follows:

Year Ending	3					
June 30		Principal		Interest		Total

NOTE G - PENSION LIABILITIES

1. Teachers' Retirement System of the State of Illinois

General Information about the Pension Plan

Plan Description

The District participates in the Teachers' Retirement System of the State of Illinois (TRS). TRS is a cost-sharing multiple-employer defined benefit pension plan that was created by the Illinois legislature for the benefit of Illinois public school teachers employed outside the city of Chicago. TRS members include all active nonannuitants who are employed by a TRS-covered employer to provide services for which teacher licensure is required. The Illinois Pension Code outlines the benefit provisions of TRS, and amendments to the plan can be made only by legislative action with the Governor's approval. The TRS Board of Trustees is responsible for the System's administration.

TRS issues a publicly available financial report that can be obtained at www.trsil.org; by writing to TRS at 2815 W. Washington, PO Box 19253, Springfield, IL 62794; or by calling (888) 678-3675.

Benefits Provided

TRS provides retirement, disability, and death benefits. Tier I members have TRS or reciprocal system service prior to January 1, 2011. Tier I members qualify for retirement benefits at age 62 with five years of service, at age 60 with 10 years, or age 55 with 20 years. The benefit is determined by the average of the four highest years of creditable earnings within the last 10 years of creditable service and the percentage of average salary to which the member is entitled. Most members retire under a formula that provides 2.2 percent of final average salary up to a maximum of 75 percent with 34 years of service. Disability and death benefits are also provided.

Tier II members qualify for retirement benefits at age 67 with 10 years of service, or a discounted annuity can be paid at age 62 with 10 years of service. Creditable earnings for retirement purposes are capped and the final average salary is based on the highest consecutive eight years of creditable service rather than the last four. Disability provisions for Tier II are identical to those of Tier I. Death benefits are payable under a formula that is different from Tier I.

Essentially all Tier I retirees receive an annual 3 percent increase in the current retirement benefit beginning January 1 following the attainment of age 61 or on January 1 following the member's first anniversary in retirement, whichever is later. Tier II annual increases will be the lesser of three percent of the original benefit or one-half percent of the rate of inflation beginning January 1 following attainment of age 67 or on January 1 following the member's first anniversary in retirement, whichever is later.

NOTES TO THE FINANCIAL STATEMENTS
June 30, 2017

NOTE G - PENSION LIABILITIES (Continued)

1. Teachers' Retirement System of the State of Illinois (Continued)

Contributions

The state of Illinois maintains the primary responsibility for funding TRS. The Illinois Pension Code, as amended by Public Act 88-0593 and subsequent acts, provides that for years 2010 through 2045, the minimum contribution to the System for each fiscal year shall be an amount determined to be sufficient to bring the total assets of the System up to 90 percent of the total actuarial liabilities of the System by the end of fiscal year 2045.

Contributions from active members and TRS contributing employers are also required by the Illinois Pension Code. The contribution rates are specified in the pension code. The active member contribution rate for the year ended June 30, 2016, was 9.4 percent of creditable earnings. On July 1, 2016, the rate dropped to 9.0 percent of pay due to the expiration of the Early Retirement Option (ERO). The member contribution, which may be paid on behalf of employees by the employer, is submitted to TRS by the employer.

On-behalf Contributions to TRS

The State of Illinois makes employer pension contributions on behalf of the employer. For the year ended June 30, 2017, state of Illinois contributions recognized by the District were based on the State's proportionate share of the collective net pension liability associated with the District, and the District recognized revenue and expenditures of \$47,243,909 in pension contributions from the State of Illinois.

2.2 Formula Contributions

Employers contribute 0.58 percent of total creditable earnings for the 2.2 formula change. The contribution rate is specified by statute. Contributions for the year ended June 30, 2017, were \$332,004, and are deferred because they were paid after the June 30, 2016 measurement date.

Federal and Special Trust Fund Contributions

When TRS members are paid from federal and special trust funds administered by the employer, there is a statutory requirement for the employer to pay an employer pension contribution from those funds. Under a policy adopted by the TRS Board of Trustees that has been in effect since the fiscal year ended June 30, 2006, employer contributions for employees paid from federal and special trust funds will be the same as the state contribution rate to TRS. Public Act 98-0674 now requires the two rates to be the same.

For the year ended June 30, 2017, the employer pension contribution was 38.54 percent of salaries paid from federal and special trust funds. For the year ended June 30, 2017, salaries totaling \$103,123 were paid from federal and special trust funds that required employer contributions of \$39,744. These contributions are deferred because they were paid after the June 30, 2016 measurement date.

NOTES TO THE FINANCIAL STATEMENTS
June 30, 2017

NOTE G - PENSION LIABILITIES (Continued)

1. Teachers' Retirement System of the State of Illinois (Continued)

Contributions (Continued)

Early Retirement Cost Contributions

Under GASB Statement No. 68, contributions that an employer is required to pay because of a TRS member retiring are categorized as specific liability payments. The employer is required to make a one-time contribution to TRS for members retiring under the ERO. The payments vary depending on the member's age and salary. The maximum employer ERO contribution under the program that ended on June 30, 2016 is 146.5 percent and applies when the member is age 55 at retirement. For the year ended June 30, 2017, the District paid \$284,672 to TRS for employer ERO contributions for retirements that occurred before July 1, 2016.

The District is also required to make a one-time contribution to TRS for members granted salary increases over 6 percent if those salaries are used to calculate a retiree's final average salary. A one-time contribution is also required for members granted sick leave days in excess of the normal annual allotment if those days are used as TRS service credit. For the year ended June 30, 2017, the District paid \$11,474 to TRS for employer contributions due on salary increases in excess of 6 percent and \$0 for sick leave days granted in excess of the normal annual allotment.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2017, the District reported a liability for its proportionate share of the net pension liability (first amount shown below) that reflected a reduction for state pension support provided to the District. The state's support and total are for disclosure purposes only. The amount recognized by the District as its proportionate share of the net pension liability, the related state support, and the total portion of the net pension liability that was associated with the District were as follows:

District's proportionate share of the net pension liability	\$ 7,663,855
State's proportionate share of the net pension liability associated with the District	481,069,010
Total	\$ 488,732,865
1 Otal	Ψ ΤΟΟ, 132,003

The net pension liability was measured as of June 30, 2016, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2015, and rolled forward to June 30, 2016. The District's proportion of the net pension liability was based on the District's share of contributions to TRS for the measurement year ended June 30, 2016, relative to the projected contributions of all participating TRS employers and the state during that period. At June 30, 2016, the District's proportion was 0.0097089421 percent, which was a decrease of 0.0009306522 percent from its proportion measured as of June 30, 2015.

NOTES TO THE FINANCIAL STATEMENTS

Total	\$_	(306,593)

NOTES TO THE FINANCIAL STATEMENTS
June 30, 2017

NOTE G - PENSION LIABILITIES (Continued)

1. Teachers' Retirement System of the State of Illinois (Continued)

Actuarial Assumptions

The total pension liability in the June 30, 2016 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation 2.50 percent

Salary increases varies by amount of service credit

Investment rate of return 7.00 percent, net of pension plan investment expense, including inflation

Mortality rates were based on the RP-2014 White Collar Table with adjustments as appropriate for TRS experience. The rates are used on a fully-generational basis using projection table MP-2014.

For the June 30, 2016 valuation, the investment return assumption was lowered from 7.50 percent to 7.00 percent. Salary increase assumptions were lowered from their 2015 levels. Other assumptions were based on the 2015 experience analysis which increased retirement rates, improved mortality assumptions and made other changes.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class that were used by the actuary are summarized in the following table:

NOTES TO THE FINANCIAL STATEMENTS
June 30, 2017

Commodities (real return)	11.0	4.28
Hedge funds (absolute return)	8.0	4.16
Private equity	14.0	10.63
Total	100 %	

Discount Rate

At June 30, 2016, the discount rate used to measure the total pension liability was a blended rate of 6.83 percent, which was a change from the June 30, 2015 rate of 7.47 percent. The projection of cash flows used to determine the discount rate assumed that employee contributions, employer contributions, and state contributions will be made at the current statutorily-required rates.

Based on those assumptions, TRS's fiduciary net position at June 30, 2016 was not projected to be available to make all projected future benefit payments of current active and inactive members and all benefit recipients. Tier I's liability is partially-funded by Tier II members, as the Tier II member contribution is higher than the cost of Tier II benefits. Due to this subsidy, contributions from future members in excess of the service cost are also included in the determination of the discount rate. Despite the subsidy, all projected future payments were not covered, so a slightly lower long-term expected rate of return on TRS investments was applied to all periods of projected benefit payments to determine the total pension liability.

NOTES TO THE FINANCIAL STATEMENTS
June 30, 2017

NOTE G - PENSION LIABILITIES (Continued)

1. Teachers' Retirement System of the State of Illinois (Continued)

Discount Rate (Continued)

At June 30, 2015, the discount rate used to measure the total pension liability was 7.47 percent. The discount rate was lower than the actuarially-assumed rate of return on investments that year as well because TRS's fiduciary net position and the subsidy provided by Tier II were not sufficient to cover all projected benefit payments.

Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the District's proportionate share of the net pension 1 iability calculated using the discount rate of 6.83 percent, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (5.83 percent) or 1-percentage-point higher (7.83 percent) than the current rate:

	Current				
	1% Decrease (5.83%)	. <u>-</u>	Discount (6.83%)		1% Increase (7.83%)
District's proportionate share of the net pension liability \$	9,373,206	\$	7,663,855	\$	6,267,769

TRS Fiduciary Net Position

Detailed information about the TRS's fiduciary net position as of June 30, 2016 is available in the separately issued TRS *Comprehensive Annual Financial Report*.

2. Illinois Municipal Retirement Fund

Plan Description

The District's defined benefit pension plan for regular employees provides retirement and disability benefits, postretirement increases, and death benefits to plan members and beneficiaries. The District's plan is managed with the Illinois Municipal Retirement Fund (IMRF), the administrator of an agent multi-employer public pension fund. A summary of IMRF's pension benefits is provided in the <u>Benefits Provided</u> section below. Details of all benefits are available from IMRF. Benefit provisions are established by statute and may only be changed by the General Assembly of the State of Illinois. IMRF issues a publicly available Comprehensive Annual Financial Report that includes financial statements, detailed information about the pension plan's fiduciary net position, and required supplementary information. That report is available for download at www.imrf.org.

NOTES TO THE FINANCIAL STATEMENTS
June 30, 2017

NOTE G - PENSION LIABILITIES (Continued)

2. <u>Illinois Municipal Retirement Fund</u> (Continued)

Benefits Provided

IMRF has three benefit plans. The vast majority of IMRF members participate in the Regular Plan (RP).

All three IMRF benefit plans have two tiers. Employees hired before January 1, 2011, are eligible for Tier 1 benefits. Tier 1 employees are vested for pension benefits when they have at least eight years of qualifying service credit. Tier 1 employees who retire at age 55 (at reduced benefits) or after age 60 (at full benefits) with eight years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any consecutive 48 months within the last 10 years of service, divided by 48. Under Tier 1, the pension is increased by 3% of the original amount on January 1 every year after retirement.

Employees hired on or after January 1, 2011, are eligible for Tier 2 benefits. For Tier 2 employees, pension benefits vest after ten years of service. Participating employees who retire at age 62 (at reduced benefits) or after age 67 (at full benefits) with ten years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any 96 consecutive months within the last 10 years of service, divided by 96. Under Tier 2, the pension is increased on January 1 every year after retirement, upon reaching age 67, by the lesser of 3% of the original pension amount, or 1/2 of the increase in the Consumer Price Index of the original pension amount.

Employees Covered by Benefit Terms

As of December 31, 2016, the following employees were covered by the benefit terms:

Retirees and beneficiaries currently receiving benefits	338
Inactive plan members entitled to but not yet receiving benefits	373
Active plan members	326
Total	1,037

NOTES TO THE FINANCIAL STATEMENTS
June 30, 2017

NOTE G - PENSION LIABILITIES (Continued)

2. <u>Illinois Municipal Retirement Fund</u> (Continued)

Contributions

As set by statute, the District's Regular Plan Members are required to contribute 4.5% of their annual covered salary. The statute requires employers to contribute the amount necessary, in addition to member contributions, to finance the retirement coverage of its own employees. The District's annual contribution rate for calendar year 2016 was 10.50%. For the fiscal year ended June 30, 2017 the District contributed \$1,462,497 to the plan. The District also contributes for disability benefits, death benefits, and supplemental retirement benefits, all of which are pooled at the IMRF level. Contribution rates for disability and death benefits are set by IMRF's Board of Trustees, while the supplemental retirement benefits rate is set by statute.

Net Pension Liability

The District's net pension liability was measured as of December 31, 2016. The total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date.

Actuarial Assumptions

The following are the methods and assumptions used to determine total pension liability at December 31, 2016:

Actuarial Cost Method Entry Age Normal
Asset Valuation Method Market Value of Assets

Price Inflation 2.75%

Salary Increases 3.75% to 14.50%

Investment Rate of Return 7.50%

Projected Retirement Age Experience-based table of rates, specific to the type of eligibility condition.

Last updated for the 2014 valuation pursuant to an experience study of the

period 2011-2013.

Actuarial Assumptions (Continued)

Mortality

For non-disabled retirees, an IMRF specific mortality table was used with fully generations projection scale MP-2014 (base year 2012). The IMRF specific rates were developed from the RP-2014 Blue Collar Health Annuitant Mortality Table with adjustments to match current IMRF experience. For disabled retirees, an IMRF specific mortality table was used with fully generational projection scale MP-2014 (base year 2012). The IMRF specific rates were developed from the RP-2014 Disabled Retirees Mortality Table applying the same adjustment that were applied for non-disabled lives. For active members, an IMRF specific mortality table was used with fully generation projection scale MP-2014 (base year 2012). The IMRF specific rates were developed from the RP-2014 Employee Mortality Table with adjustments to match current IMRF experience.

Long-term Expected Rate of Return

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense, and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return to the target asset allocation percentage and adding expected inflation. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

NOTES TO THE FINANCIAL STATEMENTS
June 30, 2017

NOTE G - PENSION LIABILITIES (Continued)

2. <u>Illinois Municipal Retirement Fund</u> (Continued)

Actuarial Assumptions (Continued)

	Portfolio Target	Long-Term Expected Real
Asset Class	Percentage	Rate of Return
-		
Domestic equity	38%	6.85%
International equity	17%	6.75%
Fixed income	27%	3.00%
Real estate	8%	5.75%
Alternative investments	9%	2.65% - 7.35%
Cash equivalents	1%	2.25%
Total	100%	_

Single Discount Rate

A Single Discount Rate of 7.50% was used to measure the total pension liability. The projection of cash flow used to determine this Single Discount Rate assumed that the plan members' contributions will be made at the current contribution rate, and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. The Single Discount Rate reflects:

- a. The long-term expected rate of return on pension plan investments (during the period in which the fiduciary net position is projected to be sufficient to pay benefits), and
- b. The tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating (which is published by the Federal Reserve) as of the measurement date (to the extent that the contributions for use with the long-term expected rate of return are not met).

For the purpose of the most recent valuation, the expected rate of return on plan investments is 7.50%, the municipal bond rate is 3.78%, and the resulting single discount rate is 7.50%.

4. Social Security/Medicare

Employees not qualifying for coverage under the Illinois Teachers' Retirement System or the Illinois Municipal Retirement Fund are considered "nonparticipating employees". These employees and those qualifying for coverage under the Illinois Municipal Retirement Fund are covered under Social Security/Medicare. The District paid the total required contribution for the current fiscal year.

NOTES TO THE FINANCIAL STATEMENTS
June 30, 2017

NOTE H - OTHER POSTEMPLOYMENT BENEFITS

1. Teachers' Health Insurance Security (THIS)

The District participates in the Teacher Health Insurance Security (THIS) Fund, a cost-sharing, multiple-employer defined benefit post-employment healthcare plan that was established by the Illinois legislature for the benefit of retired Illinois public school teachers employed outside the city of Chicago. The THIS Fund provides medical, prescription, and behavioral health benefits, but it does not provide vision, dental, or life insurance benefits to annuitants of the Teachers' Retirement System (TRS). Annuitants not enrolled in Medicare may participate in the state-administered participating provider option plan or choose from several managed care options. Annuitants who are enrolled in Medicare Parts A and B may be eligible to enroll in a Medicare Advantage plan.

The State Employees Group Insurance Act of 1971 (5 ILCS 375) outlines the benefit provisions of the THIS Fund and amendments to the plan can be made only by legislative action with the Governor's approval. The plan is administered by the Illinois Department of Central Management Services (CMS) with the cooperation of TRS. Section 6.6 of the State Employees Group Insurance Act of 1971 requires all active contributors to TRS who are not employees of the state to make a contribution to the THIS Fund.

The percentage of employer required contributions in the future will not exceed 105 percent of the percentage of salary actually required to be paid in the previous fiscal year.

On behalf contributions to the THIS Fund

The State of Illinois makes employer retiree health insurance contributions on behalf of the District. State contributions are intended to match contributions to the THIS Fund from active members which were 1.12 percent of pay during the year ended June 30, 2017. State of Illinois contributions were \$641,111 and the District recognized revenue and expenditures of this amount during the year.

District contributions to the THIS Fund

The District also makes contributions to the THIS Fund. The District THIS Fund contribution was 0.84 percent during the year ended June 30, 2017. For the year ended June 30, 2017, the District paid \$480,833 to the THIS Fund, which was 100 percent of the required contribution.

Further Information on the THIS Fund

The publicly available financial report of the THIS Fund may be found on the website of the Illinois Auditor General: http://www.auditor.illinois.gov/Audit-Reports/ABC-List.asp. The current reports are "Central Management (http://www.auditor.illinois.gov/Audit-Reports/CMSlisted under Services" THISF.asp). Prior reports available under "Healthcare Services" are and Family (http://www.auditor.illinois.gov/Audit-Reports/HEALTHCARE-FAMILY-SERVICES-Teacher-Health-Ins-Sec-Fund.asp).

NOTES TO THE FINANCIAL STATEMENTS
June 30, 2017

NOTE H - OTHER POSTEMPLOYMENT BENEFITS (Continued)

2. Retiree Health Plan

Plan Description

The District administers a single-employer defined benefit healthcare plan ("the Retiree Health Plan"). The plan provides the ability for retirees and their spouses to access the District's group health insurance plan during retirement, provided they are on the group health insurance plan at the time of retirement, until the age of 65. Retirees may be responsible to contribute a portion of the premium toward the cost of their insurance. Retirees may also access dental benefits on a "direct pay" basis.

As of June 30, 2017, the following employees were covered by the benefit terms:

Actives fully eligible to retire	41
Actives not yet fully eligible to retire	780
Retirees	141
Total	962

Funding Policy

Retirees have the option of choosing from an HMO or PPO plan through the District. The District contributes a percentage of the health insurance premium in accordance with applicable board policy in force at the time of retirement. For fiscal year 2017, the District contributed \$1,621,297 toward the cost of the postemployment benefits for retirees.

Annual OPEB Cost and Net OPEB Obligation

The District's annual other postemployment benefit (OPEB) cost (expense) is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and to amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years. The following table shows the components of the District's annual OPEB cost for the year, the amount actually contributed to the plan, and changes in the District's net estimated OPEB obligation to the Retiree Health Plan:

NOTES TO THE FINANCIAL STATEMENTS
June 30, 2017

NOTE H - OTHER POSTEMPLOYMENT BENEFITS (Continued)

2. Retiree Health Plan (Continued)

		June 30, 2017
Annual required contribution Interest on net OPEB obligation Adjustment to annual required contribution	\$	1,774,539 144,066 (120,055)
Annual OPEB cost Contributions made	_	1,798,550 (1,621,297)
Increase in net OPEB obligation		177,253
Net OPEB obligation, beginning of year	_	3,601,645
Net OPEB obligation, end of year	\$_	3,778,898

The District's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for fiscal year 2017 and the two preceding fiscal years were as follows:

Actuarial	Annual	Annual OPEB	
Valuation	OPEB	Cost	Net OPEB
Date	 Cost	Contributed	Obligation
	 _		
6/30/17	\$ 1,798,550	90.0%	3,778,898
6/30/16*	1,500,532	93.7%	3,601,645
6/30/15	1,500,655	101.2%	3,506,512

^{*} Annual OPEB cost estimated using ARC from most recent valuation information.

NOTES TO THE FINANCIAL STATEMENTS
June 30, 2017

NOTE H - OTHER POSTEMPLOYMENT BENEFITS (Continued)

2. Retiree Health Plan (Continued)

Funding Status and Funding Progress

As of June 30, 2017, the date of the most recent actuarial valuation, the actuarial accrued liability for benefits was \$21,349,862, all of which was unfunded. The covered payroll (annual payroll of active employees covered by the plan) and the ratio of the unfunded actuarial accrued liability to the covered payroll were \$64,051,139 and 33%, respectively.

The projection of future benefit payments for an ongoing plan involved estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future.

Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

The following simplifying assumptions were made:

Contribution rates:

District Not applicable

Plan members 0.00%

Measurement date July 1, 2016

Data collection date July 1, 2017

Actuarial cost method Entry age normal

Amortization period Level percentage of projected payroll - open

2. Retiree Health Plan (Continued)

Actuarial assumptions:

Investment rate of return 4.00% Projected salary increases 4.00%

Healthcare inflation rate Various 5.00% - 9.00%, initial

5.00% ultimate

Mortality, Turnover, Disability, Retirement Ages Similar rates utilized for IMRF

Percentage of active employees assumed to elect

benefit

80% of future retirees are assumed to elect the insurance option and 20% the cash severance

option.

The General and Operations and Maintenance Funds are used to liquidate the liability for other postemployment benefits.

NOTE I - RISK MANAGEMENT

The District is exposed to various risks of loss related to employee health benefits, worker's compensation claims, theft of, damage to, and destruction of assets, and natural disasters. To protect from the risk associated with worker's compensation claims, property damage and liability exposure, the District participates in a public entity risk pool: Secondary School Cooperative Risk Management Program (SSCRMP). The District pays annual premiums to the pool for insurance coverage. The arrangements with the pool provide that it will be self-sustaining through member premiums and will reinsure through commercial companies for claims in excess of certain levels established by the pool. The District has purchased insurance from private insurance companies for life insurance and long-term disability insurance that is provided to District personnel. Premiums have been recorded as expenditures in the appropriate funds. There have been no significant reductions in insurance coverage in any of the past four years. Complete financial statements for SSCRMP can be obtained from its Treasurer, 3801 West Lake Ave, Glenview, Illinois 60026.

The District is self-insured for medical coverage that is provided to District personnel and dependents. Blue Cross/Blue Shield administers claims for a per person, per month fee. Expenditures are recorded as incurred in the form of direct contributions from the District to Blue Cross/Blue Shield for payment of employment health claims and administration fees. The District's liability will not exceed \$250,000 per employee, in the PPO, or \$125,000 per employee, in the HMO plan, or \$250,000 per employee, in the HSA plan, as provided by stop-loss provisions incorporated in the respective plan. At June 30, 2016, total unpaid claims, including an estimate of claims incurred but not reported to the administrative agent, totaled \$1,206,658. The estimate is developed based on historical lag experience adjusted for current claims experience.

NOTES TO THE FINANCIAL STATEMENTS
June 30, 2017

NOTE I - RISK MANAGEMENT (Continued)

Balances of claims liabilities during the past two years are as follows:

	2017		2016
Unpaid claims, beginning of fiscal year \$ Incurred claims (including those claims incurred but not reported (IBNRs)) Claim payments	1,946,90 7,687,30 (8,427,54	0	2,420,050 6,699,656 (7,172,799)
Unpaid claims, end of fiscal year \$	1,206,65	8 \$	1,946,907

The District is also self-insured for unemployment compensation. A third-party administrator administers the plan for a fixed fee. Payments are made to the third-party administrator based on actual claims filed and approved.

NOTE J - INTERFUND TRANSFERS

The District transferred \$1,500,000 from the Operations and Maintenance Fund to the Capital Projects Fund for payment of capital projects.

The District transferred \$374,697 from the Operations and Maintenance Fund to the Debt Service Fund for payment of principal and interest on lease certificates.

The District transferred \$801,302 from the General (Educational Account) Fund to the Debt Service Fund for payment of principal and interest on capital leases.

NOTE K - JOINT AGREEMENT

The District is a member of the North Suburban Special Education District (NSSED), a joint agreement that provides certain special education services to residents of many school districts. The District believes that because it does not control the selection of the governing authority, and because of the control over employment of management personnel, operations, scope of public service, and special financing relationships exercised by the joint agreement governing boards, this should not be included as component units of the District.

NOTES TO THE FINANCIAL STATEMENTS
June 30, 2017

NOTE L - OPERATING LEASES

In August 2012, the District entered into a five year lease for computer equipment. This lease has an annual cost of \$77,116, through August 2017. Final payment on this lease was made during fiscal year 2017.

In July 2013, the District entered into a five year lease for copiers and terminated the previous leases. This lease has an annual cost of \$176,402, through June 2018. Final payment was made in July 2017, subsequent to year end.

In July 2013, the District entered into two three-year leases for buses. This lease had an annual cost of \$57,523, through July 2016. Final payment was made during fiscal year 2016.

Total payments on these leases in fiscal year 2017 approximated \$254,000. The future minimum lease payments under these agreements are as follows:

Year Ending		
June 30,	_	Total
2018	\$	176,402

NOTE M - CONTINGENCIES

1. Litigation

The District is a defendant in various tax objection lawsuits, the outcome of which is presently not determinable. With regard to other pending matters, eventual outcome and related liability, if any, is not determinable at this time. No provision has been made in the accompanying financial statements for settlement costs.

2. Grants

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time, although the District expects such amounts, if any, to be immaterial.

NOTE N - CONSTRUCTION COMMITMENTS

The District has certain contracts for construction projects which were in progress at June 30, 2017. Remaining commitments under these contracts approximated \$5,333,000.

NOTES TO THE FINANCIAL STATEMENTS
June 30, 2017

NOTE O - CORRECTION OF AN ERROR

As of June 30, 2016, unearned revenue in the Operations and Maintenance Fund was understated by \$182,435 due to an error in how the District recorded certain cash receipts. Due to this error, the District restated the fund balance and unearned revenue in the Operations and Maintenance Fund as of June 30, 2016. As a result of this error, as of June 30, 2016, the fund balance in the Operations and Maintenance Fund decreased and unearned revenue increased by \$182,435.

NOTE P - SUBSEQUENT EVENTS

Management has evaluated subsequent events through November 13, 2017, the date that these financial statements were available to be issued. No events or transactions, other than that noted below, have occurred subsequent to the balance sheet date that require disclosure in the financial statements.

In July 2017, the District entered into a capital lease for technology equipment. The lease requires four annual payments of \$60,823 through July 2020.

NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION June 30, 2017

1. LEGAL COMPLIANCE AND ACCOUNTABILITY - BUDGETS

Budgets are adopted on a basis consistent with generally accepted accounting principles. Annual budgets are adopted at the fund level for the governmental funds. The annual budget is legally enacted and provides for a legal level of control at the fund level.

The Board of Education follows these procedures in establishing the budgetary data reflected in the financial statements:

- a) The Administration submits to the Board of Education a proposed operating budget for the fiscal year commencing July 1. The operating budget includes proposed expenditures and the means of financing them.
- b) Public hearings are conducted and the proposed budget is available for inspection to obtain comments.
- c) By September 30, the budget is legally adopted through passage of a resolution. By the last Tuesday in December each year, a tax levy ordinance is filed with the County Clerk to obtain tax revenues.
- d) Management is authorized to transfer budget amounts, provided funds are transferred between the same function and object codes. The Board of Education is authorized to transfer up to a legal level of 10% of the total budget between functions within a fund; however, any revisions that alter the total expenditures of any fund must be approved by the Board of Education after the public hearing process mandated by law.
- e) Formal budgetary integration is employed as a management control device during the year for the governmental funds.
- f) The budget amounts shown in the financial statements are as originally adopted by the Board of Education on September 26, 2016. The budget was amended and adopted on June 26, 2017.
- g) All budget appropriations lapse at the end of the fiscal year.

2. EXPENDITURES IN EXCESS OF BUDGET

The following funds had expenditures in excess of budget at June 30, 2017:

Fund	_	Variance
-	_	
General	\$	17,278,398
Debt Service		621,421
Transportation		467,784
Fire Prevention and Safety		1,958,066

NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION June 30, 2017

3. TEACHERS' RETIREMENT SYSTEM OF THE STATE OF ILLINOIS

Changes of Assumptions

For the 2016 measurement year, the assumed investment rate of return was 7.00 percent, including an inflation rate of 2.50 percent and a real return of 4.50%. Salary increases were assumed to vary by service credit.

For the 2015 measurement year, the assumed investment rate of return was 7.50 percent, including an inflation rate of 3.00 percent and real return of 4.50 percent. Salary increases were assumed to vary by service credit. Various other changes in assumptions were adopted based on the experience analysis for the three-year period ending June 30, 2014.

For the 2014 measurement year, the assumed investment rate of return was also 7.50 percent, including an inflation rate of 3.00 percent and real return of 4.50 percent. However, salary increases were assumed to vary by age.

4. <u>SUMMARY OF ACTUARIAL METHODS AND ASSUMPTIONS USED IN THE CALCULATION OF</u> THE 2016 IMRF CONTRIBUTION RATE*

Valuation Date:

Notes Actuarially determined contribution rates are calculated as of December 31

each year, which is 12 months prior to the beginning of the fiscal year in

which contributions are reported.

Methods and Assumptions Used to Determine the 2016 Contribution Rate:

Actuarial Cost Method Aggregate Entry Age Normal
Amortization Method Level Percentage of Payroll, Closed

Remaining Amortization Period Non-Taxing bodies: 10-year rolling period.

Taxing bodies (Regular, SLEP and ECO groups): 27-year closed period

until remaining period reaches 15 years (then 15-year rolling period).

Early Retirement Incentive Plan liabilities: a period up to 10 years selected

by the Employer upon adoption of ERI.

SLEP supplemental liabilities attributable to Public Act 94-712 were financed over 22 years for most employers (two employers were financed

over 31 years).

Asset Valuation Method 5-year smoothed market; 20% corridor

Wage Growth 3.50%

NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION June 30, 2017

4. <u>SUMMARY OF ACTUARIAL METHODS AND ASSUMPTIONS USED IN THE CALCULATION OF THE 2016 IMRF CONTRIBUTION RATE*</u> (Continued)

Methods and Assumptions Used to Determine the 2016 Contribution Rate (Continued):

Price Inflation 2.75% - approximate; no explicit price inflation assumption is used in this

valuation.

Salary Increases 3.75% to 14.50%, including inflation

Investment Rate of Return 7.50%

Retirement Age Experience-based table of rates that are specific to the type of eligibility

condition. Last updated for the 2014 calculation pursuant to an experience

study of the period 2011-2013.

Mortality For non-disabled retirees, an IMRF specific mortality table was used with

fully generational projection scale MP-2014 (base year 2012). The IMRF specific rates were developed from the RP-2014 Blue Collar Health Annuitant Mortality Table with adjustments to match current IMRF experience. For disabled retirees, an IMRF specific mortality table was used with fully generational projection scale MP-2014 (base year 2012). The IMRF specific rates were developed from the RP-2014 Disabled Retirees Mortality Table applying the same adjustment that were applied for non-disabled lives. For active members, an IMRF specific mortality table was used with fully generational projection scale MP-2014 (base year 2012). The IMRF specific rates were developed from the RP-2014 Employee Mortality

Table with adjustments to match current IMRF experience.

Other Information:

Notes There were no benefit changes during the year.

^{*} Based on Valuation Assumptions used in the December 31, 2014 actuarial valuation.

STATISTICAL SECTION

(Unaudited)

Statistical Section

This part of the District's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the District.

<u>Contents</u> <u>Page</u>

Financial Trends

These schedules contain trend information to help the reader understand how the District's financial performance and well-being have changed over time.

118 - 129

Revenue Capacity

These schedules contain information to help the reader assess the District's most significant local revenue source, the property tax.

130 - 134

Debt Capacity

These schedules present information to help the reader assess the affordability of the District's current levels of outstanding debt and the District's ability to issue additional debt in the future.

135 - 141

Demographic and Economic Information

These schedules offer demographic and economic indicators to help the reader understand the environment within which the District's financial activities take place.

142 - 144

Operating Information

These schedules contain information about the District's service and resources to help the reader understand how the District's financial information relates to the services the District provides and the activities it performs.

145 - 156

SOURCES: Unless otherwise noted, the information in these schedules is derived from the audited financial statements for the relevant year.

^{*}As originally reported.

For comparison purposes, the General Fund includes the Educational Fund. Beginning with 2010, the Working Cash fund is also included. Special revenue funds include the Operations and Maintenance Fund, the Transportation Fund, the Municipal Retirement/Social Security Fund, and the Working Cash Fund until 2010 when it moved to the General Fund.

^{**}Note: GASB 54 was implemented in fiscal year 2011 which also required the restatement of 2010. With this implementation, the Working Cash Fund was combined with the General Fund and governmental funds report five components of fund balance: nonspendable, restricted, committed, assigned, and unassigned.

^{*}Tax Rates are expressed in dollars per \$100 of assessed valuations.

Note 1: The totals above reflect the typical tax rates for individual taxpayers within the District. By showing all other overlapping rates, we would have materially distorted the true picture of tax rate burden within the District.

Note 2: Refer to the "Property Tax Rates - Levies and Collections" schedule for the components of the total direct rate.
