Questions and Answers

1. ...for electronic submission of the RFP, should we send it directly to you or include a copy on a flash drive?
You can email a copy of your proposal to my attention. Please be sure to send the proposal in one file instead of several individual attachments.
2. we needed some clarity around section 3.0, Assumptions. Can you provide any guidance?
The purpose of Section 3.0 (Assumptions) is for Suppliers to provide their general understanding of the RFP. The list of assumptions/understandings could include, (but are not limited to), exceptions to any section of the RFP, expectations of RESA and schools, etc.
