Grade-level placement may vary from these guidelines depending on the applicant's educational history. Divisional administration will make the final decision regarding grade level placement for all applicants.

Students who apply from schools or educational systems with a different school calendar (like those commonly found in schools in Korea, Japan, Singapore or Australia) will be placed in the grade level that they are currently attending if they are admitted at the start of the new school year. If they are accepted in January, they will be placed in the grade level that they have just completed at their previous school.
