Headphones

Thanks to your generosity last year, we were able to purchase Surface Go laptops so that, in addition to our 5th-8th grade BYOD program, our 1st-8th graders have authentic access to computers, both in and out of technology classes. We look forward to using these devices for meaningful and purposeful learning, support, creating, and sharing. To fully utilize powerful audio, video, and voice tools in the classroom, we are asking each 1st-8th grade student to bring a pair of headphones or earbuds to school along with his/her other school supplies. These will live in the student's desk (1st-5th) or locker (6th-8th). More information about specifications and suggested products can be found [here](#).

Why Do We Start School Before Labor Day?

As we all get into the routine of summer - the (mostly) great weather, longer days, and fun vacations - it's natural to wonder why we start school before Labor Day. Our schedule is the result of many years of experience and experimentation.

- Starting before Labor Day allows us to wrap up the school year by mid-June. A later start to the year always sounds great until we get to May and then everyone is wondering when summer vacation will arrive.
- It also allows us to take a full week of vacation for our February Mid-Winter Break.
- The short week before Labor Day allows us the time to ease back into school with Desk & Locker Day on Monday and a half day schedule on Friday.
- Beginning the year before Labor Day means that school is already under way and our students, families, and staff can truly enjoy the three-day weekend instead of spending it preparing, planning, shopping, etc. for the return to school.
