

EDUCATING, PREPARING & INSPIRING A COMMUNITY OF LIFELONG LEARNERS.

STAYING CONNECTED TO OUR STUDENTS, FAMILIES & STAFF

We are guided by our strategic directions of high expectations matched with high support for students and staff, and strong communication and relationships with our families and community.

OUR VISION

We are committed to the success of all learners. We will engage, inspire, and support each learner through innovation and collaboration.

WHO WE SERVE

As the smallest geographic school district in Minnesota, we serve more than 1700 students who attend Wilshire Park Elementary School (kindergarten through grade five), St. Anthony Middle School (grades six, seven and eight) and St. Anthony Village High School (grades nine-12).

OUR COMMITMENT TO EDUCATIONAL EQUITY BY ESTABLISHING TRANSFORMATIONAL LEARNING

We believe all students can learn at high levels. We provide high support to meet students where they are at, moving them toward a mastery of comprehension and application of skills.

We focus on establishing authentic developmental relationships with our students that are built on trust and compassion. High expectations are the center of the classroom so each students can be seen, heard, and valued. Because each learner has different strengths and needs, developing safe relationships with students is a top priority.

Teaching and learning is grounded in the ultimate goal of success for each student. Through rigorous and relevant curriculum and instruction, students are challenged to use high-level thinking and reasoning skills, make connections and meaning between their past and new learning, and apply their learning in meaningful ways. Through clear learning objectives, students take ownership of their learning and growth.

98%

of our students feel their teachers care about them.

95%

of our students feel safe and supported in our buildings.

92.5%

of our seniors graduate from St. Anthony Village High School.
