

2021 Voluntary Student Accident Insurance

Dear Parent or Guardian:

The Tangipahoa Parish School System is pleased to offer Voluntary Student Accident Insurance for the 2020-2021 school year. This valuable coverage helps cover out of pocket medical expenses associated with accidental injuries a student may sustain during the year that health insurance may not cover or cover entirely. You may purchase a policy that covers a student for accidental injuries during school time only, or a policy that covers a student 24-Hours a day for the entire year. With plans starting as low as \$30 for the year, we encourage you to take advantage of this valuable coverage.

Example of coverage: A student slips in the cafeteria and injures their leg resulting in a trip to the Emergency Room. While at the ER, the student receives an X-Ray, and is ordered to receive five rounds of physical therapy treatments. The student also must purchase and wear an Orthopedic Brace as part of treatment. Assuming there is no other collectible insurance, the \$30 accident plan could pay a total benefit of:

-Emergency Room Visit: \$150

-X-Rays: \$200

-Physical Therapy (5): \$100

-Orthopedic Brace: \$75

Total Benefit Paid: \$525.00

The easiest way to view the plan designs and purchase coverage is to visit studentinsurance-kk.com and click the "Enroll Now" button. Next, enter the School Districts Name: Tangipahoa, and continue until you see the available insurance plans.

If you have any questions regarding this valuable coverage please call (985) – 386 – 8542 and ask to speak with someone regarding student accident coverage.

Please note this policy is designed to be excess over any other collectible insurance, such as health insurance. This policy is not designed to replace major medical insurance
