## **Public Comment**

A parent, who is also an Emergency Room physician, commented that he came to the meeting this evening to lobby against masks. After hearing the Health and Safety Plan for Summer 2021 and going forward, he thanked the Board and District for this welcoming news. He is concerned for the psychological impact this pandemic has taken on our children and the potential effects this will have on our children over the next several years. He thanked the District and Board for all their efforts to remain open and moving to the five-day school week.

A parent inquired about the Flexible Instructional Day Plan. Dr. Kane commented that this was a comprehensive plan approved by our School Board as a model for the continuation of the educational program if there is a temporary school closure. It includes the implementation of procedures to conduct school remotely until resumption of normal operations, the expectations required of both teachers and families for the successful continuation of student learning and family communication that address developmentally appropriate and meaningful student learning experiences.

The meeting was adjourned at 7:09 p.m.

Respectfully submitted,

Rose Vannicola

Teaching and Learning Department
