August, 2021

Dear Parents/Guardians:

The Food Services Department of Parkland School District welcomes you and your child, and looks forward to serving your child this school year. Breakfast and lunch are served daily in all buildings. Menus are available each month on the food services page of our District website, your building page of our District website, or from your building office. **Breakfast and lunch are free for all students for the 2021-2022 school year.**

The Food Services Department operates all cashier functions through a point of sale software program called eTriton. Each student has an account established in the system, using their student identification number. This number and account will remain with your child throughout their years at Parkland. When your child purchases a snack or a la carte item from us, the amount is automatically deducted from the balance in your child's account. A list of a la carte items is available on the food services department page of our District website.

To deposit money into your child's account, the food services department offers an online payment service to our families. This service, located at www.MySchoolBucks.com, offers parents simple and secure online transactions and features the ability to: (1) monitor account balances, (2) track and review purchase history, (3) create low balance alerts, and (4) for a service fee pay with your credit, debit, or electronic checks.

As an alternative to MySchoolBucks, you may deposit money into your child's account by personal check made payable to "PSD Cafeteria". Checks may be mailed to the food services office at 2219 N. Cedar Crest Blvd., Allentown, PA 18104. Returned checks are subject to a \$25.00 fee. One check may be sent in for multiple siblings.

At any point during the school year, parents may place a restriction on their student's account. Parents wanting to place a restriction on their student's account may do so by notifying the cafeteria in writing. Once a restriction is placed on an account, it will remain on the account until we are again notified in writing to change it.

Again, welcome to Parkland! If you have any questions concerning food services, please feel free to contact us at 610-351-5670.

Sincerely,

Lori A. Seier
