Madison School District Begins Enrollment for the 2021-2022 School Year

MADISON, WI — Student enrollment for the Madison Metropolitan School District (MMSD) is now open. For the 2021-2022 school year, the student enrollment process will be completed fully online. The new [MMSD Website](#) has been redesigned to allow new and existing families to complete the enrollment application virtually and completely paperless.

Current MMSD Students: Families with students continuing with MMSD will complete the enrollment process fully online and will be asked to schedule an appointment with their school only if they need to verify date of birth and/or parent-student relationship.

New MMSD Students: Families of new students to the district will complete the online application and then contact their school to provide verification of key documents.

For information on specific school enrollment dates

All MMSD school buildings are currently closed during enrollment dates. Virtual meetings for new families and telephone support is being offered by schools. Families are encouraged to contact their school during the August Enrollment Dates to schedule an appointment to verify a student's enrollment.

In early June, MMSD announced its plan for a full return to in-person learning, five days per week, for the 2021-2022 school year. Recently, the district also announced it will require masks indoors and on buses, but will not require wearing masks outdoors.
