RENTON SCHOOL DISTRICT NO. 403 MONTHLY FINANCIAL REPORT FOR THE MONTH ENDED MAY 31, 2021

EXECUTIVE SUMMARY

This Executive Summary is intended to provide financial information as we move through the year. Key messages about the attached statements are provided below:

It is worth noting that the fiscal year 2020-21 began under unconventional circumstances where traditional data trending and financial expectations are disrupted systemically. The following narrative is provided consistent with prior years' presentations but with caveats where appropriate. Caution must be exercised in the review of all trend data because of the unique circumstances experienced this year.

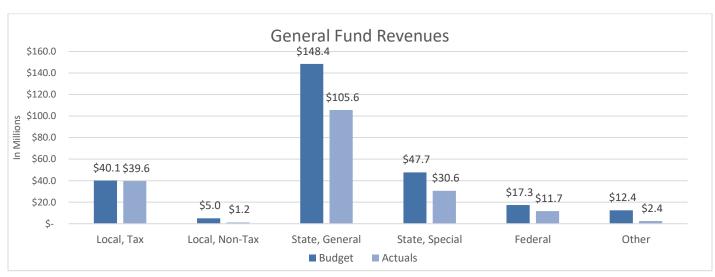

GENERAL FUND

Of all the funds, the General Fund contains the largest spectrum of revenue sources. The nineth month of the fiscal year (May) property tax collections receipts were at 98.91% of overall collection expectations. This is statistically consistent with prior years recovering from lagging collections in the first three months of the fiscal year. Property taxes are typically impacted by valuation growth and collection activity. The property market continues to grow with new additions and improvements adding to the rolls. Uncollected amounts transition to a delinquent property tax role which may be collected in the future.

The COVID-19 crisis continues to impact local non-tax revenues. The partial school closures and reduced operating capacity have impacted our overall local revenues substantially. The loss in local revenues is offset by a corresponding drop in expenditures. Through April, local revenue activity is stifled with non-tax revenues at 23.06% off 53.11% of traditionally expected revenues. Schools reopening will recover some of this pattern, but much is uncertain.

State, general purpose revenues continue to incur the impact of the current COVID 19 crisis. The District has received general purpose revenue equal to 70.26% of annual amounts through the month of May. This reflects an approximate 1.0% reduction from typical collection percentages in a normal year. These general-purpose resources are expected to underperform in correlation to enrollment decreases coupled with Nutrition Services and Transportation funding adjustments unexpected in the original budget plan. While the District anticipated a small enrollment drop in 2020-21, COVID-19 has amplified that reduction with an estimate \$1.5 million revenue difference. The impact Nutrition Services and Transportation adjustments will exceed \$3.0 million in revenue shortfalls.

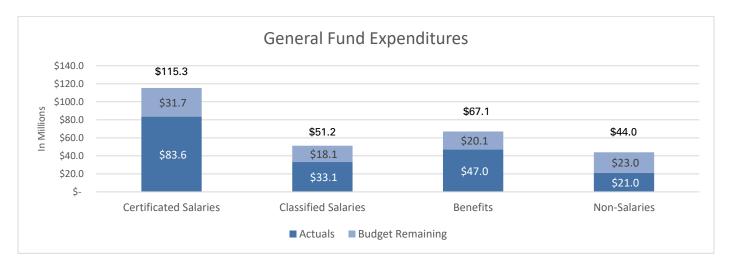

State Special Purpose revenues are 65.30% and Federal revenue collections are 61.63% of annual expectations. In total, the District has received 70.55% of budgeted annual revenues.

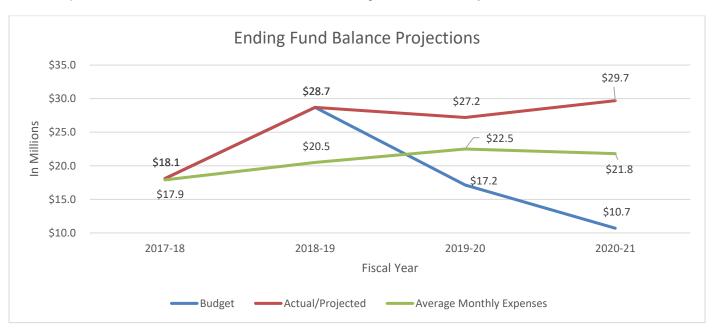

EXECUTIVE SUMMARY - CONTINUED

Certificated salaries are 71.85% of annual certificated salary allocations. Classified salaries have expended 64.62% of allocated classified salary allocations and benefits are performing at 69.76%. The current expenditure pattern indicates that expenditure amounts are trending lower throughout the budget. This has been the result of continued cost saving measures and COVID-19 school closure impacts. As budgeted, the operating revenues and expenditures are out of balance and reflect a programmed structural deficit. This deficit will continue to change as the current crisis comes an end and normal activity returns to the community.

Non-salary related expenditures have been reduced in the current year due to the COVID-19 school closures. While supply spending has been occurring to meet operational and safety needs, the total supply expenditures for the year have reduced well below anticipated levels. The overall effect of the CARES and CRRSA resources will provide a positive impact to the fund balance.

Total General Fund expenditures are 66.36% of the annual budget. While the COVID-19 crisis continues to evolve, the District's **predictive model** projects the fiscal deficit could vary significantly depending on the extent of the crisis. Below is an illustrated potential impact of the **predictive modeling** results. With the increase in fund balance for 2019-20, the District's trajectory changed significantly. The extent of the change will depend upon changing variables. Current estimates position the General Fund at \$29.7 million in ending fund balance for yearend.

EXECUTIVE SUMMARY - CONTINUED

CAPITAL PROJECTS FUND

The current property tax collections received represent 98.44% of total expected collections. This revenue has been impacted by the COVID-19 crisis. The impact to the Capital Fund was less than 2.0% lag in collection amounts during 2019-20 fiscal year. The total fund collected revenues for fiscal year 2020-21 are progressing representing 97.75% of budgeted amounts. Expenditures are operating within planned margins totaling 16.85% of total appropriations.

DEBT SERVICE FUND

The current property tax collections are 94.98% received to date. Investment income continues to perform beyond expectations providing a lift to the fund. Expenditures reflect 77.61% of budgeted allocations which service the District's debt via principle and interest payments. Most expenditures are incurred in December when the first of two debt service payments are made. The second debt service payment will be made in June of this year.

ASB FUND

The Associated Student Body Fund is expected to slow significantly with the current school closures and slow return. The combined ASB Fund has received 5.71% of the year expected revenues. The total expenditure percentage currently at 13.86%. School based expenditures are increasing with activities being allowed back in buildings.

TRANSPORTATION VEHICLE FUND

The Transportation Vehicle Fund only receives revenue through State funding in August, or extraordinary items, and interest on fund reserves. The current collections represent the interest earnings associated with the fund. Expenditures are limited to school bus purchases with 34.97% of the budget expended during May.
