ALTERNATIVE SCHOOLS – EC 58501

California state law authorizes all school districts to provide for alternative schools. Section 58500 of the Education Code defines alternative school as a school or separate class group within a school, which is operated in a manner designed to:

- (a) Maximize the opportunity for students to develop the positive values of self-reliance, initiative, kindness, spontaneity, resourcefulness, courage, creativity, responsibility and joy.
- (b) Recognize that the best learning takes place when the student learns because of his/her desire to learn.
- (c) Maintain a learning situation maximizing student self-motivation and encouraging the student in his/her own time to follow his/her own interests. These interests may be conceived by him/her totally and independently or may result in whole or in part from a presentation by his/her teachers of choices of learning projects.
- (d) Maximize the opportunity for teachers, parents, and students to cooperatively develop the learning process and its subject matter. This opportunity shall be a continuous, permanent process.
- (e) Maximize the opportunity for the students, teachers, and parents to continuously react to the changing world, including, but not limited to, the community in which the school is located.
- (f) In the event any parent, pupil, or teacher is interested in further information concerning alternative schools, the county superintendent of schools, the administrative office of this district, and the principal's office in each attendance unit have copies of the law available for your information. This law particularly authorizes interested persons to request the governing board of the district to establish alternative school programs in each district.

AVAILABILITY OF PROSPECTUS – EC 49063 AND 49091.14

Requires each school to compile annually a prospectus of the curriculum including titles, descriptions and instructional aims of every course offered by the school. Prospectus to be reproduced and made available, upon request by parent or guardian, for inspection.

CAL GRANT PROGRAM-EC 69432.9

A Cal Grant is money for college that does not have to be paid back. To qualify, a student must meet the eligibility and financial requirements as well as any minimum grade point average (GPA) requirements. Cal Grants can be used at any University of California, California State University or California Community College. Some independent and career colleges or technical schools in California also take Cal Grants.

In order to assist students, apply for financial aid, all students in grade 12 are automatically considered a Cal Grant applicant and each grade 12 student's GPA will be submitted by the October 1 deadline to the California Student Aid Commission (CASC) electronically by a school or school district official. A student, or the parent or guardian of a student under 18 years of age, may complete a form to indicate that he or she does not wish for the school to electronically send CASC the student's GPA. Until a student turns 18 years of age, only the parent or guardian may opt out the student. Once a student turns 18 years of age, only the student may opt himself or herself out, and can opt in if the parent or guardian had previously decided to opt out the student. Notification regarding CASC and the opportunity to opt out of being automatically deemed a Cal Grant applicant will be provided to all students and their parents or guardians by January 1 of the students' 11th grade year.

CALIFORNIA HEALTHY YOUTH ACT – EC 51937-51939

The California Healthy Youth Act requires school districts to provide pupils with integrated, comprehensive, accurate, and unbiased sexual health and HIV prevention education at least once in middle school and once in high school. It is intended to ensure that pupils in grades 7-12 are provided with the knowledge and skills necessary to: 1) protect their sexual and reproductive health from HIV, other sexually transmitted infections, and unintended pregnancy; 2) develop healthy attitudes concerning adolescent growth and development, body image, gender, sexual orientation, relationships, marriage, and family; and 3) have healthy, positive, and safe relationships and behaviors. It also promotes understanding of sexuality as a normal part of human development.

Parents or legal guardians have the right to:

1. Inspect the written and audiovisual educational materials used in the comprehensive sexual health and HIV prevention education.
2. Request in writing that their child not receive comprehensive sexual health or HIV prevention education.
3. Request a copy of Education Codes 51930 through 51939, the California Healthy Youth Act.

To attend a UC, you must meet requirements for coursework, GPA, and test scores. If you are a California student who has not been admitted to UC campus to which you have applied, you will be offered a spot at another campus if space is available and you rank in the top 9 percent of California high school students or of your graduating class at a participating high school. You may also transfer to a CSU or UC after attending a community college. For more information on college admission requirements, please refer to the following webpages:

ATTENDANCE

Education Code for Compulsory full-time education: A pupil subject to compulsory full-time education or to compulsory continuation education who is absent from school without a valid excuse three full days in one school year or tardy or absent for more than a 30-minute period during the school day without a valid excuse on three occasions in one school year, or any combination thereof, shall be classified as a truant and shall be reported to the school attendance supervisor.

The Coachella Valley Unified School District urges parents to make sure their children attend school regularly and to schedule medical and other appointments after school or during school holidays. The district also asks that travel or other absences be avoided during the time school is in session. The higher the district's daily attendance rate, the more a student will learn and the greater the amount of funding that the district will receive from the state for classroom instruction and academic programs. The school calendar is designed to minimize problems for families which plan vacations around traditional holiday periods, and thereby minimize student absences.

Following an absence, a student is required to bring a written excuse from home when returning to school. Illnesses, and doctor and dental appointments are considered excused absences. Absences without a written excuse are recorded as unexcused absence.

Tardiness children should be encouraged to be prompt as part of developing good habits. They are expected to be at school on time. If a child is late, the child should bring an excuse from home to the school office. Repeated tardiness in excess of 30 minutes lead to the student being designated as truant.

- (1) Due to the pupil's illness.

CODE OF BEHAVIOR STUDENT RIGHTS AND RESPONSIBILITIES

Coachella Valley Unified School District recognizes that the vast majority of our students is well behaved, polite, and strives for academic excellence. The schools acknowledge student efforts through awards and/or other means of special recognition. When students use inappropriate means of behavior for recognition, the Student Code of Behavior becomes applicable.

The District is dedicated to the development of each student's potential for learning in a positive environment. Schools must be free from disruptions that interfere with teaching and learning activities.

Therefore, the District believes it is important to establish an appropriate code of behavior that clearly defines the parameters of which would be considered unacceptable behavior.

It is essential that students and parents know their rights and responsibilities regarding the disciplinary process that would occur as a consequence for violating the District's Code of Behavior.

The Code of Behavior is designed so that prohibited or unacceptable behavior is clearly defined and the consequence for said behavior can be fair and consistently enforced.

It should be understood that appropriate behavior is a shared responsibility among all of those vitally concerned with the welfare of our students. All District employees, parents and various community agencies are essential to the process that encourages appropriate behavior.

All students, parents, and staff are encouraged to become familiar with the entire contents of this booklet that is available at your school or electronically at www.cvusd.us.

In order to ensure that school site rules for student discipline are enforced fairly, uniformly and consistently, the Superintendent shall establish procedures for the development of such rules. All school site rules shall be strictly based on District policy, regulation and existing law.

All avenues provided in policy, regulation, and law for the discipline of students may be utilized in developing site level rules. These include but are not limited to advising and counseling students, conferencing with parents/guardians, detention during and after school hours, alternative educational programs and if necessary, suspension and/or expulsion.

Special care shall be taken to solicit the views of the school community, including administrators, teachers, school security personnel, parents, and students in developing the site level rules.

The adoption of each school's rules on student discipline is the responsibility of the school principal/designee and staff.

All adopted school site rules shall be subject to Board approval prior to implementation.

School site rules shall be revised periodically as required by district policy, regulation or law, and shall undergo the site level adoption process every four years.

Often, students like to bring objects, such as a collector's item, to school to show their friends. Examples of these objects include, but are not limited to, laser pointers, mini baseball bats, martial arts weapons (*e.g.*, nunchaku, throwing stars), or any other sharp, pointy objects. Students should refrain from bringing objects that have the potential to inflict serious bodily injury to others.

The notice shall include the fact that these rules and regulations are available on request at the principal's office in all district schools.

SEX EDUCATION COURSES, VENEREAL DISEASE, CHILD ABUSE AND AIDS INSTRUCTION – EC 51930-51938

Family Life Education programs may be provided in grades K through 12. Venereal Disease and AIDS instruction will be provided in grades 7 through 12. If instruction about the human reproductive organs and their functions, processes or disease or any information regarding child abuse are included in your child's class or provided by an outside agency or speaker, you will then have the opportunity to inspect and review any written or audio-visual materials to be used.

You may evaluate the materials and, based on firsthand knowledge, determine whether you want your child to participate in the program. **Your child will be permitted to be excused from that portion of class instruction relating to sex education, venereal disease, child abuse and AIDS during this year if you request, in writing, that he/she be excused.** If you have any questions on this matter, please contact the principal of the school your child attends. The school may require the student missing part or all of a particular course to complete other appropriate work to substitute for the material omitted.

Before a pupil who is enrolled in Kindergarten or any of grades 1 through 6, inclusive, receives instruction on sexually transmitted diseases, AIDS, human sexuality, or Family Life, the governing board shall provide the parent or guardian of each pupil with written notice explaining that the instruction will be given and information stating the parent's right to request a copy of EC Sections 51201.5 and EC 51553, related to AIDS prevention instruction. STUDENT RIGHTS AND RESPONSIBILITIES

The student's rights guaranteed under the law include, but are not limited to, the use on campus of forums and bulletin boards, the distribution of printed materials or petitions, the wearing of buttons, badges or other insignia as long as the content of the speeches or materials is not obscene or is not libelous or slanderous according to current legal definitions and does not incite students so as to create a clear and present danger of the commission of unlawful acts on school premises or the violation of lawful school regulations, or the substantial disruption of the orderly operation of the school. (EC 48907)

The stated above relating to printed materials may be limited when the content of the materials is determined to be obscene, libelous or slanderous according to current legal definitions. The activities listed may also be limited under regulations

established by the school principal as to the time, place and manner of conducting such activities. Such limits shall be established under regulations which meet three tests:

- Free expression shall not be abridged or denied under the guise of regulation
- Regulations must clearly define, with objective standards, the areas of prohibition
- Regulations shall not be discriminatory.

No pupil shall be given any test, questionnaire, survey or examination containing any questions regarding a pupil's (or his parent's or guardian's) beliefs or practices in religion, morality, sex or family life unless the parent or guardian is notified in writing that such questions will be asked, and consent is received in writing from the parent or guardian.

In addition to the rights granted to students, there are responsibilities that are also defined in the statutes and upheld as constitutional by the courts. All students have the responsibility to comply with the regulations, pursue the required course of study and submit to the authority of the teachers of the schools. (Education Code 48908) Students shall respect the rights of all other individuals, both pupils and employees of the school.

Every pupil has the right to attend school, which may not be denied except through due process. Conversely, every pupil has the responsibility to attend school according to law. The parent shares this responsibility with the pupil and each shall be subject to legal consequences if the responsibility is not upheld.

Administrators and teachers are charged with the responsibility to prepare each pupil to take his/her place in a democratic society. The adherence of pupils to rules and regulations, which are based on the democratic principles of the U.S. Constitution and the Supreme Court interpretations of it, shall be the responsibility of all district employees.

The courts have defined the rights of pupils to freedom of speech and expression. These regulations attempt to clearly state the specific rights of students and the responsibility of school teachers and administrators relating to the student's rights.

Student rights are not absolute. They may be denied when there exists a clear and present danger that the activity will materially and substantially interfere with the requirements of appropriate discipline in the operation of the schools.

SUSPENSION PROCEDURES

1. Suspension from Class by a Teacher/Parent Attendance

Suspension from class means the removal of a student from class by a teacher for the day of the suspension and the next day. A teacher may suspend a student from class and may also refer a student for consideration of suspension from school for any act as listed in "Grounds for Suspension and Expulsion."

When suspending a student, the teacher shall immediately report this action to the principal and send the student to the principal for appropriate action. The student shall be appropriately supervised during the class period from which he/she has been suspended.

As soon as possible, the teacher shall ask the student's parent/guardian to attend a parent-teacher conference regarding the suspension. A counselor or psychologist should attend the conference if it is practical, and a school administrator may attend if either the parent/guardian or teacher so requests.

A suspended student shall not be returned to class during the period of suspension. However, if a student is assigned to more than one class per day, he/she may be placed in any other regular classes except those held at the same time as the class from which the student was suspended. (EC 48910)

The teacher of any class from which a student is suspended may require the suspended student to complete any assignments and tests missed during the suspension. (EC 48913)

When a teacher requires a parent/guardian to attend school in accordance with Board policy, the principal shall send the parent/guardian a written notice that the parent/guardian's attendance is required pursuant to law. (EC 48900.1)

The teacher shall remind the parent/guardian to meet with the principal or designee after completing the classroom visit and before leaving school premises.

2. Suspension by Superintendent, Superintendent's designee, Principal, or Principal's designee

- a. Informal Conference: Suspension shall be preceded by an informal conference conducted by the principal, designee, or the Superintendent between the student, and whenever practical, the teacher, supervisor or school employee who referred the student to the principal. At the conference, the student shall be informed of the reasons for the disciplinary action and the evidence against him/her and shall be given the opportunity to present his/her version and evidence in support of his/her defense. [EC 48911 (b)]
- b. Administrative Actions: All requests for student suspension are to be processed by the principal or designee of the school in which the student is enrolled at the time of the misbehavior. A school employee shall report the suspension, including
- c. the name of the student and the cause for the suspension to the Superintendent or designee, who in turn, will inform the Board.

- e. Parent/Guardian Conference: Whenever a student is suspended, school officials may meet with the parent/guardian to discuss the causes and duration of the suspension, the school policy involved, and any other pertinent matters. (Education Code, Section 48914)
- f. Extension of Suspension: If the expulsion of a suspended student is being considered by the Board, the Superintendent or designee may, in writing, extend the suspension until such time as the Board has made a decision. [EC 48911 (g)]

This extension of suspension may be made only if the Superintendent or designee has determined, following a meeting with the student and the student's parent/guardian that the student's presence at any school or program would endanger persons or property or threaten to disrupt the instructional process. Any extension of the original period of suspension shall be preceded by notice of such extension with an offer to hold an additional conference concerning the extension, giving the student a further opportunity to be heard. [EC 48911(g)]

3. Suspension by the Board

When the Board is considering a suspension, disciplinary action, or any other action (except expulsion) against any student, it may hold closed sessions if a public hearing would lead to disclosure of information which would violate a student's right to privacy under Education Code, Section 49073 et seq.

However, the Board shall provide the student with written notice of the closed session by registered or certified mail and the student may request a public meeting. The request shall be granted if made in writing within 48 hours after receipt of the Board's notice. However, any discussion that conflicts with any other student's right to privacy shall be in closed session. (Education Code, Sections 48912 and 35146)

Public areas may include school buses; building entrances; hallways; parking lots; front offices where students, employees, and parents come and go; gymnasiums during public activities; cafeterias; and supply rooms. However, it is not possible for surveillance cameras to cover all public areas of District buildings or all District activities.

District surveillance cameras will not be installed in "private" areas such as restrooms, locker rooms, changing areas, private offices (unless consent by the office owner is given), or classrooms.

CONCUSSION AND HEAD INJURIES – EC 49475

A concussion is a brain injury that can be caused by a bump, blow, or jolt to the head, or by a blow to another part of the body with the force transmitted to the head. Even though most concussions are mild, all concussions are potentially serious and may result in complications including prolonged brain damage and death if not recognized and managed properly. A school district, charter school, or private school that elects to offer an athletic program must immediately remove from a school-sponsored athletic activity for the remainder of the day an athlete who is suspected of sustaining a concussion or head injury during that activity. The athlete may not return to that activity until he or she is evaluated by, and receives written clearance from, a licensed health care provider. If the licensed health care provider determines the athlete has a concussion or head injury, the athlete shall also complete a graduated return-to-play protocol of no less than 7 days in duration under the supervision of a licensed health care provider. On a yearly basis, a concussion and head injury information sheet must be signed and returned by the athlete and the athlete's parent or guardian before the athlete initiates practice or competition. This requirement does not apply to an athlete engaging in an athletic activity during the regular school day or as part of a physical education course.

CONFIDENTIAL MEDICAL SERVICES – EC 46010.1

School authorities may excuse any pupil in grades 7-12 from the school for the purpose of obtaining confidential medical services without the consent of the pupil's parent or guardian.

School authorities must provide facts regarding the risks and side effects of opioid use each school year to athletes. Parents and student athletes must sign acknowledgement of receipt of the document annually.

EMERGENCY TREATMENT FOR ANAPHYLAXIS – EC 49414

Anaphylaxis is a severe and potentially life-threatening allergic reaction that can occur after encountering an allergic trigger, such as food, medicine, an insect bite, latex or exercise. Symptoms include narrowing of the airways, rashes or hives, nausea or vomiting, a weak pulse and dizziness. It is estimated that approximately 25% of the anaphylactic reactions occur during school hours to students who had not previously been diagnosed with a food or other allergy.

Without immediate administration of epinephrine followed by calling emergency medical services, death can occur. Being able to recognize and treat it quickly can save lives. Recent changes to EC 49414 now require school districts to provide epinephrine auto-injectors to school nurses and trained personnel and authorizes them to use epinephrine auto-injectors for any student who may be experiencing anaphylaxis, regardless of known history.

ENTRANCE HEALTH SCREENING – HSC 124085, 124100, 124105

State law requires that the parent or legal guardian of each pupil provide the school within 90 days after entrance to first grade documentary proof that the pupil has received a health screening examination by a doctor within the prior 18 months. Pupils may be excluded up to 5 days from school for failing to comply or not providing a waiver. Free health screening is available for eligible students through the Child Health Disabilities Prevention Program.

HEAD LICE – BP 5141.33

The Governing Board believes that the district's head lice management program should emphasize the correct diagnosis and treatment of head lice in order to minimize disruption of the education process and to reduce the number of student absences resulting from infestation. In consultation with the school nurse, the Superintendent or designee may establish a routine screening program to help prevent the spread of head lice.

School employees shall report all suspected cases of head lice to the school nurse or designee as soon as possible. The nurse or designee shall examine the student and other students who are siblings of the affected student or members of the same household.

If a student is found with active, adult head lice, he/she shall be excluded from attendance. The parent/guardian of an excluded student shall receive information about recommended treatment procedures and sources of further information. The student shall be allowed to return to school the next day after proof of treatment and shall be checked by the nurse or designee before returning to class. Once he/she is determined to be free of lice, the student may be rechecked weekly for up to six weeks.

HEALTH INSURANCE FOR COVERAGE FOR ATHLETES-EC 32221.5

Under state law, school districts are required to ensure that all members of school athletic teams have accidental injury insurance that covers medical and hospital expenses. This insurance requirement can be met by the school district offering insurance or other health benefits that cover medical and hospital expenses.

Some pupils may qualify to enroll in no-cost or low-cost local, state, or federally sponsored health insurance programs. Information about these programs may be obtained by calling Borrego Health (760) 399-4526.

Students must be immunized against certain communicable diseases. Students are prohibited from attending school unless immunization requirements are met for age and grade. The school district shall cooperate with local health officials in measures necessary for the prevention and control of communicable diseases in school age children. The district may use any funds, property, or personnel and may permit any person licensed as a physician or registered nurse to administer an immunizing agent to any student whose parents have consented in writing.

Beginning January 1, 2016, parents of students in any school, will no longer be allowed to submit a personal beliefs exemption to a currently required vaccine. A personal beliefs exemption on file at school prior to January 1, 2016 will continue to be valid until the student enters the next grade span at kindergarten (including transitional kindergarten) or 7th grade.

Students are not required to have immunizations if they attend a home-based private school or an independent study program and do not receive classroom-based instruction. However, parents must continue to provide immunizations records for these students to their schools. The immunization requirements do not prohibit students from accessing special education and related services required by their individualized education programs.

A student not fully immunized may be temporarily excluded from a school or other institution when that child has been exposed to a specified disease and whose documentary proof of immunization status does not show proof of immunization against one of the communicable diseases described above.

State law requires the following immunizations before a child may attend school:

- (a) All new students, in transitional kindergarten through grade 12, to the Coachella Valley Unified School District must provide proof of polio, diphtheria, pertussis, tetanus, measles, mumps, rubella, and varicella immunizations.
- (b) All transitional kindergarten and kindergarten students must also provide proof of vaccination against hepatitis B.
- (c) All seventh-grade students must also provide proof of a second measles-containing vaccine, and a pertussis booster vaccine. Instruction for Pupils with Temporary Disabilities – EC 48206.3, 48207 and 48208.

Any pupil who is required to take, during the regular school day, medication prescribed by a physician may be assisted by the school nurse or other designated school personnel if the school district receives both a written statement of instructions from the physician detailing the method, amount and time schedules by which such medication is to be taken requesting the school nurse to assist the pupil with prescribed medication as set forth in the physician statement. SUDDEN CARDIAC ARREST- EC 33479 ET SEQ

Sudden cardiac arrest (SCA) is when the heart stops beating, suddenly and unexpectedly. When this happens, blood stops flowing to the brain and other vital organs. SCA is not a heart attack; it is a malfunction in the heart's electrical system, causing the victim to collapse. The malfunction is caused by a congenital or genetic defect in the heart's structure. SCA is more likely to occur during exercise or sports activity, so athletes are at greater risk. These symptoms can be unclear and confusing in athletes. Often, people confuse these warning signs with physical exhaustion.

If not properly treated within minutes, SCA is fatal in 92 percent of cases. In a school district, charter school, or private school that elects to conduct athletic activities, the athletic director, coach, athletic trainer, or authorized person must remove from participation a pupil who passes out or faints, or who is known to have passed out or fainted, while participating in or immediately following an athletic activity. A pupil who exhibits any of the other symptoms of SCA during an athletic activity may be removed from participation if the athletic trainer or authorized person reasonably believes that the symptoms are cardiac related. A pupil who is removed from play may not return to that activity until he or she is evaluated by, and receives written clearance from, a physician or surgeon. On a yearly basis, an acknowledgement of receipt and review of information regarding SCA must be signed and returned by the pupil and the pupil's parent or guardian before a pupil participates in specific types of athletic activities which generally does not apply to those conducted during the regular school day or as part of a physical education course.

SUICIDE PREVENTION POLICIES- EC 215

Legislators have determined that training in mental health and coordination around improved services is extended to our elementary students. A shared goal by all staff educators is to keep a safe place to learn, free from harm to any of our students.

SEXUAL ABUSE AND SEX TRAFFICKING PREVENTION-EC 51950

The only exception is when signed restraining order or proper divorce papers, specifically stating visitation limitations, are on file in the school office. Any student release situation which leaves the student's welfare in question will be handled at the discretion of the site administrator or designee. Should any such situation become a disruption to the school, law enforcement will be contacted, and an officer requested to intervene. Parents are asked to make every attempt not to involve school sites in custody matters. The school will make every attempt to reach the custodial parent when a parent or any other person not listed on the emergency card attempts to pick up a child.

TRANSFERS

DISTRICT OF CHOICE – EC 48300 AND 48507

Some school districts may choose to become a district of choice. A school board that elects to operate the school district as a district of choice must determine the number of transfers it is willing to accept and shall accept all pupils who apply to transfer until the school district is at maximum capacity. The school district of choice shall make sure that students are selected through an unbiased and random process that does not take into consideration his or her academic or athletic performance, physical condition, proficiency in English, family income, ethnicity, primary language, literacy, special needs, or any of the individual characteristics listed in Section 200. The parent of a pupil requesting to transfer must submit an application to the school district of choice no later than January 1 of the school year preceding the school year for which the student wishes to transfer. The parent shall be notified in writing by February 15 if the student was provisionally accepted, rejected, or placed on a waiting list for the next school year. A modified application process is available for children of relocated military personnel.

EMPLOYMENT IN LIEU OF RESIDENCY (ALLEN BILL) – EC 48204

Some school districts may choose to accept employment in lieu of residency. A school district allows a student to have complied with the residency requirements for school attendance in the district if at least one parent/guardian of the pupil is physically employed within the boundaries of that district for a minimum of ten hours during the school week. Once admitted to residency, the pupil’s transfer may be revoked only if the parent ceases to be employed within the boundaries of the district. As a resident, the student does not have to re-apply for the transfer to be valid.

RESIDENCY REQUIREMENTS – EC 48200, 48204

A minor between the ages of 6 and 18 years is subject to compulsory education and, unless exempted, must enroll in school in the school district in which the residence of either the parent or legal guardian is located.

INTRA-DISTRICT TRANSFER -EC 35160.5 (B)

Residents of the school district may apply to other schools that serve the same grade levels within the district. Residents of the School District may apply to other schools within the District for their child to attend on a space available basis. Information on each school within the District is provided on the District website (cvusd.us). No pupil who currently resides in the attendance area of a school can be displaced by pupils transferring from outside the attendance area. Students who are a victim of bullying shall be allowed an intradistrict permit to transfer if space is available at the same grade level. If there is no “intra-district” space

to attend, the student may seek an “inter-district” permit to another district without any delay in release from the home district, but it does not guarantee entrance to an outside district.

The process to enter another school district will be according to the desired district’s transfer policies. A “victim of an act of bullying” means a pupil that has been determined to have been a victim of bullying by an investigation pursuant to the complaint process described in Section 234.1 and the bullying was committed by any pupil in the school district of residence, and the parent of the pupil has filed a written complaint regarding the bullying with the school, school district personnel, or a local law enforcement agency. “Bullying” means any severe or pervasive physical or verbal communication made in writing or by means of an electronic act directed toward one or more pupils that results in placing a reasonable person in fear of harm of self or property. It may cause a substantially detrimental effect on physical or mental health, interfere with academic performance or the ability to participate in or benefit from the services, activities, or privileges provided by a school, and may be done in person or online. Bullying may be exhibited in the creation or transmission of bullying online, on or off the school site, by telephone or other device in a message, text, sound, video, or image in a post on a social network internet website or burn page that creates a credible impersonation of another student knowingly and without consent for the purpose of bullying. Sharing or forwarding messages contributes to the act of bullying.

INTER-DISTRICT ATTENDANCE – EC 46600 ET SEQ.

The parent or legal guardian of a pupil may seek release from the school district of residence to attend a school in any other school district. School districts may enter into agreements for the interdistrict transfer of one or more pupils for a period of up to five years. The agreement must specify the terms and conditions for granting or denying transfers and may contain standards of reapplication and specify the terms and conditions under which a permit may be revoked. Unless otherwise specified in the agreement, a pupil will not have to reapply for an interdistrict transfer, and the school board of the district of enrollment must allow the pupil to continue to attend the school in which he/she is enrolled. A student who has completed grade 10 by June 30, may remain enrolled within the district of enrollment through grades 11 and 12 without any revocation from the desired district, and must be treated the same as any other resident student.

Regardless of whether an agreement exists, or a permit is issued, the school district of residence cannot prohibit the transfer of a pupil who is a child of an active military duty parent to a school district of proposed enrollment if that district approves the application for transfer. Nor may a district prohibit an interdistrict permit release when no intradistrict permit options are available to a victim of bullying. A “victim of an act of bullying” means a pupil that has been determined to have been a victim of bullying by an investigation pursuant to the complaint process described in Section 234.1 and the bullying was committed by any pupil in the school district of residence, and the parent of the pupil has filed a written complaint regarding the bullying with the school, school district personnel, or a local law enforcement agency. “Bullying” means any severe or pervasive physical or verbal communication made in writing or by means of an electronic act directed toward one or more pupils that results in placing a reasonable person in fear of harm of self or property. It may cause a substantially detrimental effect on physical or mental health, interfere with academic performance or the ability to participate in or benefit from the services, activities, or privileges provided by a school, and may be done in person or online. Bullying may be exhibited in the creation or transmission of bullying online, on or off the school site, by telephone or other device in a message, text, sound, video, or image in a post on a social network internet website or burn page that creates a credible impersonation of another student knowingly and without consent for the purpose of bullying. Sharing or forwarding messages contributes to the act of bullying.

A student who is appealing a decision for an interdistrict permit approval through the County Office of Education may be eligible for provisional admission to the desired district in grades TK through 12, while continuing through the process of appeal, if space is made available by the desired district, not to exceed two months.

A pupil who has been determined by personnel of either the school district of residence or the district of proposed enrollment to have been the victim of an act of bullying, as defined in EC 48900(r), shall, at the request of the parent or legal guardian, be given priority for interdistrict attendance under any existing agreement or, in the absence of an agreement, be given additional consideration for the creation of an interdistrict attendance agreement.

Each school district shall post their interdistrict policy agreements and local district caps on their district and/or school websites. Reasons for approval and denial of interdistrict transfer requests must be updated on the district website according to board policies. The County appeals process will be offered with the final denial in writing by the school district. The County appeal process may take up to a maximum of two months. If you have any questions about the interdistrict process, please call the district office at 760-848-1161 or call the County Office at 562-922-6233.

RESIDENCY INVESTIGATIONS – EC 48204.2

If a school district elects to undertake an investigation, as specified, require the governing board of the school district to adopt a policy regarding the investigation of a pupil to determine whether the pupil meets the residency requirements for school attendance in the school district before investigating any pupils. Requires the policy to, among other things, identify the circumstances upon which the school district may initiate an investigation, describe the investigatory methods that may be used, including whether the school district will be employing the services of a private investigator, prohibit the surreptitious photographing or video-recording of pupils who are being investigated, as provided, and provide for an appeal process, as specified. Requires the policy to be adopted at a public meeting of the governing board of the school district.

STUDENT ATHLETES

Parents of high school athletes should check on CIF sports eligibility rules before pursuing a transfer under these options. Transportation to any other school is the responsibility of the parent. All transfer requests will be based on a random and unbiased selection process.

TRANSPORTATION

BUS PRIVILEGES

Appropriate student behavior, while on the bus, is essential for the safety and welfare of students. Violations of school rules also apply to students riding the bus. In addition, the following violations may result in a student losing the privilege of bus transportation. Violation of school bus rules and/or regulations shall be reported to the school principal and to the Director of Transportation. The Department of Transportation and/or the school administrator may take disciplinary action. If a student, while on a bus, commits an act which constitutes a crime under the California Education Code, he/she is subject to disciplinary action which may include expulsion.

1. Eating or drinking while riding the bus is prohibited.
2. Putting head, arms or body outside the bus at any time other than when departing or boarding.

SCHOOL BUS SAFETY – EC 39831.5

All pupils in pre-kindergarten, kindergarten, and grades 1 to 6, shall receive written information on school bus safety (i.e., a list of school bus stops near each pupil's home, general rules of conduct at school bus loading zones, red light crossing instructions, school bus danger zone, and walking to and from school bus stops). Prior to departure on a school activity trip, all pupils riding on a school bus or school activity bus shall receive safety instruction that includes, but is not limited to, location of emergency exits, and location and use of emergency equipment. Instruction also may include responsibilities of passengers seated next to an emergency exit.

RULES OF CONDUCT FOR SCHOOL BUS PASSENGERS

All pupils of the Coachella Valley Unified School District shall behave in a proper manner while on the bus showing courteous consideration for the rights of other students. All passengers shall obey the following rules:

1. The bus driver's instructions will be followed at all times.
2. Riders should arrive at the bus stop five minutes prior to pick-up time. When the bus arrives, students will form a line at least six feet from the boarding zone and enter the bus at the driver's direction.
3. Students will not bring glass containers, sharp or dangerous objects or weapons of any kind on the bus.
4. Riders shall remain seated while the bus is in motion and shall not obstruct the aisle with their feet, legs or any other objects. Upon arrival at their destination riders shall remain seated until the bus stops and only then enter the aisle and go directly to the exit.
5. Riders will never throw objects inside the bus or out of the bus.
6. Because serious safety hazards can result from noise or behavior that can distract the driver, loud talking, laughing, singing, whistling, scuffling, smoking, eating, drinking and changing seats are strictly prohibited on the bus.
7. No part of the body (arms, legs, hands, and head) will ever be out of the window.
8. Riders shall keep the bus and the area around the bus stop clean. Defacing or damaging the bus or tampering with bus equipment is strictly prohibited.
9. No animals or insects are allowed on the bus, with the exception of properly licensed and muzzled guide dogs.
10. The use of profane or vulgar language is prohibited on the bus.
11. Upon departing from the bus all riders should be alert for traffic hazards in the area.
12. Pupils in grade transitional kindergarten through eight who are dropped off at a stop other than their regular stop must have a written note from a parent or guardian, which must be approved by the principal. No pupil will be allowed to be dropped off at other than regular stops unless the driver receives an approved note. No Preschool, Transitional Kindergarten or Kindergarten pupil will be released at his/her bus stop without a parent present to receive him/her.

Riders who fail to comply with the above rules shall be issued written citations. In all instances when citations are issued to a student, the student and his/her parent/guardian shall be given notice and warning. In the case of a severe violation or repeated offenses, the rider may be denied transportation for the remainder of the school year. The following telephone number may be used to obtain information or assistance regarding school bus transportation. Transportation Department Office: (760) 399-5127.

Receiving or Tracking Parent Requests

Each school is required to maintain written records of parent/legal guardians requests (including verbal requests) which include:

- Date of request
- Parent and child name(s)
- Description of request
- Grade level

5 CCR section 11311 requires that schools:

- Assist parents/legal guardians in clarifying their request.
- Maintain records of each request for three years.
- Accept requests from students enrolled for the current year, as well as the following school year.
- Monitor the number of parent/legal guardian requests for language acquisition or language programs on a regular basis throughout the year.
- Consider requests for multilingual program model from parents/legal guardians or pupils enrolled in the school who are native speakers of English when determining whether a threshold is reached.

Reaching a Threshold

When the parents/legal guardians of 30 pupils or more enrolled in a school, or when the parents/legal guardians of 20 pupils or more in the same grade enrolled in a school, request the same or substantially similar type of a language acquisition or language program, the school responds by notifying the LEA immediately and taking the following three actions:

1. **Communication:** Within 10 school days of reaching a threshold described above, the LEA notifies the parents/legal guardians of pupils attending the school, the school's teachers, administrators, and the LEA's English learner parent advisory committee and parent advisory committee, in writing, of the parents' request for a language acquisition program.
2. **Cost and Resource Analysis:** The LEA then identifies costs and resources necessary to implement any new language acquisition or language program, including but not limited to:
 - Certificated teachers with the appropriate authorizations
 - Necessary instructional materials
 - Pertinent professional development for the proposed program
 - Opportunities for parent and community engagement to support the proposed program goals
3. **Determination:** Having completed the costs and resource analysis, the LEA determines, within 60 calendar days of reaching a threshold described above, whether it is possible to implement the requested language acquisition or language program. At that time, the LEA provides notice, in writing, to parents of pupils attending the school, the school's teachers, and administrators of its determination.
 - **Determination to implement a program at the school:** In the case that the LEA determines it can implement the requested program, the LEA creates and publishes a reasonable timeline of actions necessary to implement the program. As a part of the implementation, the LEA confers with school personnel, including administrators, and teachers with the authorizations required to provide or oversee programs and services for English learners, regarding the design and content of language acquisition programs.
 - **Determination not to implement a program at the school:** In the case that the LEA determines it is not possible to implement the program requested by parents, the LEA provides a written explanation of the reason(s) why the program cannot be provided. Further, the LEA may offer an alternate option that can be implemented at the school.

Each school follows the process described above, even if the LEA, at the time the threshold is met, provides the requested language acquisition or language program at another school.
