

Dear Parents/Guardians:

A child in your child's class has a life-threatening allergy to peanuts and peanut products such as peanut butter. The nature of food allergies is such that even very small amounts of these nuts can cause a severe reaction. We respectfully request your help in this matter. Please do not send in foods containing peanuts to share with the class unless you inform the teacher or school. Please do not send in peanuts for crafts or projects.

Thank you for your help in this very important matter.

Sincerely,

School Nurse
