

Search “Digipay” from WeChat or scan the above QR code. Click in Digipay to initiate the mini-program.

Click “Allow” so that you can login successfully.

Click “Add Card” to add your school card.

Available functions: “Recharge”, “Balance Enquiry”, “Consumption” records, and more.

Recharge through WeChat payment.

For invoice, click on the “Invoice” button at the right top corner.

In order for you to be able to log in and register a card in the Digipay mini-program, you will need the information below:

**Username:** “the meal card chip ID number”

**Password:** “the meal card chip ID number”

The meal card chip ID number will be shared with each parent by the catering team via email. Parents can also request the ID number by emailing [aden@nanjing-school.com](mailto:aden@nanjing-school.com) (please send the full name of your child when emailing). This information is unique to you and should not be shared with anyone else. **Initially the username and password are identical.** For security reasons, we suggest changing this initial password after your initial login. If you want to change your password, please visit the following website on your computer: <https://digipay.adenservices.com/#/login>. Use your **initial username and password** to login.
