

FUHS COVID-19 Response Plan - Scenario 2 - Student is a Close Contact

A student lives in a household with or has had close contact with someone diagnosed with COVID-19.

A Close Contact is defined as someone who was within 6 feet of the infected person for at least 15 minutes at any time beginning 2 days before the infected person had symptoms or tested positive.

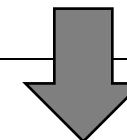

Student

- If you have had COVID-19 within 90 days of becoming a close contact, you do not need to quarantine but, continue to monitor your symptoms.
- If you are at school and receive information that you are a close contact to a positive case outside of school, ensure you are wearing your mask and notify the adult where you are located in order to arrange to go home.
- If you are at home and you learn that you are a close contact to a positive case, do not go to school. Contact the COVID-19 Designee for your school site.
 - If a positive case occurs at school in which you become a close contact, the Site COVID-19 Designee will contact you and provide direction. Follow Close Contact Quarantine Guidelines, below.
 1. Monitor health and contact doctor if symptoms appear.
 2. Get a COVID-19 test: (a) Immediately if symptomatic or (b) in 6 days after exposure if not symptomatic.
 - Whether experiencing symptoms or not, it is important to follow the [Home Isolation & Quarantine Guidelines](#) while awaiting tests results.
 3. Contact Site COVID-19 Designee when test results are received.
 - If positive, follow [Home Isolation & Quarantine Guidelines](#).
 - If negative and earlier than 6 days after last exposure, get tested again at or after 6 days.
 - If negative after 6 days from last exposure, no additional testing is needed. Quarantine may end after 10 days, if not experiencing symptoms. Continue to monitor for COVID19 symptoms.
 4. Contact Site COVID-19 Designee to discuss return to school plan. (May return to school no sooner than the 10-day quarantine and 24 hours after symptom improvement.)

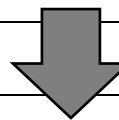

Site COVID-19 Designee

1. If student is at school, immediately arrange for their pick-up or release from school.
2. Provide quarantine instructions to student.
3. Instruct student to get tested: (a) Immediately if symptomatic or (b) in 6 days after exposure if not symptomatic.
 - Request immediate contact from student when test results are available.
4. Immediately notify the District COVID-19 Designee via phone and email by sharing the student questionnaire Google doc.
5. Provide student(s) with close contact email follow-up.
6. Contact the Facilities Manager to ensure disinfecting process is followed and Facilities Department has been notified.
7. Ensure student stays home for appropriate quarantine period (see guidelines below).
8. Track test results.
9. Discuss test results with student when received:
 - If test is positive: Provide isolation advice to student (10 days), Initiate Close Contact Tracking Questionnaire, Contact HR and District COVID-19 Designee, and send required forms and letters for communication.
 - If test is negative and not experiencing symptoms, per guidelines below, quarantine can end on day 7.
10. Discuss return to school with student and confirm with District COVID-19 Designee.

Facilities Manager

1. Facilities Manager immediately notifies Facilities Department of possible exposure.
2. Facilities Department confirms required disinfecting protocols with Facilities Manager and Site COVID-19 Designee.

**District COVID-19 Designee: Trudy Gross, Associate Superintendent**

1. Confirm with the Site COVID-19 Designee that instructions have been provided for quarantine, until test results are known.
2. Confirm required [disinfecting protocols](#) with Facilities Department.
3. Provide Site COVID-19 Designee with forms and letters for communication.

Close Contact Quarantine Guidelines

For fully vaccinated individuals:

- Fully vaccinated and asymptomatic students do not need to quarantine and can remain on campus.

For unvaccinated individuals:

- If symptomatic, the student must quarantine for 10 days and be tested for COVID-19.
- If asymptomatic AND both the COVID-positive and person exposed (close contact) were wearing masks: student may remain on campus AND must be tested for COVID-19 twice per week for 10 days post-exposure. Student CANNOT participate in athletics or extracurricular activities for 10 days post-exposure.
- If asymptomatic AND both the COVID-positive and person exposed (close contact) were NOT wearing masks: student will need to quarantine for 10 days if choosing to not be tested for COVID-19. Quarantine may shorten to 7 days if student receives a negative test result 6 days post-exposure.

For symptomatic individuals (fully vaccinated or not):

- Must quarantine for the full 10 days and be tested for COVID-19.
