

Farm Fresh Zucchini! | October 11, 2018

Today at Morgan Elementary School we made spaghetti out of fresh zucchini! These kiddos had the chance to try vegetables in a new and exciting way! While they were hesitant at first, after mixing their “noodles” with some delicious sauce and parmesan the children loved it. Clean plates all around! We talked about the benefits of eating local foods to support Texas farmers, and the kids went home with a recipe for Mom and Dad. The kids had a blast!
