Description:

Calling all aspiring builders of tomorrow! Bricks4Kidz Junior Builders LEGO Club is back at HIES! Come join us as we embark on multiple building adventures throughout this semester, where students will use our "Architecture Brick Kit" to build and learn models that will bring their imaginations to life and get them excited about STEM and hands-on building. Our semester is structured into Unit Theme Blocks, where we will spend multiple consecutive sessions building models from a particular unit, including "Amazing Animals" "Fun at the Farm", "Wonder of the World", "Architecture 101", and more. In each session, kids will build a project from that unit and learn about that build in real life, furthering their knowledge and understanding of that particular Unit Theme. Kids will gain critical creative, cognitive, social and emotional learning skills through the power of LEGO building and hands-on problem solving. Through exploring their imaginations, creativity, and pushing themselves to build more challenging models each week, the students will gain confidence and curiosity in being hands-on explorers! Each child takes home a mini figure at the end of the term!

## ***AFTER-CLASS ENRICHMENT – FALL 2021***

nationwide coding club, where kids learn about tech and entrepreneurship by building real apps for themselves and their communities. In this club, you'll learn valuable 21 century skills, like Javascript and HTML used by engineers at big tech companies. You'll work on your own apps to share with your friends starting on day one, and as a class, you'll work on apps for local organizations, thus having a real social impact with your new skills. For example, last year our students built an app that helped a homelessness nonprofit get more donations. Our students have been covered in local news for the apps they build! You don't need to know how to code to take this class. Bring a laptop. Local News Article:

#### **\*Half semester course**

Description:

Open to boys and girls, the Golden Bears 2 through 5 grade Fall Soccer Clinic is a custom-built program that was developed by our HIES Upper School coaching staff using the latest coaching and training methodologies. They will focus on individual skill and technical work with partner and multi-player situational progression. Their training goals will be to develop confident, creative, and skillful players. They will identify and train the most critical "moves and skills" needed to dominate 1v1 situations and help players build a deeper understanding on how to play the beautiful game of soccer. All coaches are USSF and/or USC certified who will create a training environment that promotes positive habits of self-reliance, relentless work ethic, personal accountability, and progressive goal setting. Bottom line: we are training and developing the future HIES State Champs!

Time: 3:45-4:45 p.m.

First Day: September 2

Last Day: December 2

Days of no class: November 25

Price: \$290

Location: Lower School Classroom

Description:

Are you ready to learn the skills of a coder and the mindset of an entrepreneur? Have you ever had a great idea for an app or website? VineyardAppCamp is a hands-on, nationwide coding club, where kids learn about tech and entrepreneurship by building real apps for themselves and their communities. In this club, you'll learn valuable 21 century skills, like Javascript and HTML used by engineers at big tech companies. You'll work on your own apps to share with your friends starting on day one, and as a class, you'll work on apps for local organizations, thus having a real social impact with your new skills. For example, last year our students built an app that helped a homelessness nonprofit get more donations. Our students have been covered in local news for the apps they build! You don't need to know how to code to take this class.
