

ILL STUDENT PROTOCOLS (INCLUDING COVID-19)

Dear Parents,

In an effort to simplify and streamline the evaluation process for students who may be ill, we have developed the following protocols:

If your child ...

... develops new symptoms such as fever (100.0°F or greater), chills, cough, runny nose / nasal congestion, shortness of breath, nausea, vomiting, diarrhea, fatigue, muscle or body aches, or loss of taste or smell; or

... is sent home ill from school, please follow the steps below:

1. Contact your physician for an evaluation and follow their recommendations.
2. Contact your campus nurse for return-to-school instructions.
 - a) Couper Campus: Debbie Toler, RN, 713.458.6167
 - b) Piney Point Campus: Fay Gant, RN, 713.458.6128
3. If testing is recommended by your physician, please provide results to your campus nurse.
4. Obtain a "Return to School" note from the physician—a note must be provided to your campus nurse in order for your child to return to school.

Additionally, if you have questions about your child's health, please contact your campus nurse or email HealthResponse@StFrancisHouston.org.

Together, you can help us as we strive to keep our community of more than 1,000 students and employees safe and healthy.
