Lee Fenton, Gerry Austin, Rick Prentice, Susan Whitford, Matt Murphy , Jeremy Kallstrom, Lance Yohe, Jennifer Haro , Steve Bonwich

Excused: Jay Rosapepe

From SKSD: Jennifer Farmer

From the Board: John Berg, Jeff Daily

Call to order 6:30 pm

Minutes from the last meeting were accepted without corrections.

Agenda was reviewed, Minutes from previous meeting accepted without corrections.

6:36 – Jennifer Haro presented “growth management 101” which described the growth management plan and how boundaries of the urban growth area have evolved over time. Growth from 2010 to 2020 was 11,157 to 14,770, a 32% increase including annexation which added approximately 1000 people. Most new units appear to lie between Sunnyslope and Sidney Glen, and South of Sedgwick. Discussion of impact fees was also included; Matt shared some insights from on how fees are calculated and the fact that many are waived as an incentive for developers.

7:16 presentation ended and discussion began

Discussion related to factors driving growth, actual growth trends and how they compare to projections, how students per unit has declined while growth has increased, and potential impacts of the fast ferry. It was noted that this presentation only included county data and that city data would also be valuable.

7:44 questions closed and discussion about future committee work and tour logistics.

Meeting adjourned at 8:02.
