Program Description

The Food Service and Hospitality pathway is designed to align career-path course work with current and projected employment opportunities.

Students pursuing this career pathway have in-depth, hands-on experiences that emphasize industry awareness; sanitation and safe food handling; food and beverage production; nutrition; food service management; and customer service.

The Culinary courses prepare students with entry-level skills that will enable them to seek employment in institutional, commercial or independently owned food establishments or other food and hospital. Students will develop these skills in a catering environment.
