

## ECPPS CRITERIA for Virtual Learning for ECPPS Students

Parent(s) who have concerns about in person learning for the 2021-2022 school year may request a virtual option. These requests will be considered on a case by case basis using the below criteria. Decisions will be made by the school principal. If the child does not attend school and complete assignments, they will be required to return to in-person instruction.

### Medical Documentation

Parent(s) may request virtual learning with supporting medical documentation.

### Technology and Connectivity

Each student will receive a district device (e.g. iPad or Chromebook) to participate in virtual learning. Hotspots will be provided if needed. ECPPS will work with the families that have limited access to the internet.

### Attendance

A student is expected to attend all scheduled virtual meetings and complete all assignments by the communicated due date.

A student approved to participate in virtual learning will adhere to the state mandated attendance guidelines as those students who are in person. Students who are not in attendance will be considered truant. Truancy will be addressed by the home school.

### Academics

Students are capable of engaging in various instructional formats that are both online and offline (e.g., digital course modules, videos, online discussions, digital text, etc.).

Students are motivated and will engage in independent offline work consistently.

Students must have a parent/guardian/support person to help students to ensure assignments are uploaded and independent work is shared using Canvas (K-12) and/or SeeSaw (K-2).

### Assessments

Students who are attending virtually are **required** to take all state and local assessments in person at their assigned school (e.g. benchmark assessments, EOGs/EOCs, etc.). The assessment schedule will be shared with the parent(s) by the teacher and/or school principal.

### Extracurricular Activities

Students will not participate in any extracurricular activities in the virtual option.
