

THIS MESSAGE IS BEING SENT TO ALL LUSD STAFF

By public health order issued by Governor Newsom on August 11, 2021, California schools are required to verify the vaccination status of all workers, including certificated and classified staff, and volunteers who support school functions on a school campus.

- Please provide a copy of your COVID vaccine verification by September 17, 2021 to the administrative assistant at your site/department.
- If you do not provide a copy of your vaccine verification, it will be assumed that you are not vaccinated and beginning the week of October 8, 2021, you will be required to be COVID tested weekly.

If you have misplaced your vaccine record, you may use the link below to access your personal vaccine information.
